CARLTON J. CORLISS writes about railroads from personal experience. He has forty-four years of railroad experience. He spent nearly six years on the building of the Overseas Railway to Key West during the height of construction activity. He entered F. E. C. service as labor recruiting clerk in Miami under the first chief engineer, Joseph C. Meredith, and served under Mr. Meredith's successor, William J. Krome, as chief clerk of the headquarters office at Marthon. While engaged in this work, he met and married Loretta Billings, daughter of C. H. Billings, a Miami pioneer. Since 1937, except for a short period on leave of absence to write a railroad history, Mr. Corliss has been manager of the Public Section, a branch of the Public Relations Department, of the Association of American Railroads in Washington. He is author of *Main Line of Mid-America*, the centennial history of the Illinois Central Railroad; *Trail to Rails*, a story of the transportation development of Illinois, and numerous articles on railway history.

R. BRUCE LEDIN was educated at the University of Minnesota and the University of Indiana. He came to South Florida in 1946 as an instructor in botany at the University of Miami. While there he became interested in native plants and in the history of botany in South Florida. Many naturalists visited this region in earlier days and described what they found in nature, and incidentally something of what was going on in the way of human activity. In 1951 he joined the staff of the Sub-Tropical Experiment Station at Homestead where his work is along practical lines of horticulture. He is author of "Compositae of South Florida", and co-author of "400 Plants of South Florida".

WILLIAM C. STURTEVANT early developed an interest in American Indians which led to his majoring in anthropology as an undergraduate at the University of California, and then as a graduate student at Yale University. Discovering the Florida Seminole to be a largely neglected group, he spent three summers and an autumn during 1950 to 1953 visiting their camps to learn about their languages and customs, gathering information for his PhD dissertation on the tribe. This experience has given him an interest in the customs of the Seminoles and in their part in Florida history which he intends to pursue further.

EDWIN G. BISHOP, *Treasurer.*

Callahan & Stuzin, Certified Public Accountants, duPont Building, Miami, have contributed their services in an audit of our books. Their review included the following procedures:

1. Reconciliation of book balances with balances confirmed directly with bank depositories.
2. Examination of bookkeeping entries for cash receipts and disbursements.
3. Comparison of receipts and disbursements recorded with cancelled checks and bank statements.
4. Verification of footings in cash receipts and disbursements record.
5. Compared Treasurer's Report with books of account.

LIST OF MEMBERS

EXPLANATORY NOTE: *The Society provides several classes of membership. Regular or "Annual" members at three dollars a year make up the great majority of the list. For those who wish to contribute more for the promotion of the Association's work, the other classes of membership provide the opportunity, and the publication of their names in the proper category of membership is a means of recognition. "Sustaining" members pay five dollars a year, "Patrons" pay ten dollars a year, "Donors" pay twenty-five dollars a year, "Sponsors" pay one hundred dollars a year, and "Benefactors" contribute two hundred and fifty dollars or more a year.*

*This printed roster is made up of the names of those persons and institutions that have paid dues in 1952 or in 1953 before September 30, when this material must go to press. Those joining after this date in 1953 will have their names included in the 1954 roster. The symbol ** indicates founding member and the symbol * indicates charter member.*
