

# ADDITIONS BOLSTER FIRE ALARM NET

### Twenty-one Boxes Added; Total Is 101

Twenty-one new fire alarm boxes have been purchased by the Coral Gables Fire Department this year, bringing the total number of boxes in the city to 101, according to F. J. Neff, who is in charge of the fire alarm system.

"The fire alarm box is the quickest and most direct way to turn in an alarm," pointed out Neff. "When an alarm is phoned in, the person calling is usually excited, and makes many mistakes which using the box prevents."

### Give Right Address

If an alarm is phoned in, care should be taken to give the correct address. Many people forget to give any address at all. Often people in their excitement to report a fire, will call the wrong station. Last week the Gables station received calls for fires in Miami and on Miami Beach.

### Learn Location

Every Gablette should know the location of the alarm box closest to his house, and should know how to operate this box properly. The operation of one of these alarm boxes is a simple process—all you have to do is pull the handle on the door and then pull the hook inside. After this has been done, do not rush back to the fire, but wait at the box until the engine arrives. In case of a fire inside a building, this is the only way the fireman have of knowing the location of the blaze.

"These boxes are tested every week to make certain they are in perfect condition," stated Neff. "In addition to the 21 new alarm boxes we have received this year, we still need about 200 more."

Miss Comerford will be with the Friedemanns for about a month, and is enjoying the beauty of tropical Coral Gables and area to the utmost.

## HELD TO SEEK NATIONAL TITLE

# Bridge Champ Claims No Special System But Cups and Titles Keep Rolling in

Although he uses no special system, Eddie Cohen of Miami Beach, copped the runner-up position with 573 points. This score was five points less than the 578 total that William Seaman and Waldemar On Zolwitz, the winners, made.

Entire proceeds, consisting of \$1,000 from the Florida unit of the American Contract Bridge League, which sponsored the tournament, is being sent to the survivors of the Texas City, Texas disaster.

Win Three Times  
Held was a winner of the Southeastern Open Pairs Tournament three times, and although he did not take the first position, he was well.

His trophies are a good record for any bridge player. And

speaking of his trophies, none of them have remained in his possession. "I give them all away, held said. What good are they once you win them?" It's the enjoyment he gets that really counts!

Held, who is an accountant for the Huskamp Motor Co., has been playing cards all his life. In fact, he says, "I enjoy all kinds of card games and bridge was just another game that I wanted to learn how to play." He agrees, however, that bridge has become his hobby.

A "native son" of California, Held still believes that California is the "best state in the Union." It seems he rambled around the country for a while, and finally ended up in Coral Gables.

## Dade County Clean-up Council Asks Cooperation of Gables During Month-Long Campaign

All Coral Gables home owners, landlords, tenants, and vacant property owners will have a chance to show what they can do to help beautify their city, during this month's Clean-up campaign being sponsored by the Dade County Clean-up Council.

Spring cleaning in the Gables as well as the rest of the county will consist of clearing all properties of foliage, debris, and waste matter in order to put the city in a more sanitary condition.

"The City Parks Department has sufficient trucks to take care of the waste matter that will be placed on the streets as a result of this Drive," Clyde Epperson, chairman, has announced.

County Wide  
This Clean-up, Paint-up campaign will take place throughout Dade county. The council sponsoring the drive has secured 200 large placards from the National Clean-up Bureau at Washington, which will be displayed in conspicuous public places throughout the county. Dade county theaters will show trailers on the clean-up campaign during the entire month of May.

Chairman Epperson urges all Coral Gables citizens to cooperate in this campaign for improved sanitation through cleanliness. He also said that the Council will request that the County Commission keep the County sprayed with DDT during the summer months.

### But No Second Time, Policeman Warns

A University of Miami student wanting to kill a few hours in the Coral Theater yesterday could find only a parking space near a one hour parking meter. Knowing the show would last two hours the student deposited one nickel in the parking meter, placed another one on the ledge over the dashboard and displayed the following note under the windshield wiper:

"Officer:  
If meter is overdue please deposit 5c which you will find on inside ledge of car.  
Thanks—"

When the student came out of the movies two hours later he found he had about two minutes left on the meter, and the following answer to his note:

"Dear Friend,  
O.K. this time but we only allow one hour parking in any city block.  
Officer Charley Gouvis"

### THEATRE CONTEST INSPIRES MANY

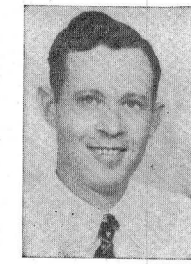

## Youngsters Like to Live in Coral Gables

"Almost perfect government makes Coral Gables a wonderful city to live in" wrote one teenage Gableite last week in the "It's A Wonderful Life To Live In Coral Gables" contest sponsored by the Gableite theater.

Inspired by the movie "It's A Wonderful Life", which played at the Gables April 10-14, Dan Boone, manager of the theater, decided to run a contest at the Leon High School to find out why the young people of this area think it's nice to live in Coral Gables. Many reasons were given, but almost everyone agreed that the friendly people, wonderful climate, recreation facilities, adequate shopping center, and beautiful homes make Coral Gables a model town.

