IT'S AMAZING, the lengths Att'y Vince Giblin PORTANT for Huttoe and that girl to destroy that goes to shield Lieut. C. O. Huttoe, suspended camera! Miami police officer. We are constrained to reprint several sentences appearing in the Herald's Giblin interview:

"It is high time that the public be appraised of the underlying cause of the repeated efforts through flimsy charges and perjured testimony to effect Officer Huttoe's dismissal from the police force.

"He is a member of the detective bureau. The bureau is infested with grafters and bribetakers. No intelligent and well-informed person can be so naive as to believe that our wideopen gambling is not a result of financial arrangements made by the gamblers for police protection.

"Huttoe, however, is, and has always been, free from the suspicion of graft. His failure to join the forces of the grafters and his activities against them has aroused their bitter animosity. They can Ill afford to have as a fellow police officer a man like Huttoe. They fear him . . . "

Following are some excerpts from the sup pressed document:

(EDITOR'S NOTE: Darrey A. Davis, mentioned in the petition, is present head of the Dade Bar Association).

Prior to March 26, 1948, the said Circuit Judge in a conversation with one of the counsel for the plaintiff, Darrey A. Davis, Esq., stated to the said Darrey A. Davis that the attorneys for the defendant, Messrs. Murrell, Fleming & Flowers, were putting a lot of pressure on the judge to decide the said lawsuit. and that they were harrassing him by continuous visitation to his office urging him to decide the said lawsuit. Therefore, on or about March 26, 1948, one of the members of the firm of Murrell, Fleming & Flowers, to wit, J. H. Flowers, Esq., made a radio talk for and on the behalf of the candidacy of the Honorable ROSS WILLIAMS, Circuit Judge, A few days thereafter the said J. H. Flowers in a telephonic conversation with Marion E. Sibley, one of the attorneys for the plaintiff, stated: "All my friends are calling me two-faced today because I made a radio talk for Ross Williams the other night. That's the trouble with having law partners. All my friends knew that I was against Ross Williams, but John and Ed (meaning John Murrell and Edward Flenting) went to see Ross Williams and committed me to make the radio talk because of some case in which we expect to collect a big fee they have pending down there before Ross Williams." Plaintiff alleges that the case referred to by said J. M. Flowers was the above entitled cause and that prior to the said radio speech made by said J. M. Flowers, he had openly stated that he opposed the said Circuit Judge in his candidacy. Plaintiff alleges that, by reason of the commitment made by the said John Murrell, Esq., and Edward Fleming, Esq., the said J. M. Flowers changed his views towards the candidacy of the said Circuit Judge with the purpose in mind and in view of influencing the decision of the said Circuit Judge in this cause. On or about the date of the making of said radio talk said Circuit Judge rendered the following order:

Would the people of Dade county want to make it impossible for these boys to associate with honest men and women in the future? . make their parents suffer and be shamed in future years -long after the boys had already paid their debts to society?

JUDGE BECKHAM in all probability will put these boys can learn is true, was used esty, ranging from the oldon probation. At no time is he going to suggest that they move away from Dade county!

Instead, he'll insist that they remain here, where theft. heir parents and friends will help them adjust themelves to normal endeavors and pursuits.

OUR "CRIME Commission" has a different code. A vindictive code. Under it, these boys would be deported-and if not, every few years their records would be hurled at them via press and radio, especially if they ever engaged in any business that a Crime Commission sponsor might object to. And their names and the names of their FAMILIES and their children, would be smeared-not for anything they'd done THEN but for something they had done and had been punished for in the past.

The Crime Commission takes no stock in rehabilitation—unless, of course, you belong to the Crime Commission clique!

It's pretty mean, it's unfair, it's hateful—the way they have ruthlessly attacked men who once transgressed but who are now living respectably at Miami Beach, and whose families are now made to

THE ARREST of these 45 youths is the Sign. All Miamians hope they'll be given every opportunity to ehabilitate themselves into useful citizens.

But will the sponsors of the Crime Commission see he Sign?

