Totals	\$27,786,239	\$236,076,316	\$984,179,166	\$1,248,041,721

The Capital Budget for FY 2016 (net of Reserves and Transfers) has increased \$18.7 million, or approximately 1.52%. The Five Year Capital Improvement Program for FY 2016-2020, as summarized on pages 16 through 19, totals \$1.2 billion as compared to \$1.1 billion last year (FY 2015 – 2019), an increase of \$139 million or 13%.

Projects for Water Utilities and Facilities Development & Operations (FD&O) are the most significant contributing factor for the increase in the Capital Budget.

Official Electronic Letterhead

Water Utilities is transitioning from a growth utility to a sustainable utility, so the focus of the Department's CIP has shifted from expansion projects to system-wide repair and replacement. Projects such as the Telemetry Information Management System Improvements (\$9.2 million), Wastewater Collection System Extension (\$16 million), Western Region Wastewater Treatment Plant Improvements (\$22.7 million), and improvements to water treatment plants (\$55.2 million) account for most of the \$119 million increase in the CIP.

FD&O's projects increased by \$40 million mainly due to the addition of the Sheriff's Office Main Detention Center Repurposing (\$40.0 million). This project is projected to use non Ad Valorem funding.

The FY 2020 Five Year Road Program projections (with the exception of annual allocations) are not included in this Capital Improvement Program. The Five Year Road Program update was adopted June 23, 2015 and includes projections for FY 2016 – 2020.

FY 2016 is the base year for projecting funding requirements for the Five Year Capital Improvement Element of the Comprehensive Plan. Administration, the Planning Division, and the Office of Financial Management and Budget (OFMB) will be reviewing and revising the levels of service as previously adopted in the Comprehensive Plan. The Five Year Capital Improvement Program for FY 2016 – 2020 is the basis for determining if an amendment to the Capital Improvements Element of the Comprehensive Plan is necessary. Each Department will evaluate their levels of service based on their five year projections for operating and capital expenditures.

Capital Projects

The \$1.25 billion FY 2016 Capital Budget consists of \$263.86 million in new revenue for projects and anticipated carryovers of \$984.18 million. The major components of the new sources of funding are as follows:

Sources of New Funding for Capital Projects
\$263,862,555

Five Year Road Program

The Five Year Road Program budget for FY 2016 is \$407.97 million, which includes funds carried forward from the prior year (\$362.8 million, 88.9%), local option gas tax (\$6.5 million, 1.6%), impact fees (\$16.8 million, 4.1%), as well as federal/state grants, state shared revenues, and interest (\$22 million, 5.4%).

PALM BEACH COUNTY CAPITAL IMPROVEMENT PROGRAM

Palm Beach County (the County) provides the needed and desired urban services to the public. In order to provide these services, the County must furnish and maintain capital facilities and equipment, such as the airports, roads, and parks. The Capital Improvement Program (CIP) is an estimated schedule of funding necessary to acquire or construct these needed improvements over the next five-year period with the initial year reflecting the approved budget for FY 2016.

The CIP, Fiscal Years 2016 - 2020, is the vehicle by which the County plans for the provision of capital facilities and projects. The CIP outlines the budget plans for facilities to support the levels of service (LOS) as defined in the Comprehensive Plan. It also outlines new funding, including capital reserves, available for new capital projects and projects that were previously approved by the Board but not yet completed.

COMPREHENSIVE PLAN

Palm Beach County adopted a Comprehensive Plan (the Plan) in 1989, which provided the framework for land use changes within the unincorporated area, as well as mechanisms and standards through which changes could occur. The basic concept of the Plan was to permit the development at urban densities in those areas where urban services could be provided efficiently and economically, and to prevent urban density development in areas which were not planned for the extension of urban services.

In 1991, the County revised the Plan as required by the Local Government Comprehensive Planning and Land Development Act, Chapter 163 Florida Statutes (Growth Management Act). The Plan was further amended in 1999 with the adoption of the Managed Growth Tier System for the Land Use Element.

House Bill 7207, the Community Planning Act, was signed by the Governor on June 2, 2011, amending multiple sections of the Florida Statutes Chapter 163. This legislation changes the name of the 'Local Government Comprehensive Planning and Land Development Regulation Act' to the 'Community Planning Act'; revises and provides intent and purpose of the act; revises definitions, revising the scope of the act; revises and provides duties of local governments and municipalities relating to comprehensive plans; deletes retroactive effect; encourages local governments to apply for certain innovative planning tools; and authorizes state land planning agency and other appropriate state and regional agencies to use direct and indirect technical assistance, etc.

The County's Plan is based on an overall goal of maintaining a high quality of life in the County. The Managed Growth Tier System recognizes the diverse communities within the County that share common characteristics. Each of these communities requires specific policies to create and maintain quality livable communities and lifestyle choices for current residents, future generations, and visitors. The mechanisms and means for attaining this goal have been incorporated into the elements of the Plan. The Plan contains, but is not limited to, the following fourteen (14) Elements:

**PALM BEACH COUNTY
CAPITAL IMPROVEMENT PROGRAM**

Required Elements:

1. Future Land Use Element **FLUE**
2. Transportation Element **TE**
3. Housing Element **HE**
4. Utility Element **UE**
Includes infrastructure for Sanitary Sewer, Potable Water, Solid and Hazardous Waste, and Drainage.
5. Recreation and Open Space Element **ROSE**
6. Conservation Element **CE**
includes Aquifer Recharge

7. Coastal Management Element **CME**
8. Intergovernmental Coordination Element **IGCE**
9. Capital Improvement Element **CIE**

Optional Elements:

10. Health & Human Services Elem **HHSE**
11. Public School Facilities Element **PSFE**
12. Fire Rescue Element **FRE**
13. Library Services Element **LSE**
14. Historic Preservation Element **HPE**

The Community Planning Act requires the County to establish levels of service standards for facilities, which are to be included in the individual elements of the Plan. The Capital Improvement Element (CIE) of the Plan contains the policies that address the minimum levels of service (LOS) for each element. The CIE demonstrates the funding required to provide public facilities needed to serve developments for which development orders were issued prior to adoption of the Plan and the funding required to be issued concurrent with the impacts of future development.

