## DOCTORS GROUP MEETS TO STUDY SITES FOR NEW HOSPITAL

### City Fathers Asked to Cooperate

#### \$30,000 Home For Nurses Also Contemplated

A group of 35 Greater Miami physicians, interested in constructing a hospital in Coral Gables, met yesterday to discuss possible sites for the building and means to bring about its construction as soon as possible.

Plans for the construction of the \$250,000, 75-bed hospital in Coral Gables were revealed to the Coral Gables city commission, Tuesday, by Dr. James S. Lyons, Coral Gables physician.

Dr. Lyons said that the idea for the hospital was conceived by a group of local doctors on learning that the University Hospital was to be sold.

He asked the commission if it would be willing to consider a proposition whereby the hospital would give free hospitalization to city employees in exchange for city land on which to build the hospital.

Lyons said that the group had been studying sites in the community but had made no choice as yet. He said the building should be located away from heavy traffic but near bus transportation.

The commissioners indicated a willingness to work with the group in securing a proper site for the building.

Lyons also indicated that the matter would probably be discussed with Dr. Bowman F. Ashe, president of the University of Miami, upon his return to the city.

He stated that in addition to the hospital it was planned to build a 30-room nurses' home adjacent to the main building. He estimated that the home could be (Please turn to Page Two)

## Report Sale Of University Hospital

Sale of the University Hospital for \$165,000 to Dr. Richard Sena of Union County, N.J., was announced this week on the heels of the word of plans for a new hospital for this community.

Mrs. Clifford H. Reeder, who has operated the institution under lease for the past 14 years, told the Riviera Wednesday, that negotiations were not yet complete on the deal, but that she expected that all papers would be signed within the next ten days.

Dr. Sena, who will assume charge of the hospital on January 1, stated through his broker, Mark Tons, that he planned to enlarge the structure and change its name. The hospital at present has a 35-bed capacity.

The three-story boom-time structure is located on Douglas Road at Coconut Grove Drive.

The structure has long been considered inadequate to handle the needs of a growing Coral Gables.

## SAILOR WITNESSES 'LITTLE BIT OF HISTORY'

### Gables Youth Gives Eye-Witness Account of Atom Test

EDITOR'S NOTE: The following eye-witness description of the atom bomb experiment "Operations Crossroads" was written by Dave Yaack, son of Mr. and Mrs. George A. Yaack, 344 Alesio Avenue. It was sent air mail to his parents the day after "Able Day" and arrived in a special decorated envelope bearing a picture of the U.S.S. Cumberland Sound, of which he is a crew member.

"This is the day after Able Day and I have just witnessed a little bit of history. Everyone on our ship is all right and, as far as I know, there were no casualties whatsoever from the bomb.

"We were all rather disappointed in the first part of the test for the explosion and after effects of the drop itself was nothing out of the ordinary. However, the immense columns of smoke and the beautiful colors of the reaction of the bomb were very breathtaking. I had on a pair of protective goggles with which I could look directly at the actual explosion and I can truthfully say that it makes one stop and think. The first thing that I saw was a brilliant white flash followed by a large reddish ball of fire rising in the very center of the detonation. As this ball grew, triangles of various colors grew out of the center and rising, formed an immense cloud of substance that reminded one of whipped cream. This cloud had all the colors of the rainbow in it.

"In about 20 minutes this cloud had risen to a height of about 30,000 feet and was about two miles in diameter. All

in all, it took about two hours for the cloud to disperse for it remained suspended above the Task Force as if painted there. I found that in this experiment I have several new subjects to write about and I have gained some rather valuable information while out here. I think that I wouldn't have missed this this operation for the world. There are so many things that I saw that I have to sit and think about them for some time before I can write about them. I have a book full of notes that I hope I can use for material in a series of articles or something like that in the future. I want to keep everything that I have seen during this experiment so that I may never forget the little part that I had in making some history.

"That is about the best that I can describe what I saw to you, but I may improve later on when I can get all of the facts cleared up in my brain.

"You may think that I was a little nervous when I was waiting for the bombardier to say 'bombs away,' but I can assure you that none of us had the least bit of fear for there was really nothing that we could do about it. We had been waiting for this day for so long that we could only heave a sigh of relief when the first test came off on schedule. That just brings the time for us to go home a little closer. And, believe you me, we're really counting on that. . . ."

## Tax Rate Changed by Commission

### Millage Reduced; Special Levy For Storm Repair

Coral Gables owners of large residences and business properties will find their city taxes a little less this year, while owners of small homes will find them increased as a result of two ordinances passed Tuesday by the city commission.

The change is brought about by the levying of a one mill assessment on all property, regardless of homestead status, for storm damage repairs. The levy will remain in effect until an emergency fund of \$100,000 has been built up.

The commission also passed the assessment ordinance calling for the following millage:

- 7. debt service
- .8 debt service expense
- 12.2 operating expenses

The new millage rate represents a reduction from last year when the millage was 22. However, all property owners must share the expense of the special mill levy for storm damage.

The special levy was passed after commissioners had discussed its probable legality at length and had been advised by City Attorney Edward L. Sample that in his opinion the assessment for special benefits could be levied.

The levy, part of a reshuffling of the Gables financial program, was made necessary by expenditures of \$70,000 to repair damage caused by last year's hurricane.

Other new measures in the fiscal program include an excise tax on utilities and the installation of parking meters.

## Cent-Nickle Parking Meter Is Selected

Following a lengthy session during which city commissioners heard parking meter salesmen demonstrate their wares and sing the praises of their products, the commission, Tuesday, awarded the contract for Gables parking meters to the Michaels Art Bronze Co. of Covington, Ky. and authorized the city manager to purchase up to 644 of the devices for installation on Gables streets.

The meters, known as "Mi-Co" will be bought at a cost of \$42.50 each, and delivery has been promised within 60 days. The company will send a man to Coral Gables to supervise the installation and to train a local maintenance man.

The Mi-Co meter was selected after the commission had studied eight bids submitted by companies manufacturing parking meter devices. The Gables meter will be of the "multiple penny-nickle" variety which means that persons wishing to park may insert from one to five pennies or a nickle, depending upon the length of time they wish to park. The meters are manually operated, requiring the turning of a lever after the coin has been inserted.

Members of the Merchant's Bureau parking meter committee has recommended that at least 644 meters be installed but City Manager William T. Mellwain has indicated that a smaller number may first be installed, with additional ones added later.

The parking meters are expected to return \$14,000 to city coffers during the first year of operation.

Miss Kennedy, who operates the Ken-Castle School, had previously requested permission to move her school to an area zoned for apartments, just off Ponce de Leon Boulevard, and had been refused. The commission denied her request after apartment house residents in the area had filed letters of protest.

Approval of the new location was given after the commission heard a recommendation from the zoning board.

Action on another recommendation that a bird store be allowed to operate in a C-3 area was deferred until the city attorney studied the proposal.

## Lt. Edward Cannon To Inactive Duty

Lt. Edward M. Cannon, USNR, 1021 Avenue Andalusia, was released to inactive duty on Monday at the U.S. Naval Personnel Separation Center in Washington, D.C.

# High Court Refuses To Mandamus City In Liquor Bar Test

## City Asks Lights for Waterway

### Coast Guard Requested to Mark Channel

The City of Coral Gables has filed a request with the U.S. Coast Guard for the lighting of the channel leading to the Coral Gables waterway, City Manager William T. Mellwain stated today.

Mellwain stated that the Coast Guard had been asked to install both channel lights and range markers and to maintain them.

The request was made following a statement by a coast guard representative at a city commission meeting that his organization would install the markers providing the city would make an official request.

The entrance to the channel leading to the Gables canal is difficult to find and many boats have gone aground seeking to locate the entrance after dark.

The need for a lighted channel has long been pointed out by Gables boat owners.

## Zoning Board Views Gould Subdivision

Following a luncheon at the Country Club of Coral Gables, Wednesday, members of the zoning board of appeals and other city officials made an official inspection trip to view the proposed Emil J. Gould development on the Coral Gables waterway.

Gould has proposed to develop the 70-acre tract which extends along the north bank of the Coral Gables canal east from LeJeune Road at Coconut Plaza.

A proposed plat of the new subdivision was shown to members of the city commission on Tuesday evening. According to the plan, small canals will be dug at right angles to the main canal, to allow boat docking facilities for all lots in the tract.

It is estimated that about 200 lots can be divided out of the tract which would be suitable for large residences.

Part of the land now lies under water and must be pumped up before it can be converted.

## School Site Is Approved By Commission

Approval of the location of a kindergarten on LeJeune Road, just north of the city equipment yard, was given to Mildred Kennedy Tuesday night by the city commission.

Miss Kennedy, who operates the Ken-Castle School, had previously requested permission to move her school to an area zoned for apartments, just off Ponce de Leon Boulevard, and had been refused. The commission denied her request after apartment house residents in the area had filed letters of protest.

Approval of the new location was given after the commission heard a recommendation from the zoning board.

Action on another recommendation that a bird store be allowed to operate in a C-3 area was deferred until the city attorney studied the proposal.

## Lt. Edward Cannon To Inactive Duty

Lt. Edward M. Cannon, USNR, 1021 Avenue Andalusia, was released to inactive duty on Monday at the U.S. Naval Personnel Separation Center in Washington, D.C.

THIS IS VINCENT LaFOLLETTE MILLER, 16-year old Coral Gables student, who was runner-up last week end in the international oratorical contest held at the convention of Optimist International. Miller won the district contest and a cup for the Coral Gables Optimists through his oratorical prowess.

## Former Gableite Jack Ott Staging Navy Swim Show

At the National Navy Championship Swimming and Diving Meet, which will be held at the Naval Base at Jacksonville, July 25 and 26, Lieut. Commr. Jack A. Ott, formerly of Coral Gables, now stationed at Pensacola, will have charge of the entertainment features between the competitive part of the program.

## Bowen Receives Gifts From Fellow Workers

Former City Tax Assessor Gerald A. Bowen leaves for his Virginia apple orchard today with two handsome gifts and the good wishes of his fellow city employees.

Bowen was presented with a gold signet ring on Tuesday by the city hall workers who were his associates during his 20 years of service in this community. The ring had a black onyx inset on which was engraved a cameo head.

On Tuesday evening, at the meeting of the city commission, the commissioners presented Bowen with a gold watch strap and a bonus check. The watch strap was accompanied by a card which read "In appreciation of 20 years of faithful service."

"I feel that I'm leaving a good many friends here in Coral Gables", Bowen stated, "and a part of my heart will always remain here."

Bowen was succeeded Monday by T. C. Blount. He plans to go to his 22-acre apple orchard near Middletown, Va.

## Cops Seeking Motorist Who Drives Nude

Gables police were alerted this week to be on the look-out for a man who evidently makes it a practice to drive nude through the southwest section.

Residents of the area just north of the Gables have reported that the man has been spotted twice recently, and on both occasions he had stopped his car and appeared to be fixing something under the dash board.

He was described as having blonde hair and wearing dark glasses. The nudist was driving a light green Ford sedan.

## Won't Take Original Jurisdiction

### Hassen Expected To Resume Suit In Circuit Court

The Florida State Supreme Court has denied a writ of mandamus forcing the city to issue a bar license to the Howard Johnson Restaurant.

The plea, filed by Ed Hassen through his attorney William Kirtley, has been expected by city officials for some time.

The plea was denied on the grounds that the court refused to assume original jurisdiction in the matter, as a state agency was not involved.

It is anticipated that Hassen will renew his attack on the Gables liquor ordinance, by seeking the mandamus in the circuit court.

Hassen decided to seek legal recourse when his application for a bar license for his Trail establishment was denied by city officials.

At present, liquor licenses are held only by the Country Club of Coral Gables, The Riviera Country Club and the local Elks Lodge.

Another application, filed by George Anderson for a permit to serve cocktails in a restaurant he wished to open on Avenue Aragon. (Please turn to Page Two)

## Rotarians To Attend Fish Party

Members of the Coral Gables Rotary Club will attend a fish chowder party at 6:30 this evening at the home of George Anderson, 504 Avenue Navarre. The regular noon meeting will be omitted.

Fish for the chowder have been supplied by James Helm and Lloyd Park, who organized a special fishing expedition to the Gulf Stream to supply the principal ingredient for the chowder.

Anderson has gained local fame for his fish chowder and it has been called "the best fish chowder in the world, bar none."

At last Friday's meeting, R. W. Harrison discussed the progress of science in Russia, giving a report on his correspondence with Russian scientists which covered a period of many years.

The Rotarians reported a June attendance record of 80.90 per cent.

