My Dear Major Cralle:-

Just returned from Miami where I had conferances with Hon. R.V. Waters Industrial Representative City of Miami and also with Industrial Committe Miami Chamber of Commerce.

They are very much in accord with Governmental Agencies financing or subsidising sugar cane producing operations in Southern Florida; they instructed me to advise Senator Trammell and Congressman Peterson that they would later send them proper and fitting resolutions requesting their aid in any way possible to forward these operations.

Mrs. Jaudon and I will be in Fort Myers before noon Monday and will immediately get in touch with you at your residence.

We can depend on the united and urgent support of Miami, Chamber of Commerce of Miami and all interested in supporting our proposition.

With personal regards on which I am joined by Mrs. Jaudon to you and yours, I am,

Sincerely yours,

J.F. Jaudon.