15 Winners  
The 15 winners, who each won a pair of passes to the Gables Theater, are Jack Bradford, 332 Avenue Escohar; Jane White, 1029 Avenue Sevilla; Marilyn Reynolds, 18 South 3 Rd., South Miami; Claire Gulati, 2909 Day Avenue; Carroll Kern, 3814 Alhambra Ct.; Betty Jones, 914 Madrid Street; Bob Hertz, 8801 S.W. 27 St., Miami; Jack Munroe, 1207 Lisbon Street; Peggy Dugan, 3114 Florida Ave.; Battle Bollinger, 913 Avenue Andalusia; Bill Hays, 825 Granada Groves Court; Dale Faust, South Miami; Marion Handman, 7309 East Road; Roger Norvell, 1111 Avenue Sorolla; and Richard Costner, 633 Avenue Altara.

In addition to the obvious while its effect is still relevant on the individual, you can remove this disorder as God's law is fulfilled and reformation cancels the crime" (404:10-15).

down." Is that a one story "shock" or a larger one?  
On a more serious side, one student pointed out "The best thing of all is that it's getting better every day." **Good Start**

The new streamlined planning board rolled up its sleeves and got down to work this week. From the attitude and actions at the first meeting on Monday, it looks as though the board will be a valuable asset to the city.

The old planning board was too big, too cumbersome. It was difficult to get all of the members to attend a meeting. It was difficult, too, to crystallize opinion.

The new board of seven men should be able to function with much greater efficiency. On Monday, after some clear thinking and discussion, the board cleared up two matters that have been hanging fire for many, many months. The bridge piers were established and the Miracle Mile beautification plans were selected.

Good planning is essential to the future growth of Coral Gables. In the planning board, the city commission has a valuable aide-de-camp.

It is hoped that the diligence displayed at the first meeting will keynote the attitude of the board members during their terms of office.

**New Economy**

Since everybody longs for a new world where we work deliberately for an economy where we frankly recognize there's not enough for everybody's greed but enough to spare for everybody's need? Where God provides from a great store of plenty so that men and nations who obey Him need never improvise from scarcity? Where resulting freedom from demand in men and nations makes the wealth and work of the world available to all, exploiting none?

Why not realize that an economy is possible where everybody cares enough, and everybody shares enough, so everybody has enough? Where government no longer needs to control supply because individuals themselves are disciplined enough to control demand? Where people come before profits, national interests ahead of private interests? Where business becomes a matter of give and receive, rather than buy and sell, or trade and barter?

Where work becomes a joyful service rather than a fearful way of avoiding hunger—or a selfish way of satisfying greed? Where teamwork becomes the most important product of industry? Where the way is thus opened for peak production and a higher peak than ever was or will be possible under the merely hired labor of commercialism, the directed labor of socialism, or the slave labor of totalitarianism?

Where the boss voluntarily does more for his workers than the most radical government would ask? And the worker does more than the strictest task master expects?

Where this idea of teamwork, exported abroad sets a pace for teamwork between nations, opening the way for the exchange of goods, services and money? Where nations, thus enjoying the respect and friendship of their neighbors, find—for the first time in history—that they are really economically secure?

Why not?

**OUR TOWN**  
Tonight's the Night

By Jim Moore

It does a town and its people good to stop every now and then, take a deep breath, look back to see where we've been and then try to peer ahead to see where we're going.

It's pretty much like coming to one of those railroad crossing signs—the big white X's that tell us to "Stop, Look and Listen" before proceeding on our way.

Tonight, along with a lot of other men and women who are interested in this community we call "Coral Gables", I am going to do just that. And I'm really looking forward to it.

In honor of the occasion I'm going to have a light lunch, get a haircut and my best suit out of the cleaners, wash behind my ears and head towards the Country Club of Coral Gables.

It's the big night for our Chamber of Commerce and I wouldn't miss it for love nor money.

I'm looking forward to the chance of getting to know a lot better many of the folks I see briefly in their places of business during the busy day. Tonight we'll all have a chance to relax and let our hair-down for some plain old fashioned chit-chat.

I'm also anticipating with a great deal of pleasure those roast prime ribs of beef that are being prepared under the expert guidance of Maître d'Hotel Charles May. I know what he can do to a hunk of roast beef. M-m-m-m.

I'm also very much interested in the message that will be brought to us by John Temple Graves, who is coming over from the Birmingham Post to talk to us. A lot of people in Coral Gables have heard him speak before and I've never heard such enthusiastic recommendations.

But most of all I'm looking forward to the feeling of pride that will come over us all when President Charlie Tutan takes us back over the past year and shows us what we've done through our Chamber of Commerce—when Mayor Keith Phillips looks back ten years and describes the situation then and now. It's then that you and I will be able to look across the table at each other and say "We've done that. That's OUR TOWN! That's OUR TOWN!"

As the late cartoonist Clare Briggs used to say, "Ain't it a grand and glorious feeling?"

Employees of the financial exchanges in New York are agitating for more pay. They argue that there isn't enough exchange, and you can quote them on that.

Film Director Lewis Milestone says the campaign as well as funds on hand before the campaign began April 11, will be spent to rush the completion of the hospital," Pentland stated.

Need of workers to make possible the completion of the hos-

**ENDURANCE!**  
WHAT ABOUT OURS?

My dad's Aunt Polly and mom's Aunt Sue are visiting us, as great aunts do. And not having met for twenty years, they discuss at length their past careers.

With their children raised and husbands buried, Their lives are simple and unburied, With ample time to visit relations, And compare their major operations.

They vie in tales of pain and endurance, Evading collections on life insurance— How they absolutely refused to die, And join the angelic host on high.

Implying, of course, that the twin survives, Because they have led exemplary lives. Be that as it may, I should hate to bet That the devil himself won't get them yet.

