

GABLES IS REPRESENTED ON 11-DAY ORANGE BOWL SLATE

Orange Bowl Festival time in Miami this year will begin Christmas Eve and continue for 11 days on a scale surpassing anything in Orange Bowl history, Festival Chairman W. Bruce McIntosh has announced.

Built around the theme, "Pan America," as a salute to the nations to the South, the Festival has been designed, McIntosh declared, to provide royal entertainment for the thousands of visitors unable to obtain tickets to the New Year's Day game.

"Realizing that for every person who can see the game, a hundred can see the festival, we have planned the festival events to make them just as attractive in their way as the ball game. We'll be disappointed if fully half a million people don't have a lot of fun."

The activity will be launched on the night before Christmas with the "Lighting of the Palms" in Bayfront Park in downtown Miami. The park's hundreds of palms will be girdled in colored

Pauline Riviere Is Taken by Death

Arrangements of funeral services for Pauline Riviere, 28, 3811 Avenue Segovia, were handled this week by Philbrick Funeral home. She died last Sunday.

Surviving are her parents, Mr. and Mrs. H. A. Riviere; a sister, Nancy; and a brother, Joseph. Miss Riviere came here 16 years ago from Columbus, Ohio.

Lights for the duration of the festival and a brief ceremony will attend the act of throwing the switch.

Coronation of the Orange Bowl queen will take place on December 27 in City Auditorium in Bayfront Park, and because of the already large demand for tickets, Business Manager E. E. Seiler said, it will be repeated on the following night. Massed bands and glee clubs will furnish an impressive musical accompaniment to the regal ceremony and the coronation will be followed by a fashion show featuring the queen's wardrobe.

Regattas will be staged at Dinner Key in South Miami on both December 28 and 29, and on the same dates Orange Bowl water shows will be held at the Miami Biltmore pool in Coral Gables.

New Year's Eve, as demanded by tradition, is set aside for the huge "King Orange Jamboree," a two-hour parade through downtown Miami, with 45 floats and hundreds of girls in Latin American costume carrying out the "Good Neighbor" theme, 25 bands thundering martial music.

"Decidedly the most tremendous parade in Orange Bowl history," Seiler has termed the coming Jamboree. Floats will be entered by the Cities of Coral Gables, Tampa, Ft. Lauderdale, Orlando, Ft. Myers, St. Petersburg and others. We're trying our best to find more seats to set up on Biscayne Boulevard.

New Year's Day will be the customary "Day of Sports," with racing at Tropical Park set back to 10 a. m. to leave the afternoon completely free for the clash of two of the nation's gridiron titans. Most important of this year's additions to the festival is the "Fiesta Under the Stars" on Lincoln Road, Miami Beach, the night of January 2. This will be a revised edition of the King Orange parade, with different costumes and some changes in the floats. World-famous Lincoln Road will be lined with box seats for the occasion.

Fireworks from the ocean off Miami Beach will write a blazing end to the festival on the night of January 3. Five huge barges anchored off Lummas Park will fire a 48-minute barrage of pyrotechnics in a suitable climax to the greatest Orange Bowl festival ever staged.

New products from wood mean more jobs, more incomes dependent upon the bounty of our forests. So protect those forests from fire.

Parents Magazine Accepts Story About Local Youth Center

By RITA ZARET

Readers throughout the country will be more familiar with the Coral Gables Youth Center within the next several months thanks to the interest and talent of Mrs. Harriet Blackwell, Miami free lance writer who recently had her article on the Center accepted by Parents Magazine.

A short time ago the Youth Center was brought to her attention by her nephew and his family, Mr. and Mrs. William Gray, jr., who are residents of Coral Gables. Prompted by their enthusiasm she visited the Center and found it to be the ideal subject for a feature article since it was the first war memorial to be constructed as a youth center in the country.

Through interviews with Ed Beckman and Miss Betty Ward, co-heads of the Center, and personal observation she gathered the necessary material for her article which is entitled "That Ounce of Prevention."

Handling the Youth Center from the standpoint of the prevention of juvenile delinquency, Mrs. Blackwell also turned in cut lines for pictures. According to the letter she received, photographers from Parents Magazine will come here to photograph the Center for a pictorial display.

"In my estimation, the Youth Center is a thing which any town should be well proud of. I'm all for it," says Mrs. Blackwell.

Beginning her writing career several years ago as a hobby, Mrs. Blackwell found it wasn't long before acceptance slips started coming to her in the mail. Though she started writing poetry she also branched into the field of feature writing and has had her work appear in such magazines as Good Housekeeping, Woman's Home Companion, Saturday Evening Post, National History Magazine, and Holland's Magazine.