Probably not. They're myopic—and so wrong!

AST WEEK they said that Ralph Senterfit—who, by the way, hasn't been in trouble of any kind for ten years—owned the De Luxe Bar and that he conducted gambling there.

The owner of that bar phoned MIAMI LIFE that he'd been there for two or three years and that he had no connection with Senterfit and that, personally, he had never been arrested in his life-except for a traffic violation!

Yet he was subjected to a radio attack by the Crime Commission.

What we need in Dade County is a Crime-PREVENTION League—not a "Crime Commission"!

Apparently the only requirement for picking up a few easy bucks is to set up an office for front, think up a good story, and start collecting.

Our public school system s doelorably weak in that there are no practical courses covering even the most simple fundamentals of modern business conduct. The laws designed to punish the offender, after the act, offer no means of warning the possible victim through education or advice.

Regardless of what may later happen to Mr. Podolofsky, the would-be purchasers of the snappy little Play Boy seem to have bought some \$23,000 worth of education on phantom escrows. Our conception of the ideal miracle would be for some great unseen hand to clear away in one single sweep, all of the haze and fog that are built up of ignorance and thoughts of fear, hate and selfishness, so that all mortals could see clearly beyond them. With this done, suspicion, anxiety and mistrust would vanish and the "Tommy Knockers' bedraggled, shopworn, grade would be heard no more.

> CACH DAY the matter of deflated inflation becomes more confusing. In most cities we see business declining and many lay-offs, as well as wage and time reductions among workers. Food prices increase slightly and now for Florida comes wave of "boost county and state officials pay." Circuit udges want \$15,000 per year. Major fee officers, now getting \$10,000 per year want another \$2,500 per year, etc. In the meantime U. S. public payrolls and pay have reached a new high peak in state and local governments.

> Forty-eight states have 4,000,000 employees. Add to this another 2,000,000 Federal employees, aside from armed forces, and it adds up to quite a total. We should be well and ably governed if the number of people working at it have any pearing.

Inflation still seems to be inflated at the top in places, but deflated inflation is beginning to get at a lot of us week to week folks.

And money is granted extravagantly more every year, so much that the poor taxpayer has to cut down on his meals to pay for this will-o-the-wisp higher education.

Let us ask the plain question without any pretty frills, is the higher education worth while when it grossly fails to strengthen the golden rule, to emphasize the elemental virtues of right living, of not doing to some one else that which we do not like to have done to us. Yet, after all, it is not the fault of education, per se. It is too plainly the fault of society at large outside the schools.

Why do not the schools have what might be called morality plays, plays to show practically how the shoe fits on the other foot-how it feels when, after you have Tower's off from further business. stolen or robbed your neighbor, somebody turns around and steals your own scooter or fountain pen or treasured pet?

Directors: Pay More Dividends

Every corporation's executives and directors should discontinuance of deliveries of merchandise to you. weigh these facts when they next meet to determine their concerns' dividend payments. These figures were prepared for the joint committee of Congress now studying profits:

In 1926 corporate profits after taxes were \$7,300, 000,000. Dividend payments amounted to \$4,300,000,000.

In 1948 corporate profits after taxes were estimated at \$20,300,000,000. Of that sum \$7,300,000,000 were distributed as dividends.

In 1926 companies paid in dividends an average of 58.9 cents of every dollar of net income.

In 1929 companies paid out as dividends 69.2 cents on

each net income dollar. In 1938 a high of 75.8 cents was paid out of each

dollar of net income.

In 1946, 43.7 cents. In 1947, 38.1 cents.

And in 1948—the lowest amount in history—the share of each profit dollar distributed to stockholders was only 36 cents.

This publication warned last year, and it more earnestly warns management again this year that such dispreportionate withholding of investors' money for whatever fine purpose is short-sighted, unjustified, and is bound to bring on legislated, forced distribution of greater profit percentages. It is for the investor to decide if he wants more of his money put into a particular company, not the managers of the money he has already invested.

No thinking stockholder advocates anything like complete profit distribution; investors want sound companies, with reserves for emergency, with proper funds for modernization, for sensible expansion.

