

**Virginia Key Beach Park Trust**  
**Mini Train Operator**

This position requires a highly responsible employee performing tasks involving the safe operation of a historic mini train and the transportation of the general public inspection of mini train mechanical devices, operations of mechanical controls, physical inspection and visual inspections and some general customer service.

This position is responsible for visually inspecting the mini train, inspecting the entire railroad line before any daily operation, general cleaning and upkeep of the mini train before and following daily operation.

This position may include supervisory responsibility. The Mini Train Operator may be responsible for the supervision of park attendants, assistants or interns, in loading and unloading passengers on and off of the mini train. The Operator maintains the schedule of mini train operation, ride speed and ride length. Supervisors are available for resolution of more difficult work problems, malfunctions, mechanical problems or railroad malfunctions, but the Operator must work with independence, problem solving and sound judgment.

The Operator inspects the cleanliness and condition of the interior of the mini train after each ride and keeps work area clean.

Employee will perform the duties of the Mini Train Attendant when need and will performs related work and other general park attendant duties as required.
