WHO'S LOONY NOW? TRIBUNE FOLDS UP!

LIFE COMES TRUE

A S IT MUST to all men, death came to Moe Annenberg's Miami Tribune eight weeks ago, although rigor mortus set in only last Tuesday, and Coroner Jack Knight, new owner of the Herald, took charge of the remains as the sun "clumb" over the mountains on December 1st.

Moe Annenberg, himself gave up the ghost in the eerie wee small hours of the morning of December 1st, writing his own obituary, or perhaps, judging from how it read, having his Ghost, himself, do

Before the death rattle resounded through the Morgue, Annenberg gave a couple stiff kicks and read his own funeral oration, which told, mostly, how, having accomplished everything under the sun-save make a damned nickel out of his business venturehe was turning Little Orphan Miami over to a worthy survivor, Jack Knight, the kindly step-mother who will surely love, cherish and protect all you Crackers just as he does his own flesh-and-blood kids up in Ohio.

On the Mourners' Bench, besides MIAMI LIFE, sat such sad-pussed relatives as Ev Sewell, O. B. White, Ex-Judge Dunne, Fred Pine, and scores of others whom he had benefitted at one time or other. Bill Fry, clad in a gown of ebony, rendered, touchingly, "O Promise Me" adding under his breath, "that you won't come back." Earl "Al" Youst, sobbing hysterically over all those greenbacks he had poured into the Tribune's coffers, was unconsolable.

No kiddin', folks, Moe Annenberg himself handed, on a platter, the biggest boost MI-AMI LIFE has yet received-although we modestly admit that of late they're coming thick and fast-by vindicating the SCOOP made exactly 74 days before by MIAMI LIFE that "The Tribune Will Fold Up," and demonstrating that, while "The Proof Of The Pudding Is In The Eating," the "Proof Of The Prediction Is In The Publication." (See adjoining reproductions of chronological stories in accompanying photographs).

On last September 18th, MIAMI LIFE drew a concerted horse-laugh from various quarters by declaring that the days of the Tribune were numbered. These were interpersed with good old Bronx cheers. We knew how that man felt who appeared in the advertisements labeled "They Laughed When I Sat Down To Play."

In our following edition on September 25, we stuck to our story and assured you that 'they don't pay off at the three-quarter post" and ended it up by boasting "Time, like (Continued on page four)

"They Laughed When We Sat Down To Play-"

HE Miami Tribune is preparing to quit business! The impending collapse of the great William Randolph Hearst newspaper empire, scheduled sometime toward the middle of November, makes it vital that the Trib's publisher, Moe Annenberg, one of the "face cards" in the Hearst deck, fold his tent, like the proverbial Arab, and steal away in the dead o'night.

Confirmation of these rumors, bruited about for months, appeared

to be supplied recently by these developments: 1. Arrival in Miami of Joe Ottenstein, Annenberg's right-hand man, and a troop of auditors who immediately started an exhaustive inventory of the Tribune books;

Removal of Hector Elwell, Sr., as managing editor and installation of "Tommy" Thompson in the vacant chair;
4. Drastic curbing of expenses throughout the Tribune plant, including discontinuance of the publication of a "pre-date" mail edition and radical "cutting" of salaries of staff-mcohers.

The situation was this: Since Annenberg first entered the newspaper business

Chicago, he has been a dyed-in-the-wool Hearstling, satisfied to hitch his wagon to the star of the San Simeon publisher, let the chips fall where they might. For years, the Hearst-Brisbane Annewhere Triumnicate bad, evolution, capted of the Receivant News

MAKING THE welkin ring with a battle cry of United We Stand, Divided We Fall! The Dade County Independent Grocers' Association has joined hands with the Dade County Retail Druggists Association—and are putting up their dukes to do battle with the recenly organized and abundantly-financed Chain Store Intertopers.

That they aren't content to "take it lying down" while Northern-owned monopolies invade this district o inflict their customary "sweat sl.op" tactics upon Florida cove and girls is indicated in the following letter received by MIAMI LIFE, only out-spoken champion of the "little fellows" in this district: R. J. Clein, publisher,

Miami Life. City.

