Miami, Fla.

Dear Sir:

I am enclosing notice of the annual meeting of the Florida Drainage Association. Apparently this association is going to be used as an administration apologist. The line up of officers is decidedly interesting. Apparently this meeting will be devoted to showing what wonderful success the present administration has had in furthering drainage work. If there is any way to counteract this, we should be glad to help in the matter.

Very truly yours,

*Ralph A. Horton*