The CIE evaluates the need for public facilities as identified in the individual elements, estimates the cost of improvements, analyzes the fiscal capability of the County to finance and construct the improvements, and provides a schedule for the funding and construction of the improvements. The CIE implements the provisions of the Plan primarily by:

- ▶ Establishing a system of examining and assigning priorities to the needs of the County, thereby assuring that the most essential improvements are provided first;
- ▶ Coordinating the timing and location of capital improvements among County agencies to maximize the benefit of public expenditures;
- ▶ Coordinating financial planning, allowing maximum benefit from available public funds;
- ▶ Providing cost information on a timely basis for the evaluation and formulation of alternative financing programs; and
- ▶ Providing for an equitable distribution of public improvements throughout the County.

The CIE includes new capital projects and new programs which support the minimum LOS in the other elements. Projected revenues were compared to the projected funding requirements to demonstrate the fiscal feasibility of the Plan. Each year the CIE will be updated through the budget process. If the budget adopted by the Board each year supports the LOS called for in the Plan, the Plan will be updated accordingly. At any time the Board adopts a budget which does not support the LOS in the Plan, an amendment to the Plan must be prepared by the County.

**PALM BEACH COUNTY
CAPITAL IMPROVEMENT PROGRAM**

CAPITAL IMPROVEMENT POLICIES

The County has established the following fiscal policies regarding the CIP to facilitate management actions on financial decisions and to demonstrate compliance with applicable Florida Statutes:

Capital Improvement Policies:

1. The County's Comprehensive Plan shall identify the capital needs of the community and outline how those needs will be funded. The County's CIP shall be developed based on the elements of the Comprehensive Plan.
2. The County will develop a Five-Year Capital Improvement Program as part of the annual budget process, and will make all capital improvements in accordance with the adopted Annual County Budget.
3. The County will annually update its long-range financial forecasting system that will include projections of revenues, expenditures and future costs, and financing of capital improvements.
4. The County will identify the cash flow needs of all new projects and determine which financing method best meets the cash flow needs of each project.
5. The costs of operating and maintaining all proposed projects will be identified and incorporated into the five-year financial projection for operations.

Debt Policies:

1. Palm Beach County shall use long-term debt financing only for capital improvements that provide long-term benefits to the community.
2. The County shall ensure long-term debt is soundly financed by:
 - a. Conservatively projecting the revenue sources that will be utilized to pay the debt; and
 - b. Financing the improvement over a period not greater than the useful life of the improvement.
3. The County will regularly analyze total indebtedness including underlying and overlapping debt as part of its analysis of financial conditions.
4. Overall net debt shall be maintained below \$1,200 per capita.
5. Debt service payments, exclusive of general obligation and self-supporting debt, as a percentage of general governmental expenditures shall not exceed five percent.
6. Where practical, the County will issue general obligation bonds instead of non-self supporting revenue bonds.
7. The County will include debt service payments and reserve requirements for all debt currently outstanding and for all proposed debt issues in its annual budgets and long-range forecasts.

PALM BEACH COUNTY CAPITAL IMPROVEMENT PROGRAM

Development of the Capital Improvement Program

Only projects that meet the definition of a capital improvement are included in the CIP. Capital facilities are considered to be any governmental expenditure for the acquisition of land, or the construction, installation, or expansion of facilities, which are expected to be in service over a considerable period of time, usually more than one year. Capital project improvements are relatively large scale, nonrecurring projects that may require multi-year financing. Examples of typical capital improvements are as follows:

- a. Road construction and improvements;
- b. New and expanded physical facilities for the community;
- c. Large scale rehabilitation or replacement of existing facilities;
- d. Purchase of pieces of equipment which have a relatively long period of use;
- e. The cost of engineering or architectural studies and services relative to the improvement; and
- f. The acquisition of land for a community facility such as a park, road, library, airport, etc.

Further, expenditures for renewal and replacement that extend the useful life of an asset beyond one year are included in the CIP. Examples include road resurfacing and roof replacement. Expenditures for maintenance and repairs and recurring expenditures for small capital items are included in the operating budget.

CAPITAL IMPROVEMENT PROGRAM FORMS

Each year, the CIP is prepared from project requests submitted on Capital Improvement Program forms by the various departments and agencies of the County. Each completed form reflects the project description/justification, cost and funding projections, annual operating cost projections (if any), and Comprehensive Plan consistency and compliance. Concurrently, with the preparation of the project requests, information concerning the financial resources available to the County is prepared by the Office of Financial Management and Budget (OFMB).

RESPONSIBILITIES IN PROGRAM PREPARATION AND IMPLEMENTATION

The CIP, by virtue of its comprehensive character, involves the full realm of County operations: Departments, Agencies, and the Board of County Commissioners (BCC) who must coordinate their actions to accomplish a successful program for improving the community.

The Operating Departments play the key role in the initial stages of capital programming. By virtue of their technical knowledge and experience in their individual fields, it becomes the responsibility of the department heads and management to initiate project requests formulated into a program that indicates the need of each project, as well as its relative importance in the department's mission.