## Walter T. Miller Leaves Naval Service

Walter T. Miller, Jr., SI/C, has been discharged from the naval service at the Naval Personnel Separation Center at Jacksonville, Florida.

The son of Mr. and Mrs. W. Theron Miller, 705 Avenue Navarre, the Gables youth saw service at Pearl Harbor and experienced the typhoon that devastated Okinawa.

## Dr. Manley to Leave 'U' For New Orleans Business

Dr. Louis K. Manley, professor of government at the University of Miami and active in many Gables civic and social organizations, has asked the University for a one-semester leave of absence to devote himself to private business in New Orleans.

Dr. Manley will leave the Gables with Mrs. Manley next Wednesday for New Orleans and the couple expect to return early in 1947 in time for the first university semester of 1947.

As president and general manager of the Gulf Atlantic Marine Corp., Dr. Manley feels that his presence during the company's organizational period is required at the Louisiana port.

"At the present time the company's activities are confined to New Orleans," Dr. Manley said. "We expect that its scope will ex-

tend to Miami at a later date."

The firm is engaged in marine construction, Dr. Manley said.

The university professor has been in constant demand during his residence in the Gables as an after-dinner and luncheon speaker. He was chairman of the Dade County Planning and Co-ordinating Committee until its dissolution several weeks ago and is a member of the Century Club and of the Country Club of Coral Gables.

Dr. and Mrs. Manley live at 2109 Granada Boulevard.

### Commander Asa G. Abbott Is Released from Navy

Commander Asa George Abbott, of 5 Malaga Avenue, Coral Gables, Florida, formerly of Detroit, Michigan, has been released to inactive duty in the Naval Reserve at the Jacksonville, Florida, Naval Personnel Separation Center. Commander Abbott was called to active duty in October, 1942, and reported to Princeton for his indoctrination. From December, 1942, until his release to inactive duty he was stationed at the headquarters of the 7th Naval District, in Miami, as Administrative Aide to the Chief of Staff of the Gulf Sea Frontier and the 7th Naval District.

A graduate of McKinley High School, in St. Louis, Missouri, Commander Abbott received his bachelor of law degree from the University of Michigan in 1927. Prior to his call to active duty he had law offices in Detroit, Michigan. Son of Mrs. B. E. Abbott, of Grosse Pointe Shores, he is married to the former Helen Louise Beall.

### Jack Ott Directs Navy Swim Show

(Continued from Page One)  
Models were all over the house and you fell over them in the garage, and it was just too bad if anyone moved the parts of one that was in the process of being assembled.

It was but natural that during his senior year at the University, he started his air training. Like other students, he was sent to Atlanta for his cadet work, then to Corpus Christi, Tex. At the latter station he was one of 13 to be selected out of his squadron to train for transport duty. He flew his first transport to South America, and was returned to Kansas for training in instrument flying. Eventually he was ordered to California, and from there to the South Pacific theater, where he remained until December, 1945.

While stationed at Pearl Harbor, Jack put on a number of water shows for Admiral Nimitz and Admiral Halsey, and had such celebrities as Gene Tunney and Dennis Day appearing on his programs. "Anyone who had any talent at all to help keep up the morale of the men, contributed his share," explained Jack. "As I knew the water sports business, that was my contribution."

Last week when Jack was in Miami to pick up talent for the show to be held in Jacksonville, he engaged the Miami Beach Water Ballet, headed by the famous Hoeger sisters, and frequently appearing at the Miami-Biltmore pool; Frank Snary star clown of the World's Fair in Chicago, and Bob Bonwit, featured in the Miami-Biltmore Pool Water Follies. The Fairbrother sisters, "Jim" and "Skip", said to be the most remarkable performers in the swimming profession today, will be headlined. These girls have appeared in all the outstanding parts of the country and are nationally known. A Navy Transport Ship will take the talent to Jacksonville on the morning of July 25th.

So keen is Lieut.-Commr. Jack Ott about the U.S.N. Air Service that when he was recently discharged, he immediately re-enlisted, and is now stationed at Pensacola as athletic director. With 5,000 hrs. flying time to his credit, he will tell you that in his opinion his is the greatest branch of the service.

### Bra Designers Meet Strapless Problem

Hollywood is the inspiration for a new bra with detachable elastic shoulder straps. They can be unfastened in back and tied about the neck to match a halter top with bareback. One strap can be removed to match the new single shoulder dresses. Or both can be removed altogether so you can pin the bra to a completely strapless dress or play suit. This neat trick comes in nylon which washes like a dream and dries in a jiffy. Just a swish through thick lukewarm suds after every wearing and reshape the cup with your fingers. But don't wring—for the wet wrinkles tend to remain in nylon after it's dry.

Another new-for-summer bra is a figure-flatterer outlined with flexible wire. It comes with or without straps, for day or evening wear. The flexible wire is easily removed so the bras may be washed after every wearing, just like all your other undies. It's very important to wash personal items after each wearing for the perspiration and oil from your skin causes damage to the fabric when it is allowed to remain, to say nothing of the damage to your personal daintiness. For straps that have become grimy, use a soapy handbrush or the tips of your fingers, rather than a washboard. It's less strain on both straps and the thread that keeps them on.

**Cooking With Herbs**  
Fresh or dry herbs, when used correctly, give added zest and variety to meat dishes. Remember that too little is better than too much! It takes three to five times as much of a fresh herb as you would use of a dry herb. Herbs most commonly used in meat dishes are basil, marjoram, savory, rosemary and thyme.

The American people own what number who own life insurance, appears to be a large amount of this figure breaks down, however, life insurance — \$163,000,000,000. When divided by 71,000,000, the policyholder.

### Four Trophies Offered in Ball League

Four trophies were offered this week in the Coral Gables Softball League which got underway last weekend. Presented by WGBS are a trophy for the winning team, trophy for the most valuable player, a challenge cup that must be won three times and gold baseballs for members of the winning team.

Winner of the league play, which ends August 22nd, will get the first leg on the trophy. When the league ends, an all star team will be selected from the league to compete in the Gold Ball Tournament. The league has also decided to use paid umpires. Turner's Sports Shop will meet the Jaycees tonight in the league play. Carl Singleton, well known local liquor dealer, has assumed sponsorship of the team formerly sponsored by Coulter's Hardware. The team won the championship in the first half of the league play. Carl's team won by a forfeit on Monday night.

While the population of the United States has increased only 30% in the past 25 years, the number of persons owning life insurance has increased 90% and the total life insurance owned has increased nearly 300%.

### Children Asked Not to Play On Golf Course

Parents living in the vicinity of the Granada Golf Course were asked today to prevent their children from using the links as a playground.

City Manager William T. McIlwain, in making the plea, pointed out that there is great danger of the children being hit by golf balls and seriously injured if they persist on playing in the area.

Current estimates indicate that veterans of World War II have already allowed many billions of dollars worth of their National Service Life Insurance to lapse. Life insurance agents throughout the country are voluntarily engaging in a campaign to urge the remaining servicemen to hold on to their service insurance and also to urge veterans who have lapsed their insurance to put it back in force.

### "Everything For The Motor Car"

### TAKE A LESSON IN BALANCE, MISTER!

We thought that with all the screaming we've done during the war years about rubber shortage, then AND NOW, that you had really learned your lesson, Charlie, about saving wear and tear on your tires. But despite all we've said, you STILL go out and ruin a new set of tires, pound the front end of your car until it becomes a menace on the highway or wrestle with your steering wheel just as long as you can get away with it. THEN YOU COME BACK AND "SOUND OFF" AT US—for selling you "bad" tires or failing to do a good front end job!

We COULD just let you go right on ruining your tires—but despite your "ornerness" we think enough of you as a customer to show you once more what happens when wheels are not balanced. So pull up a chair, Charlie, and listen to something of vital concern to you.

The two types of out-of-balance are static unbalance and dynamic unbalance. STATIC UNBALANCE causes a car to vibrate vertically. It is a question of a car traveling along the road in a bouncing action, and if the bounce becomes pronounced enough the springs are unable to absorb the shock. DYNAMIC UNBALANCE causes a car to vibrate horizontally. It results when the two halves of the wheel act in opposite directions along different lines. The wheels tend to turn inward and outward every 180 degrees. As the wheel turns faster, a shimmy condition is created. A little unbalance at 10 M.P.H. would not be noticed. In going twice as fast, 20 M.P.H. the unbalanced weight has an effect that is not twice as much, but FOUR times as much. That is the reason that just an ounce of unbalance at the tread will develop a 12-pound vibrating force at 60 M.P.H.

In addition to wearing out your tires, unbalanced wheels pound out grease and oil in short order. Then deadly wear sets in. NEED WE GO ON, CHARLIE? We could list at least a half dozen more things that will happen to your car as a result of unbalanced wheels such as interference with uniform and effective BRAKE application, and injured shock absorber links—but why not come in and get acquainted with that wheel balancing equipment shown above. LET YOUR WHEELS TELL THEIR OWN STORY!

### Country Club Christian Church Pastor to Speak on Bible Meterology

"Bible Meterology" will be the subject of the 7:45 evening worship hour Sunday at the Country Club Christian church, 1009 E. Ponce de Leon Blvd., Coral Gables. Spirited singing of the gospel songs and hymns is included in the service.

Jeannine Godwin will play her accordion during the Bible school hour, which is 10 o'clock. There are classes for every age.

Morning worship is at 11 o'clock and Holy Communion will be observed. The 95th Psalm will be read for the responsive reading. Eugene Seaward, pianist, will play Nedra's "Bonna Noite" for the prelude, and "Impromptu" by Motter, for the postlude. The Rev. Harvey John Fritsch, pastor, will speak at both services. States the Rev. Mr. Fritsch, "This 'House of America' is becoming increasingly aware that many of the indigent to whom she opened her doors, were but termites in disguise."

### Episcopal

Summer schedules of services are in effect for the months of July and August at St. Philip's Episcopal church. Services Sunday will be at 7:30 a.m., Holy Communion; at 10 a.m., morning prayer and sermon by the rector, Dr. Christopher P. Sparling, who has chosen as his subject, "What Do You Do With Your Troubles?"

At 12 noon Dr. Sparling will present a class of candidates for confirmation to Bishop Henry Louttit at All Souls church, Miami Beach. Bishop Louttit is supplying at All Souls' church, during the absence of the rector, the Rev. J. Mitchell Taylor.

### Catholic

Church of the Little Flower, 1120 Avenue Anastasia. The Rev. Thomas Comber, pastor. Sunday masses 6:30, 8:30, 10, 11 and 12 a. m. Daily mass, 6:30 and 8:30 (Convent chapel). Confessions Saturday, 4 to 5 and 7:30 to 9 p. m. Baptisms at 4 p. m. (by appointment only).

### Presbyterian

"The Everlasting Gospel" is the topic chosen by Dr. Nevin H. Schaaf, pastor of First Presbyterian church of Coral Gables, for the sermon at 11 o'clock morning

worship service, July 21. Oren Coates, tenor, will sing "Jesus Only" by Rotoli, and Warner Hardman, at the organ, will play "Litany" by Karg-Elert and "Sortie" (Merckel). Members of the Westminster Fellowship will meet at the Parish House for a picnic supper at the home of Miss Joan McClintock.

### Methodist

Dr. J. H. Daniel, pastor of the First Methodist church, has chosen as his text for the 11 a. m. sermon Sunday "From Peak To Peak."

The anthem, "The Lord Is Exalted" by John West, will be under the direction of Mrs. C. H. Neill, choir director. Helen Richards will sing as a contralto solo, "God Is Everything" by Clokey.

The Young People's College group will meet at 7:30 p. m.

### Congregational

At the Congregational church, Rev. Harley R. Coro of Homestead, will be guest speaker at the 11 o'clock service. Kirk McQuain, basso, will sing Mozart's "Invocation" and the choir will be heard in Neidlinger's "Saviour, Like a Shepherd Lead Us." Frances Hovey Bergh, organist, will play traditional "Melody," Spohr's "Adagio" and Mozart's "Dona Nobis." Beginners and primary classes at 11 a. m. as usual.

### Lutheran

Divine worship Sunday morning at 11 o'clock at the University of Miami Music Work Shop, 2900 Ponce de Leon Blvd. at Palermo. The pastor, Rev. C. J. Satorius, will preach on the subject "Alone With God."

The Sunday school meets at 10 o'clock, with classes for all ages.

The Women's Missionary Society will meet Thursday morning at 11 o'clock at the home of Mrs. Walter Jonischus, 2445 S. W. 19th Street, Miami. "Bread For In-

### Baptist Leaders Inspect World Relief Needs

A half dozen Southern Baptist pastors and leaders are traveling in as many different directions this week to make a first-hand study of world conditions. Baptist churches are now engaged in the World Relief Campaign for \$3,500,000.

