My dear Captain - Sec. Fletcher was in committee until 4:30 P.M. but I presented your letter & he was not sure any thing could be done. He seems to think that the matter should be presented to some state organization handling Federal funds, but asked me to let him have the application to take home tonight & meet him at 10 A.M. Saturday. I was just thinking that it would be well to wire Sec. Trammell to co-operate with Sec. Fletcher at once in the matter. You use your judgment about this - I am just suggesting, for I expect to see Trammell myself. Sec. Dix is assisting wherever I get word of Sen. Wagner he will also. But I prefer Fletcher as it is his State to act as leader. Regards to you & Mr. Gaudon & you can catch me at the above hotel -

In fact any other pressure you care to bring on Sec. Fletcher.