PALM BEACH COUNTY CAPITAL IMPROVEMENT PROGRAM

OFMB provides information concerning the County's past, present and future financial resources; and prepares and distributes the package utilizing departments' and agencies' submitted project requests. During the development of the CIP, OFMB assists in the review and evaluation of project requests and guides the administration of the program through its function of budget control and formulating changes in fiscal policies.

The Engineering and Facilities Development & Operations Departments have the following responsibilities in the CIP process:

1. Provide assistance, if needed, in preparation;
2. Receive and review cost projections in the requests;
3. Provide information and assistance to OFMB in the analysis of the County's financial requirements;
4. Prepare and distribute staff's recommendation to the Board with respect to the Five-Year Road Program; and
5. Provide assistance to the County Administrator, County Commission and staff in preparing the BCC adopted CIP.

While Departments, Agencies, and Committees play a very significant role in the CIP process, the ultimate success of the program rests with the BCC. Only the BCC, as elected officials, can authorize the expenditure of public funds by adopting the first year of the CIP as that fiscal year's Capital Budget. Therefore, the final priorities placed on community needs and the subsequent satisfaction of those needs is a matter of legislative decision and control.

The program recommended by the County Administrator is used by the BCC to develop the annual budget that becomes effective October 1st of each year. The first year of the Five-Year CIP is adopted by the BCC as the Capital Budget with the following four years as estimated future funding requirements. The BCC uses the CIP to analyze the County's fiscal capability to finance and construct capital improvements.

Project Priority Rankings

Criteria for establishing the prioritization of capital project proposals are established in the Capital Improvement Element of the Comprehensive Plan in Objective 1.4. The criteria address issues such as what category of service (essential, necessary, or desirable) the project will support. Other criteria included in the objective deal with the physical location of the project identified as Coastal High-Hazard areas or Revitalization and Redevelopment Overlay areas.

PALM BEACH COUNTY CAPITAL IMPROVEMENT PROGRAM

Category of Service the Project Will Support: Following is a list of service categories pursuant to Policy 1.4-b of the Capital Improvement Element:

1. **Essential:** Projects directly related to protecting the immediate health and safety of citizens from an existing or imminent hazard. An example would be a funding request which responds to a danger arising from an imminent bridge failure. Essential services shall be provided throughout the County.
2. **Necessary:** Projects directly related to maintaining the level of service for concurrency items mandated by State law and Fire-Rescue services. Examples include funding requests necessary to meet the minimum level of service standards for concurrency regarding roadway, mass transit, potable water, wastewater, solid waste, storm water protection, recreation/open space, and fire-rescue. Necessary services shall be provided throughout the County.
3. **Desirable:** Projects related to enhancing the desirability of Palm Beach County as a place to live. More specifically, to enhance the quality of life, or maintain physical assets; but not needed to correct imminent health and safety hazards, or to maintain level of service standards. Examples include funding requests for libraries and roadway beautification.

High Hazard Area: Policy 1.4-c restricts use of public funds for infrastructure expansion or improvements in Coastal High-Hazard areas unless such funds are necessary to:

1. Provide services to existing development;
2. Provide adequate evacuation in the event of an emergency;
3. Provide for recreational needs and other appropriate water-dependent uses; and
4. Maintain the urban level of service.

Revitalization/ Redevelopment Overlay: Policy 1.4-f requires that projects designed to correct service and infrastructure deficiencies located within one of the Revitalization and Redevelopment Overlay areas in unincorporated Palm Beach County receive "special consideration" in the establishment of the project priority. Special consideration gives these projects top priority consideration within each category: essential, necessary, and desirable.

RELATIONSHIPS BETWEEN THE OPERATING AND CAPITAL BUDGETS

There are many features that distinguish Palm Beach County's Operating Budget from the Capital Budget. The operating budget includes expenses that are generally of a recurring nature and are appropriated for one year only. It provides for all County services, but does not result in major physical assets for the County. Year-to-year, changes in the operating budget are expected to be fairly stable, and represent incremental changes in the cost of doing business, in the size of the County and in the types and levels of service that are provided. Resources for the operating budget generally come from taxes, user fees, and inter-governmental payments that usually recur from year to year.

PALM BEACH COUNTY CAPITAL IMPROVEMENT PROGRAM

The capital budget, on the other hand, includes one-time costs for projects that may last several years. The projects result in major physical assets for the County. Resources for the capital budget generally come from bond issues, impact fees, grants, and taxes.

In spite of these differences, the operating and the capital budgets are closely linked. The most obvious connection is the fact that the operating budget assumes the cost of maintaining and operating new facilities built under the capital budget.

Operational needs often drive the capital budget. For example, the FY 2016 capital budget includes roads, public buildings, parks, water utilities, and airport projects, which were necessitated by the continued population growth and the County's role in providing these basic services to its citizens.

The following charts and graphs on pages 16 through 19 provide a summary of the FY 2016 to FY 2020 Capital Improvement Program. However, only the FY 2016 budget has been adopted by the BCC.

Capital Improvement Program 2016 - 2020 Sources of Funds By Category

Total 5 Year Revenues \$1,238,011
(\$ in 1,000)

Revenues for the Capital Improvement Program come from several sources of which Ad Valorem Taxes represent only 13.8%. As a matter of policy, non ad valorem sources are used to fund capital projects wherever possible.

Gas Tax - Revenues authorized by Florida Statutes and include local option gas taxes, which the Board has adopted. Gas tax revenues may be used only for road construction and maintenance, bridge maintenance, and transportation system expenditures, including mass transit.