Dr. Louie Newton, President of the Southern Baptist Convention, is leaving for Russia. Dr. Newton was the leader in the campaign to pack kits for Russia during the war.

Dr. M. T. Rankin and B. J. Cauthen are on their way to China to study Southern Baptist relief needs there. Dr. Rankin is Secretary of the Foreign Mission Board and Dr. Cauthen is Secretary for the Orient.

Dr. M. E. Dodd, pastor Shreveport, Louisiana First Church, is leaving for Australia. He will

discuss the topic for discussion.

### First Christian

Chaplain E. W. Albrecht, of the Pratt General Hospital, Coral Gables, will be guest speaker at Coral Gables First Christian, at the 11 o'clock service.

make a preaching tour, while there.

Dr. Josef Nordenhaug, Lynchburg, Virginia, has returned to his native Norway. He will visit many of the Baptist churches while there, and study relief needs.

Dr. C. O. Johnson, pastor of the Third Church, St. Louis, will make a tour of Pacific bases under the sponsorship of the Chaplain's Commission.

Florida Baptists' part of this goal is \$155,400, according to an announcement made recently by Dr. John Maguire, Executive Secretary of the Florida Baptist Convention.

"Many thousands of people are starving daily," Dr. Maguire explained, "and it is vital that as much relief as possible be sent immediately." Reports indicate that the rate of starvation now is as high as seventy deaths per minute. Relief funds will be distributed by the Foreign Mission Board through its missionaries. This will save time and expense, as well as be the most effective means of distribution.

### Attends Lions Convention

Ira C. Haycock, attorney of 913 Avenue Algeria, and president of the Coral Gables Lions Club is attending the annual convention International association of Lions Clubs, Philadelphia. Enroute home he plans to visit relatives in Atlanta and Washington, D.C.

### Polio Ban Statement Is Challenged

The statement by Georgia health officials that 32 of the 48 poliomyelitis cases in Georgia are along the Jacksonville-Atlanta and Valdosta-Atlanta highways and therefore indicate that "our quarantine against travelers from Florida was warranted and might prove successful in preventing the spread of polio in Georgia", is contradictory, according to Dr. Wilson T. Sowder, State Health Officer.

In the first place, he said, if the quarantine is successful there shouldn't be any travelers from Florida on these highways. Also, if 32 cases of polio along these two routes were supposedly spread by travelers from Florida, it would then appear that the quarantine is not very effective. That however, is certainly beside the point, for all the important authorities in public health have long ago dispensed with the idea that the

disease might be spread along travel routes.

Dr. Sowder also wondered why "with an officially admitted polio epidemic in northern Alabama, and with no record of Georgia having imposed a quarantine against travel from that state, that there have not been reported outcrops of the disease along the highways of that section?" He pointed out that there have been only a minimum of poliomyelitis cases along the upper east coast of Florida, the section from which travelers pass from this state into Georgia, while the Alabama outbreak is much nearer to the Georgia line.

Another illustration of highway travel not spreading polio was cited in Broward County. This county lies between Palm Beach and Dade, where right along, there has been continuous local travel; yet only two polio cases have occurred in that county. If there were anything to the idea that the disease is carried by highway travel, it is reasonable to believe that Broward might be overrun

with it. Many other such illustrations could also be cited.

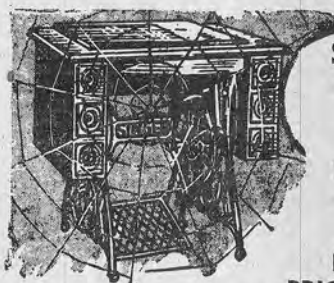

Dr. Sowder re-emphasized that "Georgia quarantine against Florida is unwarranted, unenforceable and certainly not effective even if it were enforceable."

He said he feels greatly encouraged at the present polio picture in the State. Cases have been falling off for the past several days, and it is hoped that the next few weeks will put the State in the clear from the disease. In the past the outbreaks have reached the crest some time in August. It is hoped however, that since it had such an early start this year, that it will also have an early finish. Once again Dr. Sowder urged

folks to be as calm as possible, not to spread rumors, and to believe only official reports about the disease from the health departments.

## Why Worry?

"Everything will be all right," said a young wife and mother. "It always has come out all right. I'm not worrying about the world."

"Everything will be all right." Is that what men in Normandy and Okinawa fought, and bled and died for? A phony boom, a real depression and two wars in a single generation. Is that "coming out all right"? Then what is coming out all wrong? And now we have the hangover of still another kind of war—a world war of ideas in which militant malignant ideologies are out to get democracy.

In the vacuum that followed the last war, Lenin, Mussolini and Hitler started from scratch. This time their ideas have a running start. The defeat of the Germans and the Japs did not defeat the idea that free people cannot or must not take care of themselves. That men must be disciplined, not from within, but from without. And that somebody's own gang, or race, or class or philosophy should do the disciplining.

Free people are in greater danger now than they were in 1939. Then they saw their danger. Now they think that "everything will be all right." What can we do about it?

First—remember that the price of freedom is not war, and then a nap. It is "eternal vigilance." The war for survival is over but the real battle for peace—the real fight for freedom—has just begun. And people who ignore or overlook this fact are far from vigilant.

Secondly—get into the fight—the fight against forces which are still aiming to divide and conquer. Fight for the will to work together. Fight to be and stay united in our homes, our industry, our nation. Fight for a common mind with your wife about bringing up the children. Fight for a common mind with the children too which means admitting where you are wrong and not just pointing out where they are.

Fight for a common mind and heart with your neighbors, with your boss or your employees, with your representative in government. Then you will be fighting to make things come out all right. Fighting for a world that works. Fighting for an indivisible democracy linked with "ties which light as air are strong as bands of iron."

# OUR TOWN

## Cost Plus

By Al Harum

The Riviera did not launch the project embodied in the following fairy tale in the interest either of research or fantasy but Messrs. Grimm or Hans Christian Andersen might have had difficulty finding a better plot. Jim Moore has kindly consented to disposition from his corner so that you, our Readers, may learn how to (or NOT to) build a building. Incidentally, any similarity in plot or characterization to things actual is a mere matter of coincidence.

Once upon a time there was a newspaper editor who wanted to put an addition onto his newspaper plant. After all it was Spring and this Editor wanted to sit by his window and watch people work. So he called a contractor and asked him how much it would cost to satisfy this whim. The contractor frowned and studied and reckoned as how the building would cost \$7,100 PLUS.

"Now what is this here PLUS?" the editor asked.

"Well," replied the contractor, "you pay the cost and we get the plus. It's really a wonderful way to build a building. Of course," he added, "we can't say for sure what it's going to cost so I'll just write you a letter telling you what I think it will cost and you sign a cost-plus contract."

Well, the urge was strong upon the Editor to sit by his window and watch work so he hit all the way down to the sinker.

Spring came and passed and then it was Summer and men worked intermittently. And when the men worked the Editor was happy. And when they didn't the Editor was unhappy because he wasn't sure about who was paying the men for not working on his job.

At the end of each month the Editor received bills for this and that which he paid. Sometimes he wondered what he would do with the sledge hammers, saws and nails which were included in his monthly statements. But the Editor didn't worry long about this for it developed there was nothing to worry about.

Then one sunny morning the Editor passed the \$7,100 mark and he really began to feel the comforting effects of cost-plus, about which the contractor had spoken. This dubious balm continued until the total had passed \$9,500 and the Editor sighed in relief for the job was complete!

Ah, but don't go away, dear reader. You haven't heard all there is to hear about cost-PLUS. The Editor reached deeply into his jeans and finally managed to make "final" payment for his fine new building.

"Whew!" he said. "I'm glad that's over!" Then he settled back to repair his bruised financial structure.

This reclamation project soon loomed into being and the Editor prided himself on his full and complete understanding of cost-PLUS (which he used to call cost-plus, without caps).

Much time had passed since the Editor had moved into his fine new office, when, one day, he met the contractor who said Hello and howareyou, and then added:

"Say, we overlooked one or two social

security items on your job. I'll let you know how much."

So, the contractor soon sent an agent around (couldn't blame him for not coming himself) with a bill for the "overlooked" items for some \$2,100. He asked, very promptly since this was cost-PLUS, what the Editor's disposition about the additional charges were.

The Editor, to resort to understatement,

## It Says Here

You've been having a great time up at city hall this week playing with the sample parking meters that the various bidding companies have submitted for approval. They even dragged them out Monday night and gave the Merchant's Bureau a preview . . . But if Mrs. Walter Harris had

her way there would be none of 'em. Mrs. Harris phoned us Monday to say that the average woman shopper would rather pay a flat \$2 a year than fool around with pennies and nickles every time they parked a car . . . It's too bad folks don't present their ideas at the proper time, which is at the public hearing held for the purpose of such ideas. . . . Our invitation in last week's column to the two Coral Gables members of the National Amateur Press Association to drop in and make themselves acquainted bore fruit Tuesday. George S. Connell came around and made himself acquainted. Turned out that he and the managing ed had lived a few miles from each other back in Pennsylvania. . . . Colonel Beck of the Pratt Garage has been made an honorary member of Kiwanis as a result of his visit and talk to the club last week. . . . Speaking of the Kiwanians, Lieut. Governor Ed Stumpf of West Palm Beach visited the governors last week and brought a quartet with him. . . . We're glad to hear that City Judge "Robbie" Robinson is feeling much better and has been allowed to come downstairs and sit up a little. The doctor has advised him to take it easy for several months. Ted Semple, Paul Brinson and Tom Mayes have been subbing for him on the municipal bench. . . . Have you heard about the panhandler that held out two hats? He said business was so good he had opened a branch office. . . . Derby Pilkington spent five days in Havana recently and according to the Rotarygram feels qualified to speak with authority on matters pertaining to Cuban politics, economic conditions, public morale and especially on night life in the Cuban capital. . . . If you haven't heard Leland Shepard's story about grandpa proposing to grandma, stop him and make him tell it to you. . . . Did you know that Hollis Rinehart was an expert twanger of the six-stringed guitar? Learned in college. . . . Mac and Betty McDonald's daughter Beth reported the birth of a baby to her aunt by telephoning her mama's friends and saying, "Auntie went up to the Biltmore Hospital for a check-up and the doctor gave her a baby." . . . Harvey John Fritsch thanked us graciously for quoting him in the Our Town column on the Biltmore. The

was disconcerted and told the contractor's stooge that his disposition was bad.

So the contractor waited a little while and then knocked off a little of the PLUS from the cost and the Editor, sadder but wiser, paid.

So now the Editor sits in his \$7,100 office, which cost \$11,500 to build, and gives lectures every afternoon on "Why You Should Construct a Building on Cost PLUS". At least once!

## Top Priority For War Goods To Veterans

Veterans of World War II will be granted top-flight preferences in the purchase of surplus property at Florida site sales, William J. Warren, regional director of War Assets Administration said today in discussing veterans' privileges under the amended Surplus Property Act.

Because many ex-servicemen are unaware of the increased advantages granted them through the amended act Mr. Warren has called attention to the following provisions:

1. Special items have been set aside exclusively for veterans for personal, business, professional or agricultural use. However, there are not sufficient amounts of these items to satisfy more than a relatively small portion of the demand. Veterans are served from what is available in the order in which they have been certified.
  2. In addition, however, veterans have preference, second only to Federal agencies, to buy any other surplus property for use in their business, professional or agricultural enterprise or for use directly required by their employment.
- The method of obtaining certification to purchase surplus is

simple. There are six certifying offices in the State of Florida located at Jacksonville, Tallahassee, Orlando, Miami, Tampa and Pensacola.

Applicants must show they are honorably discharged or released from the armed forces after Sept. 16, 1940. They must submit a list of what they desire to buy. If the application is approved the applicant receives a certificate covering each proposed purchase.

Veterans seeking surplus other than that which has been set aside, must present their certificates at the time of the sale.

After the demands of Federal agencies have been satisfied, veterans are eligible to purchase items before all other groups such as the Reconstruction Finance Corporation, State and local governments, non-profit institutions and the general public.

Every effort will be made to satisfy the demands of veterans at site sales, Mr. Warren declared. In instances where veterans desire to change their certificates so that they may purchase other items in the same commodity group, special WAA representatives will be present to execute these changes.

