November 28, 1924

Mr. J. Frank Jaudon,
46 N. E. First Street
Miami, Fla.

Dear Mr. Jaudon:

I have been trying to see you for the past week, since my talk with Commissioners Coachman and Carey, relative to the plan for including the bridges in the Tamiami special district issue. My Bowman party have taken every bit of my time, and although I expected to get in and talk this over with you personally, I am now writing to call to your attention that we are fully expecting that you are definitely arranging to have included in proposed bond issue the draw bridges as suggested and planned for by Mr. Coachman. Wont you talk this over with him thoroughly so we wont be working at cross purposes in this matter?

I have asked Mr. Knight to get you full cooperation through Mr. Goodkind and other men of our force in the matter of signatures and in any other way that would help.

I thoroughly appreciate all the great work that you are doing for the great area west of Miami and I feel that our interests are in many ways identical. If you could find it convenient any morning within the next few days, when you are out driving in the west end, to drop in at my house between 8:00 and 10:00, we could have a private and personal talk about this, and I would very much appreciate your coming.

Very truly yours,

George E Merrick
