

# Table of Contents

<b>I. INTRODUCTION</b>	<b>I-1</b>
<b>A. OVERVIEW</b>	<b>I-1</b>
1. Draft Working Document Description	I-1
2. Description of Legal Authority and Requirements.	I-7
3. Water Supply Plan Goals	I-7
4. Lower East Coast Regional Plan Objectives	I-8
5. Role of Advisory Committee	I-9
6. Related SFWMD Activities	I-9
<b>B. REGIONAL PLANNING BOUNDARIES</b>	<b>I-12</b>
1. Lower East Coast Region	I-12
2. Other Related Planning Areas	I-12
3. Planning Region Descriptions	I-12
<b>C. REGIONAL ISSUES, OPPORTUNITIES AND CHALLENGES</b>	<b>I-16</b>
1. Water Supply Augmentation.	I-16
2. Water Conservation Opportunities	I-16
3. Surface Water Availability	I-17
4. Ground Water Availability	I-18
5. Operational Constraints	I-18
6. Restoration of the Everglades	I-18
7. Wetlands outside of the Everglades	I-19
8. Protection and Management of Coastal Resources	I-19
9. Ground Water Contamination	I-19
10. Saltwater Intrusion	I-19
11. Future Land Use Planning	I-21
<b>D. OTHER WATER SUPPLY STUDIES</b>	<b>I-21</b>
1. 1968 USCOE Survey Review	I-21
2. SFWMD 1977 Water Supply Plan	I-22
3. USCOE 1979 Water Supply Report	I-22
4. USCOE 1989 Water Supply Report	I-23
5. C&SF Project Reviews	I-23
<b>II. REGIONAL WATER RESOURCES</b>	<b>II-1</b>
<b>A. BACKGROUND</b>	<b>II-1</b>
1. The Hydrologic Cycle	II-1
2. Regional Hydrologic System	II-1
<b>B. SURFACE WATER RESOURCES</b>	<b>II-7</b>
1. The Central and Southern Florida Project	II-7
2. C&SF Project Objectives	II-8
3. Operation of Regional C&SF Project Features	II-13
<b>C. GROUND WATER RESOURCES</b>	<b>II-19</b>
1. Surficial Aquifer System	II-19
2. Floridan Aquifer System	II-22

Draft Working Document

<b>III. ENVIRONMENTAL RESOURCES</b> .....	<b>III-1</b>
<b>A. THE EVERGLADES</b> .....	<b>III-1</b>
1. Pre-Drainage Everglades .....	III-1
2. The Everglades of Today .....	III-3
<b>B. WETLANDS OUTSIDE THE EVERGLADES</b> .....	<b>III-8</b>
1. Pre-Drainage .....	III-9
2. Remaining Wetlands Outside of the Everglades .....	III-10
3. Major Wetlands Outside the Everglades. ....	III-11
4. Big Cypress National Preserve. ....	III-13
5. Wetland Hydrology .....	III-13
<b>C. COASTAL RESOURCES</b> .....	<b>III-18</b>
1. Major Estuaries. ....	III-18
2. Other Marine Resources .....	III-21
3. Impacts to Estuaries. ....	III-22
4. Environmental Water Needs of Estuaries .....	III-23
<b>D. LAKE OKEECHOBEE ENVIRONMENTAL RESOURCES</b> .....	<b>III-23</b>
1. Environmental Resources of Lake Okeechobee. ....	III-23
2. Lake Okeechobee Environmental Water Supply Needs. ....	III-26
3. Lake Okeechobee Management .....	III-27
<b>IV. DEMAND ESTIMATES AND PROJECTIONS</b> .....	<b>IV-1</b>
<b>A. OVERVIEW OF DEMAND ESTIMATES AND PROJECTIONS</b> ....	<b>IV-1</b>
<b>B. POPULATION ESTIMATES AND PROJECTIONS</b> .....	<b>IV-2</b>
<b>C. PUBLIC WATER SUPPLY</b> .....	<b>IV-4</b>
<b>D. RESIDENTIAL SELF-SUPPLIED</b> .....	<b>IV-6</b>
<b>E. INDUSTRIAL SELF-SUPPLIED WATER USE</b> .....	<b>IV-6</b>
<b>F. PERMITTED LANDSCAPE AND RECREATION         SELF-SUPPLIED WATER USE</b> .....	<b>IV-8</b>
<b>G. GOLF COURSE SELF-SUPPLIED</b> .....	<b>IV-9</b>
<b>H. AGRICULTURE</b> .....	<b>IV-10</b>
<b>V. OVERVIEW OF METHODOLOGIES AND MODELS</b> .....	<b>V-1</b>
<b>A. EVALUATION METHODOLOGY</b> .....	<b>V-1</b>
1. Definition of an Alternative .....	V-1
2. Objectives and Performance Measures .....	V-2
<b>B. OVERVIEW OF METHODOLOGY TO DETERMINE         ENVIRONMENTAL WATER NEEDS FOR THE         REMAINING EVERGLADES.</b> .....	<b>V-4</b>