"Writing just as everything else is a matter of likes," says Mrs. Blackwell, whose red hair is now turning gray. "I like to write, and because I'm an amateur and not a professional I write what ap-

LONG RUNS HAVE MARKED 'CANE GAMES THIS SEASON

If you like long runs in your football games, follow the University of Miami Hurricanes because either they or their opponents will come up with one for the books every week.

The season was only four and a half minutes old when Bob Longacre of Williams & Mary ran 58 yards. One week later, Charlie Justice of North Carolina went 65 yards in the first 90 seconds of action.

Miami dipped into this long run stuff against Texas Christian when Davey Elidredge went 50 yards for a score and later repeated for 63, only to have that one trimmed 27 yards by a clipping penalty. Ed Injaychock of Miami rounded out the evening with a 62 yard sprint to the 3.

Both sides struck for long ones in the Florida game, Hal Johnston passing to Andy Novak of Miami for 55 yards and one score while

later, Florida's Griffin returned a punt 96 yards.

Against Chattanooga, Miami's Ed Injaychock intercepted a pass and sprinted 98 yards while in the Villanova game, Bob Polidor leaped to catch Harry Gault's long kickoff just before it went out of the end zone and came back all the way.

Of course, there have been a lot of mere 30 or 40 yard runs, too as the officials who are short on wind are beginning to feel unhappy when they are assigned a Miami game. It's no place to be if you aren't in shape for a 100 yard sprint at a second's notice.

Ann Bowers. Diane Barton will write for the senior section. Edition Boys' Sports will be Bill Stephens while his assistants will be Ed McGee, Frank Baker, and Aaron Hertz.

Two persons will take over art editorship; Sonny Woodmansee, and Barbara Bowyer. The art staff includes Helen Johanson, Rhea Grafton, Patsy Ramsey, Bettie Bollinger, Jean Watkins, and Martha Allen.

To manage the advertising part of the Cavaleon is Erwin Strausberger while Nancy Kingston, Nancy Lesh, Jaqueline May, Gladys Hill, Shirley Douglas, and John Gould will work under him.

A photographic editor has not been chosen yet but on the staff will be Mary Rice, Peggy Degnan, Joan Irwin, and Martha Bentz. Ponce Celebrated Art Week Approximately fifteen persons entered in competition for outstanding work in painting and art posters, at Ponce de Leon High School, this week.

The occasion was Art Week, which was celebrated nationally November 1-9 in all schools. Several outstanding oil paintings by Ralph Woodmansee and Judy McIntyre were displayed in the window at Richards Department Store.

Among many paintings being displayed in the large case at Ponce de Leon High School, are hand painted scarfs, linoleum block, hand painted neckties, handkerchiefs, oil paintings, posters of all kinds, painted pottery, all types of commercial art and outstanding fashion designs. The class is under the direction of Miss Anne Mumper, Art Teacher at Ponce. The exhibit is open to the public and has received much favorable comment.

WAS I SMART—BACK IN 1946!

There was a year to remember! Everybody scrambling for scarce goods—some paying fabulous prices on the black market—and others, also with "money to burn," spending it on luxury-priced stuff they didn't need. We had the urge, too, but I said "No!" Our money went into the bank and into life insurance. Today, we've got the cash to pay for better stuff at normal prices—and they haven't.

We Cater to Cranks

They're Our Best Customers

Now wait a minute, Charlie—don't get buffy! We're NOT calling you nasty names. Matter of fact, we're simply giving forth with our weekly bragging—only this time we're bragging about YOU! Funny way to brag? We don't think so—and we don't think you will either, if you'll just calm down long enough to finish this!

The fact that you're one of our best customers proves that you're a crank, Charlie! For when we say "crank," we're referring to the man who owns an automobile and knows that when it comes to service and repairs that ONLY THE BEST AVAILABLE is what he wants. THAT'S WHY YOU BRING YOUR CAR TO PARKS MOTORS . . . for we have the most experienced men and the finest equipment available.

People who are "cranks" about their cars, Charlie, know that slipshod repair jobs cost them more in the end—and they also know that they are jeopardizing the lives of themselves and their families unless they keep their cars in perfect running condition. Pleasing people like you is a cinch for the boys here at Parks, for they KNOW that every job they turn out will meet the requirements of even the toughest "crank"—and they also know that for that very reason you appreciate the fine workmanship and prompt service that you get.

We've spent the past six months telling you about the men and equipment here at Parks Motors—but the surest proof we could have that their work is tops is the fact that you, Charlie, keep coming back! WHEN YOU CAN CONSISTENTLY SATISFY A "CRANK"—THEN YOU KNOW YOU'RE GOOD!

FROM A
RIVIERA NOTEBOOK

By Mary Helm Clarke

CUSTOM MADE GARDEN

If you ordered a garden according to specifications what would you hope to receive?

