Gables 'Big Game' Hunters Bag Panther at Imokolee

What started out to be turkey hunt turned into a "big game" episode this week for a party of Gableites at Dr. Arthur Weiland's plantation near Imokolee.

The prize catch was a large panther and its nemesis was the youngest member of the party. Paul "Judge" Welch, son of Dr. P. B. Welch.

The party had been searching for turkey and quall when they discovered signs of some large body having been draged along the ground. Searching further, they discovered panther tracks and immediately set the dogs on the trail.

and immediately set the dogs on the trail.

The dogs soon treed the big cat, but before any of the group could get a shot at it, it leaped over their heads and vanished into the Glades.

The search continued until Dr. Weiland discovered the panther for the second time by the hair raising method of almost stepping on it, as it lay hidden in the tall grass.

Treed for the second time, the cat was shot through the shoulder by young Welch. One of the dogs, rushing in to attack the beast, was slashed badly before Welch could get a second shot into the animals' head.

Brought back to the Gables, the panther attracted large crowds of spectators at A. B. Mack's service station, where it was displayed. It is said to be one of the largest ever bagged in this section and to it is credited the death of several head of Dr. Weiland's prize cattle.

Business Women's Club to Honor National Vice-President

The Coral Gables Business and Professional Woman's Club will have as their distinguished guest of honor next Tuesday night, at dinner at the Country Club of Coral Gables, Miss Mar-garet Hickey.

Clab of Coral Gables, Miss Margaret Hickey.

Miss Hickey, of St. Louis, now serves the National Edecration of Business and Professional Women's Clubs, as its First Vice-president. Lawyer, business woman and educator, she has addressed audiences in coast to coast appearances in cities and towns, men's and women's groups, conventions, service elubs, high schools and colleges on the importance of sound vocational preparedness. She has been an early leader in the vocational preparedness. She has been an early leader in the vocational guidance movement in Missouri, bringing together employers, employees and students in career conferences and job clinics, so that both the beginner and the more mature might attain greater usefulness to themselves and their community. She is now a member of the Council of Guidance and Personnel Association. She has served as National Educational Chairman of the National Federation of Business and Professional Women's Clubs, and has been especially active in their program for the mature woman worker. As a consultant on career problems, she talks vividly and realistically about the vital problems of getting and holding the job, traits and attitudes and realistically about the vital problems of getting and holding the job, traits and attitudes

the job, traits and attitudes needed for greater service. "People have worshipped the false success Gods; we must deglamorize them, and point out the permanent values," she declares. As founder and owner of Miss Hickey's Training School for Secretaries in St. Louis, Miss Hickey has developed a unique program based on progressive practices in vocational guidance, training and placement.

Miss Hickey is a member of the Missouri Bar, the Woman's Bar Association, the National Association of Woman Lawyers, the St. Louis Scroptomist Club, an organization of women executives. She is also active in civic life and is a member of the Public Affairs and Legislation committees of the St. Louis Chamber of Commerce, member of the Board of the Washington University YMCA. She has been president of the Missouri Federation of Business and Professional Women's Clubs, as well as president of the St. Louis County Branch.

Miss Hickey has vacationed annually in Miami Beach for a number of years. In private life, is Mrs. Joseph T. Strubinger. She and her husband are guests this year at the Ocean Spray Hotel, Miami Beach.

All of the Business and Professional Women's Clubs in the seventh district from Palm Beach to Homestead will be represented at the dinner. The Hialeah Club will be co-hostess at the dinner with the Gables club.

James B. Moore, Navy Editor of the Riviera, was also requested by the Navy this week, to continue efforts to interest local men in the service.

A relaxation of physical standards for enlistments in the U. S. Navy and the Naval Reserve has been announced by the Navy Department. It commenting on this action, the Navy Department announcement stated that numerous men who in past months have sought to enlist and have been rejected on the basis of minor physical defects will, because of the modification of physical standards, be encouraged to re-apply for enlistmen in either the regular Navy or the Naval Reserve for the duration of the energency. The Navy Department has requested that any person knowing of young men who had been barred from enlistment in the Navy or Naval Reserve because of minor physical reasons should bring this modification in physical requirements to the attention of these young men.

