Mr. Ernest F. Coe,

My dear Mr. Coe:

I have received your letter of June 8 to Secretary Ickes regarding the Everglades National Park Project.

The presence of sincere conservationists in the vicinity of a national park project is always invaluable. Your continued perseverance in the interests of the Everglades project is appreciated by all of us. We hope that you will be able to continue your efforts toward the preservation of an adequate portion of the Everglades.

Sincerely yours,