Draft Working Document

V. OVERVIEW OF METHODOLOGIES AND MODELS (continued)

C. COMPUTER SIMULATION MODELS ..... V-7

1. South Florida Water Management Model ..... V-8

2. County-Level Models ..... V-9

3. Interaction Between the South Florida Water Management Model and the County-Level Models ..... V-10

4. Natural System Model ..... V-10

5. South Florida Regional Routing Model ..... V-11

VI. ALTERNATIVES, COMPONENTS AND POTENTIAL OPTIONS .. VI-1

A. ENVIRONMENTAL COMPONENT ..... VI-4

1. Introduction ..... VI-4

2. Potential Options ..... VI-4

3. Descriptions ..... VI-5

B. REGULATORY STRATEGY COMPONENT ..... VI-9

1. Introduction. .... VI-9

2. Potential Options. .... VI-9

3. Descriptions. .... VI-9

C. LONG-TERM CONSERVATION COMPONENT ..... VI-10

1. Introduction. .... VI-10

2. Potential Options. .... VI-11

3. Descriptions. .... VI-12

D. WATER SHORTAGE COMPONENT ..... VI-14

1. Introduction. .... VI-14

2. Potential Options. .... VI-15

3. Descriptions ..... VI-15

E. PHYSICAL FACILITY COMPONENT ..... VI-17

1. Introduction. .... VI-17

2. Potential Options ..... VI-17

3. Descriptions ..... VI-18

F. OPERATIONS COMPONENT ..... VI-24

1. Introduction. .... VI-24

2. Potential Options. .... VI-24

3. Descriptions. .... VI-24

G. WATER QUALITY COMPONENT ..... VI-25

1. Introduction. .... VI-25

2. Potential Options. .... VI-26

3. Descriptions. .... VI-26

Draft Working Document

VII. PRELIMINARY WATER RESOURCE EVALUATION ..... VII-1

A. PRELIMINARY ESTIMATED HISTORICAL WATER BUDGETS . VII-1

B. ESTIMATED EFFECTS OF HISTORICAL WATER MANAGEMENT ON THE HYDROLOGY OF SOUTHEASTERN FLORIDA ..... VII-10

1. Background ..... VII-10

2. Comparison of Flow Patterns for the Natural and Managed Systems ..... VII-11

3. Comparison of Ponding Depth Patterns for the Natural and Managed Systems ..... VII-15

4. Comparison of Hydroperiod Patterns for the Natural and Managed Systems ..... VII-31

5. Comparison of Water Budgets for the Natural and Managed Systems ..... VII-45

6. Comparison of Flows to Shark River Slough for the Natural and Managed Systems. .... VII-55

C. PRELIMINARY EVALUATION OF REGIONAL WATER QUANTITY IMPACTS FROM THE STORMWATER TREATMENT AREAS. .... VII-58

1. Background ..... VII-58

2. Results ..... VII-60

VIII. LITERATURE CITED ..... VIII-1