Applicants with varicose veins will be acceptable under the changed standards, this varicocele condition to be corrected, if the condition is painful, at the Naval Training Station to which the new recruits are sent. Hydrocele, another defect that formerly ruled out numerous applicants, will be corrected, if necessary, after enlistees arrive at Training Stations and will be enrolled for schooling during their periods of convalescence.

Other physical defects which formerly prevented men from being accepted as recruits, but which are now waived, are seasonal hay fever; correctible nasal deformities or nas

Orange Bowl Float Unique; Beauty Queens Are Babies

From all indications, Coral Gables will have one of the outstanding floats in the Orange Bowl parade. At least it will be different! The beauty queens will range in ages from three to five years.

Designed by Upton Ewing, the float is a departure from the usual type. It pictures a small home with an open patio, in which a typical Gables family will be seated. The house will be ivery and the only color used will be in the flowers and foliage provided by the city nurseries.

Returning Students

Of special interest to Gabeites are these returning 'freshmen' at Tallahassee, who arrived last week. Concluding their very first semester hey include: Margie Loomis, Susanne Bonner, Frances Vandiver, Frances McGarry, Ethel Dimmig and Alice Kamerer. From across the way at Gainesville will come Bill Starmann, Bob Goeser, Ed Kirkland, Fritz Myers, Mickey Mixson, Ed Grafton and Stuart Kemp.

Coral Gables' mild weather will probably be heaven to those boys who are back from the cold of northern states. Latham Collins arrived from Massachusetts Institute of Technology, Collins Hay from Brown University, and Peter Herendeen from Cornell.

Mrs. Hibben found ready listeners to the story of her trip by train from California. When the train pulled into the Pasadena station, Mrs. Hibben exclaimed to Dr. Hibben, who followed her a week later by plane, "What in the world is the matter with this train, not a light, it's all black." And that is the way they traveled across the states, each passenger equipped with a flashlight. Twentysix troop cars were also attached to their train.

Mr. and Mrs. Ben Schmidt, of 2417 South Greenway Drive, are having a houseparty over Christmas with the arrival Monday of their son and daughter-in-law, Mr. and Mrs. Henry Schmidt of Covington, Ky. They we're accompanied by their children, Jane, nine; Benny, seven and Ann Gayle, five, who have often visited in the Gables. This year, they requested Grandmother Schmidt to have a piano for them so they could play for her and Grandfather Schmidt. Mrs. Schmidt compiled with their request and a small piano was ready to greet them on arrival.

GIRL SCOUTS

Last week troop 13 met at Colonade Studios where we practiced for our Court of Awards. We are thinking very seriously of meeting here every Friday night.

Last Saturday evening we had our Court Awards and Christmas party. Troop 59 also had their Court of Awards. We had to do stunts for our gifts and we really had a good time. We have had a very busy but happy Christmas week.

Troop 13 wishes all of you a MERRY CHRISTMAS.

Christmas night the Tepee un-packed a huge new present in the form of their big season show, featuring Ray Bourbon, the in-initiable mimic; a whole tribe of real indians, a daneing cho-rus, "Sunny" Brooks, Will Ma-honey, Jr., a dance team, a rum-ba trio and two orchestras for dencing.

Ray Bourbon, of course, needs no introduction to Miamians, as he has long been a favorite winter season star, having appeared at several Beach spots and recently in a well-known Miami night club. Bourbon is equally if not more famous in Hollywood, where for years he operated his own night club and numbered amongst his patrons practically every motion picture star then working.

Will Mahoney, Jr., is the son of the same name who starred for so many years on the New York stage. Will, Jr., has inheirited many of his father's mannerisms, which together with his own material has brought him a degree of success that bids fair to rival his father's.