Dear Sir:

The Dade County Independent Grocers Association wishes to go on record with your paper as supporting the independent merchant of Dade County and Florida as a whole.

The Association covers all territory between Key West and West Palm Beach, and is in accord with the wishes of Mr. A. W. Morrison and the Druggist Association.

It is high time all parties interested in the welfare of our fair state took some definite stand to protect it and its citizens against the unscrupulous methods of the chains.

It is only reasonable to expect our politicians and daily papers

to wake up to the fact that the backbone of the state lies with the small independent merchant. There are over 18,000 independent grocers in this state alone, not considering the small merchants in other lines of endeavor. We support the druggists and in turn

WHEN occupants of an exclusive Fifth avenue apartment were given notice to vacate on account of the building being torn down they sought permission from the owner to stage a Demolition Party. The landlord consented and engraved invitations were issued. In the meanwhile all valuable furniture, books and draperies were removed to a new apartment, and invited guests probably felt very self-conscious as they arrived in evening clothes carrying crowbars, sledge hammers and cross-cut saws. The result was an eye-opener. The host discovered that Mrs. Hayden-Hayden Fishproof could swing a sledge hammer with the best of them and that when Sir Henry Twiddle-Twiddle went to work on a chandelier with a crowbar he really meant business. When the house-wreckers arrived the next day they frankly admitted they were only amateurs as compared to the blue bloods.

WHENEVER you see a man with a worried expression you will probably find that he is carrying a huge key ring. Each thing worth locking up means an additional key and each key is a symbol of responsibility, hence the worried expression . . . It is all right to have a train of thought if you have a terminal. An automobile traveling 50 miles an hour moves 55 feet after you decide to stop, before your foot can touch the brake pedal. A total distance of 165 feet is the minimum for stopping a car moving 50 miles an hour.

EMPLOYEES of New York's largest hotel have orders to address all male guests by name except when the guests are accompanied by women unknown to the employees. Whenever a guest asks the manager to O. K. a check, the manager displays a great flourish of hospitality by walking to the cashier's window to make the endorsement personally. The guest is well pleased with the performance but he might not be so happy if he knew the manager only escorted him to keep him from raising the amount after procuring the O. K. A guest who does not tip is known to the bellboys as a "Joe McGee." After a guest has run up a bill of \$30 the credit office starts to work. The valet is ordered to check labels in the guest's clothing to ascertain whether they agree with the guest's registration. Directories from the guest's home town are consulted and if the result is not satisfactory the guest is given a sugary letter from the cashier offering "credit privileges." If that fails to bring the guest to the front office the assistant credit manager visits the guest's room and makes a baggage inspection. If the outlook still remains unsatisfactory the guest is presented with a bill. After two more days he is locked out and his baggage held.

A NY nagging wife will tell you that if you give a man enough rope he'll soon have the house smelling like a smokehouse.

AND IT SEEMS as though all of them were at Joe Adams' Biscayne Dog Track Wednesday night at the opener when a few of Uncle Sam's Clackers went through the windows. George Christy was in front of Iron Mike cutting loose with his County Mayo (God Bless Us!) Brogue; pimps and panderers mingled with North Beach elite before the stands; attendants stood around with that opening night blank stare on their mugs and none of them knew, as usual, where the ladies' rest room was located. Thus another season was officially opened.

THROUGH a blue haze of cigar and cigarette smoke, we were lucky enough two weeks ago to see this Dinge, Henry Armstrong, in action at Madison Square Garden. The California Coon is strictly a shuffler, keeping up a bobbing motion reminiscent somewhat of Jack Dempsey with the exception that Armstrong at all times is fully covered up with a pair of huge forearms and elbows. If he has anything other than a terrific right hand punch, he failed to produce it in this last fight. Yet, he bids to take rank among other ebony smaller weight fighters such as Joe Gans, George Dixon and Kid Chocolate. One thing that stands very much against him is that he invariably butts in the clinches and isn't averse to using an elbow instead of a fist when occasion demands.

