

Mr. Cralle---

The attached letter from Mr. A.R. Molane is important as Mr. Molane is no doubt one of the worlds greatest sugar engineers.

At the time Mr. Molane wrote me this letter he was at Cunagua Central, Cuba, he spent over ten million dollars there for the American Sugar Refining Company.

He is now in Mexico managing one of the largest and best sugar operations in the Republic, he desires very much to come to Florida as it is his opinion after a full and thorough servey of this area that it is the best sugar cane proposition he had ever inspected.

It is his picture on the kodak view I gave you; he looks enough like our late lamented President Theodore Roosevelt as it is possible for two men to favor each other.

Yours,

J.F.Jaudon.
