Board of County Commissioners

Dade County, Florida

MIAMI, FLA.

April 6th, 1929.

Darling Jimmie,

Your precious telegram of April the fifth received this morning and was so glad to hear from you and Albert. I knew were very busy and had your hands awfully full. Still I realize how much you enjoy all the many difficulties. In fact I believe you get more down right pleasure out of such games than any other man alive, which I guess accounts for your happy sunny disposition. Any way I see by the paper's ("Boston" & "Associated Press") that they (M.C.) are not having all or everything their own way.

Dont know as it would make such an awful lot of difference aftir all should Callie wink or her is hoping not any way. I can now account for his wishing us to be comfortable in "New York" for the past winter.

I said it - funny, Ha! Ha!

Was over to see Mother last night with Mary & Bob. and then carried Mrs. Taylor home. Mr. Taylor had not returned from Tallahassee. Mother was feeling pretty good. Paul was up town. So many of the family away makes her lonesome she says.

Mr. Tompkinson walked in last night from the West Coast and is sunburned like you are from those trips, but looks fine and says he is leaving the time of his life. He goes back Saturday morning. He and Eddie have invited Miss St. Johns & I to go to the show tonight. Wish you were here.