A custom-made garden plot would call for an underlying structure of oolithic limestone which disintegrates when exposed to the air and forms valuable soil. It would be watered by adequate summer rains, warmed by the Gulf Stream and protected from the salt sprays of the ocean by a chain of islands and fresh water bay.

According to the Riviera Notebook, there is only one garden plot of this kind in the United States. That is the strip of land along the shores of Biscayne Bay south of Matheson Hammock, known as the Fairchild Tropical Garden.

Custom-made, special order, one-of-a-kind possessions usually command fabulous prices, but this unique project is a gift to all garden enthusiasts.

First, Colonel and Mrs. Robert H. Montgomery donated the 83 acres of land with funds to finance the first plantings. Dr. David Fairchild, who, as head of the Plant Introduction Bureau of the United States Department of Agriculture, had dreamed of such a tropical botanical collection, gave hundreds of plants which he collected from every part of the world. It was fitting that the Garden should be named for him.

A museum and library building house the only palm products museum in the world, and the George P. Brett Memorial Library of Horticultural books.

Mrs. John B. Semple gave the Semple Vine Collection; the Garden Clubs of the America, through its Founder's Fund Award, will finance the lakeside amphitheater; one dollar gifts from admirers of Dr. Liberty Hyde Bailey are establishing the Palm Glade in his name.

These are only a few of the gifts which make it possible for the members of the Fairchild Tropical Garden Committee to maintain the project. Membership dues and benefit affairs balance the budget.

With the opening of the seas to botanical expeditions and the lifting of priorities on materials, the Fairchild Tropical Garden will continue, without fanfare, toward its goal—the gift to Garden lovers, of a custom-made, one-of-a-kind, display of the rarest plants, trees, fruits and flowers in the tropical lands.

Charter for Jaycees Is Approved

CHICAGO, ILL.—The Coral Gables Junior Chamber of Commerce is to have national recognition, it was announced today by the U.S. Junior Chamber of Commerce headquarters in Chicago. According to Selden F. Waldo, president of the national organization, the application for a charter by 91 of Coral Gables' prominent young men headed by their president, David H. Hendrick, Jr., was accepted today. Waldo added that Coral Gables' is the 9th new organization in Florida to seek affiliation with the U.S. Junior Chamber of Commerce this year and the 86th organization to do so in the country.

Coral Gables joins the U.S. Junior Chamber of Commerce in the year of its silver anniversary. The organization was founded twenty-five years ago in St. Louis by Henry Giessenier to give young men a voice in civic affairs, and a chance to develop leadership by improving the communities in which they live through their efforts on worthwhile projects. Today, there are more than 1100 member organizations in the United States with almost 100,000 members. The movement has become worldwide and is now active in more than thirty countries. Last February seventeen nations sent Junior Chamber representatives to their first international meeting in Panama, where an international headquarters has been established and is now in operation.

Some of the projects made famous by the Jaycees throughout the country are drives against tuberculosis and venereal disease, their efforts to reduce the number of fires, their action in combating traffic accidents, their campaign against juvenile delinquency, their establishment of Independence Week, and their educational measures to make the citizens of all communities aware of governmental affairs.

"Whenever a community has need for enthusiastic, vigorous young men of action," Waldo stated, "there you will find the Jaycees at work." "The Junior Chamber of Commerce," he added, "is open to all young men 21

Elks Planning New Series of Social Events

The first of a series of Saturday night dances was held last week-end by the Coral Gables Elks Lodge in the new lodge home, 22 Avenue Girald. The second of the series will be held tomorrow night.

These dances are part of the club's new social program, which is being arranged by the entertainment committee under the chairmanship of Mark L. Erwin. In addition to the dances every Saturday night, special events will be planned for the various holidays, such as Christmas and New Year's.

through 35 years of age. It wants all young men of good character from every walk of life who desire to improve the communities in which they live and who would like the leadership training that only the Jaycees can offer."

Alley Closed To Permit New Theater

A portion of the alleyway running between Coral Way and Avenue Andalusia, just east of Salzedo Street was closed last week by the city commission and turned over to the J-C Holding Company to permit construction of the new Wometco Miracle Theater there. The city received a 25 foot lot in exchange which will permit egress from the existing alley on Andalusia.

Albert Bernstein, representing the Wometco interests told the commission that construction of the theater would start no later than January 1, 1948, providing building restrictions have been lifted. If they are lifted earlier, construction will be moved up, he said.

Swift Outlines Recreation Aims Of Gables

Extending the use of recreational facilities to the greatest possible number of Coral Gables people and making the use of recreational facilities safe, convenient, pleasant and as satisfying as possible are two of the many jobs taken over by the Department of Recreation, Charles W. Swift, Director of Recreation, stated today.

