My dear Mr. Jaudon:

I am glad to receive your letter, because was a long time I did not know any thing from you. I think it is the best thing you have done, to sow small fruit, because I don't think the sugar will get again in a good price. Here in Cuba there are many plantation of small fruit and all of them are making very good money.

Yes, Mr. Jaudon that is what I think that now with the new President-elect, will be a great, great change not only for the States and Cuba but for the world. Well, Mr. Jaudon I hope soon see you the same as you were here with a big glass of beer.

I would let you know as soon as I have seen or written Mr. Water.

Awaiting for your soon answer, with best regard to your family, I am.

Yours sincerely,

R. Fernandez