But they are surely entitled to more than onethird of the profits their investment earns. They get no dividends when there are no earnings, as a rule; they should get fair dividends when there are record

Isn't it plain that one very real reason equity capital is so hard to locate these days is the lack of equity in sharing profits with the man whose money makes them possible? Except for the handful in the sky-high tax brackets, a greater return on their holdings would have much appeal to most investors.

And if the exchange's new effort to attract small savers to stock buying is to succeed, a greater return, a more reasonable snare in profits when they are earned, would certainly add tremendous lure.

If managements don't act themselves along such lines, there are indications Congress will.

PEACE AIDED; LONE G. I. LICKS 7 RUSSIANS

ONE of the most encouraging incidents on behalf of Americanism and peace occurred this week in Vienna when one young American G.I. beat up seven Russian officers, and it took a bunch of Americans to quell the youth.

Such events as that ought to be more impressive with the Kremlin than all of the scraps of paper signed by the different nations and all of the billions of dollars this nation wastes in Europe and China.

One American lad is worth a dozen or more Russians, in fighting, with or without the atom bomb. Physically the United States can lick the stuffing out of Moscow, and Stalin knows it. But mentally, ideologically, diplomatically, and psychologically, the Communists continue to put it all over the inept states manship of Washington and the Western world. But leave it to the G.I.'s, turn them

loose, and the situation would be cleared up in no time. It's the politicians and the big beys who muff the ball and mess up the world.

Huttoe's Narrow Escape

A NOTHER UNSAVORY chapter in Huttoe's career was brought to light by MIAMI LIFE a few years ago with the publication of affidavits signed by Pauline Zeigler. She showed how Huttoe beat her unmercifully, lived in period and made her give Mrs. Huttoe her money.

At one time Huttoe had to resign from the force. That was when Guy Reeve was chief of police. Reeve permitted him to resign to keep from facing charges of attacking a brother-officer's wife.

And while Johnny Rowland was chief of police, Hut-

He signed a confession that he had collected money from gamblers for political candidates he favored. Only the intervention of Mayor A. D. H. Fossey at that time

AND ONLY last year came the recorded telephone conversations proving Huttoe's CLOSE CONTACT with Miami's Underworld in the role of dictator. These 'conversations' proved that Huttoe PROTECTED certain gamblers . . . his voice (and no one can possibly imitate Huttoe's half-literate, hasty, profane and dirty, mean and nasty voice) could be heard directing one gambler as to what he's to swear to in an affidavit that Huttoe would use in "framing" a cop he was after . his black soul.

Time and again, he told one of his Underworld

These occurred while Huttoe was acting chief of detectives. When City Manager Danner heard the recordings he FIRED Huttoe.

And, by the way, the highly touted head of Miami's 'Crime Commission"-Mr. Danny Sullivan-is the man Come In And Say Hello who INVESTIGATED Huttoe! . . He heard every word 2-1413— Phones -2-9183 of those recordings—and unless we're badly mistaken, he has a set of these "conversations" in his possession right now!

He-Director Danny Sullivan of the Crime Commission-testified UNDER OATH as to Huttoe's UN-FITNESS to wear a police uniform.

But, since Sullivan has got his nice-paying role of Crime Commission "head" where he is paid to turn the heat on anybody its eponsors select-you haven't heard any derogatory statements concerning Huttoe emanating from him, have you?

And you won't.

The reason is plain to those who know the Powers-That-Be in Miami.

For Danny Sullivan today is working FOR the people who have longf PROTECTED Huttoe!

Huttoe Gets What He Deserves!

IN ALL this airing of the Huttoe "incident" in the last week, you must be conscious, after reading this issue of MIAMMI LIFE'S, that the daily press carefully suppressed Huttoe's unsavory history.

These papers are now picturing him as a persecuted official. According to the press, "they" are trying to "get" Huttoe . . . inferring that "they" are unnamed sinister influences in the police department. By "get" they mean "they" are using unfair methods.