Impact Fees - Revenues levied for growth related projects that are used to fund parks, libraries, public buildings, road construction, fire-rescue, and law enforcement projects required due to population growth in the area where the fees were collected.

Grants - Received largely from Federal and State sources to contribute towards projects for transportation and environmental concerns, such as beach preservation.

Interest & Other - Includes interest earnings on temporary cash investments and contributions from private sources.

Tourist Development Tax - A portion of the bed tax on room rentals which is to be used only for beach preservation.

Loans/Bonds Proceeds - Proceeds from the sale of bonds or other loans from financial institutions.

Enterprise Revenue - Income generated through charges and fees collected to support Enterprise Fund operations.

Note: Provides a Summary of FY 2016 - 2020 CIP. Only current budget year has been legally adopted by the BCC.

Project Title: Belvedere Road at LWDD E-3 Canal		Fund #: 3900					Unit #: TBD		
<p>Description: This project will replace one of two existing bridges that are classified by FDOT as functionally obsolete. The bridges have obsolete hollow core slabs used as bridge deck design type and bridge parapets which do not meet current FDOT design standards. Replacement will improve traffic safety by adjusting deck geometry and roadway alignment and enhance pedestrian safety by adding sidewalks to both sides of roadway, accommodating school zone activity, and access to a County park.</p>

Project Title: Orange Blvd from SPW Rd to Coconut Blvd Drainage Improvement Fund #: 3900 Unit #: TBD									
Description: Orange Blvd from Seminole Pratt Whitney Road to Royal Palm Beach Blvd has no formal drainage system. The County has received complaints from adjacent property owners that Orange Blvd was contributing to the flooding on their properties during major storms. Based on studies of subsections of the roadway, it is estimated that the cost to construct a storm sewer system within a one mile section of roadway is \$1.5M. The entire length of Orange Blvd is estimated at \$6M.

Project Title: Seminole Colony Drainage Improvements Fund #: 3900 Unit #: 0923										
Description: The Seminole Colony Mobile Home Park located north of Okeechobee Blvd and east of Military Trail experienced flooding which initiated a Drainage Study in 1991. The east drainage basin has no outfall and the Road and Bridge Division has had to pump water out of the area to keep the stormwater out of buildings within the area. FPL land was acquired for retention and outfall for this area. The Mobile Home Park is in the west basin. A narrow, County maintained ditch serves as the outfall for the Park and surrounding commercial areas. The project will pipe the ditch for better flow and less maintenance. Both sections of this project have been designed and permitted.

 Capital Project Proposal**

Project Title: Airport Center Renovation Fund #: 3804 Unit #: B558										
Description: The scope of the project includes the renovation of the Airport Center Building #2 located at 160 Australian Avenue (former Engineering Building) and related sitework and parking. Building #2 was delayed from the FY 2008 CIP. A portion of the building will be occupied by the Tourist Development Council upon the termination of their existing lease and the remainder by PBSO (Central Records, Human Resources, Risk Management, and Graphics). The project budget is based on a pro rata share of the costs being borne by Bed Tax, Bond, and Ad Valorem funding. Bond Funding is located in Fund 3076.

Project Title: Radio System North Emergency Management Radio Tower Replace Fund #: TBD Unit #:									
Description: The tower was constructed in the early 1980's when the wind survivability standard was 80 to 90 MPH. Since Hurricane Andrew and the 2005 hurricanes, the wind survivability standard was increased to 140 MPH. The County has lost its ability to expand its wireless requirements, even though measures were implemented (equipment replacement, removing height and/or structural reinforcements) in 2000 for the 800 MHz system, increasing survivability to 110 MPH. The replacement will allow the County to expand its wireless capabilities, accommodate changes in the wireless environment, and to leverage leasing space on the tower to commercial service providers, which are currently turned away due to their inability to place any new antennas on the tower.

Information Systems Services

The Information Systems Services (ISS) Department is responsible for the County's Information Technology (IT) infrastructure which includes a fiber optic network for voice, data and video services, modern computing platforms and hundreds of software applications, all maintained by a highly skilled programming and technical support staff. All departments and agencies in County government utilize some aspect of ISS' resources. In addition, numerous public sector and non-profit agencies have joined with Palm Beach County to share the cost while benefitting from various IT services provided by ISS.

 Capital Project Proposal**

Project Title: Belle Glade Fiber Run		Fund #: 3901		Unit #: I341								
<p>Description: In light of the high cost of voice and data communications services to West County, it is proposed to extend County fiber to the West County Government Center. From that location, connection can be made to the 400 foot School District Tower, which will enable access to several County facilities. The buildout could be accomplished in 90 days and would allow for the cancelation of the SmartRing contract which would save \$1.4 million annually. This project was previously approved and subsequently de-funded when budget was transferred to the Enterprise Data Center Project (FD&O).</p>

Project Title: Core Network Upgrades FY16

Fund #: 3901

Unit #: I328

Description: Information System Services (ISS) data centers' equipment handles trillions of bits of traffic per day and is engineered to be survivable. A single core chassis can cost \$500,000 with an expected performance life span of two years in the core. Optical modules for this equipment cost approximately \$30,000 per interface. This budget is required to purchase the necessary optical modules to increase capacity to support County operations.