"The department is going to acquire recreation facilities sufficient to fill the needs of Coral Gables citizens," Swift said, "and we are going to maintain facilities in the best possible condition."

Although Salvadore Park is the only recreation site at present,

Swift said that the city commission has approved funds to purchase equipment so that more activities will be available at Salvadore.

"Tennis courts, handball courts, volleyball courts, and croquet courts are now ready for public use," Swift stated. "We soon expect to have shuffleboard courts, picnic shelters, and a playground area for children that Gables residents may use daily."

Assistance will be given to any group wishing to use the athletic equipment. Swift also reminded Gables residents of the newly-formed tennis club and of the tennis clinics held at Salvadore every Saturday morning.

CHRISTIAN SCIENCE LECTURE IS SCHEDULED FOR SUNDAY

"Christian Science: The Science of Eternal Life" is the title of the free lecture to be given at Second Church of Christ, Scientist, 3850 Main Highway, Miami, at 3:00 p.m. next Sunday afternoon.

Harold Molter, C.S.B., the lecturer, comes from Chicago, Illinois, and is a member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

In arranging for the lecture, the members of Second Church of Christ, Scientist, believe they are providing a means for reaching many people about Christian Science — what it teaches, how it heals, why thousands have become its adherents. A cordial welcome is extended to the public to attend. The lecture is free.

Christian Science

"Mortals and Immortals" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, November 17. The Golden Text is: "Thou art no more a servant, but a son, and if a son, then an heir of God

through Christ" (Galatians 4: 7). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Put not your trust in princes, nor in the son of man in whom there is no help. His breath goeth forth, he returneth to his earth; in that very day his thoughts perish. Happy is he that hath the God of Jacob for his help, whose hope is in the Lord his God" (Psalms 146: 3-5).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In the illusion of life that is here to-day and gone to-morrow, man would be wholly mortal, were it not that Love, the divine Principle that obtains in divine Science, destroys all error and brings immortality to light" (p. 305: 22-27).

Lutheran

Divine worship will be held Sunday morning at the Coral Gables Elementary School Auditorium, Ponce de Leon Blvd. at Minoreca, at 11:00 o'clock. Rev. C. J. Sutorius, the Pastor, will preach on the subject: "Neither Poverty Nor Riches".

The Sunday School meets at 10:00 o'clock, providing classes for all ages.

Army Offers Choice to Enlisters

An opportunity for young men in Coral Gables to enlist directly in any of several famed Army divisions was announced today by Capt. Thomas A. Murphy, local Army recruiting officer.

By signing for a three-year enlistment, candidates may serve with the First Cavalry Division, the Sixth, Seventh, Twenty-fourth or Twenty-fifth Infantry Divisions, or with the Eleventh Airborne Division, in the Pacific or the Eighty-second Airborne Division now stationed at Fort Bragg, North Carolina.

The First Cavalry was the spearheading unit to enter Manila after racing down the Central Luzon plain, and also was the first division to enter Tokyo after the surrender, Captain Murphy said.

Men of the Sixth Infantry Division fought the Japanese in Dutch New Guinea and later on Luzon, while the Seventh Infantry was initiated to combat in the Aleutians before moving to the far Pacific. The 24th fought the Japanese from Pearl Harbor to the Philippines and the Twenty-fifth Division battled on Guadalcanal and later on Luzon where it captured the heavily defended Balet Pass, according to Captain Murphy.

The 82nd Airborne fought all the way from North Africa to Germany and became one of the most decorated units in the U. S. Army. Elements of the 11th Airborne Division recaptured Corregidor in 1945 after 12 days of some of the fiercest fighting of the entire Pacific war.

Assessment District Is Created

The action was taken at the request of Roy Page, City Manager. William T. McIlwain has been ordered to prepare cost estimates prior to a public hearing.

Center GGirls Form Baby Sitters' Union

The Center points out that the girls are all from respectable Coral Gables families and have the endorsement of the organization. A call to the Youth Center, 48-2567 will furnish any other information desired.

Package Store Gets Green Light

The city commission last week upheld a recommendation of the zoning board, permitting a package liquor store on University Concourse between Blue Road and Suarez St. The application was made by Alex Smith, realtor, in behalf of a client. No license has been issued.

The Navy estimated that the Women's Reserve replaced more than 50,000 men for sea duty in World War II, enough to man a major task force.

Bold Front, Hopeless Cripple Comes Back As Fast Horse

Racing has had many stories of horses who failed under one trainer, only to succeed for another and the sport has had many yarns about the rejuvenation of cripples, who became study performers due to the patience of their handlers.

The story of Bold Front, a 5-year-old son of Snark and Histiety, she by Man O'War, is one of the more interesting of such tales and particularly so at this time when Bold Front is munching his oats in Barn 1 at Tropical Park where Trainer R. H. Balch is preparing him for a campaign at the meeting which begins Dec. 2. Of further interest to Gableites is the fact that Bold Front is owned by Norman Faris, formerly in the ice cream business but now retired, who has been a Florida resident for the past 35 years.