Site sales are designated to step up the sale of surplus to the consumer. In line with this veterans may inspect, purchase and make delivery arrangements at all one site. The property offered for sale will be on display plainly priced and tagged, F.O.B. location. Catalogs will be available for all prospective purchasers and qualified personnel will be present to expedite the sales.

The shortest and surest way to live with honor in the world, is to be in reality what we would appear to be.—Socrates.

## James Davidson Student at Brown

Providence, R.I.—Classes began this week at Brown University for the eight week summer session which will run to August 31.

Among students from this area who are attending the summer session is James H. Davidson Jr., son of Mr. and Mrs. James H. Davidson, 1248 Coral Way, Coral Gables.

## By Air To Tennessee

Miss Betty Jo and Ann Taylor daughters of the F. Boyd Taylors, 1212 Avenue Medina, are leaving this week by Eastern Air Lines for Nashville, Tenn., where they will be the guests of their paternal aunt and uncle Dr. and Mrs. William S. Gray at "The Hills" near Nashville. Miss Betty Jo, who is recuperating from a long illness, will return in about two weeks and will reenter the University of Miami in the fall. Miss Ann Taylor will visit also in Kentucky before returning in time for school at St. Theresa's.

## From Lowell

Miss Betty Scalise of Lowell, Mass., will arrive in early August to be the house guest of Miss Una Lee Massey for a month at her home, 718 Avenue Obispo.

FLORIDA POWER AND LIGHT COMPANY

## Remember the old one about this pair?

THE GRASSHOPPER, you'll recall, had a swell time for himself all summer, and when winter came he had to go hungry.

The industrious ant, on the other hand, stored away plenty of food, and survived the winter in good shape.

There's a parallel to that fable today. For if you keep on storing away money—by buying U. S. Savings Bonds through the Payroll Plan—you'll have a lot better chance to survive any future tough luck than the fellow who stops his bond buying.

What's more, you'll be saving for the really important things—like buying a house, sending your children to college, or your retirement.

Millions of Americans have found the Payroll Savings Plan the easiest, safest, surest way to save. And the Government guarantees that, in just ten years, you'll get four dollars back for every three you put in!

So isn't it wise to stick with the Payroll Savings Plan? You bet it is!

# PORK AND POLIO!

CATTLE, SHEEP, CHICKENS and MOST EDIBLE FISH DO NOT EAT MEAT.

SWINE WILL EAT ANY AND ALL MEATS. CLEAN OR FOUL, DEAD OR ALIVE, INCLUDING THEIR OWN.

MEATS PRODUCED AND SOLD WITHIN ANY STATE'S BORDER ARE NOT SUBJECT TO FEDERAL INSPECTION. IN 1942 ONLY 60% OF THE HOGS CONSUMED IN THIS COUNTRY WERE SLAUGHTERED IN FEDERALLY INSPECTED SLAUGHTER HOUSES.

That figure is considerably lower today. Do you have any idea what you are eating when you eat pork, ham, sausage or frankfurters?

The following is from U. S. Department of Agriculture, Farmers Bulletin, No. 1787, Page 43.

"Internal Parasites of Swine; Pigs acquire trichinae as a result of eating dead pigs, dogs, cats, rats or mice harboring encysted trichinae. Rats and mice become infested as a result of eating scraps of infested pork or each other. Cats become infested as a result of eating infested raw pork or infested rats or mice. Human beings and dogs become infested with trichinae, usually as a result of eating raw or imperfectly cooked pork infested with these parasites.

"Damage produced—The disease produced by trichinae is known as trichinosis. Trichinosis is practically never diagnosed in swine during life because other and better known diseases of these farm animals show symptoms similar to those of trichinosis. Consequently, trichinosis in swine is probably confused with other diseases. Within a few days after eating a large quantity of trichinuous meat, hogs take no food, vomit at times, crouch in the straw and move about with difficulty. When the young worms invade the muscles, beginning about the second week after infestation, affected hogs move about stiffly and frequently lie motionless in one place. There may be considerable swelling, especially of the eyelids. Recovery is the rule, unless the infestation is very severe. With the encystment of the worm in the muscles, the symptoms gradually disappear, the affected animals regain their appetite and apparently make a good recovery. Due to the invasion of the muscles by the parasites, important changes take place in them, but with recovery the muscles take on a normal appearance."

As you know, adults are not immune from Polio. However, in all honesty I must admit that I am not particularly interested in the grown-ups. My one and only interest is the kids. As far as I am concerned, you may satiate yourself with pork products until the rat-tails come out your ears. However, don't forget that polio in the early stages is contagious; and altho you may not be affected, you or your friend may pass it on to some child, including your own.

Watch the Polio score. There has been an increase, but wait for pork to become more plentiful and then allow for the two weeks incubation period necessary. The last article in this series will appear in July 26th edition.

### Suds Your Swim Suit For Preservation

Nylon satin and broadcades are now available in small quantities for dressmaker beachwear, and also a wonderful elasticized nylon satin for fitted suits. Rayon jersey, important in past seasons because of its draping quality for dressmaker suits, is now on the fashion front with a new double knit which has a much higher resiliency. It is figure hugging, yet strong and yielding enough for real action in the water, not just parading.

These lovely new bathing suits are easy to keep just as good looking as when you bought them. The secret is never to let salt or chlorinated water dry in your suit. After every swim a quick swish in warm soap suds will remove all the harmful chemicals. Even if you don't go near the water, remember that sand, suntan lotion, and just plain perspiration take their toll. So after spending the day basking on the beach, do give your suit a quick sudsing!

production its concentrated orange and grapefruit juice. The result was a tiny can that contained citrus juice so concentrated it could be restored eight parts to one with water!

By this means our men in enemy camps got their vitamin C. So delicious was the product in taste and consistency that it was possible to spread it on crackers like a marmalade in places where water was not readily available. Today the Florida citrus concentrates are being used for convenience, labor saving and storage space saving largely in hospitals, institutions, schools and hotels, although some are being used by Mrs. Housewife too.

### Government Offers Restaurant Supplies As Surplus Properties

Do you want to start a restaurant business, or do you need equipment for a small hotel? If you do and you have priority under the Surplus Property Act you may secure all sorts of items suitable for your business through the Jacksonville Regional Office of War Assets Administration.

Current Sales List CG 50 includes such items as baking pans, cake turners, fryers, cookers, colanders, skimmers, spoons, trays, aluminum pots, coal ranges, steam tables, tables for use in baking or by butchers, sinks for washing dishes, automatic dishwashers, conveyor-type toasters, coffee urns, water coolers and 98 drums of liquid soap.

Augmenting this inventory in List CG 51, are air conditioners, electric refrigerators, both reach-in and walk-in types, and refrigerating units. Also included is bathroom equipment, a variety of electrical fuses, electric lamps, cast iron pipe and pipe covering, and a miscellany of valves.

### "I LOST 32 LBS.!

### Food Consumption Survey Shows Floridians' Diet Has Improved

Per capita consumption by Floridians of principal foods stands at higher levels today than in former years, stated the research division of the Florida State Chamber of Commerce after a study of adjusted national averages.

How well Floridians dined, what they ate and how much they consumed last year is brought out in a report of the study.

Comparing 1945 with 1918, the researchers stated that "Floridians' daily supplies of iron and fats were better last year by 13 and 11 per cents respectively. Calcium content of their diets increased 27 per cent, largely due to the greater consumption of milk and milk products.

"Protein content and caloric values were approximately the same for the two years studied. Only in carbohydrates was there a decrease in 1945 from the former post war year."

"The five principal vitamins were present in Floridians' diets in much greater amounts, showing increases of from 14 to 30 per cent over 1918."

"Last year Floridians drank, or ate in foods, 125,200,000 gallons of milk or its equivalent and consumed 50,130,000 dozen eggs. Meat, poultry, game and fish reached 353,259,600 on the state's menu.

"Butter, fats and oils, hard as they were to find, were nevertheless consumed in the amount of 135,003,660 lbs.

"Almost a billion and a half pounds of fresh vegetables and fruits went into Florida kitchens, 40,501,100 lbs. of cocoa, coffee and tea were brewed and 200,700,000 pounds of sugar and syrup sweetened the cup, was poured on pancakes or otherwise consumed."

It was stated that increases were shown in all separate food items except in grain products and in potatoes, both sweet and Irish.

### Eisenhower Report Breaks Government Sales Records

General Eisenhower's report as Supreme Commander to the Allied Chiefs of Staff has broken all sales records for documents, the Government Printing Office announced today.

Over 30,000 copies of the 123 page report covering the operations in Europe were sold in the first 10 days. Orders are continuing to pour in. For a time 13 additional clerks were needed to open mail.

Printing Office officials consider the Eisenhower report one of the finest specimens of government printing. The cover is heavy antique paper and features the supreme headquarters shield which is printed in 5 colors. The text is printed on heavy enameled stock with maps in 2 colors.

As long as the supply is available, copies may be obtained for \$1 from the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

Through the investment of policy funds, life insurance policyholders today have at work in the national economy a stake six times as great as at the end of World War I.

### Keep Up With The Brighter Side Of Life!

Northern Visitor (in Georgia): "I see you raise rogs almost exclusively about here. Do you find that they pay better than corn and potatoes?"

Native (slowly): "Wal, no; but yer see, stranger, hawgs don't need no hoeing."

"Pat, why in the world do you drink so much?"

"Well, it's this way, yer Honor. Oi eats onions to kill the smell of the whiskey, an' Oi have to drink more whiskey to kill the smell of the onions."

An evangelist was exhorting his hearers to flee the wrath to come. "I warn you," he thundered, "that there will be weeping, and wailing and gnashing of teeth!"

At this point an old lady stood up.

"Sir," she shouted, "I have no teeth."

"Madam," roared the evangelist, "teeth will be provided."

### GI's Who Built Homes Can Laugh at High Rents

CHICAGO.—The lid off rents which caused so many jitters about a new high in the cost of living on July 1 found at least 192,000 World War II veterans basking in security about their shelter costs. This number had already used the G.I. Bill of Rights plan to buy or build homes, the Home

mittee of the United States Savings and Loan League points out. Consequently the cost of the roofs over their heads will be as stable as the rock of Gibraltar now on unless they decide to buy more pretentious homes, according to W. W. McAllister, San Antonio, Texas, savings and loan executive, chairman of the committee.

Three out of four of these whose home ownership has been made possible by \$75,000,000 of credit from lenders and loan institutions got their money from savings and loan or co-operative banks. Thus Mr. McAllister could unearth a few facts from the files of these institutions to show how widespread has been the use of this plan and how it has not been found wanting as a means to help the handicapped as well as the normal ex-G.I.

Among those who were sitting safely on the cost of shelter at the critical hour two weeks ago he lists: A North Carolina veteran who will never walk again but has built him a new home under the G. I. Bill; a blind Colorado hero of the Tunisian and Italian campaigns who has a five-room cottage bought under this plan, with enough ground around it to raise chickens, which business he is learning for rehabilitation; a Washington State WAC sergeant who bought a home for her father, mother and eight brothers and sisters; an Indianapolis navy man who was enabled to come out of his psychoneurotic handicap by getting out of the crowded one-room apartment in which his wife and two-month-old baby were liv-

ing when he returned and into a home of their own; and scores of perfectly normal veterans such as are typified by the 26-year old California staff sergeant now managing a service station at a \$3,000 a year salary.

This ex-sergeant is paying \$41-38 a month for the \$6,350 five-room-and-dining-alcove home where he lives with his 22-year old wife and 4-year old child. At the end of 19 years of these payments his shelter cost will be down to nil, except for taxes, insurance and repairs every now and then. Mr. McAllister points out.

Benefit payments to living policyholders by their life insurance companies under endowments and annuities and for disability increased nearly one-third during the war years.

### Visit Relatives

Mrs. Edwin B. Poorman and two children John 12 years old and Molly nine, have just returned from a visit of two months to their former home in Chicago Heights where they visited relatives and friends. Mr. Poorman is the new finance director of the City of Coral Gables. The family resides at 1124 Ferdinand street.

### Well-Informed Homemakers Use Grain-Derived Foods Wisely

Today the view from your kitchen window is—the world!

Hungry eyes watch what you do; hope you won't waste a morsel of grain foods, because it is these good foods that are their main hope of survival. Not since the days of the Pharaohs and the Biblical patriarchs has grain been so greatly highlighted as a basic food.

America, with typical ingenuity and imagination, has its own characteristic version of the grains in the delicious cereal breakfast foods. The mainstay breakfast in so many homes, the cereal breakfast foods tell the wholesome story of the grain as a food in their own way, for an average serving of cereal with sugar and milk furnishes all these nutrients in a single dish: top quality protein, the B vitamins (thiamine, riboflavin, niacin), the minerals (calcium, phosphorus, iron) and energy!