 Capital Project Proposal**

Project Title: Enterprise Security/Threat Management FY16

Fund #: 3901

Unit #: I340

Description: The primary need this year is the replacement of firewall clusters with a higher capacity ISP class firewall system. The growth in mail, remote access, internet use, and delivery of services to the public via the internet, applies a constant strain on ISS ability to deliver expected performance levels. Use of media rich devices such as smartphones and tablets also account for increased demand on the network and security infrastructure. This Capital Project request will fund a Countywide initiative to address audit findings, locate security vulnerabilities and protect the County from increasing cyber-security threats. Among the components of this request are provisions and tools for Mobile Device Management, including protection of sensitive and confidential data (HIPAA, Personally Identifiable Information, etc.). Additionally, this project will ensure the protection of privileged identities, monitor for audit compliance, and help prevent data loss.

Project Title: Enterprise Storage Backup Growth and Replacement FY16

Description: Existing capital funding will support replacement of the Data Domain backup storage system and increase disk capacity to accommodate large volumes of backup data. This device was purchased in December 2011 and is no longer covered under manufacturer warranty. The County is now paying \$74,887 for annual support. This budget request is for replacement of the Data Domain Appliance system for GC/Vista. EMC provides incentives to replace out-of-warranty equipment with new hardware with a three-year warranty. This capital budget will also support purchase of additional enterprise backup software storage licenses which is based on the total amount of storage backed up with Symantec Netbackup.

Project Title: Fiber Build-out of Enterprise Network FY16

Fund #: 3901

Unit #: I326

Description: This project will continue the extension of the County's private fiber network to County facilities for maximizing performance and reducing circuit expenses paid to AT&T. The long-term goal is to reduce reliance on AT&T and increase the ability to meet customer requirements. Targeted sites for next year include the I-95 corridor, Southwest County facilities, and West County facilities.

Project Title: Wintel/UNIX Storage Consolidation FY16

Fund #: 3901

Unit #: I331

Description: This capital project request supports three aspects of the Enterprise Storage, replacement of the existing Hitachi USPV array at the EOC, replacement of the Fiber Channel Storage Director at both the EOC and GC data centers, and the purchase of additional storage space to accommodate anticipated growth in file storage on the existing IBM V7000 Unified Storage System. Both the Hitachi USPV storage system and the Storage Directors are in excess of five years. Both are now on extended warranty coverage which has become increasingly expensive each year, resulting in this project being more cost effective to replace these systems.

 Capital Project Proposal**

Project Title: Electrical Grid for The Mounts Botanical Garden of PBC										Fund #: TBD		Unit #:	
Description: There is a need for increased electrical capacity at the Mounts Botanical Garden of Palm Beach County for lighting, water features, irrigation, interactive educational displays, and special events. Adding additional capacity at this time would serve the department well for the next several decades. The current source of electricity is too great a distance to the interior of the garden and will not serve current and future planned needs. Capital funds are requested from ad valorem resources. This improvement will not significantly increase operating costs.

Project Title: Mounts Botanical Garden (MBG) Master Plan

Fund #: 3900

Unit #: AG04

Description: This funding secures the former DMV site as indicated in the Master Plan for the Mounts Botanical Garden of Palm Beach County (MBG of PBC). It also allows for the start of Phase II, including demolition of the building and pavement, grading, fencing, irrigation, boundary planning and sod. Further progress on the Master Plan will include the construction of perimeter screening, changes to the parking area, concrete walls, loading area and relocation of median cut to Golf Road. Funding also modifies irrigation, develops a Children's Garden, and adds a forested littoral area with small scale design and seating. Also included in this project is the final phase of the underground utility grid, lighting and architectural design for a Visitor's Center in the northeast section of the MBG of PBC. Other sources of funding are from Friends of the MBG of PBC. This project benefits the public and visitors to Palm Beach County by providing horticultural science education.

 Capital Project Proposal**

Project Title: Renovation of Mounts Building Fund #: TBD Unit #:									
Description: The auditorium of the Mounts Building is used for approximately 500 public educational meetings and programs a year. Renovation of the auditorium will increase seating capacity and upgrade electrical/data capacity for presentations. The current kitchen space should be reduced and more functionally used for storage. Renovation of auditorium seating would provide larger meeting space for groups and allow for additional storage. The general public, County departments, plant societies, and audiences of the Cooperative Extension Service will all benefit from the renovations. Capital funds are requested from ad valorem resources. This change will not increase operating costs.

Parks & Recreation

The Parks & Recreation Department's function is to develop, manage, and maintain the County's 104 park sites and to provide recreational facilities and programs for County residents. The Recreation & Open Space Element of the Comprehensive Plan established levels of service for acquisition and development of Beach, Regional, District, Community, and Neighborhood Parks. Capital projects are funded from several sources including Park Impact Fees, Grants, General Fund and Bonds. These sources provide financing to expand the parks system to meet service level demands, as well as for renewal and replacement of older facilities.

FISCAL YEARS 2016 – 2020 CAPITAL IMPROVEMENT PROGRAM

County Library

The County Library Department is responsible for the operation of the Palm Beach County Library System. Ad valorem taxes levied within the Library District, which includes the unincorporated area of the County and 23 municipalities, provide the primary source of funding for the Library's Operating Budget. Capital facilities include the Main Library/Headquarters, the Bookmobile, the Annex Facility and sixteen branches. Impact Fees have provided revenue to expand some existing branches in an effort to maintain the square feet per capita as proposed in the Library's Element of the Comprehensive Plan. However, that source of funding has proven insufficient to meet service level requirements of a growing population. Consequently, a bond referendum was placed before voters in November 2002. Approved by the voters, bond financing provided the primary source of funding to expand the system so that service levels meet demand. All 18 projects included in the Library Expansion Program II were completed by the end of FY 2015, adding 182,768 sq. ft. or 76% more space to the County Library system. The new challenge in FY 2016 is to maintain these buildings without a Library Expansion Program.