—J. L. BEERS.

Ray Westcott let us down. Last week we itemed that summer must be here because he had that "I-wanna-go-fishin'" look in his eyes. Well he did go fishing, but he came home empty-handed. For shame . . . The Motheaten Moose is still on the go and we have a reporter tracking him down. We hope to report on his, meanderings again next week . . . Louis Thibault, the man with the double voice, is still being kidded over a faux pas he made following his fiasco vocalizing at Kiwanis Club on Tuesday . . . Watch for the "No Man's Land" annexation question to pop up again in Tuesday's city commission meeting. The pros and cons are still working hard out in the county strip.

Commissioner Dave Hendrick is back on the job again after being down for a few days with a throat ailment . . . Safety Director Bill Kimbrough is also having a little trouble in that department . . . Saw Carl Warth on the street this week. He's doing his part in the Children's Hospital fund drive . . . George Caster is spark-plugging the organization of a Coral Gables club for the group of his college fraternity—Sigma Chi.

Norman McKay, the WBYer, kept Kiwanians listening for a solid thirty minutes this week as he unveiled a solid stream of dialect stories. We don't know how he remembers them . . . Roy VanDevere, Roy Page and Lowell Southern were interested spectators at the first meeting of the new planning board on Monday . . . Dick and

Reece Marshall, Jr. tell us that they flew to Havana for breakfast not so long ago. A friend flew them in his plane just for an early morning ride.

City Attorney Ted Semple is really a busy man these days. He's spending weekdays in Tallahassee representing the city and the Florida League of Municipalities. On week-ends he flies back and catches up with his law practice. That's really long-range commuting.

Cy Washburn eats a bowl of soup and takes a long nap before conducting a Philharmonic concert . . . Frank White of the Happy Hour got some new wine lists printed this week that are beauties. Of course we printed them . . . Incidentally our job pressroom foreman, Harold Johnson, is taking an awful ribbing this week. Seems as though a pretty young thing from WBY came in and said she needed some envelopes printed in a hurry and pronto—they were done in about an hour. Now they're saying that if you want your printing rushed, you'd better send a pretty girl down to see Harold. Dunno papers please don't copy . . . Fred Fleming, the University photographer, was in the plant Tuesday taking pictures of the journalism interne students at work. It's for a new brochure on the journalism department.

**Pentland Calls for Volunteer Workers To Insure Success of Hospital Drive; Cites 'Local Angle' of Project**

With the campaign to complete the South Florida Children's Hospital drawing to a close, Robert Pentland Jr., president of the institution, issued a final call this week for volunteers to work to make the drive a success.

He stressed that previous to this campaign there have been 19 other campaigns, a majority of which have been for projects located at some distance from Dade County. The children's hospital, on the other hand, is located in Shenley Park, just west of Coral Gables. When completed, he said, it will be the finest of its kind in the Southern United States.

Funds to be Used  
"Funds contributed during the campaign as well as funds on hand before the campaign began April 11, will be spent to rush the completion of the hospital," Pentland stated.

Need of workers to make possible the completion of the hos-

pital was stressed and it was pointed out that there is no real assistance. Hospital officials stated that all who have been contacted so far have been glad to contribute but in order that all may be reached, workers are vitally needed.

Long Range Plan  
Nor is completion of the hospital all, they said. There is a long range plan calling for ultimate construction of a nurses' residence, school convalescent home, research laboratory, salt and fresh water pools, memorial chapel and a covered project. All this will be built on the 22 acres of land, owned by the hospital, title to which is free and clear.

Speaking of construction, officials recalled the contributions made by organized labor which resulted in an unfinished structure now worth \$100,000.

**Youthful Singer from Brazil May Be Another Bing Crosby**

There's a young Brazilian named Bing at the Coral Gables Youth Center who may be on his way to filling the 10 and 12-inch record-making shoes of America's own Bing Crosby, and not too far in the future.

It's teen-ager Bing Martin, son of a Brazilian lawyer and veteran of South American motion picture performances—three of them—who sang Friday on the Center's weekly broadcast over WBYA at 8 p.m. A baritone, like his namesake Crosby, Bing's treatment of Brazilian and American songs has already drawn highly favorable comment from the Women's Club and P.O.E. society audiences.

Bing is just back from Paris, although Rio de Janeiro is his home, and has already been offered a spot singing in an American movie short. Camecramers from his native Brazil are anxious too to come to Coral Gables and film him at work and play at the Youth Center. The boy-with-a-future feels that of all the world he has visited the United States is friendliest and most helpful.

Saturday May 3rd is "Derby Day" from 5 to 7 at the Riviera Country Club. Members and their guests will enjoy mini juleps and music while they listen to the radio returns of the great race.

**Pre-cast Concrete Business Founded By R. Fulton Webb**

Another Gables resident, R. Fulton Webb, 3815 Toledo Drive, has added his name to the list of Coral Gables manufacturers. Webb is making pre-cast concrete joints and slabs as well as other concrete products.

The advantages of concrete joints and slabs are many in this climate, Webb points out, stating that the prime factor is that they are fireproof, greatly reducing the insurance rate. These materials which are termite-proof are designed to last forever.

**Gets Contract**  
Webb has a contract now for 2½ miles of pre-cast curbing for Crandon Park. The curbing is being manufactured at the plant at 4005 Aurora Street.

Small homes as well as large buildings are using these joints and slabs, he said. They have recently been used in the construction of the roof and floors of the K. F. Webb building, Ponce de Leon Boulevard and Bird Road.