Possibly the most unique feature of the new Tepee show will be the genuine indian troupe, headed by Chief Joining Water. Two orchestras, Hal Rous and his entertaining band and Chito Morales and his rumba troupe will supply the continuous music for dancing for the four shows which are scheduled for 10, 12, 2 and 4 a.m.

Of special note also is the fact that Curley of the Continental, one of the most famous chefs ever to operate a Miami kitchen, is now head culinary man at the Tepee.

Traffic Rules For Blackout Announced

Tampa, Dec .- From experience gained by the Army at Fort Benning, the following rules have been found to minimize and reduce traffic accidents during blackouts, stated Asher Frank, Director of the Florida Safety Council:

1. When you first get in your car, sit there a few minutes until you get your eyes accustomed to the dark before starting.

2. Drive only about 10 miles an hour. On bright moonlight mights you can drive a little faster.

3. Do not pass traffic. A black-out is no time to hurry and you may hit a pedestrian on the road.

road.

4. Keep about 150 feet from the car in front of you.

5. Use brakes as little as possible. They cause rear lights to flash on.

6. In driving at night, do not gaze at one spot. Gazing causes drowsiness; shift your gaze.

7. If you intend to stop, waye

The Slate Is Clean

In a few brief hours, the Year 1941 will be history.

It was an eventful, exciting year. Centuries from now students will read of it in the pages of their history books.

It was a black year. It saw the tinder box of the world ignited into war by the spark from the saber. Thousands died as demolition bombs screamed from the heavens. Hatred was intense and distrust strode the highways and by-ways.

Into this maelstrom of passion must come 1942; a new year, with all the woes and misfortunes of the old one cast right into its lap.

But it is a new year—a new page in the history of the world. Who knows what the future holds in store for us.

Perhaps in 1942 we will see the beginning of a new way of living—a world-wide return to the principles of the Golden Rule. Perhaps the new year will bring the beginning of the end of the principles of conquest the sword and the worship of the Black Faith, The inclination lies within the heart every decent human being-we know that it can be accomplished.

When the midnight bells ring out the Old Year and acclaim the New, the slate is wiped clean. The world has its chance to start all over again,

So looking forward to 1942 with hope rather than apprehension, The Riviera takes this opportunity to wish each and every one of you a HAPPY NEW YEAR!

A Job Well Done

Cor al Gables' Christmas Festival is now a thing of the past, but pleasant mem-ories will linger for many months to come.

This is the first year that the com-munity has attempted a Yuletide celebra-tion, but its success insures the fact that the Festival will become an annual event.

special credit should go to City Commissioner Wallace A. Bell, under whose guiding hand the musical events attendant to the celebration were nurtured and blossomed. Commissioner Bell also arranged for the memorable reading of the "Christmas Carol" by Fred Koch, Jr., and the colorful pageant, "Holy Night" at the Elementary School.

The untiring efforts of City Manager A. B. Curry were also responsible for the success of the project, for it was Curry, together will Bill Fuller and Doug Fairbanks of the Florida Power and Light Company. who conceived and planned the beautiful street decorations, that added so much to the Festival atmosphere,

the Festival atmosphere.

Any mention of the decoration would be incomplete without a word about the job done by Police Officer C. W. Hecht and Fireman C. T. Wallace. These two city employees worked many hours overtime, doing the actual labor of putting up two miles of lights and laurel and getting the loud speaker system into operation. They were two tired men when the last light started twinkling and the strains of Christmas music poured forth over the city, but they have the satisfaction of knowing they did their job—and did it well.

The musical organizations who took

The musical organizations who took part in the festival contributed immeasurably to the success of the event and Coral Gables will long remember the beautiful music that made Christmas seem so real.

To the Merchants' Bureau of the Chamber of Commerce, sponsor of the Festival, and to all those who had a part in it, The Riviera extends congratulations. It was appreciated by every resident and visitor in Coral Gables.

