Dear Majer Gralle:-

Thank you for your letter relative to Government drought relief cattle.

Please advise me just how we are situated with the RFC loan.

When will they want inspection?.

Is there anything I can do to rush this matter?.

I have not had letter from you and the Colonel as to the reduced amounts of loan, equity etc.

Desire to get this loan in as near definite shape/ as possible as quickly as we can.

Crops are in fine condition, just made my first shipment of eggplant, will have tomatoes and peppers next week.

Had a line from Dector Coburn from Rochester Minn. some few days ago.

Let me hear from you.

Personal regards to you, yours, Colonel Lynn and family.

Sincerely yours,

J.F. Jaudon.
