Squeeze felt

Spring courses slashed

VIVIAN ZARICKI
Contributor

Larger classes, fewer elective courses and fewer sections will be the most evident effect on course scheduling for Spring Term as the recent budget cut-backs are implemented.

WILLIAM Jenkins, vice president for Academic Affairs, does not expect the schedule changes to jeopardize any student's ability to graduate. In

an interview last week, Jenkins said that his office has tried to make cuts in those areas which affect the least number of students. He cited as an example, the individual music lessons. "These lessons, which are quite costly, benefit only a few students. We can shift those funds into adjunct money which will serve greater numbers," he said.

In a memo to the faculty,

Jenkins requested that they offer more Individual Study courses in an effort to accommodate students who need cancelled courses to meet graduation requirements.

A survey last week of three deans reflects a general consensus of opinion on the results of the budget cuts of their programs.

LARGE CUTS in money needed for adjunct professors are

the most important factor in the reduction of course offerings. Dean Butler Waugh of the College of Arts and Sciences said in an interview recently that the adjunct staff for Arts and Sciences will be reduced approximately 80 per cent. "As a result, fewer sections of required program courses will be offered. Many elective courses have been eliminated which will reduce the scope of the programs," Waugh explained.

School of Business Dean George Simmons believes that the School of Business will be able to meet the needs of most of its students. "As things stand right now, it will be tight, but business students should be able to graduate."

ACCORDING to Dean G. Wesley Sowards, the effect on the School of Education will be as in other schools. "In some cases graduation may be postponed one quarter," Sowards said.

The course schedule for

Dr. Jenkins

Spring Quarter appears in this issue of the Good Times. The emphasis of those interviewed was that students should plan their schedules very carefully with the thought in mind that course offerings have been reduced.

Projections for next year are uncertain. The state university budget picture may change before then. No one really knows.

La Deuxieme Maison (DM) Building glows in its own reflection

Library building to open in Fall

OPENED FEB 17, 1976

MICHAEL DUKEWICH
Contributor

The FIU student library is moving into a new home. The building directly across from the Primera Casa Building is scheduled for completion July 31. Between Summer and Fall terms the facilities of the current library will be moved into the new \$4.5 million project leaving the bottom floor of the Primera Casa Building to be "converted to some other function," according to Howard W. Cordell, director of University Libraries.

The problem in moving says Cordell is that "we will have to disperse some of our services, since the building we are moving into is much greater in size than the current library."

ASKED IF whether the library will hire more people to fill positions which might be created by the new facility, Cordell says, "as of now, funds are frozen and there will probably be no hiring of anyone this fiscal year." Next year when the new library officially opens will be a better time to view where the library stands in FIU's budget.

The building, which broke ground June 1974, will have three floors. The first floor will contain the Circulation and Reserve Departments, the curriculum

laboratory and the public use part of the media center. The main section of the library will be the second floor where there will be the card catalog, government documents and periodicals, along with the many volumes of books. The third floor of the building will "probably not be used during the first phase." With over 20,000 square feet of space the top floor will eventually be used for book collections and additional study facilities, according to Cordell.

SOMETHING new will also be added to the library that is not included in the current one. Locking turnstiles will be installed so that anyone leaving the library holding a book that's not currently checked out will be detected. Says Cordell, "During the summer last year an inventory of books was taken and over 5,000 volumes were missing, of course this was the first inventory ever taken of this type and the figure represents a two year period."

Nonetheless that's still a great number of books missing so the library took one more step in solving the thievery by having only one accessible exit in the building. At that exit the new locking turnstiles will be placed in efforts to stop the thefts. The current library has sixteen available exits to the students and no interlocking systems.

Universities unite

SGAs join forces

JIM BALL
News Editor

The creation of a statewide organization to function as a joint management and service organization of all student governments in Florida was announced last week by Robert Jordan, chairman of the newly formed State Council of Student Governments of Florida.

"THE PURPOSE of the council," explained Jordan, "will be to strengthen student government and preserving its role in the governmental system of the State."

