

Virginia Key Beach Park Trust

Planning & Construction Committee

Talking Points for the January 8, 2007 Board Meeting

- The Planning and Construction committee met December 18, 2006 – 6:58pm.
- The committee discussed construction project updates centering on the status of the Parking Lot and Circulation Road Improvement Project. Heavy construction has begun and the project is currently right on schedule as projected by CW Construction. **(See the current construction timeline in your board packet)**. More specifically, old existing asphalt has been removed from the circulation roads surrounding the parking lot, two existing trees have been relocated, and this week the electrical contractor is will start the necessary work to install electrical conduits for the parking lot lighting.
