

Dear Captain Jaudon-

I just got through talking to Steffani, Dade County agent, who spoke of you as a valuable source of information about Collier county. On the strength of this I venture to include this extra note with the formal letter from the office, urging you not to confine yourself to the questionnaire data but to let us know anything of interest about the county as a whole or about your ~~neighboring~~ neighboring communities.

The funds allowed us are inadequate for us to make a personal survey and we have to depend on volunteer help. I am sure we all want to have Collier represented as fully as possible. I am going to be responsible for writing and assembling the Collier dope, and Steffani assured me you would co-operate and give me names of other people to contact elsewhere in the county.

If you're over this way look us up,

Regards
