The firs' was clearly a move to appease the large rathering of Renshaw supporters. The second, howwer, was the real bone of contention-police department control-which started the latest anti-Renshaw offensive.

Now Pat Perdue, the probationery detective who unthe previous administration and under Renshaw's direction, allegedly did what the S. & G. Gambling Syndicate allel him to do, is on his own so far as retaining his propationery detective status.

Consequently, the Beach gambling situation remains unclarified. Renshaw remains city manager. However, Renshaw now knows he faces stiff opposition if he tries tw steer the Syndicate, born and bred under his direction, nt reigning supreme the coming winter as it has before.

He realizes that the only way the Syndicate can control things is for some councilmen to change their viewpoint-at least one.

This is very displeasing to the lush-hotel operators the count upon bookie-concession harvests to help them mytheir obligations as well as draw a Big Money clientele.

Dailies' Evil Designs

FOR THE life of us, we cannot understand the attitude of Miami's two daily newspapers toward the Miami Remil Merchants Association, who make it possible for the newspapers to stay in business!

You find the dailies OPENLY ESPOUSING the cause of the Sales Tax.

And, on the other side, you find the Retail Merchants Ass'n DESPERATELY FIGHTING a Sales Tax.

The merchants KNOW that if a hundred million dollars is raised by this Sales Tax, it means that much to be taken out of the channels of commerce! It may come out of the pockets of individuals, but it means over the course of time, these individuals will have just that much less to spend and will have to deny themselves things that the merchants are trying to

All these items, and small amounts of Sales Tax make eventually a BIG DENT our economy—a DENT that our sorely pressed citizens merchants can't take without being badly hurt.

NOW IF the merchants would pass a resolution CUR-FAILING their ADVERTISING budgets to meet the LOSS business caused by the Sales Tax, we believe a miracuchange in the attitude of the Daily Press toward the relfare of our citizens and merchants (it's all the same) muld materialize IMMEDIATELY!

The Retail Merchants Ass'n should learn, after this, not to follow blindly, as they have in the past to a large extent, the political recommendations of these Monopolyaddicted "Molders of Public Opinion."

Then they'd have men in office, municipal as well as state officials, who'd be more solicitous of THEIR welfare—and the PEOPLE'S welfare—and COURAGE to fight the EVIL legislation demanded by the SHADOWY and AVARICIOUS forces controlling local-daily editorial policies!

You so back to Jerusalem, and I'll go back to the oilfields." Another who felt Hurley's wrath, although not in as vile a way, was syndicated columnist Marquis Childs. The only press comment on this disgraceful performance seen by this weekly, other than an account carried by Federated Press, was in John Herald-Tribune radio column Aug. 23. Tune In Nightly! FREE Political Clinic Of The Air!

For TEN years now MIAMI LIFE has pointed out, election after election, the unfairness of the city's two daily newspapers in their treatment of political candidates and political news and the REAL problems confronting the electorate,

To date, no one has done anything practical about it. But MIAM! LIFE this election intends doing something about it,

MIAM! LIFE proposes a POLITICAL CLINIC-in which, many times before election two months hence, the various candidates—each and every one of them. without charge to them-can analyze what they consider the city's gravest problems and may themselves be analyzed both by the participating broadcast-room audience as well as by the thousands of Miamians listening in.

We intend getting at least an hour on radio EVERY NIGHT (Sundays excluded) for the benefit of all candidates and the public. No candidate will be ignored. The public will be asked to phone in questions they want candidates to answer.

Our moderator will be as impartial as possible.

When questions asked over the phone can be answered yes or no, the question will be repeated over the air and the answers of candidates broadcast.

On controversial questions demanding more than a yes or no answer, candidates will be allotted certain time to answer, not exceeding one minute in any case.

Each evening two, three, or four candidates will be given three to five minutes

each to espouse his own candidacy. This will give those who do not have sufficient funds an opportunity to toot their own horns before the public.

FOR THE FIRST TIME IN RECENT YEARS, the people of Miami are to be given a full opportunity to learn something about ALL, the men running for the three places on the city commission no longer will be the selfish political clique that has the inside track (the Tammany-ized support of the daily newspapers) be able largely to control politics by denying candidates a voice, either through the papers or through City Hall stooges who arrange a few public meetings that take place just prior to Election Day.

