

## LIST OF FIGURES

| <u>Figure</u> | <u>Title</u>   |
|---------------|--|
| 2-1           | Containment Dome Geometry  |
| 2-2           | Construction Sequence  |
| 2-3           | Tendon Layout  |
| 3-1           | Dome Coring Results  |
| 3-2           | Contours of Deepest Delaminations  |
| 3-3           | Tendon Liftoff Values  |
| 3-4           | Instrumentation Locations  |
| 3-5           | Sensor ID 42   |
| 3-6           | Sensor ID 82   |
| 3-7           | Sensor ID 63   |
| 3-8           | Sensor ID 43   |
| 3-9           | Sensor ID 20   |
| 3-10          | Sensor ID 64   |
| 3-11          | Sensor ID 44   |
| 3-12          | Sensor ID 84   |
| 3-13          | Sensor ID 21   |
| 3-14          | Sensor ID 85   |
| 3-15          | Sensor ID 22   |
| 3-16          | Sensor ID 66   |
| 3-17          | Sensor ID 417  |
| 3-18          | Sensor ID 418  |
| 3-19          | Sensor ID 419  |
| 3-20          | Sensor ID 420  |
| 3-21          | Coring on Construction Joints  |
| 3-22          | Coring After Concrete Removal  |
| 3-23          | Contours of Deepest Delaminations Verified<br>By Concrete Removal and Coring |
| 3-24          | Sections Showing Delaminations   |

| <u>Figure</u> | <u>Title</u>  |
|---------------|---|
| 3-25          | Sections Showing Delaminations  |
| 3-26          | East Side of Dome During Concrete Removal   |
| 3-27          | West Side of Dome During Concrete Removal   |
| 3-28          | Detailed Pictures of Concrete Removal   |
| 3-29          | Detailed Pictures of Concrete Removal   |
| 4-1           | Concrete Specimens  |
| 5-1           | Crane Location  |
| 5-2           | Thermal Gradient  |
| 5-3           | Radial Tension  |
| 5-4           | Unbalanced Loads From Post-Tensioning   |
| 5-5           | Loading Areas   |
| 5-6           | Meridional Stress at the Outer Surface<br>From Dome Post-Tensioning   |
| 5-7           | Circumferential Stress at the Outer<br>Surface From Dome Post-Tensioning  |
| 5-8           | Meridional Stress at the Outer Surface<br>From Dome Post-Tensioning   |
| 5-9           | Circumferential Stress at the Outer<br>Surface From Dome Post-Tensioning  |
| 5-10          | Nonuniform Bearing Case 1   |
| 5-11          | Nonuniform Bearing Case 2   |
| 5-12          | Plexiglass Dome Without Load  |
| 5-13          | Plexiglass Dome With Load   |
| 5-14          | Axisymmetrical Simulation of the Meridional<br>Construction Joint   |
| 5-15          | Meridional Stresses at the Outside Surface From<br>the Post-Tensioning Load at 50% Completion. All<br>Joints Assumed Hinged With Membrane Forces Acting<br>at Center of Section.      |
| 5-16          | Circumferential Stresses at the Outside Surface From<br>the Post-Tensioning Load at 50% Completion. All Joints<br>Assumed Hinged With Membrane Forces Acting at Center of<br>Section. |

| <u>Figure</u> | <u>Title</u>  |
|---------------|---|
| 5-17          | Meridional Stresses at the Outside Surface From the Post-Tensioning Load at 50% Completion. All Joints Assumed Hinged With the Membrane Forces Acting at the Top of the Circumferential and Meridional Joints.      |
| 5-18          | Circumferential Stresses at the Outside Surface From the Post-Tensioning Load at 50% Completion. All Joints Assumed Hinged With the Membrane Forces Acting at the Top of the Circumferential and Meridional Joints. |
| 6-1           | Compatibility Analytical Model  |
| 6-2           | Compatibility Analysis Stress Distribution  |
| 6-3           | Compatibility Analysis Stress Distribution  |
| 6-4           | Compatibility Analysis Stress Distribution  |
| 6-5           | Illustration of Concrete Removal Area   |
| 6-6           | Illustration of Concrete Anchors  |
| 6-7           | Illustration of Typical Instrumentation   |
| 6-8           | Illustration of Concrete Replacement  |