Bold Front was bred by the Wheatley stable and came to the races under the supervision of that famed conditioner Sunny Jim Fitzsimmons. But Bold Front was cursed with bad legs and only raced half a dozen times as a 3-year-old, never finishing in the money. He did not start either as a juvenile or a 4-year-old.

Finally, given up as a hopeless cripple, Bold Front was sold for \$100. Bad luck continued to dog his trail and he was kicked by another horse, suffering severe shoulder injuries. His condition was such that he was sold for \$35. Eventually Bold Front went to Farris, still badly crippled up, and the Miami owner turned the son of Snark out for months at a riding school in South Miami. It was from this spot that he was picked up in November of 1945 by Balch and taken to join the other horses which the trainer had at Tropical Park.

Most of those who saw Bold Front laughed at the possibility of his ever reaching the races again but Balch was firm in the belief that he could make the gelding sound and succeed in racing him. As it turned out, Balch has the last laugh and it has been a rather long and hearty laugh at that. For on March 29 of this year, Bold Front won by a dozen lengths in a race at Tropical Park, breaking his maiden and running the mile and a sixteenth in 1:46 2-5. During the past summer, Balch has been campaigning largely on the Ohio circuit and Bold Front has proven beyond doubt that he has a measure of class. On Sept. 16 at Randall Park near Cleveland, Bold Front ran a mile and

a sixteenth in 1:44, under 113 pounds, to establish a new record. And what is more, three times previously he had finished second in similar races and on each occasion the horse who beat him had to set a track record to accomplish the feat.

Balch believes he has a better than even chance of having Farris see his colors in the winner's circle soon at Tropical, for Bold Front still is training very well.

Biscayne Opener Tonight

The Biscayne Kennel club, Florida's oldest greyhound racing center, will open the 1946-1947 racing season tonight (Friday) at 7:30 p.m. with a notable 10-race program featuring the 21st annual Inaugural Classic.

Extensively renovated and redecorated and offering a number of outstanding improvements including an ultra-modern electronic timing clock and the newest and most efficient jimny pit and pad-dock in the sport, the long famous northside oval promises to be the site of a record-breaking 40-night meeting from tonight through Dec. 31. Under the supervision of Joe H. Adams as managing director and Frank G. Burghart as controller, Biscayne again will have its various departments directed by an "official family" that has proven its worth at the northside plant as well as claimed national ranking.

The racing division will be in charge of Thomas Hogan as director of racing; James Hodeck as racing secretary and W. R. "Bill" Moore as presiding judge. Thursday they named eight of the nation's outstanding dogs to comprise the first night's Inaugural Classic field. These include, Ready Hook, the St. Petersburg Derby champion; Gene Roller and Golden Gallant, two of the summer's leading winners in the East; Hooker, Walnut Street, Korn Kick, Rocket Gal and Sandy Roll. This field promises a 5/16 mile competition in the ninth race that will see a time mark of 31 3/5 seconds or less.

Added to this stellar card will be a notable co-feature, the eight named for this event being ranked right with the Inaugural field. These include, Gallant Martha, the Revere Derby champion; Ophelia, the Taunton Gold Collar champion; Snappy Sue, an eight-time winner in the East this past summer; Larry's Memory, Good Shiner, Jolly Hal, Army Flyer and Blended.

With the first race going at 7:30 p.m., the Daily Double will be on the first and third races. Quin-jelas will be available in the expanded mutuel division on every race. After tonight's opening card, the post time for the nightly 10 races will be returned to 8 p.m. as in the past.

Cage League Champs to Vie In Gold Ball

Nine teams will compete in the league, and five sponsors have already signed up entries. They include Embury Riddle, J. P. Riddle, Catholic Youth Club, Taylor's Sports Shop and Turner Evans Sports Shop.

Crippled Children's Group Elects Former Mayor

Other new officers include Dr. L. M. Bristol, Gainesville, president; Fud Thornton, Pensacola, vice president; Dr. Sherman K. Smith, Tampa, treasurer; Byron A. Harrison, Miami, executive director.

Governor Caldwell was elected honorary president and Mrs. Caldwell, honorary director of Easter Seal sales.

the sale of Easter Seals.

Also approved was a proposed spastic treatment center to serve Sarasota and Manatee Counties. This will give Florida the second such center, the other being located in Tampa.