The cereal breakfast foods on your grocer's shelves today have been processed for your wise use and the god nourishment of your family at the morning meal. It would be wasteful not to use them. Good care at home will help you make the most of these precious grain foods. Keep the cereal packages closed and store them in a cool, dry place in the kitchen so they will keep their pleasant texture and good taste. Estimate the amounts of cereals-to-be-cooked that your family needs at one meal, so that you will cook only the amount required.

A good, well-balanced American breakfast has always featured the

grain foods as an important part of its bracing taste and nutrition. Breakfast should furnish from one-fourth to one-third of the day's total nutrition at the morning meal, a nutrition quota that is compactly furnished by a breakfast combination of fruit, cereal, milk, bread and butter.

Here are menus based on this sensible pattern that use the grain foods wisely to give you a good breakfast. Not lavish, but simple and streamlined, these good American breakfasts are in the restrained spirit of the world's eating today:

**Cantaloupe Half**  
Milk Sugar  
Buttered Melba Toast  
Honey  
Coffee

Raisin Bran Flakes topped with Applesauce and dotted with Jelly  
Top Milk  
Toasted English Muffins Butter  
Milk

Chilled Blended Citrus Juice  
Crisp Oat Cereal  
Milk Sugar  
Warm Honey Buns with Butter  
Coffee

Corn Flakes topped with Fresh Raspberries  
Top Milk and Sugar  
Poached Egg on Buttered Wholewheat Toast  
Coffee or Milk

**SWEET TIPS SAVE SUGAR**  
To ease your own "sugar shortage" try these suggestions to top your cereal in any of the above menus:  
Drain sirup from canned fruit. Mix several kinds together if

### Juniors Jump For Banana Milk Shake

Paradise for pint-size folks on a summer's day is a pitcher of cool stuff to drink in their own backyard. Better yet if Mom let's them make their own!

"Playing soda fountain" is a lot of fun for juniors, and mother can be clever enough to make it a nourishing pastime when the drinks are made with wholesome milk and fruit. If you want to get the kids to call you "best Mom of 'em all", suggest a Banana Milk Shake as the star number for the backyard soda fountain stand!

**Easy Enough To Make "All By Themselves"**  
A delicious flavored yet nourishing drink, Banana Milk Shake is so simple to make, even little hands can do it. And look what it's got to make it worthwhile! In addition to all the good nutrients in milk, this milk shake offers the wholesome food values in banana. Bananas are a good source of vitamin A; they have the B vitamins, and they're one of the better sources of vitamin C. Bananas also have eleven essential minerals including calcium, phosphorus and iron, and they're an excellent source of food energy.

**Banana Milk Shake**  
1 fully-ripe banana, peeled  
1 cup cold milk  
Use fully-ripe banana... peel well flecked with brown.  
Slice banana into bowl and beat with a rotary egg beater or electric mixer until smooth and creamy... or press banana through medium mesh wire strainer with a spoon. Add milk and mix thoroughly. Serve cold. Makes 1 large or 2 medium-size drinks.

you wish, and serve over cereal with top milk.  
Make melon balls, or cut melon in small cubes and serve on cereal plus milk. The fruit sugar is all you'll need. Might try a dash of salt, though.  
Sprinkle grated or frozen coconut over cereal before adding the milk.  
Mashed or sliced bananas atop your bowl of cereal makes sweet eating.  
Break a chocolate bar (the sweetened 7-oz. kind) into a small saucepan and heat slowly with 1/2 cup milk. Cool and serve over your bowl of cereal. Good enough for moon dessert, too.  
Combine orange juice with an equal amount of maple-flavored sirup and pour over cereal.  
Thin "last night's" leftover pudding (made from any packaged mix) with a little milk and serve over your breakfast cereal.

### Auxiliary Campus Is Planned by State College

Tallahassee: Florida State College for Women has plans under way to provide for approximately 300 additional students by the creation of an auxiliary campus, using facilities at Dale Mabry Field in Tallahassee.

President Doak S. Campbell announces the completion of a contract with federal authorities for the use of the quarters formerly used by officers. The property consists of four large dormitories, which will be used by students and directors; an officers' club, which will serve for recreational and social purposes; a small building for storage of trunks; and two large barracks, which are being made ready for the use of women veterans and women faculty members.

In addition to the buildings for dormitory use, the auxiliary campus will have numerous facilities for recreation. Outdoor, tennis, basketball and volleyball courts will be available immediately adjacent to the students' quarters. There will also be a modern bowling alley.

Special arrangements are being made to transport the students to and from the main campus, so that they may enjoy and participate in all campus functions. Buses will run continuously.

Dr. Campbell says that every precaution will be taken for the safety, health and comfort of the students and faculty members living there. Advance enrollment indicates that about 300 students will require the facilities.

Twenty new classrooms have been added to the History Building on the campus and will be ready for use in September. Work on the new permanent dormitory is progressing satisfactorily, Dr. Campbell says.

### Capt. French Buys

Captain and Mrs. Richard M. French have sold their home at 919 Granada Boulevard and are the new owners of 1118 Ferdinand Street. Capt. French is a retired Merchant Marine officer. Mrs. French, has just returned from Atlanta where she was called to attend the funeral of her brother-in-law William Peek, who was chief baggage master of terminal station in Atlanta.

### Visit Friends in West

Mr. and Mrs. Herman Kruse, 931 Avenue Catalonia have just returned from a 6 weeks vacation trip traveling in Iowa, Minnesota, Wisconsin visiting relatives and friends. In Indianapolis they visited Coral Gables Mr. and Mrs. Arthur Wolf.

### GABLES STORAGE CHANGES OWNERS

The Coral Gables Storage and Transfer Co., 310 Coral Way has been sold to William Reynolds and Orville Haller who assumed operation of the business Wednesday. The new owners are brothers-in-law and returned veterans. Mr. Reynolds former Gables man and University of Miami student has been in the traffic department of Pan American, since his discharge from the Naval Reserve where he served with the rank of lieutenant.

### OFFICE SUPPLY OPENS BRANCH

The Hardin Office Supply Co., of Miami has opened a branch office at 312 Coral Way. Owned and operated by A. M. Hardin of Coral Gables, the new office is fully equipped and most modern. Miss Elma Cox will manage the branch. The company has operated for the past 29 years in Miami—8 years at the present address 209 South Miami Avenue.

### Pack Your Troubles In Homemade Bags

Is your packing technique rusty because you stayed home during wartime holidays? Here are some tips to save packing troubles. Always put shoes at the back of the bag. When it's closed and stood on end, they'll rest on the bottom and not fall around rumpling things. Put shoes in little bags so you won't worry about their slipping out of place and soiling your pretties.

Well worth the travel peace it brings is the idea of making a whole set of washable cloth envelopes. Make them as feminine and pretty as you wish with a little lace edging, a touch of embroidery, or a monogram. Have one envelope for undies, one for handkerchiefs, another for nighties, for stockings, small ones for shoes and a big one for soiled clothing. They'll cut the work of packing and unpacking in half. Include some nylon and seersucker clothing for a quick wash basin wash without ironing worry. Remember it's important not to wring seersucker or nylon because wrinkles made when wet tend to remain.

If you forget your washcloth, stop at a drugstore and buy a package of pellet clothes (several different companies make them).

These are compressed cloth tablets which when dunked in water expand into a wash cloth.  
When you're buying your vacation wardrobe select clothes that harmonize and can do double duty combined with each other. Pick garments that don't crush easily or from which the wrinkles can be steamed out by hanging above the bathtub.

**To Leave Gables**  
Mrs. Philip K. Winslow who has been the house guest of Mrs. B. C. Mathews, 1014 Catalonia Avenue, will leave this week for Ontario, Cal. to join her husband Captain Philip K. Winslow of the Army of the U.S. He is on terminal leave, and the Winslows plan to reside here.

**THEY WALK WITH DEATH**  
  
**WHEN THEY WALK ON**  
**PESTROY DDT LIQUID COATING**  
Here's how **PESTROY** kills and keeps on killing insects! After application, PESTROY DDT particles rise to top of coating, form a crystalline film. This DDT film kills insects that touch it... keeps on killing day after day, week after week. You see, PESTROY is compounded with a new type of synthetic resin. This special resin binds PESTROY DDT to any surface, makes it cling, keeps it from brushing off or blowing away.  
**WHY PESTROY IS SO AMAZING:**  
1. It's a crystallized coating—it's on the job with full effectiveness 24 hours a day.  
2. It's a perfectly balanced DDT formula—an exclusive, scientific blend of DDT and other chemical agents.  
3. It brushes on—it's easy to apply... does away with with bothersome, constant spraying.  
4. It stays on — doesn't brush off or blow away. You apply it once and it lasts.  
5. It's safe—eliminates irritating fumes and other dangers of spraying.  
6. It kills and keeps on killing — one application has lethal effects for months.  
7. It's economical — can be applied without waste to the spots where it does the most good... gives lasting protection against bugs.  
**PESTROY KILLS**  
FLIES, MOSQUITOES, ants, roaches, crickets, moths, bedbugs, wasps, silverfish; gnats; beetles, fleas, lice, many other insect pests.

## One Thousand Guests Attend First Summer Concert

### JUNIOR CLUB LEADERS

MRS. THOMAS S. GOWIN

One time City of Miami Woman's tennis champion, and many years of hard and happy work with racquet and court has given Mrs. Thomas S. Gowin a nostalgia to return to her favorite sport. War work and a husband in army service have absorbed all of her time these last few years, but now that the war is over, those dancing feet of this native daughter are eager to tread the clay again.

This week's Junior Woman's club leader Marjorie Meggs Gowin was born in Miami the daughter of Mr. and Mrs. W. C. Meggs, who were pioneers in 1908 along with the Lummas, the Sewells and others who made Miami famous in the early days. First thing of importance that happened to Marjorie Meggs was that she became a councilor at camp instead of a 'camper'. Taking matters into her own hands, she had written the camp director, that she knew three forehands, two backhands, a good service and was confident she could teach tennis.

"I am sure now, that she thought I overrated myself", Mrs. Gowin said, "for I was not only assigned the tennis job but the camp mischief makers and was held responsible for their behavior. I had a hard time keeping ahead of them, but we had fun too, and had the depression not closed the camp

### Gablesgrams

By HELEN REYNOLDS, SOCIETY EDITOR

Goodbyes are hard to say, so Gerald Bowen, former longtime Gables city tax accessor, and Mrs. Bowen are saying farewell to their many Coral Gables friends through this column. They left yesterday for their new home in Virginia, but hope to return for a month or so winters in the future. When Mr. and Mrs. Bowen made their trip a year ago to Virginia to shop for an apple orchard (something for which Mr. Bowen has always had a yen) their good friends the Frank Shattucks went along for the ride. The foursome stayed at the Wayside Inn, Middletown, Va. Now the Wayside Inn is a quaint old Virginia landmark built about 1790 and was a regular stop on the original coach road. While the Bowens shopped for their apple orchard, the Shattucks were falling to the charms of the quaint old inn. Result, the Shattucks bought the inn, the Bowens an apple orchard. When the Bowens arrive in Middletown, which will be their future mailing address, they'll be guests at the Wayside Inn, under the wing of their old time Gables' friends.

The musically talented Mr. and Mrs. Harry Candullo are new residents of Coral Gables from Miami Beach. They have bought the house at 442 Avenue Majorca for their permanent home. Mr. Candullo was an orchestra leader heading up his own group of which Mrs. Candullo was violinist, for engagements all over the country. Now retired from orchestra work, and hoping to live here always, Mr. Candullo is partner in the Avalon Painting and Decorating Co. of Miami.

Miss Una Lee Massey will entertain at cocktails Saturday at her home, 718 Avenue Obispo honoring Miss Betty Goldy and her fiance Richmond Rogers. Attending the party will be several out-of-town guests and later the group will attend the Country Club of Coral Gables for dancing. The marriage of Miss Goldy and Mr. Rogers will take place at St. Stephen's Episcopal Church Saturday July 27th.

Mr. and Mrs. R. Frazier Potts of 1333 Avenue Obispo are rejoicing over the arrival of a baby daughter, Delia Frazier Potts, who was born Thursday the 11th at University Hospital. Delia has two brothers, Roy who is four and Norbert just one and one half years old.