It means that between now and election everybody interested in the American Way of Government may tune in the radio station selected by MIAMI LIFE and learn about the candidates EVERY NIGHT . . . a city-wide political meeting each and every evening! . . . Broadcasts emanating from a hall large enough itself to

Above all, this POLITICAL CLINIC will be operated FAIRLY and SQUARELY -a policy that in the past, through daily newspaper maneuvering, has been IMPOSSIBLE!

And another thing: There will be N() editorial comment by the sponsors of these broadcasts DURING the time allotted for the POLITICAL CLINIC!

DY THE TIME you read this, Florida's special session of the legislature may be adjourned-WITHOUT the Sales Tax measure which the Miami Herald and adjourned—WITHOUT the Sales Tax measure which the Miami Herald and other Biggie papers have been zealously grooming in behalf of Monopoly interests, being the paper of the paper interests that at Tallahamse being put over. As we go to press, we find the very interests that at Tallahassee early in the week were betting huge sums that the Sales Tax would pass (in disguised form), are now betting it WON'T!

> If it is whipped, the people of this state may thank the GOOD PEOPLE who've had nerve enough to STAND UP-as have so many of MIAMI LIFE's readers—and OPENLY oppose a sales tax, in defiance of the Herald. Among those GOOD PEOPLE, we of course include the Retail Merchants Ass'n; it has bravely fought it.

Not since the racing bill was put over in 1931 has there been so much money and power used to put over a piece of anti-people legislation as this Sales Tax. The political interests advocating it are, by the way, the selfsame interests that, with the daily newspapers' aid, persuaded sufficient Florida voters to practically outlaw labor unions (by forbidding closed shop contracts, the heart of the labor movement).

Win or lose, we should all applaud the people who've been willing to

STAND UP AND BE COUNTED as Sales Tax opponents.

These are people who are NOT going to FORGET the hypocritical "public servants" who have treacherously espoused this Sales Tax movement!

MIAMI LIFE herewith prints SOME of the names of its readers who have signed MIAMI LIFE's Sales Tax coupons IN OPPOSITION. We sent these to Tallahassee early in the week along with all the others who've been signing our coupons in recent weeks . . . Thanks, PATRIOTS!

Storing Atom Bombs

THE Atomic Bomb, which regardless of rumor is a United States monopoly, should never be permitted to leave these shores. Its secrets should be defended at all costs. In fact, it enders unnecessary large United States armies. We do need, however, a Specialized Atomic Legion and a less-centralized storing in America of our supply of bombs.

The thought of storing them in England for use against Russia in case of war is idiotic. And it's not needed. That's proved by Britain's own accomplishments in the air. Why, they have a jet plane that'll span the ocean in 5 1/2 hours, and it won't be long before America surpasses this speed, all of which proves we don't have to store bombs in Britain.

As long as we control the bombs, and no other nation has the capacity for building them (FDR made this possible with his foresight and resourcefulness, remember?), we control the economy and the peace of the world-and don't forget it!

And there'll be no war unless the Powers That Be in America FORCE war. If we store bombs in England NOW, we have a friendly

administration there, of course-NOW! But stranger things have happened than a change of British administrations. The next administration might be anti-

U. S., and resentful of the "stranglehold" we're supposed to have on the economic world. Then where would we be? Its not that we oppose helping our mother-country.

But let's not take unnecessary chances and risk the danger

of a tyrant taking over politically in Britain. It could easily happen, especially when a country is facing bankruptcy and with its people more likely to suffer pangs of hunger soon and seeking a leader who can get them out of their trouble.

Chattanooga Buys Out Electric Utility, Makes Big Success Of It, But Story Is Suppressed Here!

THE EDITORIAL quote below this paragraph should be read and pondered by every person in Miami, every person in Florida. It means money in the pockets of Miamians-NOW! And a much better future for the children . . It lifts the veil of hypocrisy that has shrouded the sinister machinations of that darling of the Wall St. Buccaneers, the Florida Power & Light Co. . . Chattanooga Celebrating 10 Years In Electric Business

(ATLANTA Journal Editorial Page, Aug. 22)

CHATTANOOGA is celebrating the tenth anniversary of the full-time operation of its electric power system under municipal ownership. Many persuasive statistics are presented showing the growth of the system and the savings it has brought to those whom it serves, since it was taken over from the Commonwealth & Southern Co. in 1939.