**Cushman's Opens Saturday**

A constantly replenished supply of fresh bakery goods will be the order every day after Cushman's Bakery opens tomorrow at 2152 Ponce de Leon Boulevard.

Featuring the most recent conveniences of the bakery industry, Cushman's has an insulated truck which brings hot donuts, rolls, Vienna breads, and other baked goods to the store from their central bakery located at 1310 W. Flagler Street.

This special delivery of "warm" goods will occur once a day, at 4:30. However, there will be regular deliveries all day long, which will serve to insure freshness of goods regardless of the hour the customers choose to do their shopping.

As a protection against the hot weather, Cushman's has installed a new refrigeration case in which to keep all of their whipped cream goods. Besides handling all of the regular "goodies" to be found in the neighborhood pastry shop, this new store will feature a special department to take care of special orders for weddings, parties, or other festive occasions.

Some months ago the three children were returned to Holland and are now living with their grandparents who are desperately in need of financial aid in order to maintain a home for the children. The family is now being aided by monthly contributions from Eeljie's foster parents here at the University of Miami.

**Prove Mettle As Diplomats**

The old story of averting of an international incident got a refreshing recently in Coral Gables, after Gables police had done just that.

Police Officer Moss got the first tip-off at picture show closing time when a gentleman stepped

into the station with the report that his car had been tampered with in his absence at the movies. He had left it unlocked outside, headed west, and had returned to find it facing east with its aerial up as though it had been used.

Investigation showed that neither damage nor robbery had affected the vehicle, but Officer Moss finding that the gentleman was Dr. J. M. Renedo, Consul General

de Nicaragua, informed the doctor that in the future if time that he wished to visit a Gables theater, he could park his car in the police lot.

Dr. Renedo, immensely gratified by the gentlemanly conduct of Gables police, was so pleased at the courtesy that he went out and brought in his wife to introduce her to officer Moss and Sgt. Bell.

student or graduate. The well-known Davis Cup star will meet Fort Lauderdale's "Ruddy" Behrens in the No. 1 singles contest. Behrens, the country's most promising Junior star, has been the mainstay of the Fort Lauderdale aggregation throughout the league season, and is expected to wage a tough battle against his more experienced opponent.

**Hart-Gilspie**

In another headline match, the University of Miami's Hart is expected to clash with Bill Gilspie, former captain of the Hurricane varsity, who plays in the No. 2 spot for Fort Lauderdale. Allen Richardson, Tony Vincent, Bill Turner, Charlie Lundgren, Bruce Johnson, Bernie Schreiber and Mort Ullman will also play for the University club, meeting such Broward stars as Q. M. Gornie, Jr., winner with Behrens of the recent Southern Night Doubles Championships, Jack Peavy, Buck Griffin, Ralph Woods, Don Fairbairn, Terry Terhune and Millard Cain. Six singles and three doubles will be contested.

**Women to Play**

Women's play will see the powerful one-two-three punch of Doris Hart, Barbara Scofield and Betty Ruth Hulbert uphold the University banner against a Fort Lauderdale team selected from Madie Davis, Penny Fowkes, Laura Leon John and Peggy Feighner. Miss Hart was runner-up in the 1946 nationals, and Miss Scofield and Miss Hulbert hold No. 16 and No. 17 national rankings respectively.

Matches will start at 1:30 P.M. in University stadium. A small admission charge will be levied, and a capacity crowd is expected to view one of the net season's most hotly contested events.

**To Give Awards**

Presentation of awards will be made in banquet at the Coral Gables Country club Wednesday evening, May 7.

In another fine match, the Hurricane varsity tennis team will meet Rollins College at 1:30 P.M. Saturday. Doris Hart will play Shirley Fry in a featured women's set-to, while Bud Hart tangles with Rollins' Enrique Buse.

Smiling proudly after a successful performance, the principals in the cast of the operetta "Aunt Drusilla's Garden" pose on the Elementary School stage following the show this week. Front row, left to right: Sandra Welch, Mrs. Bertha Webb, school principal, Mrs. Marjorie McIntyre, director, Elizabeth Feltrath and Ronald Magh. Second row: Amanda Rorrig, Patricia Cockett, Wayne Killen and Edwin White.

### Kaiser-Fraser Latest Models Will Be Shown

Gableties will have an opportunity to view the new 1947 "Manhattan model" Kaiser-Fraser cars tomorrow when the Whidden Motor Sales, Inc. opens its doors at Ponce de Leon Boulevard and Bird Road.

Both the new Kaiser and the Fraser will be exhibited, according to Albert S. Whidden, head of the local agency.

The entire building, including a modern service department staffed with trained specialists, will be open for inspection. The building was recently completed and is the most modern motor showroom in South Florida.

### Rogers Faces Granada Club In Softball

(Continued from Page One)

Olmig, 13-3, and Daniels tripped Turner-Evans, 3-1. Opening lifts in this circuit spotlight Daniels and Turner-Evans as the two clubs to beat.

As an added incentive to teams and players alike, Miracle Mile Merchants are sponsoring a trophy for the top club in the league. The award, which will be on display at the Youth Center next week, makes the Gables circuit the richest in the county. Trophies for the runnerup squad and the league's most valuable player is a part of the goal.

### Scholarship For Teachers Are Announced

Scholarships valued at \$100 each are being awarded to qualified teachers for the Workshop in Guidance to be held from June 7 to July 19 at the University of Miami, according to an announcement by Dean Charles R. Foster of the School of Education.