Mrs. Lawrence Hill and daughter Sarah Katherine just two, have returned to their home, 512 Avenue Giralda after a two months visit in Joplin, Mo., with Mrs. Hill's parents, Mr. and Mrs. J. E. Campbell. Mr. Hill is co-pilot with Eastern Air Lines. Miss Elsie Garland Hartwell of Roanoke, Virginia arrived Wednesday for a visit with Mr. and Mrs. Roderick McCullough Thomas, 1305 Avenue Obispo. Miss Hartwell who is a well-known church soloist in Roanoke, is enjoying her first visit since the war with the Thomases.

"Even the air smells different" exclaimed O. K. Houstoun as he crossed the Florida state line returning with Mrs. Houstoun and their son Ensign Richard (Dick) Houstoun.

ville Medical School and a Phi Chi, served on both the resident boards of Jackson Memorial and County hospitals prior to his army service. Recently discharged with the rank of major, his service was noteworthy for a 30,000 mile trip through eight countries caused by a Snaft of army transportation. Federation Chairman of the Coral Gables Junior Woman's club, which she joined in 1942, Mrs. Gowin and Dr. Gowin did war work in 1941 with the British Flying Training school, Clewiston. They were in Boston, Mass., subsequently, then Nashville, Tampa and Tallahassee. When Dr. Gowin was shipped overseas, Mrs. Gowin returned and immediately joined the

MISS JEAN SCOTT left of Havana, Cuba, visits with her friends Miss Patsy McCarthy and Cynthia McCarthy in the patio of the McCarthy home in the Chinese Village. All three of the girls attend the American Dominican convent in Vedado, Havana. Lloyd LeMan photo.

### Miss McCarthy Entertains For Birthday

Future belles and beaux numbering 30 attended the patio party Miss Patsy McCarthy gave on her 17th birthday anniversary at the home of her parents, Mr. and Mrs. James A. McCarthy, 5100 Maggiori in the Chinese Village. The party also honored Miss Jean Scott of Havana, Cuba, who is the houseguest of the McCarthy's. Miss Scott is a classmate of Patsy's at the American Dominican Convent in Vedado.

The patio at the McCarthy home was floodlighted and strung with colored lights for the supper and dancing. Patsy was presented her gifts and souvenirs for all by Bob Lucey who dressed in the Mexican way, held the presents in a large Mexican basket. Patsy plans to attend the school of modeling

in Miami this summer but will return to Cuba in the fall to resume her studies at the convent.

### Gableites Buy Home

Mr. and Mrs. A. R. Morrison, and baby daughter Gale nine months old, have recently purchased 1425 Avenue Obispo where they are now residing. Released from the service, Mr. Morrison, a son of Mr. and Mrs. A. B. Morrison of Coral Gables, is associated with Ranson and Davidson Co. of Miami. Mrs. Morrison is the daughter of Mrs. Frank Sherritt, 1250 Castile avenue.

Carolina Vacationers Mrs. M. M. Purcell and her daughter Miss Marjorie Purcell, 4310 S.W. 15th street are vacationing in Waynesville, N.C. Joining them there will be Harry Purcell, a son and brother who expects his discharge from the Army in Texas.

### Gables Country Club Patio Filled and Overflowing

It looked more like mid-season than mid-summer Tuesday night at the Country Club of Coral Gables when the seats in the patio were taxed to capacity for the first in the series of summer symphonies, sponsored by the Philharmonic Society of Greater Miami, for the pleasure of members and guests.

Festivities opened at 7 p.m. with dinner served a la carte. Making up tables in the main dining room and patio were Dr. C. P. McDaniels, F. Boice Miller, Mrs. Dinmore Upton, Hamilton Sylvester, Fred Hayes Postal, the H. F. Cordes, the Walter S. Ashbys, Arthur V. Fogarty, the R. Ernest Nitzsches, F. H. McDonald, Kenneth J. Kimball and many others.

Promptly at 9 p.m. the orchestra assembled in the new south band shell and the program under the baton of Oliver Washburn opened with the stirring notes of the National Anthem. Followed the Overture to Mignon; selection from the Student Prince; Waltz in C Major, Ballet Suite for Silvia. Marion McCree, talented soprano and member of the club, sang a group of three numbers including "Un bel Di" from Madame Butterfly; "Italian Street Song" from Naughty Marietta and Brahms "Cradle Song".

The second half of the program, broadcast over WKAT airwaves included: "Selections from Carmen"; Waltz "You and You" by Strass; "Clare de Lune"; "Russian Sailor Dance" from the Red Poppy by Gliere.

The program ended with God Bless America. Next in the series will be given August 13th.

### PRESBYTERIAN WOMEN TO MEET

The Woman's Association of the First Presbyterian church will meet at 10:30 a. m. July 26 in Fellowship hall at the church. Miss Maude Smith will give the devotional which will be followed by the program theme, "They that are whole have no need of a physician."

Mrs. D. W. Lodge will review the book "The Life and Medical Service of Dr. Albert Schweitzer." Luncheon in the patio with group 2 of the association as hostess, will conclude the meeting.

In Atlanta Mr. and Mrs. John L. Woods, 1028 Avenue Sorolla are vacationing in Atlanta, Ga., and Montreat, N.C.

(Continued from Page Seven)

ton after a couple of months in the north. Arriving Friday and so glad to be back, the Houstons visited their son and daughter-in-law Mr. and Mrs. O. K. Houstoun Jr. in Atlanta enroute home. Mrs. Houstoun Sr. left about a month ago for St. Louis, Mo., to visit her father. Mr. Houstoun bought a brand new car in Detroit, Mich., then joined his wife in St. Louis. Their son Dick, on terminal leave, flew up to St. Louis to make the trip home in the new car. Dick just 20 will enter Georgia Tech in the fall to study for his master's degree. He expects to see a lot of his brother who will also be a student at the Georgia School of Technology.

Dr. and Mrs. Oscar Linder, 440 Avenue Giralda left Friday for Nashville, Tenn., where they will visit their daughter Mrs. R. W. Gardner in Woodmont Estates. They expect to stay about a month and will then travel on to Milwaukee, Wis., to visit another daughter Mrs. J. R. Olson.

Mr. and Mrs. Lowell Southern are enjoying their first motor car vacation since the war. They left last weekend late one evening to enjoy motoring through Florida by moonlight (it's not quite so hot) with Cleveland, O., their destination. Mr. Southern will fly back in about two weeks and then return later to motor down with his wife.

Mr. and Mrs. Charles J. White and son Bradford, who (Please turn to Page 9)

### MISS DOYLE FETED AT LUNCHEON

A miniature bride and groom leaving the church with automobile waiting at the garden gate was the centerpiece and bridal motif used at the luncheon Miss Gloria de Boliac gave Saturday at the Country Club of Coral Gables honoring Miss Mildred Doyle, bride-elect of Samuel A. Belcher III.

Places for the 12 guests at the table, arranged in the club patio, were marked with pretty little old-fashioned bouquets made with vari-colored gum drops and bits of paper lace.

For the party Miss Doyle wore a black, yellow and green silk print, large natural color straw hat. The hostess, who will be one of the bridesmaids at the marriage of Miss Doyle and Mr. Belcher at 7:30 p. m. tomorrow at Riverside church, was in a black and white linen ensemble.

#### Sells Gables Home

Mr. and Mrs. Thomas E. Hugins and two children Thomas Jr., and Dorothy have sold their former home at 512 Avenue Seville and are residing in Surfside for two weeks until their new home at 319 Avenue Viscaya is ready for occupancy about August 1st.

#### In Georgia

Mr. and Mrs. J. C. Powers are vacationing in Toccoa, Ga., and Asheville, N.C. Mr. Powers is an officer on the city police force.

#### On Vacation

Mr. and Mrs. H. V. Pettit are spending some time at Pinnacle Inn, Banner Elk, N. C.

Mrs. Nellie Swing of Avenue Navarre is in Milford, Ohio, vacationing.

### Nuptials in Alabama Unite Miss Vaughn of Coral Gables And Wallace R. Parrish, Miami

Birmingham, Alabama was chosen for the nuptials of Miss Nevelle Claire Vaughn, daughter of Mr. and Mrs. Cecil C. Vaughn of 225 Avenue Camilo and Wallace R. Parrish, son of Mrs. Josephine Parrish of Brookfield, Ga., and Miami.

The double ring chancel ceremony was performed in an evening candle light wedding June 26th at the First Methodist Church. Dr. Guy McGowan officiated. Miss Virginia Jones of Birmingham sang "I Love Thee" and "Because" preceding the ceremony. She was accompanied by John Brock, organist. Joseph G. Carlisle and Bernard Griffin were ushers.

The bride, given in marriage by her father, was lovely in imported white linen with navy accessories. Her bouquet of white roses, carnations and tuberose was tied with white streamers.

Cousins Serve Bride  
Miss Celia Jean Strait in pink eyelet with white accessories was maid of honor. Miss Frances Carlisle, bridesmaid wore yellow eyelet with white accessories. Both are cousins of the bride.

A reception was held in the home of Mr. and Mrs. Murray Strait, uncle and aunt of the bride, immediately following the marriage.

paternal families have lived in Alabama always, was graduated in June from Ponce de Leon High school. Mr. Parrish has recently returned from overseas after serving 22 months in the Pacific theatre of the war.

Following a visit with Mr. Parrish's mother in Brookfield, Ga., the newly-weds have returned to Coral Gables to reside.

Out-of-town guests at the wedding included Miss Doris Parrish, Ulmer Palmer and Mr. and Mrs. L. W. Cochran all of Coral Gables and Miami. From Alabama; Mrs. Max Baggett and Crescentia Baggett of Camden, Mrs. O. P. Reese of Clio, Mrs. C. G. Ellis of China Grove, Mrs. Raymond Jones, Miss Bevy Jones, John Paul Jones, Sonny Hermann and Mrs. Marvin Motley all of Autaugaville.

### MISS COKER HONORED TODAY

Mrs. Shelby G. Gaskin will be hostess this morning at her home 1010 Genoa street for one in the series of pre-nuptial parties honoring Miss Mary Elizabeth Coker, bride-elect of Thomas Howard Chapman. Guests will gather at 11 a.m. at the Gaskin home. Assisting the hostess will be Mrs. Benjamin Hancock, Mrs. J. H. Brook, and Mrs. Charles Gates.

Miss Coker and her fiancé have been widely entertained since the announcement of the engagement was made. Miss Mary Frances Wilkerson, who plans to enter Vassar College this fall, was hostess at a garden party Friday night at the home of her parents the F. M. Wilkersons, 817 Avenue Almeria. Seven o'clock supper was served alfresco in the gardens lighted for the occasion with strings of colored lights. Dancing followed for the 40 guests in the patio.

Every thing for the kitchen was presented to the bride-to-be at Mrs. Malcolm McDonald's kitchen shower and coco cola party last Tuesday. Beautifully wrapped gifts

were concealed in brown paper bags for the presentation. Innovation was the "hidden words" contest participated in by all present. Miss Coker and Mr. Chapman will be married at 8 p.m. August 3rd in the Coral Gables Methodist Church.

Mrs. W. D. Littlefield, 334 Romano Avenue, has gone to Waynesville, N. C.

**MRS. C. HIGGINS ANNOUNCES NEW RED CROSS SERVICE FOR SNACK BAR AT YOUTH CENTER**

Mrs. Clyde Higgins, Red Cross canteen corps chairman, has announced a new assignment for her canteen workers—charge of the snack bar at the Coral Gables War Memorial Youth Center. On duty this week at the center will be Mrs. R. H. Sullinger, Mrs. R. B. Raymond, Mrs. Kenneth Brockway and Mrs. R. L. Flora.

The snack bar is open three times each day, Monday through Saturday, except on Wednesday and Friday evenings. It will take at least 10 canteen members a week to take care of the three daily shifts, Mrs. Higgins said, and she is hoping many trained women will volunteer to help.

The Red Cross is giving the

service of its corps for this assignment, but Mrs. Higgins wanted to make clear to the public that the Red Cross is not involved financially. To avoid misunderstanding tickets for the cold drinks and hot dogs will be sold by the Youth Center to the children and no money will be handled by the Red Cross. All profits accrue to the Youth Center.

With the termination of the war the canteen has been relieved of many of its military assignments and is glad to be of service to the children of Coral Gables.

**MISS CLARKE TO REVIEW FOR AAUW**

Mary Helm Clarke, board member and chairman of the Interracial Committee of the Y.W.C.A. will be the guest of honor at the second scheduled summer luncheon of the A.A.U.W. "The Black Rose" by Thomas Costain will be the subject of Miss Clarke's book review.

Legislative Chairman Mrs. Herberta Leonogdy will give a short discussion of current Legislation.

