## MOTION FOR NEW TRIAL REJECTED BY FEDERAL JUDGE: DEFENDANT IS SILENCED

WASHINGTON, March 25. (UP) — Mildred E, Gillars, the Maine showgirl who played "Axis Sally" for Hitler's wartime radio, today was sentenced to 10 to 30 years in prison and fined \$10,000 for treason to her country.

The woman whose sexy voice taunted millions of GI's with promises of death and defeat on the battlefields of Europe shook her head in bewildered anger as Federal Judge Edward M. Curran pronounced sentence.
"I'll never be able to understand..." she protested bitterly.

"I'll never be able to understand..." she protested bitterly.

She attempted to argue her case again, but the judge cut her

the jury had been prejudiced and "inflammatory."

#### Thousands of Red Spies Seen Operating in U. S.

WASHINCTON, March 25. (UP) — House spy hunters said today that Soviet officials in the United Nations, Russian diplomatic offices and trading commissions direct "thousands" of agents who are "selling us down the river."

"In fact, we are the number one target of Russia's spy effort," the House un-American activities committee said in a pamphlet called "Spotlight on Spies."

The pamphlet, based on committee investigations, quoted FBI Director J. Edgar Hoover as saying there are 74,000 Communist party members in this country. Each member, Hoover said, is supplemented by 10 others willing to do the party's work.

"This means that at a time of national crisis, the United States would have nearly 825,000 persons who are either spies, traitors or saboteurs working, against us from within," the committee said

WASHINGTON, March 25. (UP) — The Fair Employment Board today ordered all government agencies to end racial and religious discrimination in Federal employment, and issued instructions for carrying out its policy.

In a directive supplementing President Truman's ban on discrimination in the Federal Civil Service, the board reminded all departments and agencies that "the basic principle of the American creed is equal opportunity."

It instructed all agencies to put this creed into practice immediately for Federal employes.

The Fair Employment Board was set up by Mr. Truman last July. Its job is to review decisions of department heads, prepare rules and coordinate policies. Up to now, it has been issuing only temporary "policy orders."

MILWAUKEE, March 25. (UP) — A mysterious "key wituess" was sought today for questioning about the murder of beautiful Patricia Birmingham, 16-year-old student. Police Capt. "It's a man. I have to find where he is. I think he's outside the city. That's all I can say at present."

Babich was returned here yesterday with his bride. They were found at Minneapolis after a four-day nationwide search. Babich was held at headquarters as a material witness but Kathleen was released on her parents' recognizance. Babich has been charged with contributing to the delinquency of a minor by marrying her.

NEW YORK (UP)—John Golden, pro-"They Knew What They Wanted," thinks it is about time that the drama crit ics came in for some recognition. He wants to give one of them a medal at the end of each season

This medal, he explained, would go to "the critic who has during the season

"the critic who has during the season shown the most interest, regard and affection for the theater as a whole and done most for its benefit as an institution."

Golden blamed the public Golden blamed the public for apathy toward any but those shows that the critics unanimously hail as hits. He said readers shouldn't follow the critics "blindly."

"Let's get it straight," he continued. "The critics of New York are men of the highest possible integrity, every one of them. Their honesty is pure and unsurpassed. They are talented, too. They write very skilfully, very entertainingly. In fact, they have the same problem as a theatrical producer—they've got to be entertaining or lose their public. As a result they are usually writing witticism instead of criticism.

"This may sound as if I were criticizing the critics. I'm not. I am blaming the public for believing the critics. Read them—yes; they're very diverting. But make up your own minds. Ask you friends who may already have seen a show for advice as to whether you ought to go. But don't parrot anybody.

"You know as much about whether you might like a particular play as these critics do. In fact, I think you know your own likes and dislikes better than any two, three or eight critics do."

## OUR TOWN

#### Not So Tough

-By Jim Moore

Down on the Main Campus of the University of Miami a student is pursuing his studies, and Coral Gables detectives and Justice of the Peace O. B. Sutton are determined that he will continue to do so, despite the fact that a Georgia judge has issued a fugitive warrant for him

get him.

While they had him in the local jail, they learned his story. He had been arrested in Georgia and found guilty of steal. ing two hub caps from an automobile. The judge sentenced him to spend thirty days in jail and to pay a \$100 fine on top of that.

judge sentenced him to spend thirty days in jail and to pay a \$100 fine on top of that.

