

Fletcher had the Amendment passed in the Senate several times, so it would seem that it is up to the House. As the session of congress will probably be extended for some time, it seems possible that these two things might be done. The vote on these two bills would certainly have an effect on your re-election to congress.

With appreciation for whatever you can do to help us,

Sincerely,

Mrs. W. S. Jennings,

President Duval County Highway Beautification Asso.
Member of Everglades National Park Commission.