The meeting will take place at the home of Mrs. Julius Alexander, 2323 South Miami Ave. at 12:30 Monday. Since it is to be a covered dish or Pot luck luncheon, everyone is asked to bring her own lunch.

Assisting the hostess and acting as program chairman will be Miss Millicent Mattocks. Co-hostesses will be Mrs. Samuel L. McCahill, Mrs. Evert L. Perkins, Mrs. Francis P. Locke, and Mrs. Eva P. Vander Elst.

**Buy Gables Home**

Mr. and Mrs. Jacob Knol are the new owners of the home at 521 Avenue Giralda coming here from Cincinnati, O., where Mr. Knol was head of his own painting and decorating business. Born in Holland, both Mr. and Mrs. Knol and their daughter Jantje Johanna, who was two years old when they left the Netherlands and who will enter Ponce, hope to live here always.

**Pecks Buy Home**

Mr. and Mrs. Roy Peck and two children Wayne 6 and Alan 3 are the new owners of the home at 933 Avenue Sorolla. They are from the southwest section of Miami where they formerly lived. Mr. Peck is an engineer with Florida Power and Light Co.

**Improper Washing Can Cause Ruin Of Foundations**

According to a well known designer of fabrics for foundation garments, it is important that women be informed on proper laundry procedure for foundations containing the new high tenacity fibres, such as nylon and fortisan. This designer points out that it is a great pity to pay a substantial price for a well-designed garment, shaped to control and mold the figure, and then destroy the whole line by carelessness in washing. Frequent tubbing in not only fastidious but is wise beauty procedure, since the elastic portions snug up again after each washing, and perspiration acids have no chance to damage their strength.

Never wring any garment containing high tenacity fibres. The wrinkles made when wet tend to remain. Roll in a towel to remove excess moisture, although bras and light weight girdles may be allowed to drip dry. Hang girdles up by the garters and smooth out. Ease the bra cups into shape before hanging, and again when nearly dry.

**Vose Babcock Buys Granada Boulevard Home; Others Choose Place Where Home Means More**

Two of the larger homes within a block on Granada Boulevard have new owners. Mr. and Mrs. Vose Babcock have bought the former Lineweaver home at 3205 Granada which has recently been renovated and redecorated for their occupancy. Mr. Babcock is owner of two large cattle ranches,

one near Opa-locka and the other in Hendry county near Clewiston. Moving from Miami to the place where "home means more" the Babcocks have two young daughters, Mary Arca, 3, and Charlotte, just 4 months old. Mr. and Mrs. Leonard Gross and Mrs. Gross' son, Tom Obenauer, are the new owners of number 3012 Granada. Built during the boom days, the property has been entirely renovated and painted and Mrs. Gross has refurbished it in keeping. Mr. and Mrs. Gross, at present are visiting relatives in Canada and with her parents, Mr. and Mrs. Alex Goodbrand in Hamilton, Ontario.

Native Miamians are Mr. and Mrs. Lee A. Jenkins who moved into their own recently completed new home at 612 Avenue Velarde about a month ago. Mr. Jenkins was born in Miami and home-stayed in the Redlands. Mrs. Jenkins has been a Miamian since 1921. Their two sons are Lee Allan, Jr., and Robert Michael who will attend Ponce and Elementary schools, respectively, this fall. Mr. Jenkins recently was discharged from the navy, after spending several years in San Diego, Cal.

**GABLESGRAMS**

(Continued from Page 8)

graduated in June from Ponce de Leon High School, left Saturday for Philadelphia where they will reside indefinitely. Enroute they stopped in Balsam, N.C., where they have spent previous summers and where Bradford will visit for about two weeks. Mr. and Mrs. White have resided 16 years in Coral Gables and were the former owners of the large home at 644 Avenue Altara, which they sold to TACA Airlines executive R. A. Richards and Mrs. Richards this spring. Their older son Charles at 18 has entered the University of Pennsylvania as a full time medical student, having completed his pre-med studies at the University of Miami. Bradford will enter V.P.I. in Blacksburg, Va., in September.

Former Captain Robert Edwards son of Mr. and Mrs. Vivian Edwards, 311 Avenue Camilo, has received his discharge from the Army medical corps and has returned to Jackson Memorial Hospital, as resident physician. Lt. and Mrs. Stanley E. Asplund, nee Mary Therese Hiss, have returned to Orlando, where the lieutenant is stationed, after a visit with her parents, Mr. and Mrs. U. J. Hiss, 639 Avenue Velarde. Among parties given for the visitor was the dinner party and dance at the Country Club Saturday, for which the lieutenant came down by plane.

Miss Betty Adams of Key West is spending a week with Miss Carolyn Butler, 1024 Avenue Obispo, Miss Adams and Miss Butler were classmates at Florida State College for Women. Miss Adams is returning at this time to attend summer school and will graduate next year at "Tally".

**Miss Lynch Visitor**

Miss Nonie Lynch cousin of Charles R. Lynch, realtor, and Mrs. Lynch, arrived yesterday by Eastern Air Lines for a visit with her aunt and uncle Mr. and Mrs. John T. Lynch, 525 Avenue San Esteban. Miss Lynch is from Marlboro, Mass., and is associated with the Boston office of the U. S. Department of Internal Revenue where she has been for many years. This is Miss Lynch's first Florida visit and her cousins are planning trips to Havana and Key West.

**Buys Gables Home**

Mrs. Charles D. Kirk widow of the Capt. Kirk of the regular Navy and son Charles D. Kirk Jr., who attends the University of Miami, are the new owners of 415 Avenue Minora, coming here from Brooklyn, N.Y. Another son and brother John M. Kirk attends the Naval Academy at Annapolis. An ardent golfer, Mrs. Kirk is looking forward to playing golf on the Coral Gables courses.

Rotarian and builder, W. Ralph Smith and Mrs. Smith and their daughter, Sharon, 12, are the new owners of the house at 836 Alhambra Circle, to which they recently moved. Residing in the southwest section of Miami for many years, Mr. and Mrs. Smith have always wanted to live in the Gables. Their daughter will attend Ponce in the fall.

### Try Back Porch Picnics For the Kiddies on Hot Days

Is it hard to keep the kiddies busy these hot days? Let them have their own picnics on the back porch or in the yard. Let them choose their own food, but you can suggest menus which will be helpful both for their diet and your pocketbook.

Give them a big bowlful of crisp whole bran to place in the center of the table. Around it arrange, in individual bowls, sliced peaches, and raisins. Add a pitcher of cold milk, bowl of sugar and let them serve themselves, choosing the fruit or combination they'd like on their individual bowls of whole bran.

**Picnic Punch**  
2 No. 2 cans blended Florida orange and grapefruit juice  
1 cup ice water  
4 tbsps. honey  
1/2 cup berries

Chill cans of blended Florida orange and grapefruit juice. Mix ice water and honey; add with berries to blended citrus juices. Serves 6.

Use some of those off-the-ration canned vegetable to cut salad preparation down to nil. Take advantage of the canned meats again on the market for luscious sandwich fillings. Bake up a batch of home-made cookies or little cakes for the picnic. Shortening is available now and an abundance of that

best of all baking powders, the all-phosphate kind, for making your baked things light as a picnicker's heart.

### Eight Ideas for Making Use of Leftover Foods

Making good use of leftovers is an essential part of every Coral Gables homemaker's effort to save food. She knows that even foods which seem to be plentiful must not be wasted.

Meat plays an important part in our meals, both for its high nutritional value and because it helps so much to make meals appetizing. In order to make the most of the meat that is available, it is up to homemakers to buy it wisely, store it carefully, and use every bit of what they buy.

Some of our popular leftover meat dishes may need to be altered slightly. For example, meat sandwiches should be made with a single slice of bread; creamed meat will not be served on toast or in pastry shells; meat pies will go without their biscuit or pastry crust. Dishes which combine leftover meat with macaroni products or rice should be served less frequently.

There are many other equally delicious dishes, however, which make good use of left-over meat, and which do not use the scarce foods in any considerable amounts. The following are a few suggestions:

- (1) Meat loaves made with ground cooked meat, eggs, crumbs and seasonings;
- (2) Meat salads, combining cubed or chopped cooked meat with raw or cooked vegetables;
- (3) Baked vegetables with a meat stuffing—such as potatoes, tomatoes, green peppers, or large onions;
- (4) Meat and vegetable casseroles, and meat pies with mashed white or sweet potatoes for a topping;
- (5) Open-face broiler sandwiches, made with a spread of ground cooked meat mixed with seasonings and chili sauce;
- (6) Meat and egg dishes such as omelets, souffles and scrambled eggs with meat;
- (7) Oven-browned hash, made with chopped cooked meat and potatoes or other vegetables—may be served with gravy or mushroom sauce;
- (8) Creamed meat served in a cornbread ring, on cornmeal biscuits, or on mashed or baked potatoes.

## AMERAGRAPHS

DR. REUBEN TORREY, JR., a Presbyterian missionary to China for 30 years, lost his right arm while on duty with the Chinese and American armies during the war. He enjoys a "Coke" between shots on material aid as they are of spiritual leadership from the U. S. He also stated that through the Presbyterian Restoration Fund much can be done to help the Chinese build a new republic.

HERE'S LATEST scientific development for summertime comfort—new aluminum roof paint which forms an aluminum, foil-like, protective shield which deflects 80 percent of sun's rays and reduces interior temperatures by 15 degrees. Developed by United Gilsonite Laboratories, it is suitable for use on homes, factories and bus structures at cost of one cent a square foot. The paint also preserves roof, provides weatherproofing against sun, rain, snow, sleet, frost and dampness.

WHEN BEAUTY RESTS. Gene Tierney, star of 20th Century-Fox, enjoys a "Coke" between shots on the set of "Dragonwyck" in which she appears in a star role.

NEAT AND NIFTY NANCY — A slick swimmer is Nancy Saunders, screen newcomer soon to be seen in "Bamboo Blonde", shown modeling a two-piece bathing suit of her own design and making.

SCENIC POSSIBILITIES on the beach in beautiful Hawaii take in white sand and blue ocean, but the men of the fleet prefer to take in Myra Robello, pretty Hawaiian USO entertainer. Myra is a star attraction at the Kalamia beach club, one of several USO entertainment centers for servicemen stationed in Hawaii.

**Sell Farm—Return to Gables**  
Dr. and Mrs. Frank L. Olds and Mrs. Olds' sister Miss Emily J. Duan have returned to the Gables to reside after living on a five acre farm for 3 1/2 years. They have bought the home at 642 Avenue Velarde and are glad to return.

Teamwork, not less work, more dividends or more pay, is our hope for holding to democracy in industry.

People who object to wearing their heart on their sleeve usually wear their liver there.

lengthy list of recommendations to the commission, among them being that spot leasing or trip leasing of private motor equipment by licensed carriers be stopped, and that the rules be amended to permit carriers to haul new household furniture in Florida without it being crated.

The commission discussed installation of a statewide system of radio communication on all common carrier buses, to give the public continuous information on bus schedules, as well as of breakdown on the highway.

**Control Sought For Bus Seating**  
Tallahassee: Hearings to determine whether public buses should provide seats for all their customers will be held in the near future if the Florida Railroad Commission adopts the recommendation of its inspectors.  
Chairman Eugene S. Matthews said the inspectors' meeting in three-day school and conference with the Commission here, adopted a resolution calling on the commission to consider promulgating a rule requiring all motor common carriers and limited common carriers of passengers to provide for the seating of all passengers on passenger buses.  
The inspectors submitted a

**Ready Cooked Meals Make Summer Simpler**

Nothing's more typical of U.S.A. summer than a platter of cold cuts—unless it's a stiff straw hat with a ribbon band! Maybe you'll retort you'll eat that straw hat if we can tell you something new about cold cuts. Don't eat your hat—eat cold cuts new ways! We'll wager we can suggest some.

How about a hot angle on cold cuts? Not vulgar slang but a tip to be taken literally is that last one! Hot cold cuts are something new on the cook's horizon, an idea Grandma may have missed with her classic cold cut platter, but one worth looking into for her modern daughter.

**Hot News Are Hot Slices!**  
Thick slices of liver sausage sautéed to a golden turn—ever try them? They'll slip you a speedy meat course made with a meat that's readily available! Try these luscious slices with baked beans and cole slaw for a summer meal supreme.

Ever lay good thick slices of liver sausage atop a casserole of macaroni and cheese while it bakes? Meat flavor seeps through macaroni; sausage sizzles to a savory brown while baking. Men have been made very happy this way!

