Hon. J. M. Carson,
Miami, Fla.

Dear Mr. Carson:

I am writing pursuant to conversation in Mr. Farris' office yesterday.

Having recently purchased and set up a complete multi-graph equipment I am prepared to do all sorts of campaign work, as we can turn out from my shop any sort of literature that can be put on a page. Of course we don't do book work, but letters and circulars, etc., we will write, address, seal, stamp and mail, - taking charge of the whole process from the time the copy is sent to us until we put the completed work in the post office. Or we will do any portion of the work desired.

Prices depend largely upon the size of the job, and we are glad to figure on the maximum of service at the minimum price.

Four candidates here (State and County) have agreed to give us all their work, but we are prepared to take care of all that comes and I hope you can send us something from Miami.

With kind personal regards, I am

Sincerely yours,

Gertrude W. Corbet
