SECTION I

Track

A track program headed by Larry Lord, a graduate assistant in the Division, was initiated for those who liked to participate in that particular activity.

The track club was open to men and women, boys and girls. A few outstanding runners became interested in the club and participated in several meets. However, overall interest tended to fade and the anticipated popularity was never realized.

Although there are some outstanding men in the local area, especially at the community colleges, it does not yet seem to be an attractive enough facility at Florida International University to attract this caliber of person. Hopefully in the future emphasis will be placed upon this activity and track will become a major sport.
