My dear Margaret:

We got back from the fishing trip in great shape. It was really very smooth and lovely. I pulled a couple of very fast ones on Jack and Ed Romfh - in fact, Jack left here blushing to his ears. He will probably tell you all about it. He and Esther are coming down in about ten days to stay some time. Jack has not been very well.

Your tom cats are causing a lot of trouble, also the poll parrot. I have tied a little bell on his tail, and he shakes his tail and hauls for Galloway at the same time. Will phone you tonight if our phone is working.

The grounds look beautiful. I am building a sixty-five foot tower on the edge of the house next to the old organ room with a small elevator so you can go up and sit on top of the tower and look over the sea to Bimini. It is a small job and will have it finished in ten days.

I found my old high wheel here when I arrived and I am going to take it out the first of the week and ride it. Many people here never have seen a high bicycle and I expect I will have a lot of fun. Think I will be able to play tennis tomorrow.

Best regards, dear, and will try and tel-
ephone tonight.

Yours,

Carl

CARL G. FISHER--

The Newest Edition.

He got this way in shape and color by drinking potash liquor made in Georgia.

It wouldn't have happened if he had allowed his wife to keep it and "ounce it out to him."

He ain't never had no good whisky before, made with potash, and cannot reduce his portions to thimble-size. You just put potash liquor in plain kegs and it does its own charring.

This is the liquor about which the story originated as to testing it. The Georgia cracker stuck his finger in the drink, and explained that if the nail didn't come off he was going to drink the whisky.

My dear Carl:

I am enclosing herewith a carbon copy of letter just forwarded to Mr. Collins which is self-explanatory and which I know will be pleasing to you.

Alma and I had a most enjoyable evening at Port Washington Sunday night and I had a good talk with Fred Humpage on Monday morning. He has a lot of fine ideas and is SOUND.

It is needless for me to reiterate my appreciation of the good time we had at your home during the month of August and my enthusiasm over Montauk has been increased since coming home because I picked up hay fever almost immediately upon my arrival in Washington and my nose is now running like a sieve.

Hoping that you are enjoying good health, my dear Carl, and that you are on your good behavior while Margaret is away and with best wishes as always, in which Alma joins, I am

Dear Skip:

Brittens left here yesterday about nine o'clock and Mickey came out here yesterday evening and returned to NY this noon rained here all morning... and cold this afternoon; I have a "cold in my head and throat" and a "sore throat" but it is better today, and am planning to leave here in the morning - EARLY; Mickey cannot go West now, so I'm having Art drive me through NY; I'm stopping in Harrisburg first night and possibly all or most of Thursday and Friday will go on to Pittsburg; since it is Labor Day week end, think I'll stay over with Frankie and Earl until Tuesday ... don't think I would care to drive in holiday traffic on strange roads.... had a wire from Frankie also a letter this morning and they are "glad to see me"; according to present plans will be in London next Tuesday or Wednesday evening... so, if any mail comes for me forward to London, Ohio, c/o E. Corson. Route #5.... I'll send you a "post card" from Penna... in the meantime, try to take care of yourself,

Saturday Eve -

Dear Skip -

Arrived here (Pittsburg)
yesterday evening about
five and spent an
hour trying to find
the address - Left
Harrisburg around 8:00
over route 22 which,
I was told was 20 miles
longer but more level

that level business appealed to
me — but, about 50 miles
out ran into roads under
construction and detours for a
total of about 70 miles —
and you should have seen
Margaret's eyes ^{"POP"} when I started
down the first mountain —
about Altoona, — I was
all fixed for the second one
in second gear — just another
truck — and gave all the
native hill-billys plenty of
room to rush the corners !!
Don. staying here until ~~Monday~~
Tues or wed morning — then
to Ohio, I'll write you from
there — how is Wife and her
pups? out of ink — everyone
in bed — Been out today
with Frankie "sightseeing"

almost a professional
tourist now. Earl and
Frankie are both fairly
well - They expect to stay
here several weeks yet,
Earl has business to
attend to, then they are
going South from here.

I'll write you from
London. - Weather very
nice and cool here -

Love -

Dear Skip:

Did you ever see a square bean? No, well, we have them.... and I think that is about "the last word" in economizing space.... and, why not... I ask you???? We are taught to clear all the fence corners, etc. and plant in something useful.... and, here nature or Burbanks has been allowing bean pods, pea pods, etc. to waggle along all these years growing round or oval kernals and wasting all that space.... it's too bad we could not have had this Democratic admisistration years ago....

Went for a sleigh ride yesterday..... Jim was told that our ancestral sleigh had been snitched from its nook high up over the hay loft sometime last winter, by some young swains in Greenfield, so we took the truck and went searching... found it with only one little piece of the back broken off, and it is now under the tree awaiting a coat, or two, or three of paint ... too bad you are not here to do it ... the sleigh is one made by father's brother before he went to war in 1861; he was three years completing it.... one year making the runners..... I remembdr riding in it when I was a very little girl... wrapped up in buffalo robes... but I've always remembered it as having two seats.... imagine my

to see only one but, they did drive
two horses.... so, I was almost right!!!!

Have to go to Columbus tomorrow and
expect we will stop over in the afternoon
to look the racing ponies over for a little
while..... I'll keep my "sevens" in mind....

Almost time for mail carrier....
nothing of importance.....

Much warmer here yesterday, but still
very pleasant.....