Paper for Defense

Coral Gables residents should appreciate the city's efforts in the "Save Paper for Defense" campaign.

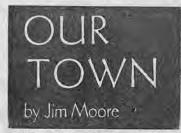

By acting as a clearing house, the city is saving the housewife the bother of bundling paper and carrying it to a col-lection point. It is not necessary to go to any extra trouble at all. Just deposit the

paper in the trash can and the city will do the rest.

the rest.

When the wagons arrive at the incinerator, they are carefully gone over and all paper salvaged. This is baled and sold. It is then made over into containers for shipping defense materials.

Not only is the city helping residents to aid the defense effort, but by the added income from the paper sales, it is helping keep taxes to a minimum.

We're a little worried about the white tile

A gentleman dropped into the office the other day to inform us that everybody in Coral Gables that has a white roof would immediately paint it "Those white roofs will gleam like new dimes

roors will gream like new dimes to enemy aviators overhead," he stated emphatically. "The city ought to make every owner paint 'em red or black."

This upset us, no end. We like our white roof, and we have a sad vision of red or black with the state of the state of

black paint dripping on the nice white walls.

We're glad to report,, how-ever, that after checking up with various officials, we don't

think this redecorating job will

think this redecorating job will JIM MOORE to pass, we think we'll just cover the whole darn thing with pine boughs in preference to the more permanent paint.

At any rate, the gentleman's visit gives you an inkling of some of the suggestions, rumors and tips that come to a newspaper office during war time. Some of them are wild—many screwy and some have some merit to them.

When the F. B. I. started its round-up of aliens, our phone was kept busy as people called

aliens, our phone was kept busy as people called to tell us of different Gableites that had been

to tell us of different Gableites that had been arrested. You'd be surprised to learn how many "enemy agents" are in business in Coral Gables. In a few day's time we had a list of some eleven local men who had been picked up. In every instance the rumor was a phony.

We heard stories of secret mid-night bund meetings; of attempted sabotage to the water tower, University of Miami and the city busses. It got so that we were looking under our desk for Gestapo agents and Japanese fifth columnists.

columnists.

What makes it so hard on the newspaper is that every one of these "tips" must be investigated. Buried somewhere in the flood of wild rumors might be a real news story. So we carefully check 'em all, growing more skeptical with each new "exclusive bit of inside information".

Just to show you how facts get distorted as they make the rounds, let's recount a little in-cident that happened last week. The F. B. I. requested that the city give Sergt. William Kimbrough an indefinite leave of

absence so that they might use him as a G-man during the war. Bill has been trained at the National Police School in Washington, an F. B. I. project, and is well-qualified for duty as a federal

Just a few hours after the arrangements had been made for Bill to leave the local police force for government service, we were stopped on the Boulevard by a fellow Galbeite. "Say," he said breathlessly, "did you hear about them discovering a Fifth Columnist in the

police department?"
Somewhat amazed, we confessed our ignorance and asked for the gory details,
"Why, the F. B. I. agents just swooped down on the police station and arrested Bill Kimbrough. They have him down in the Federal Building grilling him!"
Our intervent.

grilling him!"

Our informant acted as if he was actually disappointed when we carefully explained to him that Bill was now a U. S. government agent and not a member of the Nazi Gestapo.

This may sound ridiculous to you, but it just goes to show what lengths rumors can go. In this instance, it was too silly to do any harm, but we know of several instances where unfounded stories have already caused harm.

There are three or four business places that have lost customers because someone started the word going that they were Nazi hotbeds. In each

have lost customers because someone started the word going that they were Nazi hotbeds. In each instance the information was absolutely unfounded. The tongue is a dangerous weapon when im-properly used. War always brings a flood of false stories, many of which hurt innocent vic-tims. Before this is all over, some scandal-mon-gers are going to find themselves facing slander suits, and personally we hope they get rapped plenty hard.

plenty hard.

