Port Myers, Fla- Nov' 22/33

Capt, J.F. Jaudon
Ochopee, Fla-
Dear Capt'

Mr Cralle has some important letters since he returned and, ITS IMPORTANT. that he get busy and get all Data necessary so he can present same to President at Warm Springs, so quick action can be had.

Cralle wants you to come here and bring all the data you have and especially he wants you to bring the Sugar Expert's report which would be very valuable information for him to have to present to the President and other parties who he has in line to assist in getting this matter in proper shape to present to the proper parties so QUICK action can be had.

Mr Cralle wants to get all data together at the earliest moment and wants you to come and bring every thing necessary and help him work out a plan so we will not find our selves short when the propos ition is presented and have ~~no~~ delay matters, as TIME IS THE ESSENCE OF THIS MATTER, and Cralle is arranging with the Presidents Sectry' for an engagement with him at Warm Springs early next week, so its important all the details be worked out here so as to have it ready for Cralle leave latter part of the week and be in Warm Springs possable monday, as he wants to get the matter before Roosefelt before Thanksgiving, as from paper reports he will likly be covered up with big men on thanksgiven, which will delay our matter, if Cralle cant get it before him early next week.

Cralle has a big Atty' who is in line to help work out all details, so the proper papers can be prepared, which the Government will require- so as to avoid delay. I know as well as you, that there is no local Atty' here who has the necessary experinece to work out the details which will be required and Cralle has decided to have a REAL ATTY' friend in Washington to handle the matter while he is there. So I trust you will realize the importance of coming here and bring all Data necessary and help get the set up worked out in proper form, and besides we want you to know every detail which he will have to submit to Roosefelt and his Atty' So while we regret asking you to come here, but with recent information Cralle has at hand, Make it absolutly important that you come and bring all data and help work out a set up which will be fool proof and make it possable to get quick action, which is absolutly important,

If we put this deal over which I feel is possable, it must be done and brought to a conclusion at the earliest moment possable, as there is no question in my mind, that if we fail to complete the deal before Congress convenes, we stand to lose out on the deal. I trust you will act quickly and write me by return mail when to expect you so every thing can be put in shape so Cralle can be in Warm Springs early the coming week, and I feel he should be there Monday- So you can appreciate the importance of quick action and I will expect you here at the earliest moment possable.

Sincerely Yours Truly

Geo R Lynn
