

**D. PROBLEM # 2**  
**CRIME**

1. Statistics

The following chart shows crime statistics, both founded and unfounded, as reported to the City of Miami Police Department during the nine month period from January to September in 1973 and 1974 for the area bounded on the north by N. E. 46th Street, on the south by the Airport Expressway, on the west by North Miami Avenue and on the east by Federal Highway. (See Crime Statistics Area Map.) Crimes have been broken down into crimes against persons and crimes against property.

	<u>% Increase from 1973 to 1974</u>
A. <u>Total Crimes Against Persons</u>	+58.8
B. <u>Total Crimes Against Property</u>	+23.7
C. <u>Total Crimes</u>	+30.1

According to questionnaire responses it appears that the foot patrolman, who works regularly in the Design Plaza during work hours, has helped to reduce the potential number of crimes, although many merchants are still very concerned about crime in the area.