"We are getting ready to start on a new year,

"We are getting ready to to the future of all

"We are getting ready to start on a new year a year that may mean a lot to the future of all of us. It would be a good thing if we put at the top of our New Year's resolutions, "We firmly resolve to keep our heads during 1942".

That's going to be an important factor in winning the war. The enemy loves the teller of false information. The tounge-waggers spreads confusion and distrust in our neighbors, and by so doing, plays right into the Axis' hands. So let's be sure of our facts before telling Joe what Sam told us, and adding a few more details to spice up the story.

the story.
Thumbs up and Happy New Year.

Too Late to Classify

The most interesting mail reaching my desk this morning came from my personal friend Van Dusen of the Pan-American Airways. While news dispatches have given us some of this information, details were lacking and Van's letter tells thrilling story of sufficient interest to justify publication. Here it is:

"At 10:30 A.M. (8:00 o'clock Hawaii time) the Sunday watch at Pan-Am's Pacific Division Headquarters at San Francisco had just filed their mid-morning report. The Anzac Clipper, Hawaii bound, was an hour and a half out of Honolulu; the Pacific Clipper was en route from Noumea to Auckland; the Philippine Clipper just out of Wake on the way to Guam; the Hong Kong Clipper ready to leave Manila for Kowloon.

Should statistical organizations stick to statistics? These organizations are out of the "tip-ster sheet" or "magazine" class. They have performed years of faithful service in the compilation of statistics. But they have disappointing in their efforts to become investment managers.

Their first handicap, it would seem, is that they were designed for, and operated for years and years solely in the compilation of statistics,

Statistics is the recording of what has happened. Investment management, while it uses statistics, largely is the attempt to foresee what will happen.

On the whole, statistical or-

On the whole, statistical or-ganizations give far too much weight to the experience of the past. "History repeats itself" only to a limited degree. Our only to a limited degree. Our experience has been that about the only thing you can be sure of is the certainty of change.

It sounds easy to "add another department" for the giving of investment advice, but many a business man has found that the new department fails unless he gets a manager of the very finest

A physician might easily, one would think, add dentistry to his practice and employ a dentist to do the work. But we imagine the calibre of dentist he would want, would prefer to base his own prac-tice instead of operating under the wing of the

Businesses and professions become saturated Businesses and professions become saturated with the lore, the customs, the temperament and the atmosphere of their backgrounds. It is hard to break away into a new department which is so radically different from the parent business or profession, as is forseeing the future, compared with recording the past.

Another pathetic picture is the crowd you see in the "statistical rooms" of brokerage and investment offices and in "business libraries". We have watched hundreds of these investment-information-hungry soils and always they are pouring over balance sheets and income reports, comparing the "five year earnings" of this company with that, or scanning the "weekly letter", hoping to "pick a winner". BLITZ BIRTHDAY— A young lady we know celebrated her birthday last Sunday, Along with the presents, came this bit of verse from her father-in-law, which we think is worth repeating:

With a war that now encircles Nearly all the entire world, And in which our flag of battle Has been recently unfurled With our sailors and our soldiers Scanning blue Pacific skies

With our friends, the Reds of Russia Knowing no such word as fear Hurling lead along with insults Into Hitler's fleeing rear— With the British down at Tobruk Doing quite a finished job t making Mussolini Just a fat Italian slob;

With the Chiangs down in China Adding glory to their name And fighting like the Polacks do For good old Notre Dame;

With our many sons enlisting.
Some to offer up their lives
And some to leave behind them
Weeping, tear-stained little wives.
It might seem a bit facetious
In such tense and troubled times,
To be fitting words together
Into silly birthday rhymes.

But the day is too important
To permit it just to lapse
Because of any trouble
With the Nazis and the Japs;
And so while we are mindful
Of the leathernecks at Wake We salute you with the candles That you'll find upon the cake;

And while we hope the very hell Will rain upon the Jap, We hope that much good fortune Will be dumped right in your lap

So, with these hopes and wishes That are all sincere and true We extend our birthday greetings Again this year to you.

