ROM an advertising standpoint MIAMI LIFE is Miami's best buy in white space. It has that wonderful asset of CLASS CIRCULATIONfor it reaches every important person, financially or socially, in Miami. And it has the additional virtue of MASS CIRCULATION. It is essentially a LOCAL newspaper. It prides itself upon serving only the MIAMI DISTRICT. Yet thousands of TOURISTS who never glance at another Miami paper are avid for MIAMI LIFE. Nearly EVERYBODY in the Miami district, RESIDENT or TOURIST, reads MIAMI LIFE every week. Furthermore, every column, every page is read—for every COLUMN is interesting. It wastes no space on PUBLICITY or FREE READERS. It contains only the BEST OF READING-and the advertisements of those who have the BEST to sell. No wonder DISCRIMINATING advertisers are picking MIAMI LIFE space to exploit their wares.

Beach Vote Early

As predicted source months and he Miami Life, (and hotly denied by those supposedly in the know), John Levi has chucked his chapeau into the race for mayor of Miami Beach. And this, mes enfants, means two things, i. e., that, not only will he be elected in a hardfought battle with the incumbent, Abraham Frank Katezentine, but all other prospective mayoralty timber is eliminated.

What we facetiously call our reasening for the above statements is as follows:

Precinct 33, or South Beach to youse guys and gels, the largest sector in Miami Beach, in all probability will go to Katzentine. The middle and northern sections of Miami Beach, controlled by the wealthy faction of which Mr. Levi s a member will unanimously be behind the venerable and likeable gentleman whose vitriolic tongue has made many a grifter and grafter squirm in his brogans, ever since Miami Beach emerged from a tiny spot to the biggest little city in America.

Re. the elimination of other prospective candidates, the less said, the better. To name one, Val C. Cleary, ex-major domo of the ocean city, who undoubtedly would have sought reelection despite the legal cloud hovering about his brow, now will give his attention to a councilmanic berth, and, we predict, is a fairly certain winner.

Having thus disposed of the main issue, of the December balloting, we now find ourselves deeply engrossed in the race for chairs about the battled-scarred or bottlescared, or bottle scarred council table. In addition to Mr. Cleary, the list of candidates at the current writing includes Bob Ralston, ing, Dick Mead, Harry Hice, all incumbents, and Art Childers, former councilman, (and a good one), Charles Wheeler, E. H. Griffith the only one to have qualified to date, and possibly Ernie Woolfe, and innumerable others, great and small.

Dick Mead, through his highhanded methods of dealing with the trade during his eight-year tenure, may find himself flat on his back when the votes are counted and our guess is that he will be easy to beat. Harry Hice, a gentleman at all times, both politically and privately, says he will not run, but strong factions are at work to draft him into the race and an easy twoyear victory.

Editor Miami Life: I think that conditions at the Bilt-ore should be exposed to the pub-

lie.

I went to the Hotel School for 15 days and got a letter to report to the Biltmore for 2 days training and then go to work. After the 2 days training we were forced to undergo 8 more days of training without pay and no food the first 4 days and then they furnished light lunches. We were forced to scrub floors, hang drapes, wash windows and set up turniture. Although the work was exceptionally dirty we had to pay own laundry bill and transportation and got only 8 days of work at rate of \$20 a month. We worked about 15 hours a day, Out of this \$20 a month, we had to pay \$2 a week room rent. 75c a day for men's and our own cleaning of uniforms, 50c to clean and 25c to press. Tips were very scarce. I understand that these conditions do not exist at Roney Plaza.

It seems to me that a firm like this could afford to hire sufficient heln and pay them a living wage.

We are now working for \$1 a day doing all kinds of cleaning and nainting of furniture and cleaning rugs in all the rooms of the hotel. It costs us \$1.05 a day to eat and sleep. How can one live at that rate. When the pay is only a dollar a day.

Why take our jobs away?

Wen's NOTEBOOK

There are 900 licenses in Dade county for beer sellers. More than 300 of these are for bars. Whereas, in old saloon days, there was one to each 1,000 of population, in Miami there is one to every 100.

And to people of Miami Beach who are worried because no official announcements have been forthcoming about mayor and councilmen races: Candidates do not have to announce until three weeks before election-which will be the last of November.

Tourists are wondering whether it wouldn't be better to risk political assassinations in Havana than gambling, or racial, assassinations in Miami Beach!