SOME IDEA of the diversified sports offered in this area may be gained by a perusal of the following schedule for this season:

Dogs Running at Local Tracks Boo'ed By Trainer Greeby

R HAMMERHEAD GREEBY, who was ruled off local dog tracks for using stern-injections of spirits of ammonia to speed up his mongrels, sat in Joe Adam's private box at last Wednesday's opener at the Biscayne Track, swapping true lies with

Lieutenant Colonel Tom McCoun, prominent local gravy- and egg-stain remover.

"Good thing them officials barred me from enter-ing my latest stable star," Greeby allowed, flicking the ash from his Pure El Collard Perfecto down the yawning nape of a ladies squirrel coat.

"Did you really have something?" Col. McCoun asked, placing his wallet in his hip pocket on the yon side from La

"Well", replied Trainer Greeby, modestly, raising his voice to a falsetto to penetrate the roar of Announcer George Christy, who at the moment was requesting an unknown Hoosier to remove his auto from the front turnstiles. "This pup was so blamed rapid on his pads that our stop watches couldn't keep up with him in the trials."

Col. McCoun grunted. "Use ammonia again?" he asked.

"What d'you mean, ammonia?" roared Greeby. "I never resorted to ammonia in my born days," he expostulated, in no uncertain terms. "All I ever injected was Sloan's Liniment. But getting back to this dog of mine, he would have passed them mechanical rabbits out there like a shadow. The only thing I was afraid of was that he'd circle the track so fast he'd collide with the startin' stalls before they could remove them."

McCoun summoned a boy and purchased a sarsparilla soda, an Old Kentucky custom.

"You see," continued Greeby, "this dog was a cross between a Sky Blue Mongolian Augerhound and a Dalmacian Darter. When he was only a week old, I noticed something wrong with his shoulders and took him to a veterinarian to see what it was.

"Well sir, I was nearly bowled over when the doc told me that pup was actually sprouting wings-yes-sir, wings! At that time, they were mighty poor specimen of wings, but wings they sure were. In

no time at all, tiny feathers started showing and before I knowed it, that blamed cur had a full set of wings.

"One day I went out to the kennels to feed and that amphibian star of mine was gone. I found him at a neighbors fraternizing with a young shepherd bitch and showing off before her by making power dives, Immelmann Turns, Fallen Leafs and every trick that ary a

plane ever done. The pup had simply flown outta the kennel."

Col. McCoun stirred, uneasily. "Listen, Greeby, you been drinking?" he demanded. "Whoinell ever heard of a dog with wings?"

Greeby sneered, like a bartender in a clip joint. 'Well' my man," he answered, condescendingly," that shows what you don't know about science would fill a book! Come to find out that some time before this dog of mine was born, his mother was scared by a chicken hawk! But rather than waste time, I think I'll go below and lay a bet on Number 8 in this next race to show—if you'll loan me a buck until I come back."

Eagerly, Col. McCoun loaned the buck and jotted it down in a note book as a reduction in next year's income tax return.

THE only so-called civilized country in the world I that puts a premium on suicide is Japan. The Turkey of the Sultans rewarded soldiers who lost their lives in battle with the promise of Eternal Glory. So they became so recklessly brave in the face of the enemy that they defeated the purpose of the Holy Pledge. Just as William Wrigley, Jr., some years ago offered \$50,000 to anyone who produced a plan which would make gum-chewing respectable, the Japs today will sell their respective souls to discourage suicide, which destroys, in proportion, as many people as automobile accidents erase in the United States.

TET, the Japs, under the Shoguns, virtually invented wholesale suicide. To the Occidental mind the scheme seems ridiculous, but it works in the Land of the Rising Sun. If a Jap, for instance, doesn't like the way a public official is behaving, he doesn't write a letter to the editor of a paper. He simply grabs himself # handy butcher knife, inserts it in the left side of his belly and "cuts himself a piece of cake." That squares everything. People admire his memory and respect his disregard of life.

