

EVER 19901

March 29th.1937.

Mr/Ernest F.Coe, Ex Chmn.,
Everglades National Park Commission,
Court House,
Miami, Fla.

My dear Mr/ Coe:

I have read with a great deal of interest the inclosures and reviewed the minutes of January 11th. but fail to find those of the meeting of Dec. 2nd. The Commission members are entitled to have a complete record of these meetings and every thing else that touches the work of the Commission, so I am calling the over sight go your attention. I would want my copy and I suppose the other will want theirs so please have them ready for us when we come to the meeting Saturday the 3rd. of April. There would not be time to have them reach the members now before the meeting and you can save postage by giving them out when we meet.

I have already notified you that I would be on hand and you may expect me .

I am in hopes that we can push the work forward more rapidly from now on .It seems to have dragged and I am most anxious for definite results and the aquiring of the necessary area with what ever modifications and changes that possibly will have to be made from time to time.

With assurance of full co-operation to the above end,

Sincerely,

Mrs. W.S. Jennings

I appeared before our representatives and Senator at their hearing on legislation here and asked them not to forget the Everglades National Park and its needs for completion but of course I could not ask for any thing definite as the Commission had not adopted a legislative plan. Our representative Mc L. Christie is to be the Speaker of the House.
