- 5-----LETTER---from Mr. Leon J. Ganova, former Chief of Bureau of Information, Department of Agriculture, Commerce, and Labor, Republic of Cuba.

Am enclosing an argument relative to LABOR as a suggestion for you in the preparation of your prospectus covering this important item.

In making your representations dont forget to mention that sugar cane tassels here EVERY YEAR, showing that it comes to FULL MATURITY.

Use your judgement in making application for loan; my opinion is that \$750,000.00 total loan, if to be paid in installments \$250,000.00 at time of granting loan, \$250,000.00 six months later, and \$250,000 one year later (or one year from granting loan).

There is nothing more that I can think of which I can supply you with, if however you find anything omitted advise and I will forward.

With personal regards. I am.

Truly yours,

J.F.Jaudon.