Unfair?

After all, the beating Huttoe got from Detective Chief Barker was only what Huttoe himself wasn't above giving to women-and even more viciously!

A leopard doesn't change his spots. Huttoe is

oily, he knows how to smile at the right time has become a smooth operator-but down under neath he is the same vicious, immoral, coming illiterate scoundrel he has always been!

The only reason he has kept on the force the last year is NOT because he is guilty as we charged-but because he has a brilliant lawyer who has found loopholes in the law to PROTECT HIS CROOKED AND VERY WEALTHY-CLIENT!

Giblin talking about "perjured testimon" being used in an attempt to oust Huttoe!

The truth is, the wily Giblin has used EVERY TECHNICALITY (and a willy lawyer can find innumerable ones in our archaic legal set-up)—and EVERY TRICK IN THE TRADE—to EXCLUDE REAL EVIDENCE OF HUTTOE'S CROOKED. NESS! . .

And it is THIS—and THIS ONLYthat has kept Huttoe ON the police depart. ment—and OUT of PRISON!

At the Monte Carlo two add-

Tubby Reeves, one of the most beloved characters ever to work in south Florida, acts as host master of ceremonies at only the genial, rotund gentleman can. If I ever get the chance I am going to have Tubby named a "Kentucky Colonel"-he's the only man I know who actually acts it. Hilda Wilde delivers a big time performance with her songs and indicates the ability to hold down a spot on any bill. Large Frosty Glass of Draft Beer Bubbles Darlene, who bids fair to break all records with her exposition of the form that caused George Petty to claim his models come to life, will probably hang up the longest long-time record ever established in any one spot, because it is my understanding that Pearlman is filing her contract with the deed to the property. Tommy "Moe" Raft, scheduled to open for Harold Minsky in New York, has so much sand in his shoes that it is now over his ears, and it may be that Tommy might decide to attempt to get out of the Minski date in order to stay in Miami. Gradually, however, the trade is drifting back because localities have found that you get a mighty big dollar's worth for your money at the Club Bali. Allan Gale's Celebrity Club, a spot that was indifferently successful for the past few years, blossomed out into a real money maker when Gale went in. As a matter of fact I don't believe the spot has had a losing day since Gale opened it. Duke Leonard, song-writer, emcee and an allaround entertainer, has taken over the lounge in the Surfside Hotel and opening business indicates that the 24th and Coihas Avenue spot will be a mecca for entertainers. There's Frederick Gali sning Esther B. Gali, both of Miami, where they were married June 18, arated 10 years later. There are He enlisted in the U.S. Marines promised that she would provide him with a quiet, peaceful existence, but instead after marriage she began a course of conduct which aggravated his condition She fussed, nagged, abused and kept him upset, he asserts. Pretending love, Esther would talk incessantly, finding fault.

The wife, reports Frederick, made false accusations about marital infidelity; made him undergo a daily interrogation about his employment as a plumber. She accused waitresses of being in love with him. He charges that she made threats against his life and deported herself in an effort to cause him to suffer a complete mental breakdown so he would be recommitted to a mental institution, and she could collect his disability compensation from the Veterans Administration. She importuned him to go back to a government hospital. She threw out his clothes and moved her sister in. Esther insisted that she should handle his funds but refused an accounting of how she spent the money. In September, 1947, they purchased a home, paid \$1,250 down and \$69 monthly under a G.I. loan. He asks a financial accounting, along with

Exchange Offers Big Prizes For School Oratory

TO FURTHER education in good citizenship and Americanism, writing and public spealing on these subjects, the Miami Exchange club has voted to make this its major project by offering rich rewards to the winsers annually, starting next year.

The club instituted these contests a couple of years ago and they have met with such success and excellent results, that the club proposes to extend them.

The club will appropriate and divide \$100 among the three winners in each of the five senior high schools in Greater Miami-Miami, Miami Edison, Jackson, Ponce de Leon and Miami Beach. Then there is to be a final con-

test among the five winners, and a grand award of \$1,000 will be BLUE RIBBON LAUNDRY given to further the education of the top student in an accredited institution of higher learning, which meets the approval of the club. The money will be paid to the college or university to cover one year's tuition and any surplus will go to the student.

