

# Tamiami Trail Lands

The greatest possibilities for investors in acreage at the present time lies along and adjacent to the Tamiami Trail. During the past few months there has been a steady and continuous increase in values along the entire length of this famous highway. The Trail, within the next few months, will be completed. Acreage values will then go still higher. This always occurs along a prominent highway, especially along such an important one as the Tamiami Trail which links the East and West Coasts of Florida and opening up for agricultural use the finest and most fertile soil in America.

## A RAILROAD TO BE CONSTRUCTED TOWNS WILL SPRING UP

The Possibilities of This New Frontier Are Untold.

J. F. Jaudon is the originator of the Tamiami Trail. For many years he has been interested in its development and completion, which will throw open for use the fertile glade and valuable timber lands to the west. Knowing this section well, he personally selected 20,000 acres of the best high land in Collier County. It lies near Everglades, the seat of the county, the Dixie Lake Railway and adjacent to the Ten Thousand Islands, and it is traversed by the Trail.
