

DETAIL DESIGN MEMORANDUM
CENTRAL AND SOUTHERN FLORIDA PROJECT

PART V -- SUPPLEMENT 55

TABLE OF CONTENTS

<u>Subject</u>	<u>Par. No.</u>	<u>Page No.</u>
<u>A. INTRODUCTION</u>		
Authorization-----	1	1
Scope and purpose-----	2	1
References and prior reports-----	3	1
<u>B. BASIC CONSIDERATIONS</u>		
Location-----	4	2
Proposed plan-----	5	2
Local cooperation-----	6	2
a. General-----	-	2
b. Requirements-----	-	2
Hydrology and hydraulic design-----	7	3
a. Hydrology-----	-	3
b. Hydraulic design of the canal and bridges---	-	3
c. Structure hydraulic design-----	-	4
<u>C. GEOLOGY AND SOILS</u>		
Investigations performed-----	8	6
Levee 29, Section 3-----	9	6
a. Materials encountered-----	-	6
b. Excavation-----	-	7
c. Side slopes-----	-	7
Structure 332-----	10	7
a. Materials encountered-----	-	7
b. Foundation conditions-----	-	7
c. Excavation-----	-	7
d. Dewatering-----	-	7
Structure 333-----	11	7
a. Materials encountered-----	-	7
b. Foundation conditions-----	-	7
c. Excavation-----	-	8
d. Dewatering-----	-	8
e. Laboratory tests-----	-	8
f. Stone protection-----	-	8

TABLE OF CONTENTS (CONTINUED)

<u>Subject</u>	<u>Par. No.</u>	<u>Page No.</u>
Structure 334-----	12	8
a. Materials encountered-----	-	8
b. Foundation conditions-----	-	8
c. Excavation-----	-	8
d. Dewatering-----	-	8
Structure 335-----	13	9
a. Materials encountered-----	-	9
b. Foundation conditions-----	-	9
c. Excavation-----	-	9
d. Dewatering-----	-	9
Structure 336-----	14	9
a. Materials encountered-----	-	9
b. Foundation conditions-----	-	9
c. Excavation-----	-	9
d. Dewatering-----	-	9
Structure 338-----	15	10
a. Materials encountered-----	-	10
b. Foundation conditions-----	-	10
c. Excavation-----	-	10
d. Dewatering-----	-	10
Mod. to Structure 194-----	16	10
a. Materials encountered-----	-	10
b. Foundation conditions-----	-	10
c. Excavation-----	-	10
d. Dewatering-----	-	10
Contract plans-----	17	11

D. STRUCTURAL DESIGN

General-----	18	11
Levee 29, Section 3, borrow canal enlargement-----	19	11
a. General-----	-	11
b. Alinement-----	-	11
c. Construction method-----	-	11
d. Embankment-----	-	11
e. Embankment material-----	-	11
f. Excess material-----	-	12
g. Clearing-----	-	12
Pumping Station 332-----	20	12
a. Location and access-----	-	12
b. Description of structure-----	-	12
c. Dewatering-----	-	12
d. Flapgates-----	-	13
e. Bypass requirements-----	-	13

TABLE OF CONTENTS (CONTINUED)

<u>Subject</u>	<u>Par. No.</u>	<u>Page No.</u>
Spillway Structure 333-----	21	13
a. Location and access-----	-	13
b. Description of structure-----	-	13
c. Gates-----	-	13
d. Bypass requirements-----	-	13
Spillway Structure 334-----	22	14
a. Location and access-----	-	14
b. Description of structure-----	-	14
c. Gates-----	-	14
d. Bypass requirements-----	-	14
Spillway Structure 335-----	23	14
a. Location and access-----	-	14
b. Description of structure-----	-	14
c. Gates-----	-	15
d. Bypass requirements-----	-	15
e. Existing structure-----	-	15
Culvert Structure 336-----	24	15
a. Location and access-----	-	15
b. Description of structure-----	-	16
Culvert Structure 338-----	25	16
a. Location and access-----	-	16
b. Description of structure-----	-	16
c. Bypass requirements-----	-	16
Culvert Structure 194 (Mod)-----	26	16
a. Location and access-----	-	16
b. Description of structure-----	-	16
Control house-----	27	17
Stability and design analysis of structures-----	28	17
a. Scope-----	-	17
b. General-----	-	17
c. Working stresses-----	-	17
d. Unit weights and soil properties-----	-	17
e. Stability analysis-----	-	18
f. Structural analysis-----	-	18
Mechanical and electrical design of Pumping		
Station 332-----	29	19
a. Basic design criteria and considerations-----	-	19
b. Pump rating criteria-----	-	20
c. Pump setting, suction bay and discharge tube requirements-----	-	20
d. Power required for pumps-----	-	21
e. Station equipment-----	-	21
f. Recommendations-----	-	23
g. Electrical design-----	-	25

TABLE OF CONTENTS (CONTINUED)