Oratorical contests have already been held in the local high We are Equipped with 20 Bendix schools, with \$50 divided in awards in each school. The district contest this year will take place at the Miami Women's club Friday evening, May 20.

recognition and a contestant this year has been given national distinction as leader in his field.

The club members believe that more attention in the schools should be directed toward encouragement in studies of Americanism, in scholastic ability, and public recognition of such work. Most emphasis and public competition are given to athletic and sporting events in the schools and the Exchange club believes it is time to stir as much enthusiasm over citizenship.

State Banks Soar

A SSETS of Florida's state bank and trust companies hit an all-time high of 570 million last month, according to Comptroller C. M. Gay.

This record was disclosed by the April 11th bank report call, and showed an increase of 44 millions over the December 1949, re-

"Expansion of bank assets in dicates generally Florida has had a surces ful season, especially our tourist hasiness, citrus and vegctables," said Gay.

You are probably one of thousands of home owners that has had WAER-PROOFING troubles such as peeling and flaking off which is caused by brushing WATERPROOF-

C. B. S. building or tile roof No C. B. S. building or tile roof will take a brush job and hold up because the walls can not be prepared to a condition to apply waterproofing by brush successfully, but we have a method of application that definitely will not chip, peel or flake off. We use a HY PRESSURE SPRAY WATERPROOFING that not only upints but becomes that not only paints but becomes a part of the wall. Our method is CLEANER, 50 per cent cheaper and LONGER LASTING. We open all cracks and fill before WATER-PROOFING.

We also specialize in CAULKING EXPERTLY DONE. NO JOB TOO SMALL OR TOO LARGE. We appreciate all work given us. (AUTOMOBILES TAKEN IN TRADE ON OUR SERVICE.) Thank You. Sidewalls 31/2c Sq. Ft. Tile Roofs 4c Sq. Ft.

FIRST Oil Field Photos! Kin

MIAMI LIFE Photographs South Florida's Biggest Development of 1949-Sunniland (Standard Oil) 80 Miles West-Northwest of Miami

