

The Honorable Lawton Chiles
May 9, 1972
Page 2

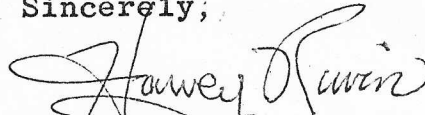

I anticipate appearing before the Florida Cabinet on May 16th and the Senator's efforts in seeking Federal Funds or recognition, in the interim, would be most effective.

The importance of this Site cannot be over estimated. Aside from the recreational needs that could be furnished and the scientific - educational content, preservation of this Tract will be a meaningful and useful MONUMENT befitting its location at the main entrance of INTERAMA.

Please convey our appreciation to Senator Chiles as well as our hope that the next time he walks Biscayne Boulevard he will find the treasures of Arch Creek rather than automobile and concrete at 135th Street.

Awaiting your advice, I am,

Sincerely,

HARVEY RUVIN LAW OFFICES