Outlining the first two years of

the Council's operation, Jordan said that "The first major service project will be to establish state headquarters in the state capitol, to serve as a year-round clearinghouse for information and communications of the Student Governments of Florida."

Another service project planned by the Council will be to assist the State Council of Student Body Presidents in the formation of a Florida student body.

THE THIRD major service project is the creation of center

for journalism, to serve as a central clearinghouse for the junior college and university newspapers throughout the state and to strengthen the relationship between student newspapers and commercial newspapers.

According to Jordan, the Council will assist student governments in improving their legislative, administrative, and judicial practices and will focus on bringing together all elements of student government. Jordan indicated that he expects a number of other statewide student organizations to affiliate with the Council of Student Governments.

Letters

Dear Editor:

I have read a statement in the *Good Times* indicating that a Guest Lecturer on Venereal Disease was found floundering on the FIU campus and was rescued by Dr. Nathason, who directed him to a Health Education class.

Evidently, someone is FIUing around because I teach the only

Wednesday night class offered in Health Education. The course is HED 505 - Current Concepts in Community Health and no guest speakers have been scheduled for the course. The Venereal Disease resource person used in the Health Education classes is Joel Nitzkin, M.D., who in no way resembles a mousey-looking grey-haired man.

My sympathies to the failing student who did not get his money's worth out of that class. Sometimes a case of untreated venereal disease can infect the brain.

Sincerely,

Paul A. Bennett, Ed.D.
 Coordinator of Health Education

Women can avoid assaults

Common sense a useful ally

SHELLEY DANIEL
 Contributor

In 1970, 37,270 rapes were reported—four times that many were unreported. Every year since then, the numbers have increased.

Today, a woman is raped every seven minutes. Every woman at every age is a potential victim of rape. Easily overcome, women tend to be prime targets for assault, burglary and rape. Officers Linda Saunders and Randy Eques from the Dade County Public Safety Department spoke Friday during free period for the Institute of Women giving aids on how to present these harmful situations.

More and more women are being attacked everyday and most are asking what they can do to avoid the situation. It was pointed out that many times, the victims bring it upon themselves by carelessly opening the door to strangers, refusing to pull shades, or forgetting to lock their doors.

SOME HELPFUL hints from the officers included:

- If you are going out at night, arrange a buddy system
- Park in clusters and under lights
- Have your keys in your hand when traveling to or from your car
- Approach your car from the rear so you can check the back seat
- Keep plenty of gas in your tank, and always take a car in good working condition so to avoid a breakdown. If you should have difficulties with your car—NEVER accept rides with a stranger or get out of the car in the street. Stay in the car and only crack the window enough to ask a stranger to call for the police.
- Women at home should always check repairmen or delivery men for proper identification and inform your neighbors when they arrive so

Ahh, winter in South Florida. For this young lady, nature is warm and green. But even in Miami, there are changes in the seasons. Anyone from up north can tell, because the robins come to visit. And natives know by the cold snaps and changes in flora. So it is with a newspaper, it has to change when the time comes. Because of the demands of the Florida International University community, the *Good Times* has changed its look. The staff invites the comments of all readers.

that they may come and keep you company.

Always keep your shrubbery at eye level so that it cannot conceal anyone. If someone should happen to come to your door, a peep-hole is essential so that the door is not opened at all.

A common invitation for rapists is the female name on the mailbox. NEVER write any indication of your sex on a mailbox!

IF SOMEONE should attempt to attack you, would you be able to cope with his efforts? Ordinary objects like keys, newspapers and whistles offer your best defense. Keys can severely hurt your assailant if poked in the eyes and a newspaper can easily be rolled into a club and jabbed into the stomach and ribs. The old myth about going for the groin is

just that—a myth. Have you ever tried to kick a man in the groin when he is standing behind you? It is not easy! So why not fling your head back and smash him in the face or use the high heels of

today and step on his toes? Any of these methods will surely put your assailant off guard long enough so you can scream and run.

