

# List of Tables

Table II-1.	Average Annual and Seasonal Rainfall Maximums and Minimums, 1915-1985. ....	II-6
Table II-2.	Pulse Release Program for the St. Lucie and Caloosahatchee Estuaries. ....	II-16
Table III-1.	Dominant Pre-Drainage (c. 1900) Habitats for the Area East of the Everglades. ....	III-9
Table III-2.	Land Cover Comparison for the Area East of Today's Everglades. ....	III-11
Table IV-1.	Overall Water Demands in the Lower East Coast. ....	IV-3
Table IV-2.	Population Estimates and Projections for the Lower East Coast. ....	IV-5
Table IV-3.	Public Water Supply Estimates and Projections for the Lower East Coast. ....	IV-7
Table IV-4.	Residential Self-Supplied Water Use in the Lower East Coast. ....	IV-8
Table IV-5.	Industrial Water Use in the Lower East Coast. ....	IV-8
Table IV-6.	Landscape and Recreational Water Use in the Lower East Coast. ....	IV-9
Table IV-7.	Total Average Annual Self Supplied Water Demand by Golf Courses in the Lower East Coast. ....	IV-9
Table IV-8.	1990 Golf Course Demands for the Lower East Coast. ....	IV-10
Table IV-9.	Lower East Coast Agricultural Acreage by County. ....	IV-11
Table IV-10.	Lower East Coast Agricultural Acreage by Crop. ....	IV-12
Table IV-11.	Average Annual Demand for Agriculture by County. ....	IV-12
Table IV-12.	Total Agriculture Demand in the Lower East Coast. ....	IV-13
Table VI-1.	Examples of Options to be Considered in the Development of Alternatives for the Lower East Coast Plan. ....	VI-3

Figure VII-12.	Comparison of Natural and Managed System Water Depth Patterns at the End of a Normal Dry Season. ....	VII-24
Figure VII-13.	Difference Between Managed and Natural System Water Levels at the End of a Normal Dry Season. ....	VII-25
Figure VII-14.	Comparison of Natural and Managed System Flooding Depth Patterns for an Extreme Wet Condition. ....	VII-28
Figure VII-15.	Difference Between Managed and Natural System Water Levels for an Extreme Wet Condition. ....	VII-29