Diary of a Beauty Authority

(This week the noted beauty expert explains how to achieve striking beauty by use of individualistic colifiare.)

New York, Dec. 25—For many long years I have advocated individuality and I have begged and even compelled women who came to me to express their own type of loveliness, to emphasize even their imperfect features. Many of the most and stage actresses who later became famous. Today, it is gratifying to me to see that "in n-classic" beauty is coming more and an official with the courage to dare in her looks and in her clothes, who holds the center of attraction.

Last week I had an opportunity again to prove my theory that un-classic beauty is far more striking than stereotyped prettiness. There is a lesson for every woman in this experience.

Nine of the most famous portunity of the courage of the portraits of women were collected in New York for a charity exhibit to be called "Woman's Crowning Glory", and I was approached by the committee of society women sponsoring the exhibit to interpret the historic colifures of the portraits in modern adaptions. Nine of the socialities offered themselves as subjects, and as I looked at them, all of them with their hair arranged prettily, without distinction, around their faces, I accepted at once.

The portraits which were to serve as the inspirations for

discinction, around their faces, I accepted at once.

The portraits which were to serve as the inspirations for the 'living portraits' were by Rubens, Rembrandt, Sir Joshua Reynolds, Largilliere, Bronzino,

Gentileschi. They were portraits of famous women, famous beauties in their day. No one of them could actually be called pretty; indeed, in each case, the master artist has emphasized the peculiarities of the women—the peculiar charm!

I discussed my ideas with

women—the peculiar charm!

I discussed my ideas with Mr. Michel of my Hair Salon, who executed the coiffures, but not one of the women knew what would be done to them until the opening day of the exhibit. That morning they all came to the Salon for their "portrait" coiffures and make-up, and each woman, according to the contour of her face, was assigned to represent one of the portraits. The result was sensational!

traits. The result was sensational!

One of the women, whom you would never at first glance call a rayishing beauty, turned out so striking that her own husband, who came to the exhibit, did not recognize her, and friends who come stayed to stare until she was actually embarrassed. Ordinarily, she wears her hair softly around her face. Her cheek and jaw bones, according to standards, are much too pronounced, her face too long. But the cofffure she was given emphasized these features even more. Representing Modigilani's painting of Madame Heburtene, her hair was drawn up tightly from the face, neck and sides, and the hair on top arranged in one large roll, held in place with a circlet of jewels, then her cheek bones were shaded with a mauresque make-up film to make them even more prominent than they were. The result was unquestionable, dramatic, individual beauty.

At the exhibit, a girl of eighteen came up to me with a look of rapture on her face, full of wonder at the sight of her mother. "My mother", she told me, "is beautiful!" She was wearing a very simple and classic coiffure patterned after the portrait of Eleonore of Toscana, by Angelo Bronzino. Her hair was parted in the center (something she had never dared try) and combed back off the forehead very smoothly. In the back the hair was drawn down sleekly into one large reverse

with a pearl-studded snood.

It took considerable urging to persuade another "portrait sitter" to have bangs cut, necessary to cut out the coiffure fashioned from Rubens' painting of Helena Fourment. But she was not sorry afterwards. For this hair-do, the hair was parted in the center also, with an arrangement of short straight bangs and deep waves on the sides. In the back, two large curls were placed high with one large reverse roll on the neck. Her already highly arched eyebrow sere emphasized with black eyebrow pencil, her already too full lips made still fuller and more luscious with a rich red velvet lipstick.

Whether or not you are a potential subject for a Rubens or a Rembrandt or a Sargent—you do have the potentialities for individual beauty. Remember that you can be beautiful, even though every feature you have is imperfect. You can have a flawless skin. You can put sparkle into your eyes. You can achieve a lithe, graceful figure and hands that are soft and lovely. After that, emphasize your own personal beauty, yes, your own imperfections, in your make-up, your coliffure, your clothes. Be your own beautiful self! ,