The important thing to

remember is to immediately go to the police and report the crime. "Only women can stop rape. It is up to them to try and prosecute or avoid rape altogether."

New staff working diligently

Screening committees set deanship guidelines

VIVIAN ZARICKI
Contributor

The Search and Screen Committees, which will evaluate applicants for the deanships in the College of Arts and Sciences and the School of Health and Social Services, held their organizational meetings over the past two weeks and invited suggestions from the university community.

THE TWO committees, recently appointed by William Jenkins, vice president for Academic Affairs, consist of members of the respective schools, students, and representatives of the community. Their task will be to

establish criteria in order to evaluate each applicant and submit their recommendations of three to five candidates for each position to the Office for Academic Affairs for the final decision.

According to chairpersons Ricardo Arias, of the Arts and Sciences committee, and Juel Janis, of the Health and Social Services committee, both committees will accept from students and faculty, suggestions regarding "institutions of higher learning and professional associations to which announcements of the availability of the deanships might be communicated."

ADDITIONALLY, suggestions regarding criteria that should be employed by the committees in their decisions will be accepted. All suggestions must be in writing and should be submitted as soon as possible to the Office for Academic Affairs.

Committee meetings will be open to anyone interested in attending. However, the voting for applicants will be in secret.

According to Dr. Jenkins, the final choices will be made sometime in the Spring and the appointees will start work September 1, 1975.

FIU news briefs

BDR checks program

The School of Education at Florida International University will be visited during the Spring Quarter by the Bureau of the Department of Accreditation. They will evaluate the effectiveness of the self-study program used in instructing student teachers.

The self-study program is relatively a new method of learning. The students are given a Module package on the first day

of class. It lists procedures, references, and objectives of the course. The student follows the Module completing the assignments at their own pace.

Dr. Paul D. Gallagher, Associate Dean in Education, says the student teachers not only learn through books, but are given a chance to experience teaching through field work. The student teachers know for themselves what it is really like to be a teacher.

Politics club

Although Jerry Rubin and his radical involvements are no longer with us, a rousing number of viable individuals have gathered to exchange ideas and opinions for students of politics.

The Politics Club of FIU is concerned with enacting change. Interested not only in holding discussions, Michael Willner the club president, wants to involve the members with active research into the political issues facing the community.

The program will keep the students informed on the latest standards dealing with acceptance to law schools, test dates and tuition. In addition to regular group meetings, plans are being organized to obtain public speakers such as Circuit Court Judges, notable lawyers and Supreme Court Justices.

Interested students may contact the Student Activities Office or Michael Willner at 279-2463.

Slideshow

On Friday, January 31st, at 12:30 p.m. in DM 100, a representative from the Dade County Planning Department will give a slide presentation on "Dade County's Proposed Master Plan." There will be opportunity for discussion and the summary of Parts 2 and 3 of the Comprehensive Development Master Plan will be available. This presentation is important and timely as it coincides with public hearings on the plan being held throughout the County by the Planning Advisory Board.

Institutes offer special programs

PAULETTE WHITE
Contributor

There's a certain program within the university, that's really not altogether part of the university.

Its title is Division of Institutes and Special Programs, directed by Dean Jules Pagano.

THE PURPOSE of the division is to sponsor and service

groups whose needs would not be provided for under university programs. The service and functions the division handles reaches out into the community, unlike most regular academic programs at FIU.

Presently there are seven functioning programs. There are also two that have been created, but are in the midst of dangling paper work.

THE PROGRAMS that are operating now are: the External Degree Program, the Institute for Women, the Instituto Cultural Cubano, the Real Estate Institute, Institute for the Service of Human Resources, and the International Institute for Creative Communications.

The most current program to be added to the Division of Institutes and Special Programs, is

the Institute for Creative Communications, which is directed by Dr. Edmund Skellings. Its purpose is to stimulate teaching techniques of multi-media communications. This is to provide a complete understanding in all levels of education. A project that is currently active is Poet in the Schools, stemming from Dade County.

Area highlights for February

MIAMI, Fla.—Shows and special events highlight February in Greater Miami.

