

February 12, 1918.

C.V. Roman, M.D. Editor.

Nashville, Tenn.

Dear Dr. Roman:

Renewing my correspondence with you, relative to a settlement and development proposition for your race, on our A.W. Hopkins or Chevelier tract, I beg to enclose pamphlet-map of this property and wish to say that if you are interested in making a wonderful development and settlement proposition for the negro race, in a favorable section of Florida, along safe, sane and satisfactory lines, I will be pleased to hear from you.

You must realize that we have thousands of winter tourists who come to Miami annually, and desire to donate to or endow large sums of money to your race, but there are no opportunities for them to do so, but if we can make satisfactory arrangements with you we can take advantage of this condition, as well as offering to the negroes of America an opportunity in the way of a settlement and development proposition such as has never been considered before.

Very truly,

JFJ/NH

President.