FISCAL YEARS 2016 – 2020 CAPITAL IMPROVEMENT PROGRAM

Fire Rescue

The Palm Beach County Fire-Rescue Department was created by State law in 1984 to provide fire and emergency medical services to portions of the unincorporated and select municipal areas of the County. The department is funded primarily by ad valorem taxes levied within the Municipal Service Taxing District.

The Fire-Rescue Element of the Comprehensive Plan established levels of service for emergency and non-emergency response times. Standards for facilities, equipment, and staffing were set forth to support the response time levels of service. By direction of the Board of County Commissioners and citizen's committees, the emergency response time level of service is one of the criteria by which new development is reviewed to determine concurrency (adequate infrastructure is in place). If a development is judged not to be concurrent, it may not go forward until the required infrastructure is in place or budgeted.

FISCAL YEARS 2016 – 2020 CAPITAL IMPROVEMENT PROGRAM

Five Year Road Program

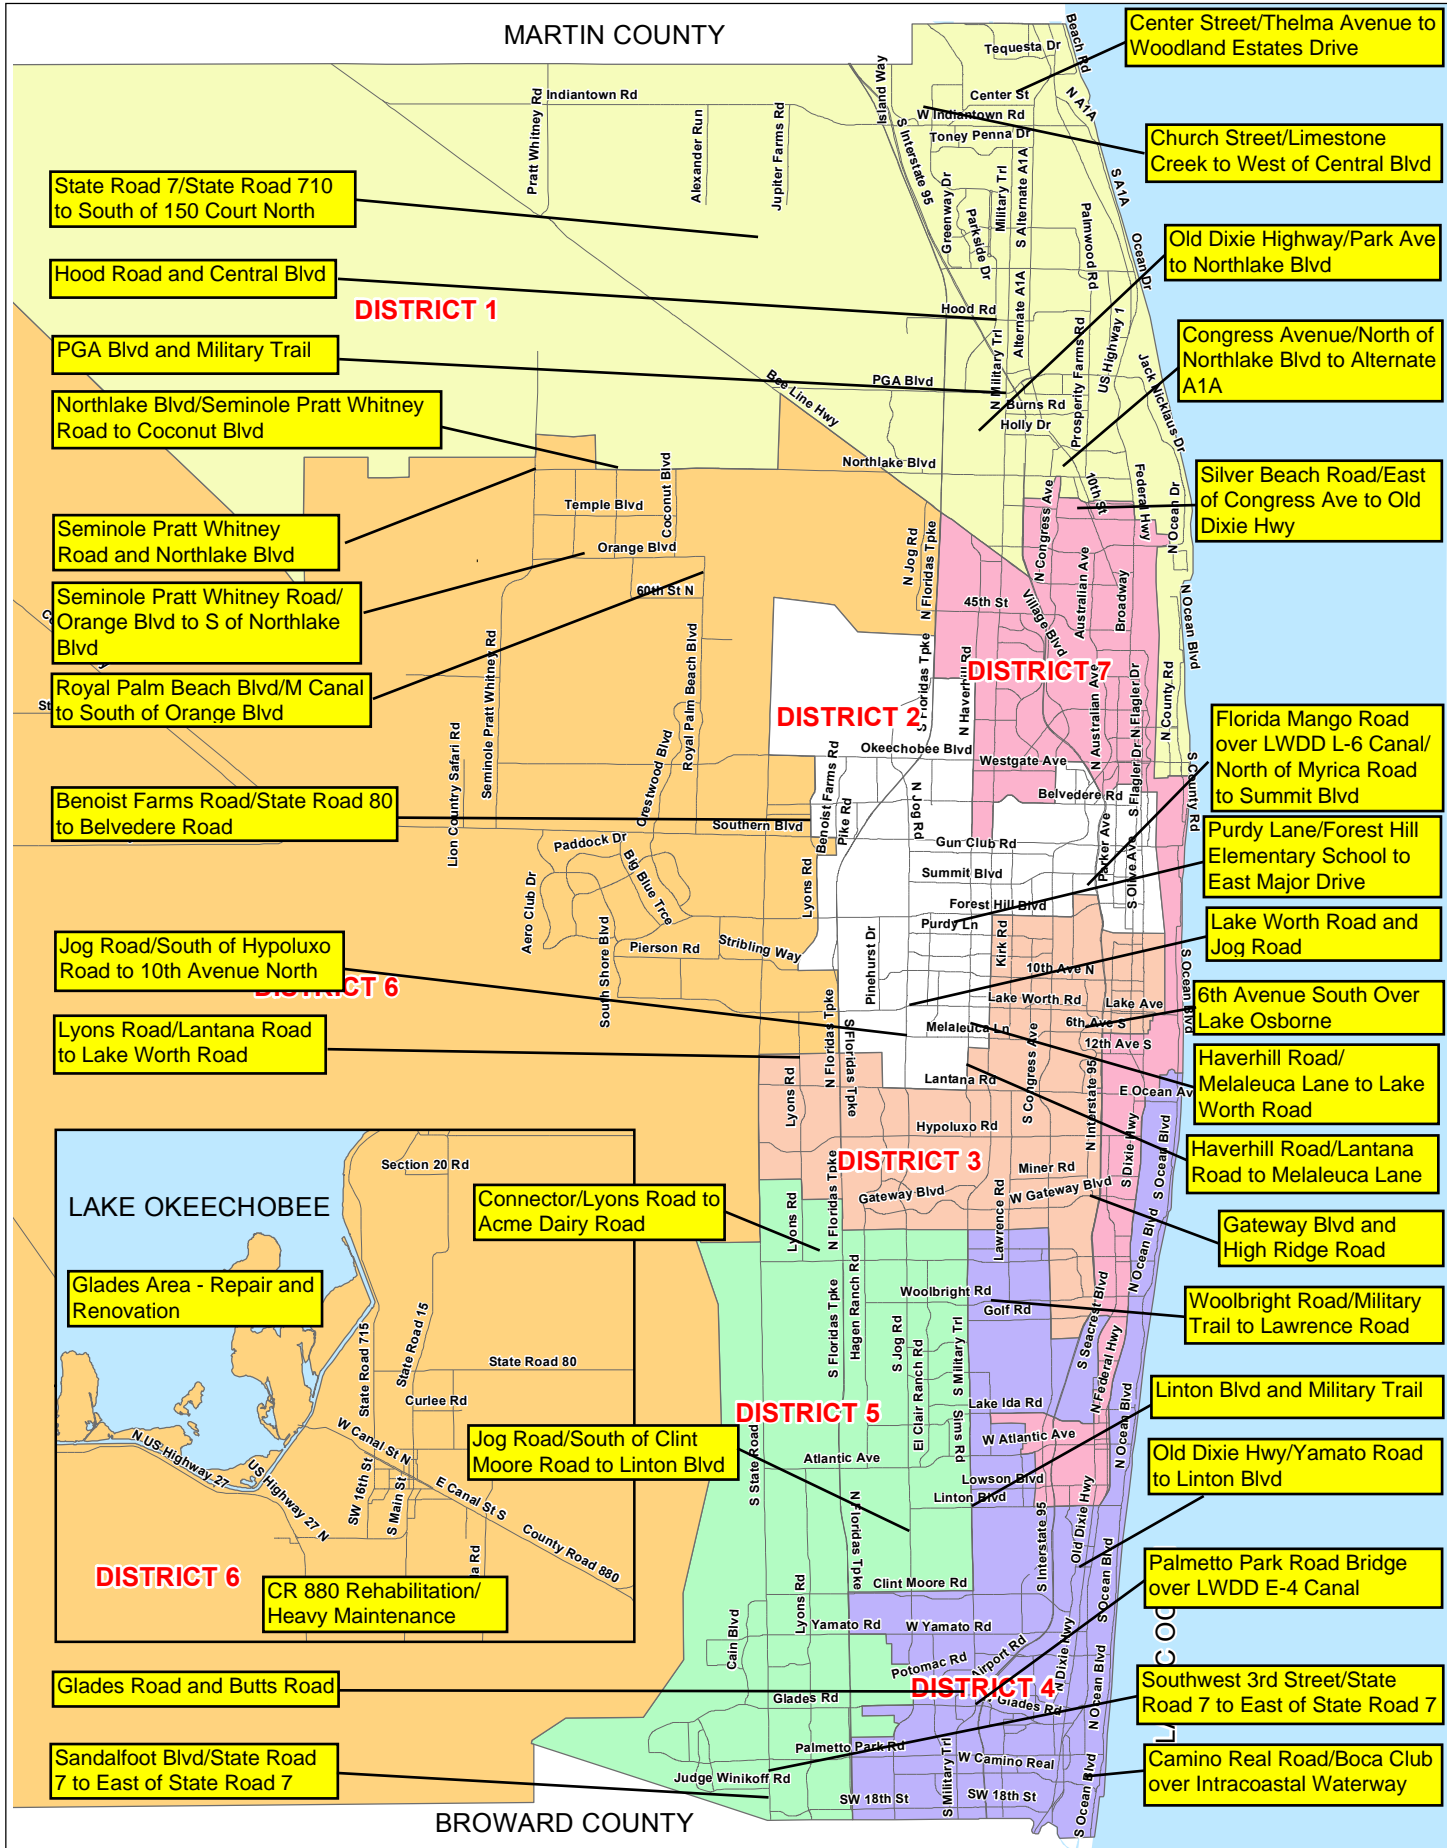

The Engineering and Public Works Department oversees all County roadway construction projects and provides technical engineering assistance to all other County departments. The Department's major capital project is the Five Year Road Program.

The Traffic Circulation Element of the Comprehensive Plan established Level of Service (LOS) "D" as the standard to be achieved and maintained on the County's major roadway network. The County has adopted a Traffic Performance Standard (TPS) to implement this concurrency requirement. The TPS provides that new proposed development may not place more than one percent of the LOS "D" capacity on a roadway.

The major revenue sources for the Five Year Road Program are: interest, gasoline taxes, and road impact fees. Gasoline taxes dedicated to the Road Program are comprised of fifty percent of a 5-cent tax (F.S. 336.025), adopted in 1993. The 5-cent taxes are also shared with local municipalities. Fair Share Road Impact Fees were authorized by County Ordinance 85-40 in July 1979.

FISCAL YEARS 2016 – 2020 CAPITAL IMPROVEMENT PROGRAM

Water Utilities Department

The Department's capital improvement program outlines the expenditures necessary to ensure current and future improvements to the system are satisfied. As the Department continues to refine its asset management program, better understanding is gained on the useful life of the Department's facilities and infrastructure. This allows for the most efficient and effective use of public monies.

Project Title: Western Region Customer Service and Operations Buildings

Fund #: 4011

Unit #: W037 6502

Description: This project involves the design and construction of a customer service, operations, and maintenance complex. The project is necessary to provide the required infrastructure to provide potable water and sanitary sewer service to the residents of Belle Glade, South Bay, and Pahokee. The complex will be similar to the existing facilities in other regions of the department's service area. The additional funding is necessary due to the acceleration of the building schedule resulting in all phases of construction being completed simultaneously rather than spread over a number of years.