Beginning with two antique shows, one in Miami and one in Miami Beach, the month includes such varied activities as cat, orchid, Indian art, boat and bottle shows.

MILLIONS of dollars worth of antiques, every type imaginable, are on display Feb. 1-6 at Miami Beach Convention Hall and Feb. 6-9 at Bayfront Auditorium in Miami. Everything from a \$1,000 Tiffany lamp to a player piano might be seen at one of these shows.

International flavor spices the Museum of Science's annual Around the World Fair at Tropical Park, Feb. 8 and 9. The fair features food, crafts, art, fashions and entertainment from around the world.

Two greatly different shows in separate parts of Miami's Bayfront Auditorium are the Miami Cat Fanciers' Show and the Antique Bottle Show, Feb. 15 and 16.

Three shows begin on the 21st. The Miami International Boat Show, one of the nation's largest displays of boats and marine hardware, is at Miami Beach Convention Center, Feb. 21-26.

Also opening Feb. 21 are the Orchid Show at Bayfront Auditorium and an American Indian Art show at Dinner Key Auditorium. Both run through Feb. 23.

On Feb. 27 another Dade County Youth Fair begins and runs through March 9. The event features art and crafts show, science fair, livestock exhibits, a midway and family oriented entertainment on the Tamiami Park Fairgrounds.

SPORTSMEN, it is a busy month at the pari-mutuel facilities in Greater Miami with thoroughbred, greyhound and jai-alai action.

The horses will be running for the big purses in February at Hialeah Park in the \$50,000-added Seminole Handicap, Feb. 1; \$50,000-added Bougainvillea Handicap, Feb. 8; \$100,000-added Widener Handicap, Feb. 15, and \$50,000-added Black Helen Handicap, Feb. 22.

Called "the world's fastest game," jai-alai continues at the Miami Fronton and greyhounds will be in action at Miami Beach Dog Track.

Top amateur boxers from Florida converge on Miami's Flagler Kennel Club Theater, Feb. 19-22, for the Florida State

Golden Gloves Tournament. Competitors include potential representatives for the U.S. Olympic Team.

Inverrary Classic at Inverrary Country Club, Feb. 24 through March 2. Action in the 72-hole championship tournament begins

the annual Coconut Grove Arts Festival, Feb. 14-16. Hundreds of artisans will display their paintings, sculpture, crafts and other works in the business area of the quaint Miami superb.

Musically, the City of Miami continues its free series of Wednesday and Friday evening concerts in the Bayfront Bandshell with Caesar LaMonaca and his band.

Other musical events include Guy Lombardo and his Royal Canadians with the International Series at Dade County Auditorium, Feb. 1; Ballet Spectacular, Feb. 2, at Dade County Auditorium; Miami Beach Symphony with pianist Michael Ponti at Miami Beach Auditorium, Feb. 9; Count Basie with the International Series at

The Miami International Opera presents Wagner's "The Flying Dutchman" in performances at Dade County Auditorium, Feb. 10 and 15, Miami Beach Auditorium, Feb. 12. A special English performance is set for Feb. 16 by the Florida Family Opera.

The Professional Golf Association tour moves to South Florida with the Jackie Gleason

Feb. 27.

SPRING QUARTER CLASS SCHEDULE

MORNING CLASSES

- 8:00 - 10:05
- 10:15 - 12:20
- 12:30 - 1:30 (Free activity Period)

AFTERNOON CLASSES

- 1:45 - 3:50
- 4:00 - 6:05

EVENING CLASSES

- E6:20 - 8:25
- E8:45 - 10:50

Days:

- M - Monday
- T - Tuesday
- W - Wednesday
- R - Thursday
- F - Friday
- S - Saturday

Note: An "E" before a time denotes that the course is being offered in the evening.

