

Virginia Key Beach Park Trust - Homeland Defense Bond Report - (11/28/06)

Project Title	Design Firm	Project Description	Costs	Status
Construction Trailer Site-Prep on Virginia Key Beach Park Trust	GE Capital Modular Space	Planning and design for parking lot light fixtures at construction trailer office for Virginia Key Beach Park Trust staff have been completed. The lighting is required by the City of Miami.	\$39,172	Completed
Buoy line installation at Virginia Key Beach Park - Bear's Cut	Challenger Enterprises, Inc.	Planning and design for the installation of a buoy line in Bear's Cut off the shoreline of Virginia Key Beach Park have been completed. The City of Miami attorney's office will draft the necessary city ordinance. The buoy line installation will identify a no motor boat zone and create a safe swimming area off shore.	\$25,000	This is a collaborative project between the Virginia Key Beach Park Trust and the City of Miami. An initial purchase order for Surveying work and legal descriptions has been submitted.
Virginia Key Beach Park Trust Architectural Review Committee - Museum and Cultural Center	Lord Cultural Resources Management & Planning, Inc.	The Virginia Key Beach Park Trust and consultant LORD Cultural Resources are managing the museum and cultural center architectural design team selection process. There are costs associated with the assembly of the architectural review committee.	\$10,000	Completed with alternative funding source.
Bear's Cut Current Testing	University of Miami (RSMAS) and the National Oceanic & Atmospheric Association (NOAA)	NOAA has offered to handle the Bear Cut current testing for the Virginia Key Beach Park Trust. The current testing is necessary to determine current and tidal conditions off the coast of the park site for swimming, ocean depth and safe water activities.	\$12,550	Virginia Key Beach Park Trust Board has taken possession of the undersea monitoring device; final negotiations and instrument testing are being completed with staff at NOAA.
Erosion Control Line (ECL) Survey	Sea Systems Corp.	An Erosion Control Line (ECL) Survey is needed at Virginia Key Beach Park for field surveying and mapping work.	\$7,000	An initial purchase order for Surveying work and drawings has been submitted. A public hearing will be scheduled for the final phase of the ECL process.
		Total:	\$93,722