AT LEFT is the way No. 14-now being drilled-looks

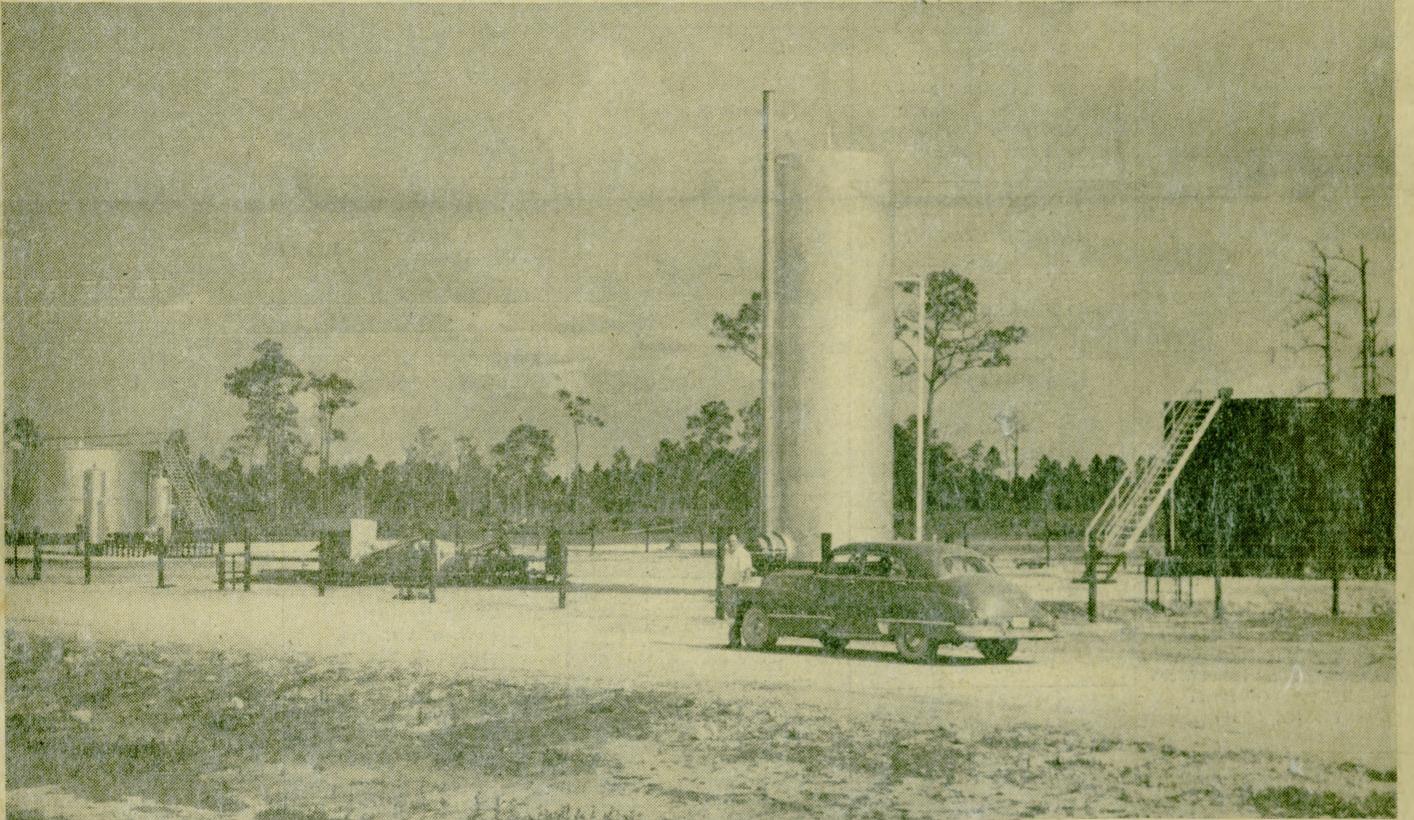

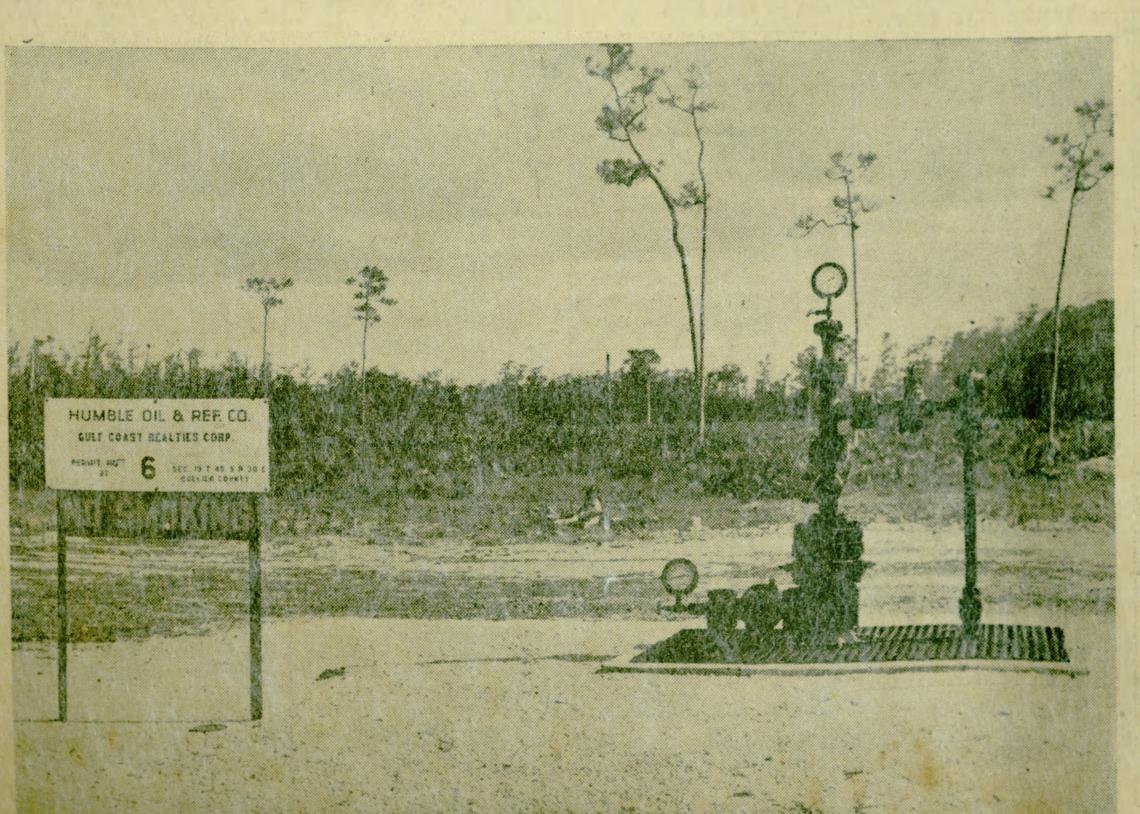

ABOVE—A "pumper type" well, one of the early experimental wells, No. 5.

THIS GREAT oil field being developed west and northwest of Miami is remarkable for two reasons—that it is a much greater potential moneymaker than has been admitted, for due to a variety of reasons, production is held to the minimum—and because there's been NO PUB-LICITY!

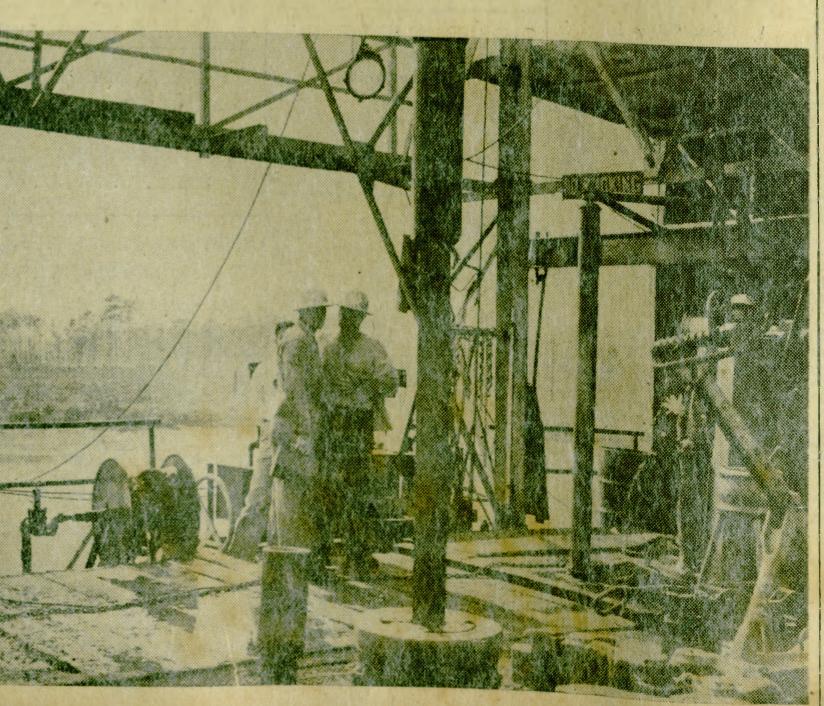

That is, until this issue of MIAMI LIFE!

AT LEFT-In the foreground, a separator that removes water and other impurities. Typical storage tanks (there are nearly 30 of them at present) are at the sides.

LEFT-Here's something to note carefully. This is ALL you see of a "gusher" these days. This is No. 6 which was, until No. 12 was brought in recently, the largest flowing-type producing well in the Sunniland field. It "proved" the field, signalled a great future for Florida oil. BELOW-Some of the crew of No. 14, shown at the top of this page, are preparing to go to work, drilling.