Fees are assessed based on the level of each course attempted. They are set annually by the Board of Regents and the Legislature. The fees established for 1974-75 are detailed below:

Registration Fee (Per Credit Hour)

Undergraduate Courses	Residents	Non-Residents
.....	13.00	37.00
Graduate Courses	16.50
(for fee purposes all classes on a 500 level and above are considered graduate courses)		

Registration is not complete until all fees are paid. Additional information concerning due dates for fee payment will be provided with individual class schedules mailed approximately one week before Change Day.

REGISTRATION

All students may register whether seeking a degree or not.
 Note: Special Students (non-degree) cannot register for 600 level courses. These must be added on a space available basis on Change Day.

STEP 1:

Obtain a registration course request form from the Office of Registration and Records, Room 216, Primera Casa, or from your academic advisor.

STEP 2:

See your academic advisor and have the registration form signed. Fill out carefully the mark-sense registration form according to instructions on the student advisor planning copy.

STEP 3:

Submit mark-sense registration form, in person, to the Office of Registration and Records by 5:00 p.m. on February 14, 1975. Do not leave form with faculty advisor, as your student status must be verified when form is submitted.

Class schedules and fee cards will be mailed to registered students approximately one week prior to Change Day.

"Virginia Woolf" plays in Miami

LOUIS ANTHONY FILOS
Contributor

The Florida International University Theatre will present their interpretation of "Who's Afraid of Virginia Woolf?" Its the third theatrical production of the 1974-75 season, and is part of a Theatre Bicentennial Celebration honoring great American plays and dramatists.

"WHO'S AFRAID of Virginia Woolf?" by Edward Albee, is billed as "a shattering and memorable theatre experience

depicting the relationships of four of the most powerful characters in American Theatre." The production's style promises to captivate mature audiences. It is set in a three-quarter round format which renders a more conversational quality between the players and the audience.

The performing artists are resident talent. Bob Holtzman, who played the Marquie De Sade in Marat Sade, will play "George"; Josie Helming, a

theatre instructress, plays "Martha"; Joseph Garcia and Jyllian Stein, will portray "Nick" and "Honey" respectively. The play is directed by Terry Twyman.

PERFORMANCES will run January 29 through February 1, and February 5-8. FIU students, bearing a validated FIU I.D., will be admitted free of charge. Other students, admission \$1; general public, admission \$2.

For ticket information call the FIU Department of Fine Arts at 552-2895. Curtain time 8:30 p.m.

King Arthur bids farewell to his Guenevere in "Camelot." The Lerner and Loewe musical is set for two special benefit performances, to aid the Church of St. Benedict building fund. The presentation dates are January 31 and February 1. Steve Hansen and Terri Tone head a professional cast in the production which plays at 7:55 p.m., at Miami Lakes High School Auditorium, at 7977 West 12 Avenue in Hialeah. For reservations call 822-9841. (Photo courtesy of Dade Academy of Theatre Arts.)

Skaters sharpen blades, escape from winter heat

MICHAEL MAGENHEIM
Contributor

It's one of those Wednesday afternoons when it's too hot to go outside and you're too restless to stay in your nice air-conditioned room.

BENNETT Josephson has found the best of both. He and about 20 others glide around on a solid circle of ice. Well, you too can make figure eights in Miami. The Ice Skating Club meets every Tuesday in the University House and skates every Wednesday from 10 a.m. to 12 noon and every Sunday from 5 p.m. to 7 p.m.

For those who are beginners or shakey on the ice, free lessons will be given by Josephson, founder of the club, and an ice hockey player.

SKATING is a great way to exercise and alleviate tension and costs less than most movies. Prices are \$1.50 per two hour session and skates may be rented for \$.75.

Skating is at the Polar Palace located at 3685 N.W. 36 Street. In order to save gasoline, the club has organized car pools which leave a half an hour before skating time, from the bus loop on campus.

To make sure you have a seat in a car, call Bennett Josephson at 552-8814 or at extension 2815.

Five soccer players drafted by pro teams

JULIO C. ZANGRONIZ
Sports Information Director

The number of Florida International student athletes joining the professional sports ranks increased to five when soccer standouts Trakoon Jirasuradet and Steve Lee were drafted last week by the North American Soccer League champion runnerup, the Miami Toros.

