

TAMIAMI RAILWAY

Ocean to Gulf

OFFICE OF PRESIDENT
J. F. JAUDON
321 N. W. FOURTH AVE.

MIAMI, FLA. February 27th 1925

Dr. E. C. Lorenz, Director of Statistics,
Interstate Commerce Commission
Washington, D. C.

Dear Sir:-

In re. yours of Feb. 16th---correction 8027--Section B.

We beg to say that in our report for 1924, Circular No. 11 we gave the mileage of our proposed railway as 186.50, stating at the head of this entry that none of this track mileage had been constructed.

We have acquired most of our R/W and hope soon to be in position to apply to the Interstate Commerce Commission for our permit of financing and construction, and our certificate of convenience and necessity.

The correction has ^{been} made on our retained copy of Circular No. 11.

Very respectfully yours

TAMIAMI RAILWAY