DMIRAL Togi, hero of the sea battle at Port Ar-1 thur along about 1904 which defeated the Russians, took the Hari Kari route and his loyal wife, believing her ancestors expected the same of her, inflicted upon herself the same lingering and, so they say, painful death. The Japs say an ignorant, undeserving person never commits suicide. He, or she must have abundant grey matter between their ears -and courage. That's why they are such bestial

THAT suicide squad, so named by Occidental correspondents, which attached live-bombs to their bodies and blew themselves and the barbed-wire defenses of Shanghai to bits back in '32 weren't as brave as you would think. They were exhibitionists. They believed on the other side of life there would be awaiting them a royal welcome by their ancestors-everybody who had gone before. They jumped at the chance to thus accumulate rewards which otherwise would have been denied them. So, they became he-

WE WON'T NAP

Your publication has done Miami parents of growing children a very fine service in staging such a vigorous campaign against public smut in such legalized sink-holes as the La Paloma Club as to compel the authorities finally to take action and close the place. But don't for a moment relax because they will either open again when the hueand-cry dies down or bob up some other place. MIAMI LIFE has gained some priceless prestige through this great work and we parents are becoming to look to you for the only fearless protection we may expect.

Mr. and Mrs. Fred F.....

Editor:

Some time ago I telephoned your office to discontinue send ing MIAMI LIFE to me after you published a story about Walgreen's Store which I did not like. I have before me as I write this, an old copy of your paper which has a headline predicting the "folding up" of the Tribune. I cannot afford to be without such a paper. Please resume my subscription.

Editor:

Your front page cartoon, "Moon Over Miami," depicting a robed Ku-Klux Klansman above a night club, tells a graphic story. It is hard for any God-fearing citizen to condone the acts of any organization which attempts to usurp the law and take matters in its own hands, but in this particular instance it is equally as difficult to find fault. Had the law enforcement agencies acted in the first place, the Klan demonstration would have not been necessary. MIAMI LIFE is to be congratulated. J. R. Mac.

CLEVER THIEVES perpetrate fabulous robberies every day in the year and the smarter their victims, the harder they fall. A newly-married couple in Philadelphia recently received a pair of theater tickets in the mail. A note attached read "Guess who." Thinking the tickets had been sent by some friend the newlyweds sailed out for the theater. When they returned they found their home looted from cellar to attick. On the dining room table they found another note which read, "Now you know."

AN ANCIENT dodge used to pass a counterfeit bill was revived recently in Indianapolis. A hobo entered a restaurant and tricked the proprietor into giving him a free meal, with an unusually good hard-luck story. At the end of the meal the bum pulled a handkerchief out of his pocket and a ten-dollar bill dropped to the floor. The proprietor was so incensed at letting the imposter hoodwink him that he grabbed the bill, deducted the price of the meal and threw the fellow but still serviceable.

SWANKY department stores are first class prey for swindlers. One of the most lucrative "gyps' is the one in which the swindler telephones an order for expensive merchandise to be delivered to the home of some wealthy customer who has a charge account at the store. Of course the crook poses as the person who has the account. The merchandise is duly delivered and is generally accepted by the parlor maid or a butler. A few moments later the crook telephones the home to which the delivery was made and this time poses as an executive of the department store. He informs the butler or maid that a mistake has been made and that a man from the store will call to get back the merchandise. At the end of the month the customer gets a bill which he denies owing and the crooks have several weeks to make a get-away before the fraud is discovered.

THE MOST amusing one of all was the woman who rented a out. When he discovered the luxurious furnished apartment in money was counterfeit he had no a ritzy Buffalo neighborhood. EX-FELONS SEEK NEW WAY TO DODGE CLINK

DURING the World War, front line trench soldiers used to say "the best way to keep from gowing to war is to join the quartermaster corps.'

Apparently a bunch of yeggs, thugs and other such strayers from the straight-and-narrow path believe the best way to keep from going to The Big House or Chain Gang is to join up with a police force.

Some fifty would-be cops who filed application for jobs on the Miami Police Department under Andy Kavanaugh wondered why they never heard from them. J. Edgar Hoover, the loud-speaking G-Man could tell 'em. For out of 299 applications made during a single month it was discovered that 50 persons who filed had criminal records, with fingerprints on file at FBI headquarters in Washington. .Out of 1336 applications filed at Miami Beach, some 10 per cent had police records, including everything from robbery to grand larceny.

Perhaps these birds subscribed to the theory that "It Takes a Thief To Catch A Thief."

DEATH KNELL FOR TRIBUNE!