In previous years, Frank Baumgardner, Jim Knox and Marty Jacobs have signed baseball contracts after finishing their amateur careers with the Sunblazers.

JIRASURADET was selected by the Toros in the first round, and he is a native of Thailand who played for his country in the 1968 Olympic Games in Mexico City. After that, he attended Miami-Dade South where he achieved All-American, All-Conference and All-Star honors, as well as being voted the school's Outstanding Soccer Player.

As team captain in his senior year at Florida International, Jirasuradet was one of the leading scorers among defensive players with three goals and one assist, while helping the Sunblazers under Coach Greg Myers' leadership to a third consecutive winning year with an 8-2-1 record. After the season, he was chosen to the All-South Soccer Team.

MIAMI TOROS Coach John Young has termed the 26-year-old "the best college player in the state." The coach noted that "he did a creditable job when he played for us against Santa Fe in an exhibition game last month," when the Toros defeated the visiting Colombian team 1-0 to win the Miami-Bogota Soccer Cup.

Steve Lee is a 21-year-old native of Kingston, Jamaica, who was drafted by the Miami Toros in the fourth round. The swift forward also attended Miami-Dade South, earning All-American, All Southeastern and All-Nation honors.

While a junior at Florida International, Lee was selected to the All-State Soccer Team after recording four goals and 12 assists as the Sunblazers finished with a 9-3-0 record. This year, he was the team's fourth-leading scorer with one goal and five assists.

Steve Lee (number four) was recently drafted by the Miami Toros

Weightlifting meets soon

The First Annual Florida International University Open Powerlifting Meet will be in the Tin Gymnasium on the west side of campus Sunday, March 1, starting at 9 p.m.

The event is free and open to the university community and general public, but competitors in any of nine weight categories must register with the organizers and pay a \$5 fee as required by the Amateur Athletic Union (AAU), which is sanctioning the competition.

Trophies will be awarded to the top three finishers in eight weight category and to the top team (maximum of nine members). Individual trophies will be presented to the best performer in both the lighter and the heavier classes.

To enter as an individual or a team, contact Orlando Muniz in the Weight Training Room at the Tursair Building on Tuesdays and Thursdays from 7-9 p.m. or call Mark Gonzalez after 5 p.m. at 949-8321.

FIU wrestling team wins four matches

The Sunblazer's wrestling team was enjoying a string of four dual-meet victories in a row—including the only two shut-outs in Florida International's history—as it approached the first quadrangular match at the university.

THE SQUAD advanced its season record to 12-3 with a 40-0 victory over Ohio's Muskingum College. The aggressive Sunblazers won every single rout by large point leads, with pins being recorded by Ozell Bemby at 167-lbs. and Robert Georger in the heavyweight division.

The following match was another shut-out victory, this time over visiting Tampa University, with the only pin resulting in the 118-lb. class by Tom "Willard" Busman.

THE TEAM then took decisions from Miami-Dade North and Jamestown Community College of New York by 34-5 and 30-9 margins, respectively. Against Dade North 190-pounder John Woodward and heavyweight Georger had pins, and Bill King pinned his Jamestown opponent in the 190-lb. class.

Both Bemby and 158-pounder Marc Buchanan remained undefeated in dual competition as the Sunblazers prepared to meet Florida State University, Broward, and Edison Community College.

The Sunblazers will host their last home dual meet of the season against the University of South Florida Saturday, February 1 at 3 p.m. before heading for the Florida State Collegiate Championships at the Miami-Dade North Campus February 7-8.

Sunblazers senior Mike Szabo controls the action

She mixes Pizza, putts

POLLY BROWN
Contributor

Pat "Pizza" Siciliano is a little Italian who hails from Williamstown, Mass. She also is beginning her second year on the FIU women's golf team.

Sporting a sense of humor, "Pizza" explained that she was engaged to a professional five years ago, the engagement ended but her golf continued. "It all ended the day I beat him," she joked.