City Rejects Offer To Buy Property

An offer by Irwin D. Camner to purchase 25 feet of city owned property at \$100 a front foot has been rejected by the city commission. HEIRLOOM QUILTS BRING AVOCATION TO MRS. PAVY

Two heirloom quilts bequeathed to Mrs. Roy Gilmour Pavy were the beginning of an unusual hobby. She wanted to know the names of the quilt patterns and the history. Mrs. Pavy found as she searched, that romance, fashion and history were all wrapped up in quilts. Enthusiastically telling her story to a group in Connecticut, Mrs. Pavy was at once asked to speak for

church and DAR groups in Massachusetts as well as many Connecticut cities.

This interesting talk, "Quilts of Our Grandmothers," will be given by Mrs. Pavy for the Woman's Association of the Community Congregational Church following a typical New England Dessert Party at 1:30 o'clock in the lounge.

Friday, November 22nd. Program at 2:30. Old and rare quilts will be on exhibit and Alberta Bergh, Geraldine Rasmussen and Marilyn Forster wearing old time costumes, will sing favorites of yesteryears. Hostesses are Mrs. Clifford White and Mrs. Jennie Brown.

Distinguished Educator Home
 Dr. William Charles Bauer and daughter Mary Virginia Bauer have just returned to their home, 917 Alberca Avenue from Evanston, Ill. Dr. Bauer is the retired dean of the School of Engineering at Northwestern University. He was head of the Electrical Engineering Department for 35 years at Northwestern and was the consulting engineer for all school construction for 20 years.

Friedl Stresses Language As Key To Better World Understanding

(Continued from Page 1)
 "What is the one greatest need in our day and age?" demanded Dr. Friedl. "Education! The world is shrinking — science has new gadgets. Our community is really one world."
 "What do the other people want — the Russians, French, and Chinese? Are they different? Do they seek learning, success, and happiness? We mistrust them, because we don't know."
 The authority on the psychology and history of Russia expressed his regret that the American armies had to search for interpreters. Few troops understood foreign languages.

"Veterans will uphold my conviction that languages are important in suppressing confusion," exclaimed the educator. "This very thing is happening in the United Nations today."
 The University of Paris graduate and instructor cited President Truman's recent statement blaming the Russian-Western Allies conflict with the difference in language. He added that nothing has been gained by ignoring Communism, or attacking it.

"Their basic philosophies and psychologies can be understood," assured the professor. "It is worth noting that the Russians believe in instruction by the native tongue—and there are a great many tongues in Russia."
 Dr. Friedl reported that the University of Miami is attempting to alleviate the problem by adding Russian courses to the curriculum. However, the lecturer admitted that Spanish would be of more value to Miamians.

"We must set up a curriculum to meet the greatest need to the community," warned the lecturer. "Learning is the answer — the key is the language."

BUY GABLES TAGS PROVE POPULAR

A neat metal tag, bearing the slogan "Shop and Save in Coral Gables" made its appearance on hundreds of Gables automobiles this week, as filling stations and stores began giving them away as a gift from Georges Courtois, local real estate broker.

Courtois purchased 2,500 of the tags to aid the current campaign to boost shopping in Coral Gables. Residents who have obtained tags have been enthusiastic about them, commenting that not only does it give them an opportunity to boost their town, but it provides an attractive addition to their automobiles.

Gableites wishing to obtain tags for their cars may obtain them free at The Riviera office, The Toy Wagon, Coral Way Cleaners, Taylor's Sports Shop, Carl's Liquor Store, Stone's Liquor Store, Rogers Electric Co., Coral Gables Furniture Co., the Chamber of Commerce or any of the following filling station and automotive agencies: Sunoco, Ira Malcolm, George Rollins, Hank's, Tutus Motors, Thiel Service Station, Jack Hood, Parks Motor Co., Checker Norman's, Sinclair, Mack's, Edward's Gulf, Huskamp Motors and Riviera Service Station.

Traffic Charges Result in Fines For Five Drivers

When municipal court convened Wednesday, five persons were fined for reckless driving.

They were Tullions Eastman, 2735 NW 27th st., \$29.50; Elmer B. Herring, 22, 1120 NW 33rd ave., \$15 and court costs; and Joseph C. Dant, 21, 1417 Avenue Medina, \$29.50. In addition to recklessness James T. Clayton, 3170 SW 8th st., and Floyd Asher Wright, 1700 Avenue Cortez, were charged with causing an accident and each paid \$29.50.

A bond of \$25 was forfeited by Richard J. Quigley, 52, 4028 1/2 SW 12th st., for drunk and disorderly conduct.

Advances Plan To Enlarge Building Sites

(Continued from Page 1)

It is quite agreed nationally that the next five years shall see a great deal of building to catch up with the pent-up demand of the war years. In our city like in any other in America we are suffering budget pains. We have not enough money in the treasury to meet all the pressing demands. We must therefore look forward to building to our potentialities to the limit of our abilities. We need more residents. Would it not be rational to study the following proposal:

To every home owner who builds a home on two city lots, the City of Coral Gables shall not collect the city taxes for five years from the date of occupancy. Homes built by contractors fulfilling these conditions shall also benefit through purchase by a newcomer to the city.

