

## TABLE OF CONTENTS

	Page
Letter of Instructions .....	7
Findings upon Questions Submitted .....	8
General Conclusions .....	8
First Meeting of the Board of Engineers .....	10
Extent of Examination by the Board .....	10
Description of the Region:	
Sources of Information .....	11
Geology of the Everglades .....	11
Physical Condition and Natural Drainage of the Everglades .....	11
Lake Okeechobee .....	12
The Kissimmee River .....	12
The Caloosahatchee River .....	13
Lake Okeechobee as a Factor in the Drainage of the Everglades .....	13
Drainage Area of Lake Okeechobee .....	13
Available Storage in Lake Okeechobee .....	13
Plan of the State of Florida for the Drainage of the Everglades .....	14
Extract of Letter from Major J. O. Wright concerning plans for the drainage of the Everglades .....	14
Dimensions of Canals Under Construction .....	15
Capacity of Canal System as Now Projected .....	16
Present Condition of Canals .....	16
Canal Outlets .....	17
Present Plans of the State of Florida for the Reclamation of the Everglades .....	18
Work Under Construction Inadequate .....	18
Further Investigation Needed .....	18
Opinion of other Engineers on the Drainage of the Everglades and on the Required Canal Capacities .....	19
Extracts from Senate Document No. 89, "Everglades of Florida" .....	19
Evaporations .....	19
Views of Mr. C. G. Elliott .....	21
Lake Okeechobee as a Storage Reservoir .....	22
Ditches Required .....	23
Cost of Excavation .....	23
Discussion of Major J. O. Wright's Report .....	24
Discussion of Report as Modified by Mr. C. G. Elliott .....	24
Discussion of Available Data Relative to the Drainage of the Everglades .....	25
Rainfall .....	25
The Rainy Season in Florida .....	25
Number of Months of Heavy Rainfall Excessive .....	26
Excessive 24-hour Storms not Experienced in Unusual Numbers .....	26
In Intensity of Rainfall, Florida Stations Exceed Most Others in the United States .....	26
Study of Rainfall Affecting the Everglades Should be Made from Maps Showing the Rainfall Distribution .....	26

## TABLE OF CONTENTS (Continued)

	Page
Evaporation .....	26
Evaporation Data of Little Value in Runoff Calculations .....	27
Evaporation Measurements by U. S. Weather Bureau .....	27
Evaporation in Inches at Certain Florida Stations .....	27
Evaporation in Arid Regions .....	27
Major Wright's Discussion of Evaporation .....	28
Runoff .....	28
Methods of Study of Maximum Runoff .....	28
The Runoff Provided for in Louisiana .....	29
Value of Storage .....	29
Runoff Conditions in the Everglades .....	29
Runoff of the Caloosahatchee River .....	29
Runoff from Drainage Area of Lake Okeechobee .....	29
Runoff from Muck Lands .....	30
Tentative Conclusions as to Necessary Canal Capacity for Everglades Land .....	30
Maximum Floods not Provided for .....	30
Storage for Irrigation or for Storm Floods in Lake Okeechobee .....	31
Lake Okeechobee Should be Controlled by Independent Canals .....	31
Probable Runoff from Lake Okeechobee .....	31
Capacity of Canals Needed to Control Lake Okeechobee .....	31
Canals Needed for the Drainage of the Everglades .....	32
Ultimate Success Assured .....	32
Time Required for Development of Transportation Facilities .....	32
Time Required for Agricultural and Commercial Development .....	32
Danger of Growth of Jungle Due to Too Rapid Development .....	33
Danger from Fires Due to Too Rapid Development .....	33
Bad Results from Forced Development .....	33
Logical System for the Development of the Everglades .....	33
Immediate Effective Drainage of Land Dependent on Individual Effort .....	33
Separation of Lands Unfortunate .....	34
State Drainage Act Necessary .....	34
Drainage of the Lands of the Everglade Land Sales Company and Associated Companies .....	34
Exchange of Certain Lands Desirable .....	34
Present Condition of Your Lands .....	34
Possible Methods of Reclaiming the Lands of the Everglade Land Sales Company and Associated Companies .....	35
Diking of Lands Necessary .....	35
Shrinkage of Muck Lands .....	36
Lateral Ditching .....	36
Water Levels in Ditches and Canals .....	36
Drainage by Gravity .....	37
Drainage by Pumping .....	37
Drainage in Part by Gravity, in Part by Pumping .....	38
State Co-operation .....	38