The Kivans Club of Miami, which offers the scholarship, set aside \$1000 for this purpose as a part of its program to promote the work of educational and vocational guidance in the schools. Awards are to be made by a committee representing both the University and the Dade county public school system.

wholesalers that the inflation could be stopped a lot more readily than through any temporary plan for cutting retail prices.

Charles R. Tulan, Dodge dealer, reported that his firm had cancelled orders on 600 radios and a large number of white side-wall rings when informed of price increases.

**Small Mark-up**

E. D. Rogers, appliance dealer, stated that with many manufacturers allowing only a 15 per cent mark-up, many dealers could not afford to slash prices 10 per cent.

Reporting on a survey of Miracle Mile merchants, Mrs. Nikki O'Connor stated that many stores found the plan to be impractical because they carried so many "fair-trade" items with fixed prices. She said that many stores were running sales, offering reductions up to 50 per cent.

Commercializing

She also stated that many Miami stores were "commercializing" on the Newburyport plan, and were not really entering into the spirit of it.

Mrs. Fay Schwartz of Howard's reported that she followed a policy of making storewide reductions of prices at the end of the fiscal year inventory in order to make room for new stocks.

The Division of Adult Education operates on a two-semester plan offering late afternoon and evening classes. This division also offers courses during the two eight-week summer sessions.

Fans who protested the decision in the last match between Marion Yohan and Lewis Leonard will have a chance at vindication Tuesday when the 135-pound fighters are re-matched. In the same weight class Jim Matthews of the Downtown Boys Club faces State AAU Champ Jim Crews of Hialeah.

**Decide Draw**

Dickie Lee of Coral Gables and Bobby Bates of Hialeah will get a chance to decide the draw from the previous match in the 120-pound class. M. Demos and Ollie Todd will also battle in this weight classification.

Three other matches plus the two exhibition bouts will be announced later, Wayne stated.

Proceeds are used to further youth work by the Jaycees.

Most interesting report came from Mrs. Skeet Royal, 235 Salamance, who called Gables police at 3 a.m. the night of April 25 with the message that loud snoring noises had awakened her to the fact that two men were climbing trees and cutting down corms in the vacant lot next to her home. Police found two men, University students, whom it developed were plotting fraternities. But the corm expedition was an innocent one.

They were on Hall Week.

### Class History Committee Does Research at Ponce

By BETTY NEWMAN

Digging into musty files of Old Tribunes, the class history committee is busy at work, restoring the past four years for Class Day ceremony. Most are first hand, you can discover Harriet Quilliam, Ann Smith, Jerre Brigham and Carol Gulliver, and Frances Olson reminiscing over the past glories and failures of the 1947 class. Such memories and the freshmen winning the paper drive Mrs. Cook's honorific monogramming the honor amongst for four years, almost, and of the sports records broken by members of this class.

These days, you can see the seniors wandering aimlessly about the halls, taking their last looks into book-crammed lockers, smelling the cafeteria pie for the last time, observing the chalk dust notes dancing in the light of the blue glass portable windows. Sure, they're glad to be graduating and getting out into the world but they feel a bit wistful looking backward over their high-school careers. Teacher's scoldings become as precious as jewels just because they will be over for good in a few weeks. The gatherings at lunch on the campus grow all of old talk and reminiscing with, "remember?" "That time when—" and "gee, will you ever forget—" Excited talk floats around about the virtues of a cotton over a crepe dress and whether or not to wear high heels or low ones. Corsages or not? All momentous questions as the seniors get the word through the high school sift through their fingers and pass into memories. Excitement fills the air. Talk of class colors, poems, graduation, prom dresses, summer and college plans is on all lips. Behind this accelerated energy, however, is a group of students who feel that they are leaving the best part of their childhood behind them.

Soon, we will outsiders, that illustrious group known as "Alumni." We will all sit at all the ball games and cheer as loudly as ever but we won't be a part of the group any more. It's great to be a senior up until this last few weeks when all the wonderful times we've had together come back twice as strong as ever and you know that a wonderful era is passing.

**GLAMOROUS SMELLS**  
Hothouse plants, indeed! Ponce femmes wander about the campus and halls with great waxy white flowers pinned in flowing locks and perfuming their bewitching smells to beguile the passing group. Yes, at last, the tardy gardenias are in bloom and it looks about Ponce as though they bloomed best on the dresses and coiffures of the lassies on the campus. Spring fever gets a shot in the arm when gardenia season rolls around.

**HOUSEPARTIES GALORE**  
With summer just around the corner, all the talk is about house parties these days. Every group of three or more is concentrating on only one thought: the hotels, the beaches, the dates, and just houseparties in general. Scissors fly as the domestic ones begin sewing on their clothes for this gala week. Scissors also fly as the girls debate whether or not to bang or feather-cut for cool comfort. The boys spend their in decisive moments too, trying to decide if a crew cut will make them more devastating and if they should take a coat and tie for "emergencies."

The heat and droning horseflies become new nothing when the mind is deeply engrossed in plans for a Dominican vacation.

**CAVALIETTES GET PARTY**  
With little hats containing personal rhymes, the senior Cavaliettes were informed that the junior-sophomore Cavaliettes would honor them at a strictly-then party. The affair was held at Eleanor Hulman's house last Friday night.

Each senior girl was escorted to the party by two underclassmen. These were her "dates." The "dates" were responsible for their seniors all evening.

