Dear Friend and Fellow-Futurist:

Albert Einstein was fond of saying, "Our heritage is not something we inherit from our parents, but rather something we borrow from our children."

On May 8th, Dade County won a victory for Environmental Preservation that will help pay that debt. May I join future generations in a deep sense of appreciation to you for the part you played in that victory.

Surely more needs to be done on many fronts, but isn't it nice to win one? Thank you!

Sincerely,

Harvey Ruvin