A physical education major tinkering with psychology, her hobby is experiencing everything she possibly can. "I don't want to miss a thing," she laughs.

As for her golf, "Pizza" believes she should knock off at least fifteen strokes from last year. Her roommates are low seventy shooters and "they give me helpful hints with my swing," she adds.

"Pizza" believes that the golf program for women at FIU is great, especially for one only two years old. "Women are fighting for so much all over the country and here at FIU we are given excellent opportunities."

SHE explains that she is not a women's libber but "If I do out and win a tournament, I want to get paid as much as a man if I am a professional. On the other hand

I want a man to open a door for me."

"At one collegiate tournament," "Pizza" explains, "a golf coach from another university came up to me and said he'd never seen anyone who could play golf like I do and still laugh. I told him that there are golfers and there are players and this kid is a player."

Ball cracks against bat as FIU Sunblazers compete at the diamond

JULIO C. ZANGRONIZ
Sports Information Director

The baseball and tennis squads will open their schedules on the road and at home, respectively, in the month of February.

Coach Tom Wonderling's diamondmen will start 14 exhibition games, including 3 p.m. games at Miami-Dade South February 4 and 5. Then the team will come home for games against Miami-Dade North Friday the 7th at 3 p.m. and the next day at 2 p.m. On Sunday, the Sunblazers will host Tampa's Hillsborough Community College at 2 p.m.

AFTER A road game against Miami-Dade Downtown at 3 p.m.

on the 10th, the Sunblazers will have two home games against Miami-Dade South at 3 p.m. February 11-12. The rest of the 55-game schedule will include official contests against baseball powerhouses like NCAA champion runnerup University of Miami, Florida State and the University of South Florida.

The tennis team, under Coach Bill Fleming's leadership, will open at home against Flagler College February 14 and 15. The first match will be at 2 p.m. and the second one at 10 a.m.

THEIR FIRST month of competition includes road games against the powerful University of Miami at 1 p.m. on the 22nd and against Miami-Dade North on the 25th at 2:30 p.m., with a home match against Rollins College on the 28th at 3 p.m.

In addition, the racquetmen will also have seven matches on the road and 15 more at home, the latter scheduled at the tennis complex on the west side of campus.

All home events in both baseball and tennis are free and open to the university community.

Tee-off

Florida International University Sunblazer golfers captured their third tournament win by swinging their way to a 10-stroke victory at a quadrangular meet ending January 18.

Russ Hulzer had the lowest individual score at 72 to finish with a 149 total in the 36-hole tournament that started at the Country Club of Miami and concluded at the Fort Lauderdale Country Club. Teammates Mike Boudreau and John Duggan both shot 74s for 150 and 151 totals, respectively.

Catering studied

STEVE KULICK
Contributor

It reads: HRM 311—Volume Feeding Management—in the course catalog, but is more commonly known as a catering service.

THIS SERVICE, which is for on and off campus events, is available to anyone having a private party, or even a wedding reception—providing the instructors feel their students can gain an educational experience from the event.

All details are handled by students, who work with clients in setting up menus, type and quantity of silverware, and generally, handle all customer relations.

A pre-operational report is constructed by the student who is

delegated as the manager (done on a rotation basis), which contains the number of people type of dress, and even what color napkins. The instructor advises the manager from this report, but all actual work is done by students.

SINCE IT'S not a professional organization, it must be informed well in advance of the event, and all labor is free. Clients pay only for raw food costs.

Last quarter, HRM 311 catered the University Founders Dinner, an exclusive affair attended by 125 people; and on January 23rd entered the Hotel Accountants Dinner at University House.

Interested persons or groups should contact Gregory Perry Room 461D in the DM Building.

Dietetics degree leads to master

The Department of Dietetics and Nutrition offers a graduate program leading to the master of science degree in dietetics, with a sub-specialty in either Therapeutic or Community Dietetics Management.

DIETICIANS enrolled in this program may prepare themselves for positions of responsibility in health care institutions, community health agencies, or private practice. The program will allow for concentration in research or field application.

This program is designed to

DST sorority seeks members