Bologna is a good tip for a hot tip. Try buying your bologna by the piece instead of by the slice. Cut it into meaty cubes. Include these meat cubes in your scalloped potato main-dishes, in baked vegetable mixtures, or in cream sauce

with peas and mushrooms. Grand good eating!  
**Shapely Slant On the Subject!**  
Returning to the classic cold cut platter—why not do some finger exercises on those cold cuts before they appear? "Cold cut butterflies" are fun. They're made like this: Take two different meat slices of about the same size in cold cuts. Bologna and cervelat will do. Press to two cold cut slices together; then fold each edge back from the middle—makes cold cut butterflies to pretty up your cold platter.

**There's Nutrition In Quick Cold Cuts**  
Serve cold cuts with assurance in your summer meals for they contain the same important B vitamins, the same high quality complete protein and essential minerals as are found in the meats cooked in your own kitchen! Try, see, how varied cold cuts can be in recipes like these:

**Savory Sausage**  
1 lb. bologna or other sausage  
2 tsp. butter or margarine  
1 tsp. flour  
1 bouillon cube  
¾ cup boiling water  
¼ cup wine vinegar  
4 whole black peppers  
1 bay leaf  
Cut sausage into 1-inch cubes and brown in hot butter in skillet. Blend in flour, gradually add bouillon cube dissolved in boiling water; bring to boil, stirring constantly. Add wine vinegar, peppers, bay leaf; cover and simmer about 10 mins. Makes 4 servings.

**Bologna Boats**  
12 thin slices bologna or large salami sausage  
2 tsp. butter or margarine  
2 pkgs. frozen succotash  
½ cup chopped parsley  
Salt and pepper  
Sauté unpeeled sausage slowly in hot butter in skillet until edges curl up, forming cups. Cook succotash according to directions on package; drain well. Remove hot sausage cups to a platter, add cooked succotash, parsley, salt and pepper to skillet and heat 2 mins. Serve hot in sausage cups with potato chips and a salad. Makes 6 servings.

**Luncheon Loaf Slaw**  
½ lb. luncheon loaf  
3 cups shredded cabbage

1 teaspoon celery seed  
1 teaspoon salt  
½ cup sour cream  
2 tbsps. vinegar  
¼ tsp. minced onion  
¼ tsp. pepper  
Slice luncheon loaf and cut in thin strips. Combine with cabbage and chill thoroughly. Add remaining ingredients, toss lightly together, garnish with cucumber slices and serve with spicy cream cheese and melba toast. Makes 6 servings.

**Potato Liverwiches**  
12 slices liver or cervelat sausages  
2½ cups cold mashed potatoes  
1 tsp. chopped chives  
½ tsp. salt  
1 tsp. prepared mustard  
Place 6 slices of sausage in shallow baking dish. Combine potatoes, chives and salt; mix well and divide into 6 portions. Top each sausage slice with potato mixture, then with another slice of sausage. Spread mustard over top and bake in a mod. oven (350°F.) for 15 mins! Makes 6 servings.

**Fresh Nightwear Lures Sleep**  
The coolest—and briefest—sleeping suit yet consists of short pants and a strapless bra. Both items are held in place by elastic. These cute heat-beaters are made of rayon jersey which needs no ironing. When you get up in the morning, toss your nightwear into lukewarm sudsy water, rinse them well, roll out the excess moisture in a towel, hang 'em up, and they'll be ready for you when you're ready for bed.

**Mrs. Vines Returns**  
Beatrice M. Vines, executive director of the Dade County Chapter American Red Cross, has returned to her home, 937 Avenue Roderigo from Washington, D.C. where she was a guest at the Shoreham Hotel for a week. Mrs. Vines attended the National Convention of the American Red Cross held in Philadelphia, Pa. Her daughter Sylvia is now visiting her maternal grandparents, Mr. and Mrs. Olin A. Newman of Akron, O.

**Visits Classmate**  
Miss Georgann Veeder, daughter of the George Veeders, 1220 Avenue Medina, left this week for Atlantic City, N.J., where she will visit a former classmate at St. Theresa's High School, Miss Rosemary Hileman. Miss Veeder will enter the University of Miami come fall.

 office of the clerk of the Circuit  
 Court of Dade County, Florida.

**HARRY V. WYLIE**  
**RAYMOND L. WITT**  
 6/28; 7/5-12-19.

**LEGAL NOTICE**

**NOTICE OF HEARING BEFORE  
 THE ZONING BOARD OF AP-  
 PEALS IN REGARD TO APPLI-  
 CATION FOR REPLACING OF  
 APPROXIMATELY 245 ACRES OF  
 COMMONLY KNOWN AS THE UNI-  
 VERSITY OF MIAMI CAMPUS IN  
 THE RIVIERA SECTION, CORAL  
 GABLES, AND THE DEVELOP-  
 MENT OF THE UNIVERSITY CAM-  
 PUS BUILDINGS IN SUITABLE  
 CONTEMPORARY TYPE OF DE-  
 SIGN.**

All interested persons are hereby  
 notified under the provisions of  
 Ordinance No. 271, that an applica-  
 tion has been made to the City  
 of Coral Gables for permission to  
 replat approximately 245 acres,  
 commonly known as the University  
 of Miami Campus, in the Riviera  
 Section, and the development of the  
 University Campus buildings in  
 suitable contemporary type of de-  
 sign, by the University of Miami.

Interested persons may express  
 their views at the hearing or file  
 them in writing with the under-  
 signed on or before the commence-  
 ment of the hearing which will be  
 held before the Zoning Board of  
 Appeals of the City of Coral Gables  
 in the Commission Chamber at the  
 City Hall, Coral Gables, Florida,  
 commencing at 7:30 o'clock P. M.  
 on Monday, July 22, 1945.

**THE ZONING BOARD OF  
 APPEALS**  
**THE CITY OF CORAL GABLES**  
**LEWIS W. ROBINSON, JR.**  
 Secretary  
 7-12-19.

Organized less than a year ago,  
 the Life Insurance Medical Re-  
 search Fund has already made 53  
 grants, aggregating almost \$500,-  
 000 for study of diseases of the  
 heart and arteries, to 33 colleges,  
 universities and other institutions  
 in the United States and Canada.

**Ray Renuart Post Auxiliary  
 Will Install New Officers;  
 Charter Members Hold Meeting**

Installation of new officers for the newly created aux-  
 iliary of the Ray Renuart Post No. 5718, V.F.W., Coral  
 Gables, will take place at 8 p. m. July 29th at the McAllister  
 Post No. 1608, Miami.

Mrs. T. A. Anfinsen, past president of the State Depart-  
 ment, V.F.W., will conduct the in-  
 stallation. The public is invited.

Elected president at the meeting  
 for the charter members, con-  
 ducted by Mrs. Anfinsen, was Mrs.  
 Elaine Lewis; senior vice presi-  
 dent, Mrs. Marie Suman; junior  
 vice president, Mrs. Mary Martin;  
 treasurer, Mrs. Mary Harrold;  
 chaplain, Mrs. Edna Bonner; con-  
 ductress, Mrs. M. Bean; guard,  
 Mrs. Marie Minor; trustees, Mrs.  
 Shook Smyer, Mrs. Corice Scabee  
 and Mrs. Wilkes.

The charter application for the  
 auxiliary's establishment has been

approved. Wives, widows, mothers  
 and daughters over 16 years of age  
 of men who served with the armed  
 forces overseas are invited to at-  
 tend an organization meeting at  
 8 p. m. Monday in the club room of  
 the fire station, 245 Aragon Ave.  
 The principles and aims of the  
 auxiliary are historical and educa-  
 tional. They are: To care for vet-  
 erans in distress and those who de-  
 pend on them; hospitalization, re-  
 habilitation and other interesting  
 and worthwhile humanitarian  
 phases of the work.

**"Effortless" Fish Are the Kind  
 That Come Ready to Use in Cans**

Fish all ready to serve! Was there ever kinder cue  
 for the summer cook? It's the trim can of tin and steel that  
 brings these "effortless" fish to you in fine fettle for  
 summer cookery; keeps them fresh and zesty for hot-day dishes  
 with no more trouble than a twirl of the can opener to reveal  
 their "sealed-in" goodness!

Fish in cans is fine protein food  
 in thrifty form, since waste parts  
 have been removed with only the  
 edible portion of the fish sealed in  
 for safety in cans. There's calcium  
 in canned fish, too, since in some  
 canned fish processing, even the  
 bones are softened to edible con-  
 sistency!

Don't be "Katie, the Constant  
 Creamer" when it comes to serv-  
 ing fish in cans. Sure, creamed fish  
 is good. But give the other serving  
 ways a try to ring in the olden  
 hands on canned fish as a mighty  
 handy main dish. Ever mold can-  
 ned fish along with crisp raw vege-  
 tables in a gelatine salad? What  
 about canned fish baked with  
 spaghetti in tomato sauce? Or  
 canned fish scaloped with potatoes?  
 Or a quick fish shower?

Keep fish in cans as a summer's  
 meat mainstay on your shelf and  
 try these new recipes that show  
 "cream sauce" isn't half the fish  
 story!

**Tuna Tang Salad**  
 1 1/2 tbsps. unflavored gelatine

3 cups tomato juice  
 1 tbsp. lemon juice  
 1/2 teasp. salt  
 1/2 cup chopped celery  
 7-ounce can tuna fish  
 Crisp lettuce

Soften gelatine in 1/2 cup tomato  
 juice for 5 minutes; heat remain-  
 ing juice, add gelatine and stir  
 until dissolved. Add lemon juice  
 and salt and chill until slightly  
 thickened. Add celery and tuna fish  
 or lobster which has been flaked  
 with a fork; pour into a mold and  
 chill until firm. Unmold and serve  
 on lettuce with French dressing.

**Salmon Quickie**  
 2 cups cooked noodles  
 1 8-oz. can salmon  
 1 cup leftover meat gravy  
 1/2 cup sliced stuffed olives  
 2 tbsps. chopped chives  
 1/4 cup finely chopped peanuts

Arrange a layer of noodles in a  
 baking dish; then a layer of salmon  
 flaked with a fork; sprinkle with  
 gravy, olives, chives and peanuts.  
 Repeat until all ingredients are  
 used. Bake in a mod. oven (350°  
 F.) about 20 mins. Serve hot.

**A PRICE TAG  
 that stands out!**

**Your Telephone Service  
 Costs You Less Today  
 Than it Did  
 15 YEARS AGO**

Although your cost of living has steadily  
 increased, here is one thing—an important thing  
 in your life—that actually costs you less today  
 than it did fifteen years ago. It's your telephone!

This record of low cost performance, in these  
 times of rising prices, is enough alone to stand  
 out like a beacon in the night.

In addition the service has greatly expanded  
 and as more telephones have been added the  
 relative cost to the user has steadily declined.  
 Fifteen years ago there were 29,000 telephones  
 in Miami and Miami Beach. Today there are  
 100,000. This means you can reach many more  
 people by telephone—the better to serve your  
 needs for business or personal use.

This record—which stands out as an achieve-  
 ment—is becoming more and more difficult to  
 maintain as the costs of everything going into  
 the furnishing of telephone service continue to  
 rise.

**SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY**  
 INCORPORATED

**Summer Cleanliness  
 Aids Child Health**

First aid is doubly important in  
 summer if you've taken the chil-  
 dren far from doctors and drug  
 stores, so don't forget that soap  
 applied to small cuts and bruises  
 or an abrasion helps keep down  
 infection.

A moistened soap bar rubbed on  
 the itch will relieve insect bites,  
 and stop small fry scratching.

Let children wear their old  
 clothes in summer if they want  
 to, but remember that heavily  
 soiled garments are not only anti-  
 social but unhealthy. Sell the  
 kids on the idea that clean clothes  
 are cooler, but don't make a fetish  
 of band-box neatness.

Contagious diseases are most  
 prevalent in hot weather, but  
 chances of infection decrease if  
 you make a point of giving your  
 youngsters a good soapy bath at  
 the end of every day. This helps  
 to avert prickly heat, too, and  
 small fry will sleep in spite of a  
 no-breeze night if they have a  
 lukewarm tub to relax them be-  
 fore going to bed.

Fresh pillowcases every night  
 for both children and grown-ups  
 are a sleep-inducing device well  
 worth the extra effort. Pillow  
 slips are easily washed by a quick  
 dipping in suds and warm water,  
 and don't need much pressing if  
 they're smoothed out well when  
 hung up to dry. A quick bath in  
 the morning for both parents and  
 children will do a lot to banish  
 hot night willy-woggles.

Men and women, in marrying,  
 make a vow to love one another.  
 Would it not be better for their  
 happiness if they made a vow to  
 please one another?

—Stanislaus Leszczynski.
