APPENDIX A

SOCIAL PROBLEM INCIDENCE RATES
PER 1,000 POPULATION AND
COMPOSITE SCORE FOR ALL
ANALYSIS DISTRICTS

Explanation of Table Headings

Analysis District - the first component of the AD number refers to the Census Tract, the second to the District within the Tract.

1963 Population - estimated by the City of Miami Planning Department.

Social Problem Indices - figures represent occurrence rates per 1,000 population based on the estimated population for 1963. The order of the indices appearing in the tables has no special significance in terms of importance of the items.

Adult Arrests - Minor and Serious - based upon data collected from the City of Miami Police Department and the Dade County Department of Public Safety representing arrests of individuals living in Miami, October, 1962, through September, 1963. See page 15.

Juvenile Arrests - Minor and Serious - based upon data collected from the City of Miami Police Department and the Dade County Department of Public Safety, representing arrests of juveniles living in Miami, October, 1962, through September, 1963. See page 16.

Syphilis: Primary, Secondary and Latent - represents cases of syphilis reported to the Dade County Department of Public Health during 1962, for individuals residing in Miami. See page 22.

Tuberculosis - represents new and reactivated cases reported to the Dade County Department of Public Health for 1962, for individuals residing in Miami. See page 23.

School Drop-Outs - represents school drop-outs known to the Dade County Board of Public Instruction for the 1963, for individuals residing in Miami. See page 21.

Illegitimate Births - represents illegitimate births recorded by the Dade County Department of Public Health, Bureau of Vital Statistics for 1962, for individuals residing in Miami. See page 19.

Infant Mortalities: Still-Births, 0-28 days and 29-365 days - represents cases known to the Dade County Department of Public Health, Bureau of Vital Statistics for the year 1962, for individuals residing in Miami. See page 20.

County Welfare Cases - represents the active caseload of the Dade County Department of Welfare from September, 1963, for individuals residing in Miami. See page 23.

Aid to the Blind - represents the active caseload of the Aid to the Blind program, State Department of Welfare, District # 9, for the month of September, 1963, for individuals residing in Miami. See page 17.

Aid to the Disabled - represents the active caseload of the Aid to the Disabled program, State Department of Welfare, District # 9, for the month of September, 1963, for individuals residing in Miami. See page 18.

Aid to Dependent Children - represents the active caseload of the Aid to Dependent Children program, State Department of Welfare, District # 9, for the month of September, 1963, for individuals residing in Miami. (Figures represent each individual in the family receiving assistance) See page 18.

Old Age Assistance - represents the active caseload of the Old Age Assistance program, State Department of Welfare, District # 9, for the month of September, 1963, for individuals residing in Miami. See page 21.

Social Problem Score - Composite of weighted incidence of individual social problem indices. See page. 25.

NUMBER OF CASES ANALYZED

<u>Factor</u>	<u>Cases In Sample Recorded</u>	<u>Estimated Actual Number (Sample x Sampling Ratio)</u>
Arrests:		
Adult Minor	496	4,960
Adult Serious	1,672	16,720
Juvenile Minor	179	1,790
Juvenile Serious	182	1,820
Syphilis:		
Primary	27	27
Secondary	39	39
Latent	151	151
Tuberculosis	206	206
School Drop-outs	613	613
Illegitimate Births	701	701
Infant Mortalities:		
Still-Births	107	107
(0-28 Days)	129	129
(29-365 Days)	32	32
County Welfare Cases	665	665
Aid to the Blind	60	120
Aid to the Disabled	451	902
Aid to Dependent Children ...	3,280	6,560
Old Age Assistance	3,364	3,364

APPENDIX B

ANALYSIS DISTRICTS WITH THE
25 HIGHEST INDIVIDUAL SOCIAL
PROBLEM OCCURRENCE RATES AND
THE 25 HIGHEST COMPOSITE
SOCIAL PROBLEM SCORES

In each column are shown the 25 districts rating highest in each problem. These are arranged in descending order, the highest with that problem being the first and the 25th being last in the table. Districts with the ranks of 26 and below are not shown.

Table headings are the same as those in Appendix A.

DISTRICT RANK	ARRESTS				SYPHILIS			TUBERCULOSIS	SCHOOL DROP-OUTS	ILLEGITIMATE BIRTHS	INFANT MORTALITIES			COUNTY WELFARE CASES	AID TO THE BLIND	AID TO THE DISABLED	AID TO DEPENDENT CHILDREN	OLD AGE ASSISTANCE	SOCIAL PROBLEM SCORE
	ADULT ADULTOR	ADULT SERIOUS	JUVENILE ADULTOR	JUVENILE SERIOUS	PRIMARY	SECONDARY	LATENT				(0-28 DAYS)	(29-65 DAYS)	(66-365 DAYS)