Project Title: System Wide Wellfield Rehabilitation and Replacement Fund#: 4011 Units: W004 6541 Description: This ongoing project involves the rehabilitation and replacement of existing wells and the construction of new production wells at the department's water treatment plants. The project is necessary to increase the amount of raw water available to be used in the production of potable water, replace existing wells that have reached the end of their useful lives, and to provide rotational capacity.	Fiscal Year	Amount
	2016	3,380,000
	2017	4,289,000
	2018	4,313,000
	2019	1,236,000
	2020	1,000,000
	Total	14,218,000
Project Title: Telemetry Information Management System Improvements Fund#: 4011 Units: W014 6502 Description: This project includes the design and construction of Smart Meter Transmission Stations which will allow the implementation of smart meters, Supervisory Control and Data Acquisition systems towers and improvements, and installation of telemetry at various lift stations. The installation of telemetry at various lift stations allow for the stations to be monitored remotely which provides the ability to respond to power outages and sewer spills more rapidly.	Fiscal Year	Amount
	2016	3,542,000
	2017	2,598,000
	2018	3,659,000
	2019	2,734,000
	2020	569,000
	Total	13,102,000
Project Title: Utility Line Relocations - County Road Projects Fund#: 4011 Units: W007 6543 Description: This ongoing project will modify, relocate, and replace water mains and facilities that conflict with road construction. The budget for this project was prepared in conjunction with projects included in the County's Five-Year Road Plan. Funding is being decreased to coincide with reductions in the County's Road Plan.	Fiscal Year	Amount
	2016	340,000
	2017	725,000
	2018	500,000

	2020	500,000
	Total	2,565,000
Project Title: Wastewater Collection System Extension Fund#: 4011 Units: W019 6547 Description: This ongoing project involves the extension of wastewater force mains to areas which currently do not have sanitary sewer service available. Design and construction of a bypass force main to the East Central Region Wastewater Treatment Facility is included. This is a critical project to prevent catastrophic failure of the existing force main which is fifty years old.	Fiscal Year	Amount
	2016	3,000,000
	2017	4,880,000
	2018	14,453,000

Project Title: Wastewater Collection System Lift Station Rehabilitation Fund#: 4011 Units: W031 6547 Description: An Asset Management Program provides a systematic method of minimizing the life cycle costs of utility assets while meeting desired service levels and controlling risk in the most efficient manner. This part of the program prioritizes sewer lift stations based on failure risk. Lift stations are in need of various improvements throughout the system due to aging infrastructure and the need for electrical, pump, and control upgrades.	Fiscal Year	Amount
	2016	5,076,000
	2017	8,190,000
	2018	8,757,000

	2020	9,005,000
	Total	41,114,000
Project Title: Wastewater Collection System Pipe Rehabilitation Fund#: 4011 Units: W031 6547 Description: An Asset Management Program provides a systematic method of minimizing the life cycle costs of utility assets while meeting desired service levels and controlling risk in the most efficient manner. This part of the program prioritizes wastewater collection system piping based on failure risk and costs of repairing verses replacing the pipes. These projects will increase system capacity, improve hydraulic efficiency, and boost pressure in the system.	Fiscal Year	Amount
	2016	6,756,000
	2017	7,774,000
	2018	10,911,000

	Total	49,337,000
Project Title: Water Distribution System Pipe Renewal and Replacement Fund#: 4011 Units: W031 6543 Description: This project involves the renewal and replacement of water distribution piping with the department's service area. Pipes which have reached the end of their useful lives, those that experience significant breaks, and those made of substandard material will receive the highest priority. The project will reduce water loss, increase hydraulic efficiency, eliminate dead ends, boost system pressure, and decrease water retention time.	Fiscal Year	Amount
	2016	3,500,000
	2017	8,322,000
	2018	8,859,000
	2019	8,505,000
	2020	8,274,000
	Total	37,460,000
Project Title: Water Treatment Plant #11 Improvements Fund#: 4011 Units: W026 6541 Description: This project includes improvements to the Water Treatment Plant #11 to enhance operational efficiency, correct deficiencies with the existing treatment process, and comply with regulatory requirements. Projects include a degassifier cleaning station, an additional five million gallon water storage tank, a new clear well, improvements to remote storage, booster pumping and rechlorination facilities, and other plant and well field improvements as needed.	Fiscal Year	Amount
	2016	4,083,000
	2017	5,630,000
	2018	1,584,000

Project Title: Western Region Wastewater Treatment Plant Improvements Fund#: 4011 Units: W026 6545 Description: The Belle Glade and Pahokee Wastewater Treatment Plants involves renewal and replacement projects. Both the Glades Wastewater Master Plan and Business Case Evaluation Studies conclude that the optimum long term solution for western region wastewater treatment is to convert the Pahokee Plant into a regional pump station and treat the flows at the Belle Glade Plant. This will keep the Pahokee plant operations in compliance for the next five years.	Fiscal Year	Amount

Cover photo: This photograph was taken by Tim Hancock, Fire Plans Examiner for Palm Beach County Fire Rescue. The picture was taken at Wellington Environmental Preserve at the Marjory Stoneman Douglas Everglades Habitat. He was looking for the perfect foreground and he found it ! "It's easy to see much more significance to the composition" said Tim. The boardwalk and the location of the sun were perfect. Tim's obsession for photography keeps him traveling throughout the country. Tim's photograph was 1 of 104 submitted by Palm Beach County employees.
