

March 31st, 1916.

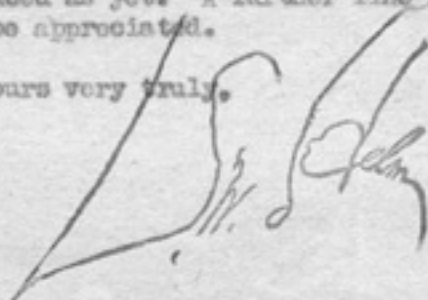

Hon. Ion L. Farris,
Tallahassee, Fla.

My Dear Mr. Farris:-

Supplementing my letter of several days ago, I have received information from Washington to the effect that Congressman Clark introduced a bill about five years ago, referring to drainage in the Everglades, but that no live bill is now pending in Congress.

Perhaps the bill referred to in your article is something that Mr. Clark now has in contemplation, but has not actually introduced as yet. A further line from you on this point will be appreciated.

Yours very truly,

VH/E

Mr. Carson:-

For your information.