Love,

Margaret

Be sure to forward any mail that may
be there, I'm looking for important mail
from the Beach on the sale of Meridian
property that might be sent there instead
of here, so be sure that it is forwarded
promptly, better yet if by air mail....

Don't send the duplicate copy to the Beach;
just the blue back copy; keep other one
there for my files.

London, Ohio
Sept. 13th, 1934

Dear Garrett:

This deed is for the sale of
my Meridian Ave house; the purchaser is
evidently anxious to close the deal quickly
and, of course, I'm all for that!!

The deed is issued in duplicate,
have Mr. Fisher sign both of the papers in
place marked for his signature.

Then, his name must also have
two witnesses; and it seems to be most
important that the Notary state the date
his commission expires.

After it is all signed up,
send AIR MAIL to:

Mr. E. Odette,
Fisher Properties
Miami Beach, Fla.

Everything fine out here except
the fishing .. not even any oysters, yet;
some Saturday I guess.

Best regards to all,

Margaret Fisher

London, Ohio
Sept. 13th, 1954

Dear Skip:

I'm forwarding, in Garrett's care, so that he may immediately arrange to have a notary acknowledge your signature and then get the paper off immediately to the Beach; so that the sale of the Meridian property may be closed.

I think it is a very good sale; in as much as it is within \$500.00 of my asking price and all cash. I'm naturally quite anxious that nothing happen to upset the sale, so please sign the deed quickly and have Garrett mail AIR MAIL to:

MR. E. ODETTE
FISHER PROPERTIES
MIAMI BEACH, FLA.

Will be "tickled pink" if it- the sale goes through.

Must run along now and get this in the post office.

Love
Margaret

THE CARL G. FISHER COMPANY

MIAMI BEACH, FLORIDA

U. S. A.

PORT WASHINGTON, L.I., N.Y.

September 13, 1934.

Dear Marg:-

I just got down to Port Washington. We have a meeting at 11 o'clock tomorrow of all hotel managers. Then we are all going home and decide just what we are going to do about rates and several other incidentals. Of course, the country is so upset that it is very difficult to tell just what is best to do.

I am afraid of a great deal of internal strife and I hate to think of your driving back. I would feel much better if you put the car on a train and shipped it to Miami, and then take the train back here.

We can take the Packard down, and after it arrives there, I will turn it over to Garrett to run as a taxicab, which will make some small income perhaps; if not, it won't rot to pieces. It is a nice old wagon. We just drove in here in two hours and 45 minutes from Montauk.

I do not know what to tell you about the turkey thieves. It makes me so damned mad that I want to come out there and catch them myself, but perhaps I could not do anything except make a monkey of myself. I believe you are smart enough to catch them, if you have some local help.

I believe I would offer a hundred dollars reward. However, that may be more reward than the turkeys are worth. There must be something wrong, however, if people can come in and steal that many turkeys in one night. Why don't you get a dog, or some sort of a watchfulness over the place?

Webb Jay and Mrs. Jay are coming in tonight to sit around awhile.

Garrett and his girl just drove in.

Mrs. Marks fell down the stairs the other night, trying to get to the telephone in a hurry, and damned near broke her neck. It turned out that she sprained a muscle in her back, as well as her foot, and has been laid up for nearly two weeks since you left.

We brought Ruth down with us, and we are going back tomorrow. We have a slight chance to sell a piece of property in Montauk, but it is very slight. Everybody is going South early, and I want to go not later than October the 15th, and I think you should go early.

According to the papers, there will be 600 to 800 people in Miami Beach by October the 15th who have never been there before December 15th in other years.

I mailed you today a comic section from the Rochester Times. I hope you notice that I am somewhat corpulent. It is a lie. I have lost three pounds since I saw you last.

Gar Wood will be here tomorrow, and he has something up his sleeve.

I am going to be busier than a cat on a slate roof tomorrow and the next day. In the meantime, October 15th is coming along very fast, and we should be out of this country, and all of the houses looked up and sealed up before the 15th - many days before the 15th.

If you want me to do so, I will come out there and kiss all your Aunts good-bye myself - and perhaps some of them are worth while kissing good-bye, because, from what I have heard, your relatives are all rather good looking.

Yours, love,

My dear Margaret:-

Regarding the two mortgages which were sent you for your signature before a Notary Public, a Notary Public in Ohio is all right and I do not know who gave you advice to the contrary.

This mortgage is on the little house which I am building and the terms of the insurance are all right, and we thoroughly understand that between ourselves, as the insurance will not run very long.

It is necessary to get these mortgage papers executed as soon as possible in order to facilitate the payment of miscellaneous bills both here and at Miami Beach. There has been a delay now of about ten days.

As far as your responsibility is concerned, you have none whatever. You are a witness only to a mortgage transaction which is made for an instrument of paying obligations. The transaction is entirely mine, and the only unfortunate part is, that it is necessary to have a wife's signature to a transaction of this kind.

Please don't have any further delay in getting the mortgages back to Mr. Irv Collins at Moorestown, N.J., as quickly as possible.

We have had a hard day here with the hotel men, and we are leaving this afternoon at 4 o'clock to go back to Montauk. The weather is very fine.

Have you caught the turkey thieves yet?

Yours, love,

Carl

boss our cook - to tell us how
to do this & that - to tell us,
what to eat & this & that -
No more - Joseph in the Bible,
said after a guest is three days
old - he is like a fish - dead
three days - he smells. -

connection is not better we will
have to communicate by wire or

well, dear, and - don't forget - be
good: Address me - 437 North St.