<u>Subject</u>	<u>Par. No.</u>	<u>Page No.</u>
Mechanical and electrical designs of Control Structures 333, 334, and 335-----	30	25
a. Mechanical designs of control structures----	-	25
b. Electrical design of control structures----	-	26
Restoration of natural values-----	31	26
Recreation-----	32	27
Environmental assessment-----	33	27
Water quality-----	34	27
Relocations and alterations-----	35	27
Interference with local activity-----	36	27
Restrictive ordinances-----	37	27
Required lands-----	38	27
a. General-----	-	27
b. Structure 194 (Mod)-----	-	27
c. Structure 332-----	-	28
d. Structures 333, 334, 335, and 336-----	-	28
e. Structure 338-----	-	28
Construction schedule-----	39	28
Maintenance-----	40	28
Coordination of plan with others-----	41	28
Deviations from the General Design Memorandum----	42	29
a. General-----	-	29
b. Structure 332-----	-	29
c. Structure 333-----	-	29
d. Structure 334-----	-	29
e. Gate access slots-----	-	29
f. Bridges-----	-	29
g. Structure 338-----	-	29
 <u>E. QUANTITIES AND COST ESTIMATES</u> 		
Levee 29 borrow canal and Levee 29-----	43	30
Structures 194 (Mod), 332, 333, 334, 335, 336, and 338-----	44	30
Bridges-----	45	30
Comparison of costs-----	46	30
a. General-----	-	30
b. Explanation of differences in cost estimates-----	-	30
 <u>F. RECOMMENDATIONS</u> 		
Recommendations-----	47	31

TABLE OF CONTENTS (CONTINUED)

LIST OF TABLES
(Tables follow text)

<u>Title</u>	<u>Table No.</u>
Summary of hydraulic design data for improved Levee 29 borrow canal-----	1
Summary of hydraulic design data for bridges-----	2
Pumping Station 332, cyclical flow rate-----	3
Pumping Station 332, hydraulic design data-----	4
Pumping Station 332, pump and motor data-----	5
Structure 194 (Mod), 336 and 338, summary of hydraulic design data-----	6
Structures 333, 334, and 335, summary of hydraulic design data-----	7
Levee 29, Section 3, borrow canal enlargement-summary of bridge costs-----	8
Levee 29, Section 3, borrow canal enlargement-quantities and cost estimates-----	9
Pumping Station 332, quantity and cost estimate-----	10
Pumping Station 332, detailed cost estimate-machinery and equipment-----	11
Pumping Station 332, summary of Federal and non-Federal costs-----	12
Structure 194 (Mod) quantity and cost estimate-----	13
Structure 194 (Mod), summary of Federal and non-Federal costs-----	14
Structure 333 quantity and cost estimate-----	15
Structure 333, summary of Federal and non-Federal costs-----	16
Structure 334 quantity and cost estimate-----	17
Structure 334, summary of Federal and non-Federal costs-----	18
Structure 335 quantity and cost estimate-----	19
Structure 335, summary of Federal and non-Federal costs-----	20
Structure 336 quantity and cost estimate-----	21
Structure 336, summary of Federal and non-Federal costs-----	22
Structure 338 quantity and cost estimate-----	23
Structure 338, summary of Federal and non-Federal costs-----	24
Levee 29, Section 3, borrow canal enlargement, Pumping Station 332, and Control Structure 194 (Mod) 333, 334, 335, 336, and 338 comparison of costs-----	25
Summary of Federal and non-Federal Costs-----	26

TABLE OF CONTENTS (CONTINUED)

LIST OF PLATES
(Plates follow tables)

<u>Title</u>	<u>Plate No.</u>
Plan-Conveyance canals to Everglades National Park and South Dade County-----	1
Location of proposed work-----	2
Levee 29, Section 3, borrow canal enlargement photo plan index-----	3
Levee 29, Section 3, borrow canal enlargement plan-----	4
Levee 29, Section 3, borrow canal enlargement plan-----	5
Levee 29, Section 3, borrow canal enlargement plan-----	6
Levee 29, Section 3, borrow canal enlargement plan-----	7
Levee 29, Section 3, borrow canal enlargement plan-----	8
Levee 29, Section 3, borrow canal enlargement plan and details-----	9
Pumping Station 332 tieback levee-----	10
Levee 29, Section 3, borrow canal enlargement sections-----	11
Levee 29, Section 3, borrow canal enlargement sections-----	12
Levee 29, Section 3, borrow canal enlargement geologic section-----	13
Pumping Station 332, site plan-----	14
General arrangement-plan-----	15
Section-----	16
Stability analysis-----	17
Electrical system one-line diagram-----	18
Geologic section-----	19
Core logs-----	20-29
Structure 194 (Mod), Site plan-----	30
Section and details-----	31
Geologic section-----	32
Structure 194 (Mod) and 336, discharge rating curve-----	33
Structure 333, site plan-----	34
Section and details-----	35
Stability analysis-----	36
Geologic section-----	37
Discharge rating curve-----	38
Grain size curve-----	39
Structures 333, 334, and 335, electrical system, one-line diagram-----	40
Structures 333, 334, and 335, gate hoist-----	41
Structure 334, site plan-----	42
Section and details-----	43
Stability analysis-----	44
Geologic section-----	45
Discharge rating curve-----	46

TABLE OF CONTENTS (CONTINUED)

LIST OF PLATES (CONTINUED)

<u>Title</u>	<u>Plate No.</u>
Structure 335, site plan-----	47
Construction Stage I-----	47A
Construction Stage II-----	47B
Section and details-----	48
Stability and analysis-----	49
Geologic section-----	50
Discharge rating curve-----	51
Structure 336, site plan-----	52
Section and details-----	53
Geologic section-----	54
Structure 338, site plan-----	55
Section and details-----	56
Core log-----	57
Discharge rating curve-----	58
Typical contract plan boring notes-----	59
Levee 29 bridges-----	60

LIST OF APPENDIXES

(Appendixes follows plates)

<u>Title</u>	<u>Appendix</u>
Core boring logs for Levee 29 and for Structures 194 Mod., 332, 333, 334, 335 and 336-----	A
Comments of local interests and others-----	B
