

Virginia Key Beach Park Trust

Historic Preservation Committee

Talking Points for the June 5, 2006 Board Meeting

- The Historic Preservation committee met May 18, 2006 – 6:15pm.
- The committee discussed the importance of maintaining our state and national representation at future preservation meetings and conferences.
- With the Historic Preservation Committee involvement in future conferences, Trust events, preservation specific marketing and advertising it is important to clearly define the process by which the committee can direct the appropriate Trust staff and resources.
- Included in your board packet is list of proposed events for the Trustees and Events Committee to consider.
- The committee also held discussion regarding the completion of the oral history documentary project. The committee would like staff to initiate a second effort to find additional grant funding to complete the project or pursue other partners and local resources such as WLRN, local film and production colleges, sponsors, Cable-Tap at Miami Dade College and others to get it done.
- Included in your board packet is an oral history update report.
