Memo:

Jan. 7th, 1923.

I have a new car coming right after the New York Show, for Mother. Enclosed find some pictures of it. This is the first car I have seen in this country with balloon tires, and Mother ought to be able to ride easy in this car.

Keep the Packard in shape to sell it for \$1,000.00. Put an ad in the paper.

Dear Sir

next week

if I O.K. the bill and

is that all right  
The school is after me  
to mow some of  
their grass at so much  
an hour  
and I told them I  
would half to see  
you.

what do you think  
it is worth an hour  
I will give you  
half cause it doesnt  
take me but one day  
to mow my grass  
I have a few hours I

could spare let me hear  
From you about this  
mother has had a cold  
But she is well she  
was in town this after

My dear Garrett:

I enclose a list of the repairs on the Allison car. It seems that they allowed only \$150.00 in the trade, and it cost \$555.00 to repair it; so I have said that I would take it after it has been repaired.

I wish you would go over and see that they do the necessary things to the car, and then take it over to the house and grind the valves, and give it a coat of varnish. Put it in good shape, and I will have you bring it on East.

There is no reason why you should not mow the lawn for the school and make some extra money. If they will buy half of the lawn mower, I will let them use it.

I haven't received the tennis nets yet.

Yours very truly,

My dear Garrett:

I have yours of the 2nd. The principle reason for mentioning a change was on Mother's account; as she seemed to be very much interested in you and thought you might do better here where you would have more to do.

I have no doubt that the last two years have helped balance you considerable.

I do not blame you for not wanting to drive in New York traffic, it is very difficult and hard on the nerves.

If it is necessary to overhaul Mother's car, it had better be done at once.

I am sorry we did not get the Packard, as it would have given you a good months job. I wish you luck anyway.

Yours very truly,

Dear Garrett;

Enclosed find check for \$96.40, in payment of your statement of the 20th.

I am glad you have the "old wagon" going. I wish you would go out and tell Mary Brenneman how to run the thing and take care of it. They certainly should have enough sense to know that the wagon won't run without oil and that it must have some care.

I am glad you are having cool weather and that Mother is well.

Yours very truly,

Memo:

March 21st, 1924.

Garrett:

I wish before you go, you would make arrangements to paint the top of my Buick, and also to give Miss Collier's car a coat of paint.

I want you to put the bus away on jacks and put the machinery away, so that it will be in good shape next year.

Also want to know if you want to drive the bus next year, and if you are intending to go back with Mother and be with her this summer, or what arrangements you had figured on making with Barney.

Memo:

Sept. 24th, 1924.

Garrett:

If you are going to be South this year you can take care of the busses the same as last year. There will also be one more bus and one more driver under your care.

This work, as you know, will not commence until January. If you want to go West until the 1st of January you can do so. If you want to go earlier and work on my cars you can do this also.

My dear Garrett:

I have yours of the seventeenth. I think you should have a good long rest. I told the doctor that if he thought an operation would do any good that it should be tried, but I don't want to have him do this operation without consulting your father. I told him to wire for your father to come down and we would talk the matter over, and I would pay the expenses of your father coming here. I would like to have him see the place anyway, and I promised him a trip two or three years ago. I am in hopes that if the operation is performed that it will clear up your trouble.

Yours,

Dear Garrett:

I have yours of the twenty-ninth. I still have the radios in the house. One of them is out of commission and we are going to try to have it fixed and take on the boat with us this week. I doubt very much, however, if they will do any good around here as we can practically get no results here now since the Fleetwood Orchestra has gone.

Yours,

CGF:K.

For Brayton Monday  
I want to get into something  
that I want half to stay at

I would like to hear from

Dear Garrett:

Indianapolis

I have your letter of the 10th. I do not think that you should attempt to consider leaving Indianapolis for at least thirty days - sixty days. I do not know just how long I am going to be up here, but if you will drop me a note then I will tell you more of my plans. The doctor wants you to take it very easy and loaf and get your strength, and I think you had better follow his instructions.

Yours,

I have your letter of the 13th and am forwarding it to Fred Hoerger who has charge of one of the buses which is your old Flamingo Bus.

I do not know what arrangements he has made for a driver. If he has'nt made any arrangements, I have no doubt but that he will be glad to make a deal with you.

Garrett Heath:

I am paying for the handles, studs and springs. Next time I am at the garage, I would like to have you show me just what the handles and studs were purchased for, as I am of the opinion that we can purchase other makes of supplies sometimes that would do on Packard cars and save considerable money.