Entertainment was presented by several underclass groups. Alice Davidson, Betty George, and Tootie Aris did a pantomime to records as did Christine Conn and Betsy Sturgis. Rhea Grafson and Betty Pulman sang while Jackie Maye did a skit.

Officially chosen as the best and most outstanding senior Cavaliettes, Harriet Quilliam and Suzanne Hardin were presented with "gifts" by the underclassmen. The first prizes consisted of a bolo hat and a man on a trapeze toy. The "unmentionable but please save for further use" wrappers caused a lot of fun with the notes attached to them.

However, eyes grew a bit misty when the girls began to sing some sentimental songs and to recall the good times they had had. Grooming tables served to feed the hungry gals who didn't let sentiment halt their appetites. After the meal and entertainment came further surprises for the juniors took their "dates" to movies of their choice.

### Home Again

A. B. Curry Buys Gables House

Back "home again" in Coral Gables this week was the city's former city manager, A. B. Curry, following the purchase of the residence at 1000 Hardee Road from E. G. Turner, General Mills executive.

Curry, who left Coral Gables to become city manager of Miami, was forced to sell his former residence here when a Miami commission ruling decreed that all employees must reside in that city.

He resigned from the city manager post there because of ill health. He later associated himself with Edward N. Claughton, developer.

The four-bedroom, three-bath house has long been known in the Gables as the "Dillingham residence" after its first owner. It is of French town house design.

Jack Bryte of the Donald F. Peck real estate office, made the house his "Dillingham residence" after its first owner. It is of French town house design.

**National Park Is Cited As Great Asset**

Florida this week, in officially turning over to the federal government for national park purposes the exotic Everglades area, made the most significant investment looking towards its tourist development future since the Flagler and Plant railroad-building days prior to the turn of the century, commented the research and industrial division of the Florida State Chamber of Commerce in its weekly business review.

"It is not unlikely that the park will be opened to the public by the fall of 1948, since the National Park Service is understood to have promised state officials that restorative work will begin this year."

"Conservative estimates are that the park will attract \$40,000,000 in new money annually to Florida, one of its in full bloom, an expenditure which will be felt in every economic nook and cranny of the State."

"The Everglades pulls at other national parks do, and there is every reason to believe that it will, the area will attract a minimum of a million visitors a year."

"Naturalists are agreed that no other locale in America offers as much to nature lovers as that to be found in the Everglades region."

**YVONNE DE CARLO, "the reason why Technicolor was born," is co-starred with BRIAN DONLEVY and JEAN PIERRE AUMONT in "Song of Scheherazade" showing at the Parkway Theater Thursday thru Saturday, May 1-4. It's a story of the adventure, music, and romance in the life of Rimsky-Korsakov.**

### Crawford's Suite Is Hit At Philharmonic Concert

A rare musical treat, worth travelling a long distance to hear, was the concert given Tuesday evening in the Coral Gables Country Club by the Philharmonic Society of Greater Miami, under the able baton of Oliver Washburn, conductor.

The entire area of southern Florida has been given an unusual opportunity by John Paul Riddle, who recently created the J. P. Riddle Foundation for Orchestral Composition, to hear the outstanding works of local composers, played with skill and solicitude for the composer's intent, by the Philharmonic Orchestra.

**April Choice**  
First choice for April was a suite in four movements, "Les Etolies," by Robert Crawford, already famous writer of the Army Air Corps song, and undeniably one of the most promising of young American composers.

"Le Soir," first movement of "Les Etolies," is lyrically descriptive of the calm of evening, opening with a plaintive oboe theme, charmingly played by Charlotte Amlund, and introducing a cello passage played with emotional depth by Walter Grossman.

Best Liked  
"La Grande Ours," the second movement, and "La Petite Ours," the third movement, were the best liked by the general public, the former being a dance rhythm in the whole tone scale, and the latter being in the mood of the "Moonlight Sonata," melodious and beautiful.

"La Fete de Nuit," the last movement seemed to convey the feeling, as did the first movement, of the atmosphere of the spheres, with lovely harmonies and gentle nuances. The entire suite was well orchestrated and conducted by its composer, who directed the orchestra with dynamic energy. Those who feared "Les Etolies" might be too modern in harmony, for enjoyment on first hearing, were happy to find the work beautiful and gracious throughout. Mr. Crawford may be counted on to turn out a symphony of forthright musical value and orchestral brilliance in his "Alaskan" composition, scheduled

### No Cupids

Police Are Called When Lovers Meet

Young love made itself too obvious this week in Coral Gables. Gables police, forced to take the arrows out of Cupid's quill, were sorry but . . . duty is duty.

Officers Tuff and Budy called to put out a fire on Avenue Toledo by residents who felt that daylight smooching was going just a bit too far, upon arrival that a young couple was having a necking party. They advised the pair to be more careful about where they did their spunking in the future, and suggested to them that if necessary it be done, (1) off private property; (2) in a less conspicuous place.

for performance in Paris this summer.

**Audience Delighted**  
High point of the other orchestra numbers was Mozart's Serenade for string orchestra, "Eine Kleine Nachtmusik," which was a beautifully interpreted by Washburn, and masterfully played by the orchestra, to the apparent delight of the audience.

The colorful arrangement of the much-loved "Malagena" (from the Andalusian suite by Leonora) and the encore, "Andalusia" with their irresistible Latin rhythms, with their irresistible readings, interestingly colored.

The quiet appeal of MacDowell's "To a Wild Rose," played after the pompous "Il Guarany" by Gomez and followed by the selections from the gay and tuneful score of Herbert's "Mile. Modiste" made an enjoyable opening trio of contrasting numbers.