The figures of most significance are those showing the extraordinary use of electricity by the public as result of the low rates. In 1939, for example, the average consumption per residence in Chattanooga was 1,694 kilowatt hours. In the last 12 months it has been 4,563 kilowatt hours. That compares with an average of 2,784 in Tennessee and 1,563 in the United States. The rate in Chattanooga was 2.64 cents in 1939. Now it is 1.30 cents.

Experience in Chattanooga confirms the business

WE WISH all Miamians could see in the above what we see. Many persuasive statistics are presented there, showing the growth of the system and the savings it has other states in the region showed tion to a 29 per cent gain in brought those whom it serves, since it was taken over fine our future actions with regard to municipal ownership losses from migration. Nationally, population from 1930 to 1940. Al- from the Commonwealth & Southern Co. in 1936.

The Florida Power & Light Co. today, simply because of MIAMI LIFE's long battle for municipal ownership, is frantically spending millions—even tens of millions of dollars-FEVERISHLY EXPANDING in an attempt to evolve such an intricate financial

principle that the lower the price the greater will be the demand.

The fact, however, that Chattanooga's experiment has been so successful constitutes no irrefutable argument for municipal ownership. It does indicate very clearly that somehow or other Chattanooga has managed to keep the dead hand of politics out of its enterprise in business. This probably has been due to the high ability of the Electric Power Board, headed by Chairman L. J. Wilheite, and the skill with which they have indoctrinated the people of Chattanooga against the intrusion of politics,

Anyway, The Journal congratulates our sister city and its government on providing an exemplary operation. It is like our superb waterworks system, though a far more complicated and difficult business for municipal ownership.

But this Atlanta Journal editorial should clearly deof the Florida Power & Light Co.

The figures of most significance are those showing the EXTRAORDINARY use of electricity BECAUSE of the LOW rates!

In 1939, for example, before municipal ownership.

Pinch of Slow Business

MIAMI LIFE

Dear Sir: Enclosed find \$1.00 for my subscription. It is reported that nearly 500 Miami business houses are feel-

ing the pinch of slow business and that many are on the verge of bankruptcy

The Miami Herald and Daily News have not helped business any by forcing their 300 printers on the streets-300 heads of families who have had to curtail their spending, thereby hurting the purchasing power in Miami. Yet these business firms continue to advertise in these papers who are giving them a back-hand slap.

Who is behind this grocery war? How come Shell and Frederich are now advertising in the Herald? They never did this before this war-never. Could this grocery war have been propagated by the newspapers to FORCE all grocers to advertise to save their own necks? Could it? MIAMI LIFE is not afraid to tell the truth.

Legislators Ignore People

EDITOR MIAMI LIFE:

I am very much opposed to a sales tax, or any other increase in taxes whatever.

I sent a copy of a letter that I composed to all the representatives of the counties of Florida that will meet in Tallahassee, to try to do their best to saddle the people of Florida with a tax that I am sure that the majority do not want. However our law makers have gotten to the point where they think they know more about what is good for the people than the people do themselves. They don't seem to care a rap about what the people need or want or what they do not want. When our lawmakers get together any thing can happen and usually does.

It makes no difference what kind of promises they made when they were running for office, the moment they are elected they forget all about those promises. They have broken their promises so many times that the average man does not have any faith in a politician's promises any more.

the lack of faith in the men who try to run our government, I say old partitions ripped out and new ones installed, there is a maze try, because from the highest to the lowest office in the land, they of pillars and scattered desks. SALES TAX DEFEATED MACHINE IN TENNESSEE

Here is a warning to the Dade County mis-represent tives and all other Florida legislators who vote for a sales tax. They might as well give up any future hope of the ical recognition from the hands of the people.

John T. Ownby, vice-president of the Protective A ciation of Dade County, cites the case of Tennesse, when the Crump machine held power for years, thought it wall do anything. But it was finally turned out when dieposed a nuisance sales tax under the regime of Communication McCord. For the first time the machine was detailed by the now Gov. Gordon Browning. The people had not for gotten. Neither will the Florida voters when the gotten Miami only a breezy "hello" as it clear" was received from the headquarters in West Palm Beach and legislators put over sales and other taxes to be