Two city lots bring an average of \$15 apiece for tax purposes. Two city lots would be costing the city \$30 yearly, or \$150 for five years. After this period the city will recover in one year all the taxes uncollected on empty lots and thereafter collect \$150 or more each year. The next five years shall be good years—when hard times come, the city will be in good condition to face any eventualities.

I bought these plates because of my strong conviction that we must build up the buying power of the city before building any more stores. There is a splendid opportunity being offered Coral Gables due to the congestion in downtown Miami. Let's get together and promote the movement: "Shop and Save in Coral Gables."
 Georges L. Courtois

University Students Celebrate Homecoming

The University of Miami's "M" girl Miss Dolores Papy will reign as queen of university celebrations when the Hurricanes meet LSU for tonight's homecoming game. The three-day affair began with the huge bonfire last night followed by a motorcade down and up town. This morning at 11:30 o'clock a pep rally will take place for students and visitors and tonight following the game a dance at the Country Club of Coral Gables.

SELF-DECEPTION

There has recently wandered from the Hollywood scene a once famous actor who, in his time, occasionally descended from his tower of conceit to converse briefly with such ordinary mortals as stage carpenters and scene-shifters.

One day, while in one of his condescending moods, this magnificent ham inquired of one of the electricians, "And what, my good man, is your vocation?"
"I'm a Baptist," replied the other.
"No, no, my good fellow," the actor objected, "that is your belief. What I want to know is the nature of your work—your vocation. Now, for example, I'm an actor—that's my vocation."
"Aw, naw it ain't," rejoined the electrician, "that's your belief."

SERVED HIM RIGHT

Two large turtles and a little one went to a bar to quench their thirst. Each ordered a mug of sarsaparilla. When it had been placed on the bar, one of the larger turtles commented that it was raining. Whereupon there was a lively discussion and it was decided they ought to have their umbrellas, and that the little turtle should go home for it. The little turtle demurred to the idea, expressing fear that if he went for the umbrella, the two big turtles would drink his sarsaparilla while he was gone. After much discussion the big turtles convinced the little one that they would not drink his sarsaparilla, and he started after the umbrella.

Three weeks passed, and finally one of the big turtles said:
"Let's drink the little guy's sarsaparilla."

"I've been thinking the same thing," said the other, "so that's just what we'll do."
From down at the end of the bar near the door, a shrill voice cried:
"If you do, I won't go after the umbrella!"

Vigorous Assistance

If Harold got to school on time this morning he would get a gold star for perfect attendance. As he hurried along with his books tucked under one arm he looked beseechingly heavenward. "Please, God," he mumbled, "let me make it on time." A few hundred yards away from the schoolhouse he again entreated God to get him there early.

As he ran through the doorway his foot caught on the threshold and he went sprawling just as the bell rang. He picked himself up and looked heavenward again, this time reproachfully. "Aw, right, aw right," he exclaimed, "you don't hafta push."

Anything to Please

The lady of the house was giving the new maid careful instructions on how she wanted the house cleaned. "You must be sure to sweep behind the doors," she said emphatically.

"Very well, ma'am," said Nora, a little hesitantly. "I'm used to sweeping it under the rug, but if it's behind the doors you want it, it's all right with me."

SECOND-HAND JUNK

A newly rich man was shopping for a violin for his son. The dealer, recognizing the man's wealth, showed him a Stradivarius. "This," said the dealer with pride, "a genuine Stradivarius, made in 1730. It is priced at \$75,000."
"Made in 1730 and it costs \$75,000?" asked the astonished rich man.
"That's right, sir," answered the dealer.
"Is this company that made it still in business?"
"No indeed, sir," replied the dealer, trying to suppress a smile.
"Well, then, I don't want it," declared the wealthy one definitely, "what would I do for spare parts if something broke?"

"Ideas Have Legs" by Peter Howard (Coward-McCann \$2.50).

Ideas travel fast, especially if promoted by men whose entire being is consumed with one dominating thought.

In less than two decades the Hitler idea of Nazism, "One race shall rule," permeated and rotted Germany.

Churchill's big idea that "The Nazis shall not rule but must be destroyed," was motivated by principles to which all decent men subscribe and this idea had swifter legs than Hitler's.

Peter Howard, formerly a top flight political writer for Lord Beaverbrook, was enjoying no little fame and fortune in the shaping of men's opinions.

After a profound religious experience, Howard discovered he was unable to continue with the materialistic life.

Howard is an intelligent man and a persuasive writer. Here is no shallow emotionalism of hitting the sawdust trail, but a considered affirmation that God has a plan for the world.