**Soloist Talented**  
Young Cecilia Demas, scholarship coloratura soprano from the Republic of Columbia, sang "Caro Nome" from Rigoletto, with total beauty, ease and precision. Her voice has a mellow loveliness, unusual in a coloratura. It is hoped this delicate quality will be protected from the hazards of forcing or overworking, which blight the careers of so many operatic aspirants. Her second number

The scene is from "The Beginning Or the End," M-G-M's much-discussed picture, currently showing at the Gables Theater. Brian Donlevy, Robert Walker, Tom Drake, Beverly Tyler, Audrey Totter and Hume Cronyn are others in the impressive cast.**

was "Estrellita" by Ponce, which she sang delightfully, and the third, "The Last Rose of Summer," was also well done.

The program closed with the brilliant zhapsody, "España" by Chabrier, a favorite for many years with all.

Oliver Washburn is proving himself a thorough musician and conductor of real talent and ability, able to inspire the orchestra to its best efforts. We are especially fortunate in having the director and founder of the Philharmonic, and his fine orchestra in the Gables for this concert series.—Ars Longa

**Harold Houtzes Leave**  
Mr. and Mrs. Harold A. Houtz who recently bought the Martha Washington style apartment at 444 Avenue Malaga are leaving soon to spend the summer at their former home in Erie, Pa. While there the Houtzes will dispose of all of their Pennsylvania holdings, and on return in the fall, will increase their holdings in Coral Gables. Members of the Country Club of Coral Gables Mr. Houtz is a bridge expert. He is a member of the Board of Governors of the American Contract Bridge League, and has won many top prizes in bridge meets.

Coral Gables Chapter OES will meet at 8 p.m. Thursday at the chapter rooms, Douglas Estrades, with the new officers: worthy matron Mrs. Violet Dorre and worthy patron, Harley Pittman in charge.

Duly mindful of the precedent set by Chuck during the past months, your reporter will endeavor to carry out the duties of see-all—hear all—tell all.

By HELEN REYNOLDS, SOCIETY EDITOR

Mr. and Mrs. Lyle D. Holcomb are joining the Coral Gables colony of home owners by the purchase of the house at 3009 Alhambra Circle. They will be moving to their new home, one of the larger, older attractive Coral Gables land marks, about June first, "and it will be like coming home" Mrs. Holcomb told your reporter just recently. The Holcombs are members of the Century Club of Coral Gables. Mr. Holcomb a Miami attorney, has been a trustee of the Congregational Church for many years and Mrs. Holcomb as long been a member of the Coral Gables Woman's Club. Residents of the southwest section of Miami, Mrs. Holcomb feels the family are moving to the Gables just at the right time. Don, their son, graduating in June from Miami Senior High school will enter the University of Michigan, next fall, as a pre-med student. Their daughter, Doris, will be completing the sixth grade at Coral Way Elementary, which is as high as the grades go in that school and will enter the Coral Gables Elementary in the fall. Formerly owned by Mr. and Mrs. R. H. Doddridge, the new home will have some alterations and additions made by the Holcombs before they take possession—and Mrs. Holcomb hopes to have her very own slat house for her large collection of orchid plants.

"Honeymoon home" was the way Mr. and Mrs. R. Fulton Webb described their own home, when two sets of brides and grooms came to Coral Gables on their respective wedding trips the past two weeks. The Reverend Thomas Comber officiated. L. P. Trainor, manager of La Posada "toasted" the bride and the 20 guests were placed at a fresh gardenia decked table. Mr. and Mrs. Reynolds plan to reside in Coral Gables.

The Madrigal Singers of the Coral Gables Music Club will give an half hour program over the airways of station WBYA at 11:30 a.m. Tuesday. Rucker, Cecil Vaughn, Mina Meyer, Garland McNutt, Fred W. Mizer, Clyde Higgins, L. P. Perselle, George Pawley, T. W. Holdcraft and H. E. Caldwell.

**CATHOLIC VOWS UNITE THE ROBERT D. HIVELYS**

A double ring ceremony followed by a nuptial mass took place at nine o'clock. The bride was attended by Miss Josephine DeMaso and Gerald A. Burdick Jr., brother of the bride was best man. Flower girl and ring bearer were Vera Nicello and Jimmy DeMaso. Seating the guests were Ralph Magruder and Matthew Davis. Gerald A. Burdick gave his daughter in marriage.

A wedding breakfast followed at the home of Mr. and Mrs. William Cox, uncle and aunt of the bride at 5737 Riviera Drive. Mrs. Burdick wore a white suit and white accessories coverage of sweet peas, for her daughter's marriage.

Out-of-town guests included the bride's two grandmothers Mrs. Annie Burdick of Houston, Texas and Mrs. A. A. Garza of Alabama. ### 'U' STUDYING PLANS FOR FRAT HOUSES

An early decision on the University of Miami's plans for a "fraternity row" is expected to be made on by school officials, Dr. J. F. W. Pierson, vice president of the University, revealed today.

"We had originally hoped to locate the sites for the various fraternity and sorority houses on land situated just adjacent to the main campus," Dr. Pierson stated, "but the high prices of land in that area will probably make it necessary to build them on the main campus."

Tentative plans call for allotting each fraternity wishing to build a site 150 feet by 100 feet. Dr. Pierson pointed out. He said that the main difficulty in selecting the on-campus site for the group of houses is the fact that fraternity row will be approximately one mile long.