LIFE, will tell." And HASN'T IT?

Most of our ridicule came because exactly one week after we predicted the Tribune's folding up, the Tribune staged a helluva big puff-show, dedicating a new costly press and opening an ultra-modern building, with Mayor Bob Williams presiding and a host of other celebrities entering into the spirit of the occasion, while politicians, peanut and genuine, wrote paens of praise to the Trib for their "splendid service to the community." It was THEIR night to howl-and they howled.

Honestly, now, can you blame US for grinning like a Chelsa Cat, rearing back on our

hind legs and gloating: "We Told You So!"

You may not believe us when we say that we honestly are sorry to see The Tribune pass from the picture, but it's so. The Trib was a worthy foe before Paul Jeans met an untimely death and we gloried in the battle that sheet gave us. Attacking The Black Widow of South Miami Avenue, The Herald, and the straight-laced old Dowager of Biscayne Boulevard, The News, is too much like chasing old women up back alleys to suit our taste. They leave themselves too wide open.

Today, newspapermen-and women-are a glut on the market, due to the fold-up of the Tribune. Speculation is in that familiar stage known as "rife" as to what the Herald intends to do with the Tribune plant. There are those in Miami who still insist that it was Annenberg who bought the Herald instead of the reverse ,but in answer to these

Moe Annenberg, over his signature, told the people of Miami he was quitting the Miami field. The Herald emphatically informed the public IT had purchased the Tribune. In the highly improbable event that those statements were out-and-out-lies, the actual buyer would be so discredited in the eyes of the buying and advertising public that not a shred of prestige would be left them. Remember what Abe Lincoln said about "foolin' the people!'

One sorry aspect of the demise of the Tribune is the inefficient manner in which the Herald has utilized the services of the Tribune. It was quite a shock to find Westbrook Pegler buried under a colorless caption, his vitrolic pen made as colorless and inane as that

of H. Bond Bliss; Walter Winchell's newsy magpie chatter made to read as the ravings of a frustrated sob-sister'sand Heywood Broun's pulsating observations discontinued altogether. We haven't located General Johnson's radical, didactic ravings in the Herald even yet-perhaps because we never read the classified ad section!

To those scores of LIFE readers who have written and phoned in congratulations on our 10-week scoop of the Tribune's collapse, let us assure all that we appreciate your felicitations, and extend our regret that we cannot publish all as we should like. Rather, this publication shall exert every effort to express our appreciation by continuing to give you ALL the news the other newspapers SUPPRESS!

of straight Old Kentucky liquor, served the Hard Way or with a dash of ginger ale, down to a pair of seersucker pants, great activity has been manifest among independents to organize an United Front and beat the combine at its own game.

Other previous attempts to organize have proved abortive chiefly due to the fact that little "missionary" work-that is, store to store canvassing, was done previous to the calling of mass meetings by ill-informed if well-intentioned leaders. Today, an investigation proves that the backward independent is beginning to realize that if he doesn't join with his neighbor down the street apiece, he'll soon be putting up a "For Sale-Cheap" sign in his cob-webbed

Once again, MIAMI LIFE assures independents its columns are open to them in any effort to organize, regardless of how much revenue this publication loses by not joining other publications, such as the Herald and News, in straddling the fence-and thus EAT its cake and still HAVE it!

Solicitor Taylor was what is known as "burned up" over an erroneous story appearing in a daily paper to the effect that he was attempting to 'white wash" Youst and the La Paloma. The "journalist" in whose fertile mind this figment of imagination was born apparently needed something with which to impress his superiors. Sheriff Coleman, too, amazed and angered at accusations that he would sacrifice deceney to permit Youst to peddle such demoralizing and indecent aptitudes to the public has bent every effort toward squelching the depraved passion palace.

Threats of retaliation against MIAMI LIFE for starting the whole fight against the La Paloma Club, while disregarded by officials of this publication, came to the attention of authorities of city and county and this phase of the affair was being

investigated. Meanwhile Carrie Sanders, an inmate of Youst's harem, was whisked out of town and, although the dissolute, perverted joint was again open, there were exactly seven customers partaking of the place's wares a few nights ago, it was reported.
