

APPENDIX D ALT7R5E SENSITIVITY TO SALINITY BOUNDARY

This appendix presents results from the TIME v2.0 Alt7r5e sensitivity run. The plots for stations are ordered by subbasin, and the location of the subbasins and stations are shown in the first figure. The graphics for the 0 cm, 30 cm, and 60 cm sea level rise amounts combined with the 30 and 36 ppt prescribed boundary values are presented. Stations with salinity values less than 5 ppt are not shown.