The University vice president also stated that some limitation would be placed on the maximum

as well as minimum size of the proposed houses, to prevent extra large houses or inadequate ones being erected.

He said that a definite decision on the fraternity house situation could be expected probably within in the next week.

### City's Future Concerns Planning Board

By JOYCE EDWARDS  
Coral Gables of the future lies in the laps of the seven newly-appointed members of the planning board. These men represent the fields of art, architecture, public utilities, engineering, and real estate, with each aspect being brought into the planning.

A problem which attracted three of the men is the currently growing traffic problem. William D. Fuller, Florida Power & Light Co. points out that two of the key spots which need attention are at Alhambra Circle and Ponce de Leon Blvd., and at the Granada Entrance.

Traffic is Problem  
William H. Merriam, 1022 Avenue Malaga, finds the greatest traffic congestion to be at the

Douglas entrance. "A traffic circle placed here," Merriam said, "would do a lot to relieve this problem. I believe it will be one of the first issues taken up by the board."

A move that would probably relieve congestion, is the suggested transportation center. "I am interested in such a center," said M. B. Garris, 1822 Country Club Prado. "I understand it is to be located in the west of the police station, and include facilities for a bus terminal, taxis, railway express, and any other agencies connected with transportation."

Waterfront Development  
Another interesting suggestion put forth by Garris is for the development of the bayfront prop-

erty, and the opening up of the Coral Gables waterway. "By raising the bridges along the waterway, particularly at Hinkle Road, we will stimulate waterway activity which should result in the eventual building up of the water front property."

"There is enough work here to last us for the next 25 years," Garris said. "I think that if you plan for a long time in advance, then you will get somewhere."

Again in connection with problems growing out of transportation, Garris spoke in favor of paving some of the streets which are in poor condition. "I also think," he continued, "that some sort of financial system should be worked out to care for the off-street parking."

Protect Beauty  
The beauty of the city is of paramount interest to Artist Denman Fink, 760 Avenue Anastasia. "To me," Fink said, "the most outstanding job will be to preserve the things which made Coral Gables internationally famous. Many of these things have been neglected because of finances."

"For instance," Fink said, "one improvement we can make is to take care of the lighting around the fountain. The neon lighting should be replaced by spotlights since the neon fails to show up the intricate design."

"There are many other things to be considered such as the re-designing of street markers, and replanting and repaving of the plazas," Fink continued.

Gives "Mile" Plan  
Fuller spoke for the beautification of Miracle Mile with the possibility of planting trees in a manner similar to that of Lincoln Road. Not to be slighted, Garris spoke for improvements to be made along Coral Way and Ponce de Leon Boulevard.

In the line of street improvement, at the same time, it was suggested that a center parkway might be planned to run from Tamiami Trail to Flagler Street, Garris said that he believed this expanse of road was too wide, barren, and hot looking for a residential area.

"Keeping this town the finest section in America is the overall job of the planning board," said Thornton M. Fischer, 733 Alhambra Circle. In order to do this it is the belief of Fischer that we need to take care of preserving the Gables for people who are earnestly interested in carrying out this ideal and who want to keep it a city on a high level. "We must maintain high standards and not let people bluff us," Fischer concluded.

### He Won't Go Away

"Buckie," the Tappan family's dog at Lockwood, N. Y., just won't go away to the woods and be like other deer. He was found in a nearby field last summer when he was so young he could hardly stand. He likes the Tappans so well he goes after the cows with the children, eats calf feed with their calf, answers Mrs. Tappan's whistle. She's shown giving him a cookie inside the house, where he makes himself at home on occasion.

### Rollo C. Barum Died Wednesday

Rollo C. Barum, 68, died Wednesday night in Kendall Hospital just three weeks following the death of his wife, Mrs. Mabel McGhee Barum. He was an associate of Carl A. Singleton, operator of Carl's Liquor Stores in Coral Gables.

A graduate of the University of Michigan, he was a claim adjuster for 22 years for the Cleveland Street Railway Co., prior to coming to Florida. He made his home in Miami Springs.

He is survived by his mother, who resides in West Palm Beach. The body was released to the King Funeral Home and funeral arrangements are pending his mother's arrival.

Annual concert of the School of Music will be presented at 4:30 in the afternoon of May 25 in the Miami Senior High school auditorium.

Charlie Franklin, student association president, is in charge of arrangements for the all-day picnic scheduled for Tuesday, May 27, at Blue Waters, and he has announced that it will be postponed in the event of rain, until the following day. Thursday, May 29, seniors will participate in a stunt show at 8 p. m. in the north campus theater, according to Margaret Blue, senior class president. A reception and dance, for which Miss May Brunson, counselor for women, is making arrangements, will be given for seniors and their guests Thursday evening from 9 to midnight at the San Sebastian building. Barry Davis' orchestra will play for dancing. Music for Friday's commencement program will be provided by William Sweitzer, organist, and the University chorus, directed by William J. Lee.

Graduates of the School of Education of the University of Miami automatically qualify for the Florida Elementary and Secondary Teachers Certificate.

Song Fest Planned by Fraternal Group

Vocal talent of sororities and fraternities from the University of Miami will be heard tonight at 7:30 at the Coral Gables Elementary School when the annual song fest gets underway.

These organizations have been practicing for several months for this night. The audience will probably see plenty of competition, because the winner will receive a

gold cup for their superior voices, their neatness of dress, and the conductor's ability to lead.