Though "Ideas Have Legs" commends the teachings of Frank Buckman, whose Oxford Group aimed for "a new social order under the dictatorship of the spirit of God, making for better relationships, for unselfish co-operation, for cleaner business, cleaner politics, for the elimination of political, industrial and racial antagonisms."

Mrs. Irene Sears Buys Green Candle. Although Mrs. F. Irene Sears has been coming to Florida for the past 30 winters, the reopening of the Green Candle Tea Room this month marked her first business venture here.

A forest fire travels faster than a deer can run.

The dreary sense we are likely to associate with the word. It is a sprightly and readable autobiography of a man's life and his awakening to the realization that civilization cannot endure unless it is founded on the teachings of Christ.

In addition to his attainments in Fleet street, Peter Howard has been captain of England's international football team as well as bobbed champion. He is married to the former Doe Metaxa, a tennis champion and a forceful personality in her own right.

"Ideas Have Legs" is a thought-provoking book written by a man who understands the art of simple writing and who has something to say worth heeding.

Cavaliers to Tackle Jackson on Saturday

By BETTY NEWMAN

Andrew Jackson's Generals meet the Ponce de Leon Cavaliers tomorrow night in the stadium to play the last game of the season.

Although the Cavaliers have lost five games to two wins and one tie, they hope to top the Generals and tie up the Little Three Championship.

As between-the-halves entertainment, the Cavallettes will present a lindy drill. This is an annual drill given each year at the Jackson Game.

Dancing to the "Charlotte Harbor Storm" the girls will do a tricky jitterbug drill. Half of them will wear regulation uniforms while the other half will wear cheerleading costumes.

Big bonfires and pep rally will precede the game. This rally will be sponsored by the Key club and will take place at the square at Ponce de Leon Boulevard and University Drive.

Wheel Club Sponsors Show The Wheel club will sponsor the second performance of "Accent On Youth" to be given by the University of Miami Ring Theater, according to president Doug Phillips.

This play by Samuel Raphaelson will be held on November 23. Previously, the club sponsored a performance of "Claudia" presented two weeks ago.

Also, tonight, the Wheelers will give a program at the Coral Gables Country Club which will feature Darryl McCall as master of ceremonies, Ray Williams and his

planned but as yet no definite date has been set.

Council Makes Plans A new and rejuvenated Student Council will take over the student body according to Mr. Micah Ruggles, faculty sponsor.

Mr. Ruggles says that the Student Councils in Dade County don't have the power and influence over the school that they should.

Such improvements as student courts, student traffic courts and stronger student government, the council will be a factor for the

benefit and aid of all the student body.

One of its planned projects is to present more interesting assemblies. Sometime later this month, the council hopes to get the "only lie detector in Florida" here for a demonstration in assembly.

If you see an uncontrolled woods fire, notify the Florida Forest Service, the sheriff or highway patrol.

Bottled Gas Test Case Up Today

The attempt of five bottled gas companies to force the city of Coral Gables to rescind a 10 per cent tax on consumers will be resumed in circuit court at 2:30 this afternoon when City Attorney Edward L. Semple is scheduled to argue for dismissal of an injunction suit brought by the bottled gas distributors. Judge Charles A. Carroll will hear the case. The five companies maintain they are improperly classified as they are under the 1945 act empowering municipalities to impose taxes on utilities. They also maintain that they are being discriminated against because the Coral Gables tax does not cover kerosene and fuel oil distributors. Coral Gables contends that the tax is not a utility tax, but one against consumers. As for the discrimination argument, Semple says that the law forbids cities to tax petroleum derivatives. In September Judge Carroll refused to issue an injunction in the case until Semple filed pleadings

Mr. and Mrs. Wayne To Reside In Gables

Mr. and Mrs. Ted Wayne are being welcomed by their former classmates at the University of Miami since their return to Coral Gables from Wilmette, Ill. They have established their home in Coral Gables and Mr. Wayne is attending the University law school completing his education which was interrupted by six years of military service. He is a graduate of the University of Miami, president of the Veterans Association, and past president of Sigma Alpha Mu. Mrs. Wayne is the former Miss Fern Matros who attended the University where she was a member of Alpha Epsilon Phi. Their marriage was an event of September first in Wilmette. To Convention Harry S. Greene, 1401 Avenue Ortega, V. R. King, 1407 Ferdinand Street, and Edwin G. Bishop, 1046 Avenue Almeria, are among those attending the Atlantic City convention of the Prudential Insurance Co., November 21-23.

Mr. and Mrs. C. Jensen of 1245 Avenue Algeria have just returned from a four months visit in their native Copenhagen, Denmark, where they visited relatives. They flew the Atlantic both ways and a glorious thrilling trip they will always cherish, they report.