The lad's widowed mother, and the boy himself, wanted him to have a college education and so pleaded with the judge. But the Georgia justice said no. He ruled that after the boy had finished his jail term that he was to work and earn the money to pay the fine.

The youth served out his jail sentence and paid part of the fine, but the urge to go to college was too strong, and with his newlywed wife he struck out for Florida and the University.

When Judge Sutton heard the story, after he had been picked up here, he felt inclined to agree with Lieutenant Bishop that the lad had paid enough penalty for stealing the hub caps. They were convinced that he was conscientiously trying to get an education here.

Dixie tells me that Judge Sutton has written the Georgia judge, telling him that he will have to produce extradition papers, signed by Goyernor Fuller Warren, before the boy will be turned over to the authorities there. Furthermore, Obie has written to Georgia, plus a full explanation.

Maybe that isn't following the law to the letter, but it does show that the guys that we think of as "hard-bitten cops" aren't quite so tough when you can get a peek inside of them.

terprising promoters get their hands on it.

In another four years it may be too late for the municipalities to gain conrol over the bay bottom lands within their boundaries, as another set of trustees may not feel as the present trustees do about municipal control of such valuable properties.

The Miami city commissioners apparently realize this, for they have accepted the deeds to recent acquisitions, although at first members of the commission were talking of having the trustee make certain changes in the deeds.

The Miami commissioners at first wanted the word "lease" stricken from the deeds which prohibited the city from selling, renting or leasing the bay bottoms. The deeds provide that the lands acquired from the state should be held by the municipality for municipal purposes only.

After reviewing the matter the Miami commissioners came to the conclusion that they had better let well enough alone.

Both Coral Gables and Miami Beach should protect their bayfronts and seek to acquire as much bay bottom from the trustees of the II board as possible. The land may never be needed by the municipality, but it would safeguard the community and prevent promoters from erecting islands and screening the mainland from the bay.

The municipalities, too, would have the

bay bottom in their possession to be used as right of way should it be desired to construct more causeways across the bay to the outer islands.

The move to saddle the county commis-sion with the responsibility of water supply and sewer facilities has spread from the Miami city commission to the county health

The matter was first suggester by the Miami city commission in a proposal to have the county, by an act of the state legislature, weld the county commission into a county water authority, taking over the functions of the Miami water board which furnishes water, not only to Miami, but to Coral Gables, Miami Beach and other communities. The joker hidden in the deck is that the Miami water board also has jurisdiction over sewers and should its cloak fall on the shoulders of the county commission, the commission might find itself faced with the problem of furnishing sewers or sewage disposal plants.

Latest to advocate the county commission going into the sewer business is the county health unit which has prepared a bill to be presented to the next legislature. It is one of five bills proposed by the health unit.

At the present time throughout the state, 30 to 40 per cent of our urban nopulation live just outside corporate areas where there are no political subdivisions to provide sanitary utilities."

In view of the foregoing, it seems that the matter of consolidation is far from dead, but that there is an attempt being made to force it on the county piecemeal.

The musicians call bop "happy" music and claim it as the only "pure" form of jazz. The term 'bop' pertains to the technique of playing half-notes, sliding over notes, or when a musician "flats" a note. It takes a keen ear to detect the "bop."

"As for the complete arrangement," Watkins says, "the players skirt the melody and improvise a great deal. Only the very finest musicians can master bop."

## Be-bop Here to Stay, Apparently, Moving Into Largest Night Club

By JOHN ROSENBERG

NEW YORK (UP)—Be-bop, the greatest departure from conventional music since the advent of Dixieland Jazz, moves into the city's largest night club this April, a year after it was introduced to Broadway and tabbed a ridiculous fad.

The club, formerly the Zanzibar and Har-em, has been renamed Bop City. A theater-night club seating arrangement accommo-dates 1,000.

Luck's Where You Find It
SAGINAW, Mich. (UP)—Deputy Sheriff Frank Zednick's ice fishing party was having no luck on Saginaw Bay.
Zednick took his five-gallon can and moved to a new place near a stretch of open water left by high winds. Hundreds of perch clustered at the edge of the ice. With the can, Zednick scooped up a full catch for the whole party.
