SECTION I

Basketball

Basketball was started early in the fall by Dr. Paul E. Hartman, Chairman of the Division. Six interested players showed up for the first meeting, but that proved to be the best attendance except for two games that were played towards mid-December.

Practices were limited to the outdoor court during the warm hours of the day which discouraged many of the participants. After continued effort to keep the club intact attendance mandated that the sport be dropped for the current year. However, interest remains high in basketball and it is anticipated that the sport will be given a second chance in 1973.
