planting and growing of Tomatoes and other vegetable crops, and for commercial sugar cane production, I think you will not need much "suggestion" he is "sold" on the proposition, and his only remark was the similarity of names with Pennsylvania Sugar Co, he spent Saturday afternoon out to their Plantation.

I quite agree with you as to Dr. Robert Ranson and Mr. Leon J. Canova, but it may be that you will need a Representative of Royal Palm Sugar Cane and Planting Company in Harrisburg, and if you so require I may send Mr. Canova up to you, but this of course is in the future, and subject entirely to your desires and request.

Shall have copies of "estimated crops and profits made on our stationary (which I am pleased to note you approve) and forward, so that each salesman can have one for his kit.

Trust you can and will run down to Washington and call on our Senators and Representatives, they will welcome you I am sure.

No doubt before receiving this you will have replied to my enquiry as to Florida sales, Mr. A. R. Livingston and I can and will co-operate fully on this end of the line, I did not fill in terms on the Application enclosed, and know you can and will handle this to our mutual satisfaction.

Plats of Township 59. S. R. 37 East received, will keep same marked up as fast as sales are reported, With very highest regards to you all, I am,

most sincerely yours

J. F. Jaudon.
